Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Adalet/Scott Fetzer Company (the Company) who have completed 60 days of service, as defined, attained 21 years of age and are members of the IBEW Local No. 1377 Union (the Union). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Scott Fetzer Company Administrative Committee oversees governance of the Plan. The Scott Fetzer Company Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute from 1 percent to 15 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated target date fund until changed by the participant. For any employee hired after January 1, 2009, the Company contributes 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan beginning after the employee has completed one year of service. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Forfeited accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$1,252 and \$8,042 respectively. These accounts are used to reduce administrative expenses or reduce future Company contributions. During 2018 and 2017, Company contributions were reduced by \$8,552 and \$1,638, respectively, from forfeited non-vested accounts.

Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan

Notes to Financial Statements

Payment of benefits

Upon attaining age 59 ½ or termination of service, whether voluntary or involuntary, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. The Plan provides for automatic rollover provisions. If the participant's account is between \$1,000 and \$5,000, the Plan may make an automatic rollover of the participant's vested interest in his or her account to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the Plan may make an automatic lump sum distribution to the participant equal to the participant's vested interest in his or her account. Distributions of a participant's account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Scott Fetzer Company Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net (depreciation) appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2019, the date the financial statements were available to be issued.

3. Information Certified by the Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator has elected to restrict the scope of the auditor's examination. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, net (depreciation) appreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A., the trustee. Auditing procedures have not been performed on this information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan

Notes to Financial Statements

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the funds. The mutual funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds are deemed to be actively traded.

Collective trust fund - stable value fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value (NAV) of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. There are no redemption restrictions upon which the participant may redeem investments in the fund. However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018:				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$2,114,242	\$ -	\$ -	\$2,114,242
Total investments in the fair value hierarchy	2,114,242	-	-	2,114,242
Collective trust fund measured at net asset value*	-	-	-	562,972
Investments at fair value	\$2,114,242	\$ -	\$ -	\$2,677,214

Assets at Fair Value as of December 31, 2017:				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$2,072,672	\$ -	\$ -	\$2,072,672
Total investments in the fair value hierarchy	2,072,672	-	-	2,072,672
Collective trust fund measured at net asset value*	-	-	-	623,997
Investments at fair value	\$2,072,672	\$ -	\$ -	\$2,696,669

Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan

Notes to Financial Statements

Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

5. Tax Status

The Plan adopted a standardized prototype plan sponsored by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. has received an opinion letter dated March 31, 2014 from the IRS stating that the prototype plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for benefit of their employees. The Plan administrator believes that the Plan and related trust is designed and operating in accordance with applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA and the Union collective bargaining agreement. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

7. Party in Interest Transactions

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain Plan investments are managed by Wells Fargo Bank, N.A. (Wells Fargo). Wells Fargo is the trustee as defined by the Plan, therefore, these transactions qualify as party in interest transactions.

Wells Fargo provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Company and Wells Fargo. Wells Fargo receives revenue from a mutual fund service provider for services Wells Fargo provides to the fund. This revenue is remitted to the Plan on a periodic basis and is allocated to the accounts of the participants. During 2018 and 2017, such amounts totaled approximately \$500 for each Plan year and are included in net (depreciation) appreciation of fair value of investments on the accompanying statements of changes in net assets available for benefits.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

Notes to Financial Statements

1. Description of the Plan

The following description of the Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Adalet/Scott Fetzer Company (the Company) who have completed 60 days of service, as defined, attained 21 years of age and are members of the IBEW Local No. 1377 Union (the Union). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Scott Fetzer Company Administrative Committee oversees governance of the Plan. The Scott Fetzer Company Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute from 1 percent to 15 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated target date fund until changed by the participant. For any employee hired after January 1, 2009, the Company contributes 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan beginning after the employee has completed one year of service. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Forfeited accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$1,252 and \$8,042 respectively. These accounts are used to reduce administrative expenses or reduce future Company contributions. During 2018 and 2017, Company contributions were reduced by \$8,552 and \$1,638, respectively, from forfeited non-vested accounts.

Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan

Notes to Financial Statements

Payment of benefits

Upon attaining age 59 ½ or termination of service, whether voluntary or involuntary, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. The Plan provides for automatic rollover provisions. If the participant's account is between \$1,000 and \$5,000, the Plan may make an automatic rollover of the participant's vested interest in his or her account to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the Plan may make an automatic lump sum distribution to the participant equal to the participant's vested interest in his or her account. Distributions of a participant's account balance may be authorized at any time by the Plan administrator under certain hardship conditions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Scott Fetzer Company Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net (depreciation) appreciation of fair value of investments.

Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan

Notes to Financial Statements

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2019, the date the financial statements were available to be issued.

3. Information Certified by the Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator has elected to restrict the scope of the auditor's examination. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, net (depreciation) appreciation in fair value of investments, and interest and dividend income for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A., the trustee. Auditing procedures have not been performed on this information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan

Notes to Financial Statements

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the funds. The mutual funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds are deemed to be actively traded.

Collective trust fund - stable value fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value (NAV) of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. There are no redemption restrictions upon which the participant may redeem investments in the fund. However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018:				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$2,114,242	\$ -	\$ -	\$2,114,242
Total investments in the fair value hierarchy	2,114,242	-	-	2,114,242
Collective trust fund measured at net asset value*	-	-	-	562,972
Investments at fair value	\$2,114,242	\$ -	\$ -	\$2,677,214

Assets at Fair Value as of December 31, 2017:				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$2,072,672	\$ -	\$ -	\$2,072,672
Total investments in the fair value hierarchy	2,072,672	-	-	2,072,672
Collective trust fund measured at net asset value*	-	-	-	623,997
Investments at fair value	\$2,072,672	\$ -	\$ -	\$2,696,669

Adalet IBEW Local No. 1377 401(k) Retirement Savings Plan

Notes to Financial Statements

Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

5. Tax Status

The Plan adopted a standardized prototype plan sponsored by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. has received an opinion letter dated March 31, 2014 from the IRS stating that the prototype plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for benefit of their employees. The Plan administrator believes that the Plan and related trust is designed and operating in accordance with applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA and the Union collective bargaining agreement. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

7. Party in Interest Transactions

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain Plan investments are managed by Wells Fargo Bank, N.A. (Wells Fargo). Wells Fargo is the trustee as defined by the Plan, therefore, these transactions qualify as party in interest transactions.

Wells Fargo provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Company and Wells Fargo. Wells Fargo receives revenue from a mutual fund service provider for services Wells Fargo provides to the fund. This revenue is remitted to the Plan on a periodic basis and is allocated to the accounts of the participants. During 2018 and 2017, such amounts totaled approximately \$500 for each Plan year and are included in net (depreciation) appreciation of fair value of investments on the accompanying statements of changes in net assets available for benefits.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.
