RCL Wiring 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

General

The following description of RCL Wiring, L.P. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all eligible employees of RCL Wiring, L.P. (the "Company") who have three months of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator is responsible for the oversight of the plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The RCL Wiring, L.P. 401(k) plan merged with the Idaho & Sedalta Transportation Co 401(k) plan (I&S"), effective November 1, 2018, resulting in a \$250,289 transfer in of net assets from I&S.

Contributions

Each year, participants may elect to contribute up to the maximum amount allowed by law of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Company contributes 50% on the first 8% of the participant's compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the discretion of the Company. During the year ended December 31, 2018, the Company did not elect to make a profit sharing contribution to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and investment earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant whose service terminates for reasons other than death, disability, or attainment of normal retirement age is 100% vested after three years of credited service.

RCL Wiring 401(k) Plan

Notes to Financial Statements

Payment of Benefits

Participants are eligible to receive a lump-sum distribution of benefits equal to the participant's deferral balance upon termination of employment, reach the age of 59 ½, or death and of the employer matching balance upon termination of employment, retirement, death, or disability. The Plan also allows participants to make hardship withdrawals, subject to certain limitations, as defined by the Plan.

Forfeitures

If a participant terminates employment prior to becoming fully vested, the forfeited portion of the Company's matching contributions are used to offset employer contributions. At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$4,328 and \$6,181. During 2018, forfeitures used to offset employer contributions totaled \$9,193.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses paid to investment advisors, transfer agents, and others described in each fund prospectus or other published documents are deducted by the investment funds or accounts prior to the allocation of the Plans' investment earnings activity and are therefore included in net appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

RCL Wiring 401(k) Plan

Notes to Financial Statements

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Shares of registered investment companies (mutual funds) are valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at each year end. The fair value of investments in pooled separate accounts is measured by using NAV as the practical expedient to estimate fair value and is determined by the investment manager of the fund based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The fair value of investments in the common collective trust is measured by using NAV as a practical expedient to estimate fair value and is determined by each fund trustee at year end based on the fair value of the underlying securities within that trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the statement of net assets available for plan benefits, the net appreciation in fair value of its investments which consists of realized gains and losses and unrealized appreciation and depreciation on these investments.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Payment of Benefits

Benefit payments to participants are recorded upon distribution from the Plan.

3. Fair Value Measurements

FASB ASC topic *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

RCL Wiring 401(k) Plan

Notes to Financial Statements

The three levels of the fair value hierarchy under ASC topic *Fair Value Measurements and Disclosures* are described below:

Basis of Fair Value Measurement

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	--

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Registered Investment Companies

Investments in registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

RCL Wiring 401(k) Plan

Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Investment Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Investments measured at fair value				
Registered investment companies	\$ 5,466,893	\$ -	\$ -	\$ 5,466,893
Investments measured at net asset value				
Common collective trusts*				351,508
Total investments				\$ 5,818,401

Investment Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Investments measured at fair value				
Registered investment companies	\$ 5,111,209	\$ -	\$ -	\$ 5,111,209
Investments measured at net asset value				
Common collective trusts*				304,913
Total investments				\$ 5,416,122

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for plan benefits.

Fair Value of Measurements in Entities that Use Net Asset Value

The fair value of the common collective trust fund based on NAV per share As of December 31, 2018 and 2017 is \$351,508 and \$304,913, respectively. These investments held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance notice requirement. There are no unfunded commitments.

4. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Reliance Trust Company, the trustee of the Plan.

RCL Wiring 401(k) Plan

Notes to Financial Statements

The Plan administrator instructed the Plan's independent auditors not to perform, and they did not perform, any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. Related Party and Party-In-Interest Transactions

Certain Plan investments are managed by the trustee. Reliance Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments. The Company pays directly any other fees related to the Plan's operations.

7. Tax Status

The underlying standardized prototype Plan has received an opinion letter from the Internal Revenue Service dated July 8, 2014, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(k) of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company, the plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
