Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

BASF Corporation as Plan Administrator of
BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by J.P. Morgan Chase Bank, N.A. and BNY Mellon, N.A., the Trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that J.P. Morgan Chase Bank, N.A. held the Plan's investment assets and executed investment transactions as of December 31, 2018 and 2017 and for the period from August 31, 2017 to December 31, 2018, and that BNY Mellon, N.A. held the Plan's investment assets and executed investment transactions for the period from January 1, 2017 to August 31, 2017. The Plan Administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2018 and 2017, that the information provided to the Plan Administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of the Plan

The following description of BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

BASF Corporation (the Sponsor) administers the Plan through its Pension and Savings Plan Committee (the Plan Administrator) under the authority of the Pension and Benefits Committee of the Sponsor's Board of Directors. Effective as of August 31, 2017, the Plan has an agreement with J.P. Morgan Chase Bank, N.A. (the Trustee) whereby the assets of the Plan are held in the BASF Corporation Master Trust (the Master Trust). Prior to September 1, 2017, BNY Mellon, N.A. was the Plan's trustee. The Master Trust was established by the Sponsor and is administered by the Trustee. The trust fund distributes the benefits to participants in accordance with the provisions of the Plan. The assets of the Plan are managed by the Trustee and several investment managers of the Sponsor.

a) General

The Plan is a defined benefit pension plan providing retirement benefits to the Sponsor's eligible, collectively bargained for, hourly employees at various plant locations of BASF Americas Corporation (the Company), or any of its subsidiaries or affiliates which have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Benefit accruals have ceased for all union and hourly plans.

At the close of business on December 31, 2017, the Pension Plan for Hourly Employees of Louisville, Kentucky Facility merged into the Plan.

b) Sponsor Contributions

The Plan is noncontributory on the part of the employees. The Company contributes such amounts as are necessary to meet or exceed the minimum funding requirements as prescribed by any applicable law. No contributions for 2018 and 2017 were deemed necessary based on the January 1, 2018 and 2017 valuation reports prepared by Willis Towers Watson (the Actuary) and the Sponsor met or exceeded the minimum funding requirements of ERISA.

c) Distributions

Normal retirement is at age 65. The benefit is calculated based upon fixed benefit levels and the participant's years of credited service. Early retirement is available at age 55 with 10 years of vesting service. The early retirement benefit is the normal retirement benefit earned to date of retirement reduced by 5/12 of 1% for each calendar month that the benefit commencement date precedes the normal retirement date.

Notes to Financial Statements

The normal form of retirement benefit payment is a life annuity. However, if an employee is married on the date their benefit payments commence, their retirement benefit is paid in the form of a 50% joint and survivor annuity. There are also several optional forms of retirement benefit payments, all of which are actuarial equivalents to the life annuity. These optional forms of payment include: joint and survivor election of 50% or 100% and, effective January 1, 2008, the participant may also elect 75% and Social Security adjusted annuities. According to the Plan document, under the 100%, 75% or 50% joint and survivor annuity option, the participant designates the beneficiary to receive a continued monthly pension, after his or her death and for the life of the other person, in the selected percentage. The participant's benefit is reduced to reflect payout over two lifetimes, the greater the continuation percentage, the greater the reduction. Further details on these optional payment methods can be found in the Plan document.

The Plan also provides permanent disability benefits and death benefits under certain circumstances.

Participants who are also hourly employees of Louisville, Kentucky Facility are subject to the following distribution terms: Normal retirement is at age 65. The monthly benefit is calculated based on an amount per month, as specified in the Plan for each year of credited service. Early retirement is available at age 55 with 10 years of credited service. If the participant has less than 25 years of credited service, the reduction amount is 3/10 of 1% per month for every month retired prior to attaining age 65. Otherwise, the reduction amount is 3/10 of 1% per month for every month retired prior to attaining age 62.

The normal form of retirement benefit payment is a life annuity. However, if an employee is married on the date their benefit payments commence, his or her retirement benefit is paid in the form of a 50% joint and survivor annuity – unless the member elects not to receive it in this form, and has obtained the spouse's written consent. There are also several optional forms of retirement benefit payments, all of which are actuarial equivalents to the life annuity. These optional forms of payment include: Social Security adjusted, 10-year period certain, Restoration Joint and Survivor Annuity (50% only), and Joint and Survivor Annuity 100%, 75%, 66-2/3%, and 50% contingent annuities. According to the Plan document, under the 100%, 75%, 66-2/3%, and 50% contingent annuity option, the participant designates another person (usually a spouse) to receive a continued monthly pension, after his or her death and for the life of the other person (the contingent annuitant), in the selected percentage. The participant's benefit is reduced to reflect payout over two lifetimes. The greater the continuation percentage, the greater the reduction will be. Further details on these optional payment methods can be found in the Plan document.

Any member whose service is terminated other than by death or retirement and who has completed 5 years of service is eligible to receive a vested retirement allowance commencing at age 65. Total and permanent disability benefits are provided for any qualified participant with 10 years of credited service. The disability pension ceases at age 65, at which time the employee receives the normal retirement pension based on credited service to date of disability. Automatic death benefits are payable to the surviving spouse of an employee who dies in active service and who has completed 5 years of active service. The monthly benefit is equal to 50% of the normal benefit accrued to date of death. Benefit commences immediately if the participant is age 55 or older, or when the participant would have reached 55.

d) Vesting

Benefits become vested after five years of service to the Company.

(2) Summary of Significant Accounting Policies

a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (GAAP).

b) Valuation of Investments

The Plan's investment in the Master Trust has been presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Note 6 Fair Value Measurements" for discussion of fair value measurement.

c) Security Transactions

Purchases and sales of securities are recorded on a trade date basis. Net investment gain (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d) Investment Income

Dividend income is recorded on the ex-dividend date; interest is recorded as earned on the accrual basis.

e) Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

f) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

g) Administrative Costs

All administrative expenses of the Master Trust, such as trustee, custodian and accounting services, are paid by the Master Trust and then allocated to the participating plans.

h) Risk and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

i) Reclassification

Certain amounts in the 2017 financial statements have been reclassified to conform with the 2018 presentation.

j) Subsequent Events

The Plan has evaluated events through October 7, 2019, the date the financial statements were available to be issued.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on the number of credited service years ending on the date the benefit information is presented (the valuation date) and the corresponding monthly benefit amount does include future Plan increases.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The significant actuarial assumptions used in determining the present value of accumulated plan benefits as of December 31, 2017 were as follows:

Discount rate	5.50%
Mortality rate	RP-2014 Mortality Table
Actuarial cost method	Projected Unit Credit Cost Method
Average retirement age	63

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2018. Had the valuations been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated plan benefits, determined by Willis Towers Watson for 2017 is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The status of the estimated actuarially determined present value of the accumulated benefits under the Plan as of December 31, 2017 is:

Vested benefits:	
Participants / beneficiaries currently receiving	\$ 340,192
Other participants	129,031
	<u>469,223</u>
Nonvested benefits	3,160
Total actuarial present value of accumulated plan	<u>\$ 472,383</u>

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2017 were:

Actuarial present value of accumulated plan benefits as of January 1, 2017	461,959
Increase (decrease) attributable to:	
Transfer from Pension Plan for Hourly Employees of Louisville, Kentucky Facility	8,228
Benefits accumulated	—
Decrease in the discount period	26,415
Benefits paid	(32,752)
Assumption changes and plan amendments	8,533
Actuarial present value of accumulated plan benefits as of December 31, 2017	<u>\$ 472,383</u>

(4) Federal Income Tax Status

The Internal Revenue Service has determined and informed the Sponsor by letter dated May 18, 2017 that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the Code. Accordingly, the Plan's financial statements do not include a provision for income taxes.

(5) Interest in the Master Trust

The Plan has an agreement with the Trustees whereby substantially all the assets of the Plan are held in the Master Trust. The assets are maintained in a commingled account by the Trustee and are not separately identified as to ownership. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. Investment income (loss) and

administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. The Plan had a percentage interest in the Master Trust of approximately 17% and 16% as of December 31, 2018 and 2017, respectively.

As of December 31, 2018, the following benefit plans participated in the Master Trust:

Pension Plan for Hourly Employees of Vidalia, Louisiana Facility
BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan
BASF Corporation Salaried Employees' Pension Plan

(6) Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs. |
| Level 2 | Observable prices that are based on inputs not quoted on active markets, but corroborated by market data. |
| Level 3 | Unobservable inputs are used when little or no market data is available which are significant to the fair value measurements. The fair value hierarchy gives the lowest priority to Level 3 inputs. |

In determining fair value, the Master Trust utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as considers counterparty credit risk in its assessment of fair value. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Corporate Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Money Market: Valued at amortized cost, which approximates fair value.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Corporate Debt Instruments: Corporate bond securities traded on national securities exchanges are valued at the last reported sales price on the last business day of the year. Securities traded in the over-the-counter market and listed securities for which no sales were reported on that date are valued at the last reported bid price.

Common/collective Trusts and 103-12 Investments: The Plan's interest in the common/collective trusts and 103-12 investments are valued at the NAV. The NAV, as provided by the Trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Real Estate and Partnerships/Joint Ventures: The Plan's interest in real estate and partnerships/joint venture funds are valued at the NAV. The NAV, as provided by the investment advisor, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Futures Contracts: Valued at the last sale price (or, if there is no sale on the valuation day, bid price) in the market where such contracts are principally traded.

Repurchase Agreements: Short-term agreements to sell and buy back securities in the future which is valued based on the value of the underlying asset.

Swap Agreements: Valued based on the net present value of all estimated future cash flows. Swaps may be valued in terms of bond prices or as a portfolio of forwards contracts.

A&Q Diversified Neutral Alpha Limited - This is the remaining portion not yet returned from a fully redeemed hedge fund. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 1 year.

Amaranth International Limited - A failed hedge fund. Highly levered investments in energy brought the fund down in 2006. BASF requested full redemption of the remaining investment in 2006. Less than 30 thousand remains to be paid to the BASF Pension Trust.

Ashmore Global Special Situations - The fund invests in emerging market private equity. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 1 year.

Cerberus Institutional Real Estate Partners III, L.P. - A real estate limited partnership that invests in commercial real estate. The strategy is to buy properties that need some "value add," such as increasing occupancy, making enhancements to reposition buildings, etc. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 6 years.

EIG Energy Fund XB, L.P. - A fund that provides debt financing to oil, gas and other energy producers with proven reserves. Return on investment is interest on debt as well as royalties, if investments perform well. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 1 year.

EIG Energy Fund XIV-A, L.P. - A fund that provides debt financing to oil, gas and other energy producers with proven reserves. Return on investment is interest on debt as well as royalties, if investments perform well. This investment can never be redeemed. Instead, the nature of the investment is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held, it is estimated that the underlying assets of the fund would be liquidated within 2 years.

Fortress Credit Opps Fund B L.P. - The fund invests in distressed debt - residential and commercial mortgages, commercial debt, etc. This investment can never be redeemed. (8) Party-in-Interest Transactions

Certain Plan investments are shares or units of funds managed by J.P. Morgan Chase Bank, N.A., the Plan's Trustee, as of December 31, 2018 and 2017. Transactions in these funds qualify as permitted party-in-interest transactions. Certain Plan investments were shares or units of funds managed by BNY Mellon, N.A. from January 1, 2017 to August 31, 2017; therefore, these transactions qualified as permitted party-in-interest transactions.

(9) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are

guaranteed at the level in effect on the date of the Plan's termination subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

(10) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of certain line items on the statement of changes in net assets available for benefits per the financial statements for the year ended December 31, 2018 to Form 5500:

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Actuarial value of assets is equal to the market value of assets on the valuation date (including any receivables).
Benefits Not Valued	All benefits described in the summary of plan provisions were valued.

Sources of Data and Other Information

BASF and its third party administrator furnished participant data and claims data as of 1/1/2018. Information on assets, contributions and plan provisions was supplied by BASF. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with BASF, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with BASF, assumptions were made for missing or apparently inconsistent data elements as described in the Data Action Plan provided on July 24, 2018.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by BASF from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in:	
■ Compensation	Not applicable.
■ National average wages (NAW) (e.g., Social Security wage bases)	Consistent with a modest premium for assumed real wage growth in excess of long term price inflation assumption.
■ Increases in statutory limits (CPI)	The assumed CPI is based on a combination of current conditions and future forecasts by economists.
Administrative and investment expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are selected by the plan sponsor from among the options prescribed by IRC §430(h). Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.
Disabled Mortality	Assumptions used for funding purposes are selected by the plan sponsor from among the options prescribed by IRC §430(h).
Termination	Assumption represents an estimate of future experience reflecting considerations including an experience study conducted in 2014.
Disability	The assumption chosen is a table in prevalent use and does not reflect any plan specific experience given the population size and rates of disability are not expected to generate credible experience.
Retirement	Assumptions represent an estimate of future experience reflecting considerations including an experience study conducted in 2014, early retirement subsidies and other plan provisions, and the expected impact of recent benefit accrual freezes.
Benefit commencement date for deferred benefits:	<p>Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement.</p> <p>Assumptions represent an estimate of future experience reflecting considerations including an experience study conducted by Willis Towers Watson for all other plans in 2014.</p>
Form of payment	<p>The assumed form and timing of benefit payments varies by plan and within plans by formula.</p> <p>Assumptions represent an estimate of future experience reflecting considerations including an experience study conducted by Willis Towers Watson for all other plans in 2014.</p>
Percent married	Assumptions, validated by an experience study conducted by Willis Towers Watson in 2014, represent an estimate of future experience.
Spouse age	Assumptions, validated by an experience study conducted by Willis Towers Watson in 2014, represent an estimate of future experience.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by BASF from a range of methods permitted by IRC §430.

Changes in Assumptions, Methods and Estimation Techniques

Change in assumptions since prior valuation - contributions The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
The administrative expense load decreased from 0.65% of the Fair Value of Assets in 2017 to 0.60% of the Fair Value of Assets in 2018 to account for lower expected expenses to be paid from the trust.

Change in methods since prior valuation None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

BASF Corporation as Plan Administrator of
BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of BASF Corporation Consolidated Bargaining Unit Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by J.P. Morgan Chase Bank, N.A. and BNY Mellon, N.A., the Trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that J.P. Morgan Chase Bank, N.A. held the Plan's investment assets and executed investment transactions as of December 31, 2018 and 2017 and for the period from August 31, 2017 to December 31, 2018, and that BNY Mellon, N.A. held the Plan's investment assets and executed investment transactions for the period from January 1, 2017 to August 31, 2017. The Plan Administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2018 and 2017, that the information provided to the Plan Administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Change in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.

Summary of Pension Benefit Levels

If the last day of service is on or before January 28, 2002, the monthly benefit is calculated by multiplying years of Credited Service as of the retirement date by the applicable Monthly Benefit Rate shown in the following table:

Monthly Benefit Rate	Date of Retirement
\$22	01/29/1988 – 01/28/1989
\$24	01/29/1989 – 01/28/1991
\$27	01/29/1991 – 01/28/1993
\$29	01/29/1993 – 01/28/1995
\$30	01/29/1995 – 01/28/1996
\$31	01/29/1996 – 01/28/1997
\$32	01/29/1997 – 01/28/1998
\$36	01/29/1998 – 01/28/2002

Retirements after January 28, 2002 but before January 28, 2006: monthly benefit equals the sum of: years of Credited Service through January 28, 2002 times \$38, plus years of Credited Service from January 29, 2002 forward multiplied by \$42.

Retirements after January 28, 2006: monthly benefit equals the sum of: years of Credited Service through January 28, 2002 times \$41, plus years of Credited Service from January 28, 2002 through the date of termination (or November 30, 2012, if earlier) times \$42.

Pursuant to collective bargaining, BASF prospectively eliminated all benefit accruals after November 30, 2012.

Monthly Preretirement Death Benefit

The monthly benefit is equal to 50% of the benefit which would have been paid to the participant if the participant had terminated employment the day before death, elected to begin receiving benefits at earliest possible retirement age, survived to such date, and elected the joint & 50% survivor option. The benefits to the surviving spouse commence on the first day of the month in which the participant would have attained earliest retirement age.

Monthly Post-retirement Death Benefit

If a Streetsboro worker dies after beginning to receive normal or early retirement benefits, or a disability income allowance, his designated Beneficiary is eligible to receive, effective for retirements on or after April 1, 2001, a \$5,000 (\$4,000 for retirements on or after April 1, 1998 and before April 1, 2001, \$2,000 for retirements prior to April 1, 1998) postretirement death allowance. This is a lump sum payment and is made in addition to any other benefits that may be paid to his Beneficiary.

Early retirement	Normal pension accrued to early retirement date commencing at age 65, or reduced for earlier commencement. If participant has less than 25 years of Benefit Service: Accrued Benefit reduced 3.6% per year prior to age 65. If the participant has 25 or more years of Benefit Service, there is no reduction on or after age 62, and the accrued benefit is reduced 3.6% per year prior to age 62.
Postponed retirement	Monthly Pension Benefit determined as of actual retirement date
Deferred vested termination	Monthly Pension Benefit determined as of termination date but reduced for early retirement benefits if payments begin prior to age 65
Death with preretirement spouse benefits	Monthly Preretirement Spouse Benefit
Disability	Benefit Service to date of disability times the pension multiplier in effect as of the disability date. This benefit ceases at age 65 (or after five years if the disability occurs after age 60), at which time the participant receives the normal retirement pension based on Benefit Service at date of disability.
Forms of payment	Normal forms: Life annuity for single participants; actuarially reduced 50% J&S for married participants Optional forms are also available. Refer to the Assumptions and Methods section for a list of all available forms. See Appendix I for actuarial equivalence basis used to adjust benefit amount for optional forms of payment.
