Report of Independent Auditors

To the Administrator of
the Tribune Company Hourly Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Tribune Company Hourly Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 11, which was certified by The Northern Trust Company, the trustee of the Plan, and State Street Bank and Trust Company, custodian of the Vanguard Federal Money Market fund, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and custodian as of December 31, 2018 and 2017 and for the years then ended, that the information provided to the plan administrator by the trustee and custodian are complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2018 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Tribune Company Hourly Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

1. Description of the Plan

The following brief description of Tribune Company Hourly Pension Plan (the “Plan”) is provided for general information purposes. Participants should refer to the Plan document and related amendments for more complete information. On July 16, 2014, Tribune Company amended and restated its certificate of incorporation and changed its name to Tribune Media Company (the “Company”).

General

The Plan is a noncontributory defined benefit plan providing retirement benefits for union employees of the Company and certain subsidiaries covered by certain collective bargaining agreements and certain hourly employees not covered by a separate collective bargaining agreement.

On December 9, 2013, Tribune Company filed a registration statement on Form 10 with the U.S. Securities and Exchange Commission for the purpose of effecting the separation of its principal publishing operations (the “Publishing Spin-Off”) into an independent company, Tribune Publishing Company (“Tribune Publishing”) (formerly tronc, Inc.). The Publishing Spin-Off was consummated on August 4, 2014 and the Company retained sponsorship of the Plan. Under the terms of the Plan, on August 4, 2014, all Tribune Publishing employees who were participants in the Plan, were considered as having separated from service. As such, Tribune Publishing participants may be eligible to take a distribution, subject to the terms and conditions of the Plan.

Effective March 15, 2016, the Company entered into an agreement with Transamerica Retirement Solutions, LLC (“TRS”) to provide administrative, retiree payment and custody services for the Plan. On March 24, 2016, the Company entered into a custody agreement with State Street Bank and Trust (“State Street”) and TRS. This agreement allows State Street to act as custodian for certain plan assets which are invested in the Vanguard Federal Money Market fund, so that TRS can make benefit payments for the Plan.

On May 8, 2017, the Company entered into an Agreement and Plan of Merger (the “Sinclair Merger Agreement”) with Sinclair Broadcast Group, Inc. (“Sinclair”), providing for the acquisition by Sinclair of all of the outstanding shares of the Company’s Class A common stock and Class B common stock by means of a merger of a wholly owned subsidiary of Sinclair with and into the Company (the “Sinclair Merger”), with the Company surviving the Sinclair Merger as a wholly owned subsidiary of Sinclair. On August 9, 2018, the Company provided notification to Sinclair that it had terminated the Sinclair Merger Agreement, effective immediately, on the basis of Sinclair’s willful and material breaches of its obligations under the Merger Agreement. There was no impact on the Plan.

On November 30, 2018, the Company entered into an Agreement and Plan of Merger (the “Nexstar Merger Agreement”) with Nexstar Media Group, Inc. (“Nexstar”) and Titan Merger Sub, Inc. (the “Nexstar Merger Sub”) providing for the acquisition by Nexstar of all of the outstanding shares of the Company’s Class A common stock and Class B common stock by means of a merger of Nexstar Merger Sub with and into Tribune Media Company, with the Company surviving the merger as a wholly-owned subsidiary of Nexstar (the “Nexstar Merger”). The Nexstar Merger was consummated on September 19, 2019. As of the date of this report, the consummation of the Nexstar Merger in and of itself is not expected to have a material impact on the Plan.

The Plan is subject to the provisions of ERISA and is administered by the Tribune Media Company Employee Benefits Committee (the “Tribune Committee”) consisting of Company employees who

Tribune Company Hourly Pension Plan

Notes to Financial Statements

are appointed by the Board of Directors or by the Chairman of the Tribune Committee. Upon the consummation of the Nexstar Merger, the Tribune Committee was dissolved and, effective September 19, 2019, Nexstar Broadcasting, Inc. assumed responsibilities for governance of the Plan.

Chapter 11 Reorganization

On December 8, 2008, Tribune Company and 110 of its direct and indirect wholly-owned subsidiaries (collectively, the “Debtors”), filed voluntary petitions for relief under chapter 11 (“Chapter 11”) of title 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the “Bankruptcy Court”). On December 31, 2012, a plan of reorganization for the Debtors became effective and the Debtors emerged from Chapter 11. Pursuant to the Debtors plan of reorganization, the Plan has been assumed by the applicable reorganized Debtor.

Pension Benefits

Employees with five or more years of service are entitled to annual pension benefits generally beginning at normal retirement age. Benefits are based on various factors, such as length of service, the applicable dollar multiplier final average compensation and social security limits, as set forth in the Plan document, and are generally payable during the retirees’ lifetimes. Upon qualified termination of employment, if a participant’s present value of total benefits does not exceed \$5,000, the Plan will pay a lump sum to or on behalf of the participant, and the participant will not be eligible for monthly payments in the future. If a participant’s present value of total benefits is greater than \$5,000, the Plan will pay (i) a life annuity payable monthly from retirement, if the retiree is unmarried, or (ii) if the retiree is married, a joint and survivor annuity whereby monthly benefit payments are reduced, and a specified percentage of the benefit payments continues during the retiree spouse’s lifetime. Unmarried retirees may, however, elect an available optional form of benefit, and married retirees may waive the automatic joint and survivor annuity with spousal consent and elect an available optional form of benefit. If a participant is vested in the Plan but dies before the Plan payments start, his or her spouse could qualify for monthly lifetime benefits equal to a specified percentage of the amount the participant would have received. A participant who is eligible for a disability pension and who meets the applicable requirements shall receive an annual amount, payable monthly, computed in the same manner as a normal retirement pension, based on benefit service as of the date on which the participant became disabled, without reduction for early commencement of benefits.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments in the Tribune Company Master Trust for Pension Plans (the "Master Trust"), which was established for the investment of assets of the Plan and other Company-sponsored pension plans, are stated at fair value.

The Plan's investment in the registered investment company is stated at fair value which is based on quoted prices of the securities on the last business day of the Plan year.

The Plan's interest in the Master Trust is determined by The Northern Trust Company (the "Trustee") on a monthly basis based on the beginning market value of the Plan's interest plus contributions minus benefit payments which equals the adjusted balance. The Plan's adjusted balance is divided by the total adjusted balance of the Master Trust to determine the Plan's percentage interest in the Master Trust.

The fair values of the underlying investments in the Master Trust, shown in Note 6, are based upon published market quotations or fair value as determined by the Trustee. Fair values of investments in the Master Trust not having an established market are developed by reference to quoted market values and other financial data pertaining to investments of a similar nature, quality, and yield, as determined by the Trustee. Refer to Note 7 for fair value measurements.

Income Recognition

The Plan presents the net appreciation or depreciation in fair value of investments, which includes the realized gains or losses, and the unrealized appreciation or depreciation on those investments, in the Statements of Changes in Net Assets Available for Benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those future periodic payments, including lump-sum distributions that are attributable, under the Plan provisions, to the service that employees have rendered as of the benefit information date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) beneficiaries of employees who have died.

The present value of accumulated plan benefits under the Plan was calculated by the Plan's actuary as of January 1, 2018 and January 1, 2017, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in these valuations were:

- Discount rate - 3.55% and 4.05% per annum at January 1, 2018 and 2017, respectively.
- Mortality - Based on the RP 2014 Mortality Table with Generational Projections using scale MP-2018 and the RP 2014 Mortality Table with Generational Projections using scale MP-2017 published by the Society of Actuaries' Retirement Plans Experience Committee for January 1, 2018 and 2017, respectively.
- Retirement age - Varying between ages 60 and 65 for both January 1, 2018 and 2017.

Tribune Company Hourly Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

These actuarial assumptions are based on presumptions that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments

Benefit payments are recorded when paid. Benefit claims that have been processed and approved for payment prior to December 31 but not yet distributed as of that date are shown as a liability on the Form 5500. At December 31, 2018 and 2017, there were no benefit claims that were processed and approved for payment that had not been distributed.

Administrative Expenses

Administrative fees are paid by the Plan. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon average balances invested by each plan.

Derivative Instruments

On behalf of the Plan, certain investment managers are authorized to use derivative financial instruments in accordance with established guidelines of the investment funds. These investment managers may enter into asset, credit default, cross-currency, interest rate, total return, variance and other forms of swap and/or option agreements to manage the exposures of the Plan to credit, currency, interest rate, commodity, equity and inflation risks. Changes in the fair value of derivative financial instruments are recorded in the Statements of Changes in Net Assets Available for Benefits; therefore, no gains or losses are deferred. At December 31, 2018 and 2017, the fair value of derivative financial instruments held by the Plan was not material. See Note 8 for additional information.

New Accounting Standards

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-06, "Employee Benefit Plan Master Trust Reporting." ASU 2017-06 clarifies the presentation requirements of a plan's interest in a master trust and requires more detailed disclosures of the plan's interest in the master trust. The amendments in ASU 2017-06 are effective for fiscal years beginning after December 15, 2018, with early adoption permitted. Application of these amendments require retrospective application for all periods presented. The Plan is currently evaluating the impact of adopting ASU 2017-06 on its financial statements.

3. Funding Policy

Company contributions are actuarially determined to provide the necessary assets to pay benefits to Plan participants. Such contributions meet the minimum funding requirements of ERISA. The Company may, at its discretion, contribute amounts to the Plan in excess of the minimum funding requirements. The Company has complied with the minimum funding requirements of ERISA in 2018 and 2017.

4. Plan Termination

In the event the Plan terminates, the funds of the Plan shall be used for the benefit of participants or their contingent annuitants under the Plan as of the date of such termination, except that any funds not required to satisfy all liabilities of the Plan shall be returned to the Company. Each participant, contingent annuitant receiving a retirement allowance, or spouse receiving a spousal allowance, shall be entitled to a share in the assets of the Plan available to provide benefits in the manner and to the extent then provided in Section 4044 of ERISA.

Tribune Company Hourly Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Should termination occur, to the extent unfunded vested benefits exist and the Company is unable to fund these liabilities, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation (the "PBGC") to participants up to specified limitations, as described in ERISA. Whether a participants' accumulated plan benefit will be paid depends on both the priority of those benefits and the level of the benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

5. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits and the changes in the actuarial present value of accumulated plan benefits are as follows:

Effective for employment terminations on or after April 1, 2019, but before April 1, 2020, the benefit multiplier for WGN-AM Broadcast Technicians was increased from \$47.00 to \$58.67. Effective for employment terminations on or after April 1, 2020, the benefit multiplier for WGN-AM Broadcast Technicians was increased from \$47.00 to \$60.43.

6. Interest in Tribune Company Master Trust for Pension Plans (Prepared from Information Certified by the Trustee)

The Master Trust was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. At both December 31, 2018 and 2017, the Plan's interest in the net assets of the Master Trust was approximately 1.7% and 1.6%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average balances invested by each plan.

7. Fair Value Measurements

ASC Topic 820 “Fair Value Measurements and Disclosures” (“ASC Topic 820”) establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC Topic 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity that are significant to the fair value of the assets or liabilities.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value.

Registered Investment Companies

Registered investment companies consist of investments in mutual funds. Mutual funds are valued based on exchange listed prices, for exchange traded registered investment companies, or the Net Asset Value (“NAV”) for open-ended and continuously offered closed-end registered investment companies.

Common/Collective Commingled Trusts

Investments in common/collective trusts are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common/collective trusts. The underlying assets are valued based on the NAV as provided by the investment account manager or based on pricing from observable market information in a non-active market. This also includes the US small cap collective trust which holds investments in registered investment companies that are valued based on the quoted sale price of the day. Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued using other significant observable inputs. Fair value of this investment is based on the NAV as a practical expedient.

Notes to Financial Statements

December 31, 2018 and 2017

International Equity Limited Liability Company

The International Equity Limited Liability Company seeks to provide long-term capital growth primarily by investing, under normal circumstances, in equity securities of issuers tied to emerging market countries that have the potential to provide long-term capital growth. Securities are valued based on exchange listed prices. The values of investments for which quotations are not readily available are valued using estimated fair values as determined under policies adopted by the investment fund manager. This investment is classified in Level 2 of the fair value hierarchy.

Fixed Income

Corporate bonds, commercial mortgage-backed and asset-backed securities are generally valued using evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences and are classified in Level 2 of the fair value hierarchy. Government securities consist of investments in treasury securities, municipal bonds, debt securities issued by the government, index-linked government bonds and government mortgage-backed securities. Government bonds not traded on an active market are valued at a price which is based on a compilation of primarily observable market information or a broker quote in a non-active market, and are classified in Level 2 of the fair value hierarchy.

Real Estate Investment Funds

The fair value of our real estate investment funds is based on the NAV of our ownership interest in the funds. NAV information is received from the investment managers and is primarily determined by using the methods most appropriate for the type of investment, including, but not limited to, the following: forecasts of net cash flows based on analyses of revenue and expenses and anticipated net proceeds from the liquidation of the underlying investments, discounted at prevailing risk-adjusted market rates of interest; comparisons of key performance indicators of relevant industry indices; recent negotiations of comparable investments; and/or independent appraisals by lenders or other third parties, when available. Real estate includes investments in three different real estate funds. Fair value of this investment is based on the NAV as a practical expedient.

Venture Capital and Private Equity Limited Partnerships

Venture capital and private equity limited partnerships are valued by the investment managers on a periodic basis using models that use market, income, and cost valuation methods. The valuation inputs are not highly observable, and these interests are not actively traded on an open market. Private equity and venture capital investments include eight different partnership funds. These investments cannot be redeemed during the contractual life of the funds. Instead, distributions are received through the liquidation of the underlying assets of the funds. Fair value of these investments are based on the NAV as a practical expedient.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to net assets available for benefits. The Plan transferred \$100,299,319 of assets from Level 1 to Master Trust assets measured at NAV as a practical expedient, as assets were transferred from a registered investment company into a commingled investment trust during 2018. There were no transfers between levels during 2017.

8. Derivative Instruments

For investment management purposes, the Plan may hold investments in financial instruments with off-balance sheet risk involving contractual or optional commitments for future settlement. These instruments increase or decrease exposure to market volatility and partially offset exposure to changes in exchange rates and interest rates related to certain of its fixed income investments.

Swap Agreements

Certain investment managers may invest in swap agreements on behalf of the Plan. Swap agreements are bilaterally negotiated agreements between the Plan and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals. Swap agreements are privately negotiated in the over the counter market ("OTC swaps") or may be executed in a multilateral or other trade facility platform, such as a registered exchange ("centrally cleared swaps"). On behalf of the Plan, certain investment managers may enter into asset, credit default, cross-currency, interest rate, total return, variance and other forms of swap agreements to manage its exposure to credit, currency, interest rate, commodity, equity and inflation risk. Swaps are marked to market daily based upon values from third-party vendors, which may include a registered exchange, or quotations from market makers to the extent available. Changes in market value, if any, are reflected as a component of Income from Plan Interest in Tribune Company Master Trust for Pension Plans on the Statements of Changes in Net Assets Available for Benefits. Net periodic payments received or paid by the Plan are included as part of Income from Plan Interest in Tribune Company Master Trust for Pension Plans on the Statements of Changes in Net Assets Available for Benefits. Entering into these agreements involves, to varying degrees, elements of interest, credit market and documentation risk. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of contractual terms in the agreements and that there be may unfavorable changes to interest rates.

Tribune Company Hourly Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Interest Rate Swap Agreements

The Plan is subject to interest rate risk exposure in the normal course of pursuing its investment objectives. Because the Plan holds fixed rate bonds, the value of these bonds may decrease if interest rates rise. To help hedge against this risk and to maintain its ability to generate income at prevailing market rates, the investment managers may enter into interest rate swap agreements on behalf of the Plan. Interest rate swap agreements involve the exchange by the Plan with another party for their respective commitment to pay or receive interest on the notional amount of principal.

Option Contracts

Option contracts include options on equities, bonds, currencies, swaps (swaptions), and futures. Options give the owner the right, but not the obligation, to buy or sell an asset at a specified price (strike price) on or until a future date. Investment managers may purchase or write (sell) call and put options. Premiums received from writing options that expire worthless are treated as realized gains. An option writer (seller) bears the market risk of an unfavorable change in the price of the underlying instrument. Purchasing call options increases the Plan's exposure to the underlying instrument, while purchasing put options decreases the Plan's exposure to the underlying instrument. Premiums paid for purchased options that expire worthless are realized losses. The risk associated with purchasing options is limited to the premium paid. The options may be traded on an exchange or over the counter.

The Plan is subject to various netting arrangements with select counterparties ("Master Agreements"). Master Agreements govern the terms of certain transactions, and reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different Master Agreement, resulting in the need for multiple agreements with a single counterparty. As the Master Agreements are specific to unique operations of different asset types, they allow the Plan to close out and net its total exposure to a counterparty in the event of a default with respect to all the transactions governed under a single agreement with a counterparty. Master Agreements can also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under the Master Agreements, collateral is routinely transferred if the total net exposure to certain transactions (net of existing collateral already in place) governed under the relevant Master Agreement with a counterparty in a given account exceeds a specified threshold, which typically ranges from zero to \$250,000 depending on the counterparty and the type of Master Agreement. United States Treasury Bills and U.S. dollar cash are generally the preferred forms of collateral, although other forms of AAA rated paper or sovereign securities may be used.

International Swaps and Derivatives Association, Inc. Master Agreements and Credit Support Annexes ("ISDA Master Agreements") govern OTC financial derivative transactions entered into by the Plan and select counterparties. ISDA Master Agreements maintain provisions for general obligations, representations, agreement, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. In limited circumstances, the ISDA Master Agreement may contain additional provisions that add counterparty protection beyond coverage of existing daily exposure if the counterparty has a decline in credit quality below a predefined level.

9. Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 18, 2017, which considered amendments executed through January 22, 2016 and was contingent on the adoption of a subsequent amendment which was timely executed on April 24, 2017, that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's ERISA counsel believes that the Plan is designed to comply with, and the Company believes that the Plan is currently being operated in material compliance with, the applicable requirements of the IRC and is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's tax exempt status.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and concluded that as of December 31, 2018 and 2017, there are no uncertain

Tribune Company Hourly Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.

10. Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions will occur in the near term and that the effect of such changes would be material to the financial statements and the actuarial present value of accumulated plan benefits.

The Plan holds investment securities and instruments in the Master Trust. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks will occur in the near term and that the effect of such changes would materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

The Master Trust invests in securities with contractual cash flows such as asset-backed securities and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities is sensitive to changes in economic conditions, including real estate value, delinquencies and/or defaults and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

11. Information Certified by the Trustee/Custodian

As of December 31, 2018 and 2017 and for the years then ended, the Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Trustee has certified that the following data included in the financial statements and notes to the financial statements is complete and accurate:

- Plan interest in Tribune Company Master Trust for Pension Plans as shown in the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017;
- Investment (loss) income from Plan interest in Tribune Company Master Trust for Pension Plans, as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2018 and 2017.

State Street Bank and Trust Company (the "Custodian") has certified that the following data included in the financial statements and notes to the financial statements is complete and accurate:

- Vanguard Federal Money Market fund, presented as Registered investment company in the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017.

Notes to Financial Statements

December 31, 2018 and 2017

The Trustee and the Custodian have certified that the investments detailed on Schedule H, Line 4i: Schedule of Assets (Held at End of Year), as of December 31, 2018 is complete and accurate. The investment and related investment activity information included in Notes 6 and 8 have been derived from information certified by the Trustee. The investment and related investment activity information included in Note 7 has been derived from information certified by the Trustee and the Custodian. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

12. Party-in-Interest Transactions

Certain Plan investments are shares of funds managed by the Trustee, and therefore transactions between these entities qualify as party-in-interest transactions. Fees paid by the Plan for investment management and custodial services amounted to approximately \$3,129 and \$3,131 for the years ended December 31, 2018 and 2017, respectively.

TRS is considered a party-in-interest to the Plan. Fees paid by the Plan for recordkeeping services amounted to \$18,305 and \$33,790 for the years ended December 31, 2018 and 2017, respectively.

13. Subsequent Events

As further described in Note 1, the Nexstar Merger was consummated on September 19, 2019. As a result of the Nexstar Merger, Nexstar Broadcasting, Inc. assumed responsibilities for governance of the Plan.

The Plan has evaluated subsequent events through October 3, 2019, the date the financial statements were available to be issued.

For ERISA Requirements

Decrement Timing	Middle of year decrements with 100% retirement occurring at beginning of the year
Surviving Spouse Benefit	It is assumed that 85% of males and 85% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$220,000
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2016 Plan Year	7.00%, limited to 6.65%

Early Retirement
Eligibility

For participants covered under Benefit Schedules 1–4 (excluding Benefit Schedule 2, Supplement A), age 55 and completion of 10 years of service. For participants covered under Benefit Schedule 2, Supplement A (Chicago Cubs union participants), age 55 and completion of eight of service. For participants covered under Supplement 5, age 55 and completion of 20 years of benefit service.

Benefit

The accrued retirement benefit, based on benefit service, final average compensation (if applicable), and covered compensation (if applicable) at date of early retirement, reduced by factors that vary based on Benefit Schedule at retirement, as described below.

For participants covered under Benefit Schedules 1–4 (excluding Benefit Schedule 2, Supplement A), the accrued benefit is 0.3333% for each of the first 24 months by which benefit commencement precedes age 62, and 0.4166% for each of the next 60 months.

For participants covered under Benefit Schedule 2, Supplement A (Chicago Cubs union participants), the accrued retirement benefit is reduced by 0.5833% for each of the first 60 months by which benefit commencement precedes the normal retirement date, and by 0.3333% for each of the next 60 months.

For participants covered under Benefit Schedule 5, Supplement G, the accrued benefit is reduced by 0.4166% for each month by which benefit commencement precedes the normal retirement date.

For participants covered under Benefit Schedule 5, Supplement H or Supplement I, the accrued benefit is reduced by 0.3333% for each month by which benefit commencement precedes the normal retirement date.

Disability Retirement
Eligibility

Completion of 10 years of service. Participants covered under Supplements A, C, G, H, or I do not have a disability provisions.

Benefit

The accrued retirement benefit, based on benefit service, final average compensation (if applicable), and covered compensation (if applicable) at disability, payable immediately and without reduction.

Preretirement Survivor Benefit

Eligibility

A vested participant with an eligible spouse is eligible for a preretirement survivor benefit.

Benefit

For participants who were eligible for normal or early retirement benefits at date of death (or age 50 and completion of 20 years of benefit service for participants covered under Supplement H or Supplement I), the preretirement survivor benefit is equal to the amount the spouse would have received had the participant terminated his employment on the date of his death, and elected to retire immediately and receive a benefit in the form of a 50% joint and survivor annuity (100% joint and survivor annuity for participants covered under Supplement H or Supplement I).

For all other vested participants, the preretirement survivor benefit is equal to the amount the spouse would have received had the participant terminated his employment on the date of his death, survived to his earliest retirement age, and elected to receive a benefit in the form of a 50% joint and survivor annuity. The benefit is payable commencing on the day the participant would have reached earliest retirement age.

Form of Payment

Normal Form

For a participant who is not married as of his annuity commencement date, a life annuity is the normal form. If a participant has an eligible spouse as of his annuity commencement date, a reduced monthly retirement benefit shall automatically be paid in the form of a 50% joint and survivor annuity unless he elects an alternative form in writing and his spouse consents.

Optional Forms

Life annuity; 50%, 75%, 66⅔% (only available to Supplement H or Supplement I participants) or 100% joint and survivor annuity; 5-year continuous and certain annuity (not available for Supplement G participants) or 10-year continuous and certain annuity (only available to Supplement G participants). The company may distribute the benefit in lump sum form if the present value is \$5,000 or less.
