Note 1 - Description of the Plan

The following description of the BluEdge ("Company") 401(k) Plan (the "Plan") has been obtained from the Plan document and provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed two months of service, are 20.5 years of age and are not subject to a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is administered by certain officers of the Company. Merrill Lynch serves as the trustee, manages the Plan's assets and maintains the Plan's records.

Contributions

Participants may elect to contribute up to the maximum contribution limits established by federal law. Amounts contributed are deducted from gross wages for each payroll period and are remitted to the Plan in accordance with the investment options selected by the participants.

The Plan provides for safe harbor provisions described in Internal Revenue Code (IRC) Section 401(k)(12). As such, the Company is required to make contributions under "safe harbor" provisions equal to 3% of all eligible employee wages, whether or not the employee elects to contribute to the Plan. The Company did not make safe harbor contributions for the current and prior plan years.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's safe harbor contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the Plan (Continued)

Vesting

Participants are immediately 100% vested in their contribution and the Company's contribution plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range from 1 to 5 years or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at 1% above the prime rate. Principal and interest are paid through payroll deductions, based on level amortization.

Payment of Benefits

On termination of service, a participant may elect to receive either a rollover of his or her benefit into another qualified plan or IRA, or a lump sum amount equal to the value of his or her account.

Participants who reach the age of 70½ shall have distributions begin no later than April 1st following the later of the end of the year in which the age of 70½ is reached.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Payment of Benefits

Benefits are recorded when paid.

Loans Receivable from Participants

Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant's loan receivable is recorded as a benefit payment based on the terms of the Plan document.

Plan Administrative Expenses

All expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements.

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 10, 2019, the date that the financial statements were available to be issued.

Note 3 - Information Certified by Trustee (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee, Merrill Lynch, has certified that the following data included in the accompanying financial statements and supplemental schedules as of and for the years ended December 31, 2018 and 2017 is complete and accurate.

Total investment (loss) income	$ (243,396)	$ 1,532,621
Interest income on notes receivable from participants	$ 8,032	$ 8,863

Note 4 - Investments

During 2018 and 2017, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by $(937,923) and $941,605, respectively.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

Note 5 - Fair Value Measurements

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds:

Mutual funds are valued at the closing price every business day. The mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts:

Common/collective trusts are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Money market fund:

The money market fund is stated at cost which approximates fair value.

Self-directed brokerage accounts:

Self-directed brokerage accounts include investments in corporate stocks and bonds, mutual funds, U.S. government securities and short-term investment funds, which are valued using quoted market prices.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (Continued)

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2018.

Investments in securities:

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs Level 3
Mutual funds	$ 8,491,099	$ 8,491,099	$ -	$ -
Common/Collective trusts*	1,611,819	-	-	-
Money market fund	7,629	-	7,629	-
Self-directed brokerage accounts	211,378	211,378	-	-
Total assets at fair value	$ 10,321,925	$ 8,702,477	$ 7,629	$ -

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2017.

	Total Fair Value	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs Level 3
Mutual funds	$ 10,482,660	$ 10,482,660	$ -	$ -
Common/Collective trusts*	1,540,515	-	-	-
Self-directed brokerage accounts	54,198	54,198	-	-
Total assets at fair value	$ 12,077,373	$ 10,536,858	$ -	$ -

* Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 5 - Fair Value Measurements (Continued)

Fair Value of Investments in Entities that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2018 and 2017, respectively:

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Federated Capital Preservation Fund (a)	$1,611,819	None	Daily	None

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Federated Capital Preservation Fund (a)	$1,540,515	None	Daily	None

(a) – The Federated Capital Preservation Fund seeks to achieve stability of principal and high current income by investing primarily in stable value products.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 6 - Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Merrill Lynch. Merrill Lynch is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Plan fees for investment management services for the years ended December 31, 2018 and 2017 were $725 and $975, respectively.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Tax Status

The IRS has determined and informed the Company by a letter dated February 1, 2002, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter and received an updated opinion letter dated March 31, 2008. The Company and the plan administrator believe that the Plan, as amended, is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
