The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of The Scott Fetzer Hourly Employee 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible hourly employees of the companies listed in the next paragraph. The Plan covers eligible employees who have completed 60 days of service, as defined, and attained 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Scott Fetzer Company Administrative Committee oversees governance of the Plan. The Scott Fetzer Company Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

An eligible employee must be an hourly employee of the Scott Fetzer Company, Adalet/Scott Fetzer Company Meriam Instrument Division, Adalet/Scott Fetzer Company (Houston, Texas and Cardington, OH locations), SFEG Corp., Stahl/Scott Fetzer Company, Western/Scott Fetzer Company, Carefree/Scott Fetzer Company, Halex/Scott Fetzer Company, Powerex-Iwata Air Technology, Inc. (Mt. Juliet, TN location), United Consumer Financial Services Company and Altaquip LLC (collectively, the Companies). The employee must not be a member of a collective bargaining agreement and may not be a nonresident alien.

Contributions

Each year, participants may contribute from 1 percent to 50 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated target date fund until changed by the participant. The Plan offers a 1 percent auto-escalation option if the participant elects.

An employer match contribution is offered only to those eligible employees of those employers that have chosen to participate as a "matching employer." Eligible employees receive an employer match equal to 50 percent of the first 4 percent of base compensation that a participant contributes to the Plan for most employers with the exception of Adalet/Scott Fetzer Company which is 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan and Altaquip, LLC which is 35 percent of the first 6 percent of base compensation that a participant contributes to the Plan.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Forfeited accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$6,020 and \$17,000 respectively. These accounts are used to reduce administrative expenses or reduce future employer contributions. During 2018 and 2017, employer contributions were reduced by \$66,254 and \$83,140 respectively, from forfeited non-vested accounts. For 2018 and 2017, \$598 and \$13,000, respectively, was used to offset administrative expenses.

Payment of benefits

Upon attaining age 59 ½ or termination of service, whether voluntary or involuntary, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. The Plan provides for automatic rollover provisions. If the participant's account is between \$1,000 and \$5,000, the Plan may make an automatic rollover of the participant's vested interest in his or her account to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the Plan may make an automatic lump sum distribution to the participant equal to the participant's vested interest in his or her account. Distributions of a participant's account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Scott Fetzer Company Investment Committee determines the Plan's

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan unless otherwise paid by the Companies. Expenses that are paid by the Companies are excluded from these financial statements. Investment related expenses are included in net (depreciation) appreciation of fair value of investments.

Transfers In/Out of the Plan

During 2018 and 2017, \$23,959 and \$13,699, respectively, was transferred out of the Plan to a related plan based on changes in certain eligibility criteria of the participants, as defined.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2019, the date the financial statements were available to be issued.

The Plan adopted the Wells Fargo Bank, N.A. Defined Contribution Volume Submitter Plan and Trust plan document which amends and restates the Plan effective January 1, 2019. Wells Fargo Bank, N.A. has obtained an opinion letter dated March 31, 2014 in which the IRS stated that the plan document is in compliance with applicable requirements of the Internal Revenue Code (IRC). In addition, the Plan adopted an after-tax (Roth) deferral provision effective January 1, 2019.

3. Information Certified by the Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator has elected to restrict the scope of the auditor's examination. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, net (depreciation) appreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A., the trustee. Auditing procedures have not been performed on this information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the funds. The mutual funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds are deemed to be actively traded.

Self-directed brokerage accounts (SDB Accounts): Valued at the underlying values of the individual assets held within the brokerage accounts. The brokerage accounts primarily include common stocks which are traded on an active market and valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust fund - stable value fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value (NAV) of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. There are no redemption restrictions upon which the participant may redeem investments in the fund.

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018:			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$10,868,375	\$ -	\$ -	\$10,868,375
Self-directed brokerage accounts	3,823	-	-	3,823

Investments at fair value	<u>\$10,872,198</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$13,850,581</u>

	Assets at Fair Value as of December 31, 2017:			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$11,363,872	\$ -	\$ -	\$11,363,872
Self-directed brokerage accounts	3,556	-	-	3,556
Total investments in the fair value hierarchy	11,367,428	-	-	11,367,428
Collective trust fund measured at net asset value*	-	-	-	3,174,103
Investments at fair value	<u>\$11,367,428</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$14,541,531</u>

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

5. Tax Status

The IRS has determined and informed the Companies by a letter dated March 29, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

7. Party in Interest Transactions

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain Plan investments are managed by Wells Fargo Bank N.A. (Wells Fargo). Wells Fargo is the trustee as defined by the Plan, therefore, these transactions qualify as party in interest transactions.

Wells Fargo provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Companies and Wells Fargo. Wells Fargo receives revenue from mutual fund service providers for services Wells Fargo provides to the funds. This revenue is remitted to the Plan on a periodic basis and is allocated to the accounts of the participants. During 2018 and 2017, such amounts totaled approximately \$18,300 and \$16,800, respectively, and are included in net (depreciation) appreciation of fair value of investments on the accompanying statements of changes in net assets available for benefits.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of The Scott Fetzer Hourly Employee 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible hourly employees of the companies listed in the next paragraph. The Plan covers eligible employees who have completed 60 days of service, as defined, and attained 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Scott Fetzer Company Administrative Committee oversees governance of the Plan. The Scott Fetzer Company Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

An eligible employee must be an hourly employee of the Scott Fetzer Company, Adalet/Scott Fetzer Company Meriam Instrument Division, Adalet/Scott Fetzer Company (Houston, Texas and Cardington, OH locations), SFEG Corp., Stahl/Scott Fetzer Company, Western/Scott Fetzer Company, Carefree/Scott Fetzer Company, Halex/Scott Fetzer Company, Powerex-Iwata Air Technology, Inc. (Mt. Juliet, TN location), United Consumer Financial Services Company and Altaquip LLC (collectively, the Companies). The employee must not be a member of a collective bargaining agreement and may not be a nonresident alien.

Contributions

Each year, participants may contribute from 1 percent to 50 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated target date fund until changed by the participant. The Plan offers a 1 percent auto-escalation option if the participant elects.

An employer match contribution is offered only to those eligible employees of those employers that have chosen to participate as a "matching employer." Eligible employees receive an employer match equal to 50 percent of the first 4 percent of base compensation that a participant contributes to the Plan for most employers with the exception of Adalet/Scott Fetzer Company which is 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan and Altaquip, LLC which is 35 percent of the first 6 percent of base compensation that a participant contributes to the Plan.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Forfeited accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$6,020 and \$17,000 respectively. These accounts are used to reduce administrative expenses or reduce future employer contributions. During 2018 and 2017, employer contributions were reduced by \$66,254 and \$83,140 respectively, from forfeited non-vested accounts. For 2018 and 2017, \$598 and \$13,000, respectively, was used to offset administrative expenses.

Payment of benefits

Upon attaining age 59 ½ or termination of service, whether voluntary or involuntary, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. The Plan provides for automatic rollover provisions. If the participant's account is between \$1,000 and \$5,000, the Plan may make an automatic rollover of the participant's vested interest in his or her account to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the Plan may make an automatic lump sum distribution to the participant equal to the participant's vested interest in his or her account. Distributions of a participant's account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Scott Fetzer Company Investment Committee determines the Plan's

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan unless otherwise paid by the Companies. Expenses that are paid by the Companies are excluded from these financial statements. Investment related expenses are included in net (depreciation) appreciation of fair value of investments.

Transfers In/Out of the Plan

During 2018 and 2017, \$23,959 and \$13,699, respectively, was transferred out of the Plan to a related plan based on changes in certain eligibility criteria of the participants, as defined.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2019, the date the financial statements were available to be issued.

The Plan adopted the Wells Fargo Bank, N.A. Defined Contribution Volume Submitter Plan and Trust plan document which amends and restates the Plan effective January 1, 2019. Wells Fargo Bank, N.A. has obtained an opinion letter dated March 31, 2014 in which the IRS stated that the plan document is in compliance with applicable requirements of the Internal Revenue Code (IRC). In addition, the Plan adopted an after-tax (Roth) deferral provision effective January 1, 2019.

3. Information Certified by the Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator has elected to restrict the scope of the auditor's examination. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, net (depreciation) appreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A., the trustee. Auditing procedures have not been performed on this information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the funds. The mutual funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds are deemed to be actively traded.

Self-directed brokerage accounts (SDB Accounts): Valued at the underlying values of the individual assets held within the brokerage accounts. The brokerage accounts primarily include common stocks which are traded on an active market and valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust fund - stable value fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value (NAV) of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. There are no redemption restrictions upon which the participant may redeem investments in the fund.

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018:			
	Level 1	Level 2	Level 3	Total

Total investments in the fair value hierarchy	11,367,428	-	-	11,367,428

Investments at fair value	<u>\$11,367,428</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$14,541,531</u>

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

5. Tax Status

The IRS has determined and informed the Companies by a letter dated March 29, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the

The Scott Fetzer Hourly Employee 401(k) Plan

Notes to Financial Statements

Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

7. Party in Interest Transactions

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain Plan investments are managed by Wells Fargo Bank N.A. (Wells Fargo). Wells Fargo is the trustee as defined by the Plan, therefore, these transactions qualify as party in interest transactions.

Wells Fargo provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Companies and Wells Fargo. Wells Fargo receives revenue from mutual fund service providers for services Wells Fargo provides to the funds. This revenue is remitted to the Plan on a periodic basis and is allocated to the accounts of the participants. During 2018 and 2017, such amounts totaled approximately \$18,300 and \$16,800, respectively, and are included in net (depreciation) appreciation of fair value of investments on the accompanying statements of changes in net assets available for benefits.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.
