Cobham United States 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Cobham United States 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a volume submitter profit sharing/401(k) plan sponsored by Cobham Management Services, Inc. (the “Plan Sponsor”), and covers substantially all employees of the Plan Sponsor’s participating business units who have attained the age of 18. In accordance with the Plan agreement, the following classes of employees are excluded from eligibility:

- Residents of Puerto Rico;
- Employees covered by a collective bargaining agreement;
- Leased employees;
- Non-resident aliens; and
- Temporary employees; student interns; co-op students; and common law employees who are not classified by the employer for tax purposes (unless these employees attain the age of at least 21 and complete at least 1,000 hours of service).

The Plan was restated effective August 31, 2015 primarily to comply with statutory regulations.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions – Participants may elect to contribute up to 85% of their annual compensation (as defined in the Plan) as pre-tax or Roth after-tax contributions, limited to the amount imposed by law. Additionally, participants age 50 or older may elect to make a catch-up contribution limited to the amount imposed by law.

For the years ended December 31, 2018 and 2017, the participating business units matched 100% of pre-tax and Roth after-tax employee contributions up to the first 4% of a participant’s eligible compensation, and 50% of pre-tax and Roth after-tax employee contributions up to the next 2% of eligible compensation. A participant is eligible to receive employer-matching contributions immediately upon hiring provided they have attained the age of 18.

The participating business units are allowed to make additional discretionary contributions to the Plan. A participant is eligible to receive discretionary contributions if he or she is actively employed by any business unit of the Plan sponsor on the last day of the Plan year. There were no discretionary contributions during the years ended December 31, 2018 and 2017.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Vesting – Participants are immediately vested in their contributions, rollovers and actual earnings thereon. Participants are 30% vested in Plan Sponsor contributions after the first year of service, 70% after the second year of service and become fully vested after three years of service. Participants who are employed on the date they reach the early retirement age (55) become 100% vested in their accounts under the Plan.

A plan amendment was adopted effective January 1, 2019 which revised the vesting schedules to make participants immediately vested in Plan Sponsor contributions.

Payment of Benefits – Upon termination of service, death, disability, or retirement, a participant may elect to receive a lump-sum distribution equal to the value of his or her vested account. The Plan permits in-service distributions for participants older than age 59½. Hardship withdrawals as defined by the Internal Revenue Code (the “Code”) are available to participants only from the vested portion of their account and must be at least \$500. If the hardship withdrawal is made, the participant’s eligibility to make contributions to the Plan will be suspended for six months.

Forfeitures – Forfeitures resulting from non-vested contributions previously made by the Plan Sponsor are first used to pay Plan expenses. Any forfeitures remaining after paying Plan expenses will be used to reduce future Plan Sponsor contributions.

Notes Receivable from Participants – In accordance with Plan provisions, participants are permitted to borrow a maximum amount equal to the lesser of \$50,000, reduced by the highest outstanding note during the one-year period ending on the day before the note is made, or 50% of their vested account balance. The notes are secured by the balance in the participant’s account and bear interest at a rate commensurate with rates available for similar notes from commercial lending institutions. Repayment terms may not exceed five years, with the exception of a note used to purchase a primary residence in which case the note must be payable within ten years from the date of the note. Also, certain provisions of the Plan allow for the suspension of the repayment of a note in the event of certain military service which can extend the note term beyond the five- and ten-year maximums. Principal and interest is paid ratably through each payroll deduction. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Income Taxes – The Plan Sponsor obtained a letter dated March 31, 2014, in which the Internal Revenue Service (“IRS”) stated that the form of volume submitter plan sponsored by Fidelity Management & Research Company (“Fidelity”) is qualified under Section 401(a) of the Code. The Plan Administrator believes that the Plan is operating in compliance with the requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Cobham United States 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Accounting principles generally accepted in the United States of America (“GAAP”) require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan agreement to discontinue its contributions at any time and to terminate its participation in the Plan, subject to the provisions of ERISA. In the event of partial or complete Plan termination, participants will become fully vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared under the accrual method of accounting in accordance with GAAP.

Investment Valuation and Income Recognition – The Plan’s investments in money market funds, mutual funds, and common collective trusts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

The Plan presents in the accompanying statements of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which includes both realized gains (losses) and unrealized net appreciation (depreciation) in the fair value of investments. Realized gains (losses) on disposition of investments were based upon actual costs and selling prices.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. In the event of a default or death, the entire outstanding principal and accrued interest shall be immediately due and payable. Any unpaid balance will be deemed a taxable distribution from the Plan.

Benefit Payments – Benefits are recorded when paid.

Cobham United States 401(k) Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Plan Expenses – Accounting and administrative expenses, as well as expenses relating to investment activity are paid by the Plan. Each year, the Plan is awarded revenue credits payable to the Plan from Fidelity (the “Trustee”), that can either be used for eligible Plan expenses or allocated to participant accounts. The Plan received credits as part of this program totaling \$350,000 and \$333,750 for the years ended December 31, 2018 and 2017, respectively. Administrative expenses in the accompanying financial statements are reduced by these amounts.

Party-in-Interest Transactions – Certain Plan investments are shares of mutual funds, common collective trusts and a money market account, managed by Fidelity. Fidelity is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate and market risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants’ account balances and the amount reported in the accompanying financial statements.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Subsequent Events – The Plan Administrator has evaluated subsequent events, for recognition or disclosure, through October 11, 2019, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity has certified that the investments and participant loans included in the accompanying financial statements and related supplementary information is complete and accurate at December 31, 2018 and 2017, respectively.

Fidelity also certified interest and dividend income totaling \$21,776,849 and \$15,306,211, interest on notes receivable from participants of \$430,207 and \$418,706 and net appreciation (depreciation) in fair value of investments of \$(57,285,137) and \$93,775,527 for the years ended December 31, 2018 and 2017, respectively.

4. Fair Value Measurements

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- **Level 1** – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date.
- **Level 2** – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security. There were no assets of the Plan that were valued using Level 2 inputs at December 31, 2018 and 2017.
- **Level 3** – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that were valued using Level 3 inputs at December 31, 2018 and 2017.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money Market Funds: Shares of money market funds are valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Self-Directed Brokerage Accounts: Accounts primarily consist of cash, common stock and mutual funds that are valued on the basis of readily determined market prices.

Mutual Funds: Shares of mutual funds are valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at year end.

Cobham United States 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Common and Collective Trusts ("CCTs"): CCTs are valued daily at net asset value based on the market value of the underlying assets. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The underlying securities in pooled separate accounts are listed on national securities exchanges and valued on the basis on year-end closing prices. The Plan has concluded that the net asset value as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance companies approximates fair value of the investments. The investments are redeemable at the adjusted net asset value under agreements with the insurance companies.

It is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in market conditions, liquidity requirements and the economic environment may significantly affect the net asset value of the pooled separate accounts and, consequently, the fair value of the Plan investments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	2018	2017
Level 1		
Money market funds	\$ 2,001,311	\$ 641,724
Self-directed brokerage accounts	21,751,425	21,196,958
Mutual funds	<u>312,651,127</u>	<u>358,826,955</u>
	336,403,863	380,665,637

Investments at fair value	<u>\$ 667,203,500</u>	<u>\$ 736,505,744</u>

No restrictions on redemptions exist for all common and collective trusts measured at NAV. Furthermore, no unfunded commitments existed on these investments at December 31, 2018.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Plan Expenses – Accounting and administrative expenses, as well as expenses relating to investment activity are paid by the Plan. Each year, the Plan is awarded revenue credits payable to the Plan from Fidelity (the “Trustee”), that can either be used for eligible Plan expenses or allocated to participant accounts. The Plan received credits as part of this program totaling \$350,000 and \$333,750 for the years ended December 31, 2018 and 2017, respectively. Administrative expenses in the accompanying financial statements are reduced by these amounts.

Party-in-Interest Transactions – Certain Plan investments are shares of mutual funds, common collective trusts and a money market account, managed by Fidelity. Fidelity is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate and market risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants’ account balances and the amount reported in the accompanying financial statements.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Subsequent Events – The Plan Administrator has evaluated subsequent events, for recognition or disclosure, through October 11, 2019, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity has certified that the investments and participant loans included in the accompanying financial statements and related supplementary information is complete and accurate at December 31, 2018 and 2017, respectively.

Fidelity also certified interest and dividend income totaling \$21,776,849 and \$15,306,211, interest on notes receivable from participants of \$430,207 and \$418,706 and net appreciation (depreciation) in fair value of investments of \$(57,285,137) and \$93,775,527 for the years ended December 31, 2018 and 2017, respectively.

4. Fair Value Measurements

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- **Level 1** – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date.
- **Level 2** – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security. There were no assets of the Plan that were valued using Level 2 inputs at December 31, 2018 and 2017.
- **Level 3** – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that were valued using Level 3 inputs at December 31, 2018 and 2017.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money Market Funds: Shares of money market funds are valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Self-Directed Brokerage Accounts: Accounts primarily consist of cash, common stock and mutual funds that are valued on the basis of readily determined market prices.

Mutual Funds: Shares of mutual funds are valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at year end.

4. Fair Value Measurements (continued)

Common and Collective Trusts ("CCTs"): CCTs are valued daily at net asset value based on the market value of the underlying assets. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The underlying securities in pooled separate accounts are listed on national securities exchanges and valued on the basis on year-end closing prices. The Plan has concluded that the net asset value as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance companies approximates fair value of the investments. The investments are redeemable at the adjusted net asset value under agreements with the insurance companies.

It is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in market conditions, liquidity requirements and the economic environment may significantly affect the net asset value of the pooled separate accounts and, consequently, the fair value of the Plan investments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	2018	2017
Level 1		
Money market funds	\$ 2,001,311	\$ 641,724
Self-directed brokerage accounts	21,751,425	21,196,958
Mutual funds	<u>312,651,127</u>	<u>358,826,955</u>
	336,403,863	380,665,637
Investments valued at net asset value		
Common and collective trusts	<u>330,799,637</u>	<u>355,840,107</u>
Investments at fair value	<u>\$ 667,203,500</u>	<u>\$ 736,505,744</u>

No restrictions on redemptions exist for all common and collective trusts measured at NAV. Furthermore, no unfunded commitments existed on these investments at December 31, 2018.
