Note 1: Description of the Plan

The following description of the Malone University TDA (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan was a defined contribution supplemental retirement plan sponsored by Malone University (University) for the benefit of its employees who were also participants in the Malone University 403(b) DC Plan (DC Plan). Participants were eligible to contribute up to the first 5 percent of eligible compensation into the DC Plan with any excess amount contributed to this Plan. Effective with the merger of this Plan with the DC Plan, all contributions are now being contributed to the DC Plan. Employees were immediately eligible to participate in the Plan as a contributing participant upon commencement of employment with the University. Students who were employed by the University were generally excluded from participation in the Plan.

The Plan was subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association (TIAA) served as the issuer of the TIAA Traditional Annuity Contract held by the Plan and was the recordkeeper of the Plan. College Retirement Equities Fund (CREF) served as the issuer of the CREF variable annuities held by the Plan. TIAA, FSB served as the Plan custodian of nonannuity assets.

Effective June 30, 2018, the Plan was merged into the Malone University 403(b) DC Plan.

Contributions

The Plan permitted eligible employees through a salary deferral election to make annual contributions of up to 100 percent of eligible compensation with the first 5 percent being contributed to the DC Plan. Participants directed the investment of their contributions into various investment options offered by the Plan.

Participant Investment Account Options

Investment account options available included various annuity accounts, a pooled separate account and mutual funds. Each participant had the option of directing contributions into any of the investment account options selected by the University and were able to change the allocation to the extent permitted by the individual agreements.

Participant Accounts

Each participant's account was credited with the participant's contribution and Plan earnings and was charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefits to which a participant was entitled was the benefit that could be provided from the participant's account.

Vesting

Participants were immediately vested in their voluntary contributions, plus earnings thereon.

Malone University TDA Plan

Notes to Financial Statements

December 31, 2018 and 2017

Payment of Benefits

Upon termination of service or if the participant became disabled, a participant was able to elect to receive a lump-sum amount equal to the value of their account, an annuity contract (if assets were held in a custodial account) or converted into an income option (if assets were invested in an annuity contract). Withdrawals other than for termination were permitted under circumstances provided by the Plan.

Notes Receivable From Participants

The Plan Document included provisions authorizing loans from the Plan to active eligible participants. Loans were made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan was \$1,000 up to a maximum of \$50,000 or 45 percent of their account balance, whichever was less. The loans were secured by the balance in the participant's account and bore interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. All loans were repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings. There were no notes receivable from participants at December 31, 2018 or 2017.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan was funded by individually controlled TIAA and CREF investments. Contributions were allocated to the TIAA Traditional Annuity Contract, CREF variable annuity accounts, TIAA-CREF mutual funds and the TIAA Real Estate pooled separate account.

TIAA Traditional Annuity

The TIAA Traditional Annuity was an unallocated fixed-dollar annuity and investment product offered by TIAA, an insurance company. The annuity was fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity was maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchased a contractual or guaranteed amount of future benefits for the participants and were secured by the general assets of TIAA.

Malone University TDA Plan

Notes to Financial Statements

December 31, 2018 and 2017

The TIAA Traditional Annuity provided a guarantee of principal, a guaranteed minimum rate of interest and the potential for additional interest if declared by TIAA. Additional interest, when declared, remained in effect for the declaration year, which began each March 1. Additional interest was not guaranteed for future years. Contributions to a participant's account purchased a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional Annuity was annuitized based on available options, the present value of the stream of payments was equal to the account balance. The subsequent stream of annuity payments occurred outside the Plan and did not represent an obligation of the Plan.

The investment contract with TIAA contained liquidity restrictions that required withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a participant's termination of employment. Therefore, a portion of this account was considered a fully benefit-responsive investment contract (FBRIC) and another portion was considered nonbenefit-responsive.

The fully benefit-responsive portion of the contract was recorded at contract value and the nonbenefit-responsive portion of the contract was recorded at fair value, which approximated contract value as estimated by TIAA. At December 31, 2017, the fair value of the nonbenefit-responsive contracts at TIAA totaled \$1,087,052. At December 31, 2017, the contract value of the fully benefit-responsive contracts totaled \$921,368. As a result of the merger with the DC Plan, there were no longer any annuity contracts in the Plan at December 31, 2018.

Certain events limited the ability of the Plan to transact at contract value with the issuers of the Guaranteed Common Trust Fund and TIAA Traditional Annuity. Such events included the following: (1) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that caused significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

CREF Variable Annuity Accounts

Participants purchased accumulation units in the variable annuity contracts and their value was calculated daily. Variable annuity accounts were recorded at fair value, which was based upon the underlying value of the assets. The money market account was recorded at amortized cost, which approximated fair value. The amortized cost of an instrument was determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Mutual Funds

TIAA-CREF mutual funds were valued at the market quoted net asset value (NAV) of the shares held by the Plan at year-end.

Malone University TDA Plan

Notes to Financial Statements

December 31, 2018 and 2017

TIAA Real Estate Pooled Separate Account

The TIAA Real Estate pooled separate account was valued at the NAV per accumulation unit of the investment. The underlying real estate holdings or other real estate-related investments were valued principally utilizing external appraisals. Although the underlying assets of the account could not be quickly sold and converted to liquid assets, the TIAA general account provided the Plan with a liquidity guarantee. Transfers out of the pooled separate account were limited to one per calendar quarter. There are no unfunded commitments or a redemption notice period.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan, together with the investment vehicles, was intended to be a tax-sheltered annuity plan under section 403(b) of the Internal Revenue Code of 1986, as amended.

The Plan has not requested or obtained a determination letter, as the Internal Revenue Service does not generally provide a means of doing so for individual 403(b) plans. The Plan Administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the Internal Revenue Code and is not subject to tax.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Administrative Expenses

Administrative expenses were paid by the Plan or University, at the University's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period beginning date.

Subsequent Events

Subsequent events have been evaluated through October 8, 2019, which is the date the financial statements were available to be issued.

Malone University TDA Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 3: Restatement of Prior Year Financial Statements

During the year ended December 31, 2018, the Plan identified an error with respect to the classification of a fully benefit-responsive contract. The fully benefit-responsive contract was included in investments at fair-value rather than presented at contract value on the statement of net assets available for benefits. This restatement had no impact on total investments, net assets available for benefits, or the changes in net assets available for benefits.

The effect of the restatement on the Plan's 2017 financial statements was as follows:

	As Previously Reported	As Restated	Effect of Change
Statement of Net Assets Available for Benefits			
Investments, at fair value	\$ 7,083,940	\$ 6,162,572	\$ 921,368
Investments, at contract value	-	921,368	(921,368)

Note 4: Plan Merger

The Plan was amended effective July 1, 2018, to merge the Malone University TDA Plan into the Malone University 403(b) DC Plan. Approximately \$7,182,000 was transferred out of the Plan as a result of the merger.

Note 5: Certification by Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2018 and 2017
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2018

The Plan's independent auditors did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Malone University TDA Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 6: Reconciliation of Financial Statements to Form 5500

Differences between the Annual Return/Report of Employee Benefit Plan (Form 5500) filed with the Internal Revenue Service and the accompanying financial statements are primarily attributable to classification differences.

Note 7: Disclosures About Fair Value of Plan Assets

Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There was a hierarchy of three levels of inputs that were used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Malone University TDA Plan

Notes to Financial Statements December 31, 2018 and 2017

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2017. The Plan had no assets at December 31, 2018.

	2017 (Restated - Note 3)			
	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts (A)	\$ 457,840	\$ -	\$ -	\$ -
Mutual funds	1,231,558	1,231,558	-	-
Variable annuity accounts	3,386,122	-	3,386,122	-
TIAA Traditional Annuity accounts	1,087,052	-	-	1,087,052
	<u>\$ 6,162,572</u>	<u>\$ 1,231,558</u>	<u>\$ 3,386,122</u>	<u>\$ 1,087,052</u>

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits. The value is determined using the NAV as a practical expedient.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. The Plan had no liabilities measured at fair value on a recurring basis. Additionally, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Malone University TDA Plan

Notes to Financial Statements

December 31, 2018 and 2017

Fair value determinations for Level 3 measurements of securities are the responsibility of the Plan Administrator. The Plan Administrator contracts with TIAA to generate fair value estimates on a quarterly basis. The Plan Administrator challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States of America.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	TIAA Traditional Annuity Contract (Restated - Note 3)
Balance, January 1, 2017	\$ 1,174,525
Investment income	46,247
Purchases	21,956

Sales	(7,705)
Transfer to Malone University 403(b) DC Plan	<u>(1,112,954)</u>
Balance, December 31, 2018	<u><u>\$ -</u></u>

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2017. There were no Level 3 investments at December 31, 2018:

	Fair Value at December 31, 2017 (Restated – Note 3)	Valuation Technique	Unobservable Inputs	Range

There are no investments measured using the net asset value per share practical expedient as of December 31, 2018.
