(Modified Cash Basis)

1. Description of the Plans

The accompanying financial statements comprise the ADM Retirement Plan (the Retirement Plan) and the ADM Pension Plan for Hourly-Wage Employees (the Hourly Plan) (collectively, the Plans) of Archer-Daniels-Midland Company (ADM or the Company) that participate in the Archer Daniels Midland Master Retirement Trust (the Master Trust).

The Company's funding policy with respect to the Plans is to contribute at least the necessary amount each year to meet the minimum amount required by the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plans have met the ERISA minimum funding requirements for 2018 and 2017.

The Company is free to terminate the Plans at any time, subject to the provisions of ERISA and the collective bargaining agreements. In the event of the termination of the Plans, the net assets of Plans shall be allocated to provide benefits in the order of priority prescribed by ERISA. However, the Pension Benefit Guaranty Corporation guarantees the payment of all nonforfeitable basic benefits, subject to certain limitations prescribed by ERISA.

More complete information about the Plans, including vesting and benefit provisions, is contained in the plan documents available from the Company.

On October 29, 2018, the Plan was amended to enter into a binding agreement to purchase a group annuity contract from The Prudential Insurance Company of America (Prudential), irrevocably transferring the future benefit obligations and annuity administration for approximately 3,800 retirees from the Retirement Plan to Prudential. The purchase of the group annuity contract, which was funded directly by the Retirement Plan's assets, was completed on November 2, 2018. The accumulated benefit obligation disclosed in Note 5 does not reflect the impact of this amendment.

On December 22, 2017, ADM approved an amendment effective October 1, 2017, to sunset the age and service accruals for traditional formula participants in the Retirement Plan as of December 31, 2021. No employee will be eligible to participate in the traditional formula on or after January 1, 2022. Effective January 1, 2022, traditional formula participants will transition to the cash balance formula, while maintaining their frozen traditional formula accrued benefit.

ADM Retirement Plan

The Retirement Plan is a defined benefit plan covering substantially all regular salaried employees of ADM and its participating affiliates.

From time to time, the assets and liabilities of acquired pension plans covering the salaried employees of acquired ADM subsidiaries or locations are merged into the Retirement Plan, as is the policy of ADM.

1. Description of the Plans (continued)

ADM Pension Plan for Hourly-Wage Employees

The Hourly Plan is a defined benefit plan covering those employees of ADM and its participating affiliates working at participating locations (as described in the plan document) and paid on an hourly rate basis. The Hourly Plan provisions for those locations that are not represented by a collective bargaining agreement, as well as those represented by a collective bargaining agreement, have been modified by the addition of appendices to the Hourly Plan specifying those provisions for the locations that differ from the corresponding provisions of the basic plan provisions.

From time to time, the assets and liabilities of acquired pension plans covering the hourly employees of acquired ADM subsidiaries or locations are merged into the Hourly Plan, as is the policy of ADM.

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plans are maintained on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis, investments are recorded at fair value, and transactions are recorded when cash is received or paid rather than in the time period in which income is earned or expenses are incurred.

Benefits Paid

Benefits are recorded when paid.

Investments

The Plans' investments held in the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Further information regarding the valuation techniques used to measure the fair value of investment assets held in the Master Trust is included in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold, as well as held, during the year.

2. Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, attributable under the Plans' provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances, including retirement, death, disability and termination of employment, are included to the extent they are deemed attributable to employee service rendered through the valuation date.

ADM Retirement Plan

Effective January 1, 2009, salaried employees who were vested (five or more years of service before January 1, 2009) continued with the existing traditional pension formula and will continue until 2021. Salaried employees with less than five years of service before January 1, 2009, participate in a point-based cash balance pension formula with a three-year vesting schedule.

Benefits for retired or terminated employees or their beneficiaries under the traditional pension formula are based on the employee's highest average monthly salary for 60 consecutive months out of the last 180 consecutive months of credited service. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

ADM Pension Plan for Hourly-Wage Employees

Effective January 1, 2009, most non-bargaining hourly employees, as well as those represented by a collective bargaining agreement, who were hired prior to January 1, 2009, that have a pension plan at their location continued with the existing traditional pension formula. Non-bargaining hourly employees who are hired or rehired on or after January 1, 2009, participate in a point-based cash balance pension formula. Employees represented by a collective bargaining agreement who were hired or rehired on or after January 1, 2009, participate in the pension formula applicable to their respective location.

Benefits for retired or terminated employees or their beneficiaries under the traditional formula are based on the applicable benefit level and the employees' credited service as determined by hours worked. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

2. Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Plan Expenses

All costs and expenses incurred in connection with the operation of the Plans with regard to the purchase and sale of investments, as well as certain professional fees, are paid out of the Master Trust. Other administrative expenses and actuarial and audit fees are paid by ADM, the plan sponsor.

New Accounting Pronouncements

In July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-09, *Codification Improvements*, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered to be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset value per share practical expedient in accordance with *FASB Accounting Standards Codification* (ASC) Topic 820, Fair Value Measurement. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. ASU 2018-09 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently evaluating the impact of the adoption to the Plans' financial statement disclosures.

In February 2017, FASB issued ASU No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating the impact of the adoption to the Plans' financial statement disclosures.

3. Master Trust Investment Information

Certain investment information disclosed in the accompanying financial statements for the Plans and Master Trust, including investments held at December 31, 2018 and 2017, and net appreciation (depreciation) in fair value of investments, interest, dividends and investment expenses for the years ended December 31, 2018 and 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Northern Trust Company, the custodian.

The Plans' investments are held in the Master Trust established for the investment of assets of the Plans. Each participating retirement plan has an undivided interest in the Master Trust. The Retirement Plan's and Hourly Plan's interest in the net assets of the Master Trust was approximately 67 percent and 33 percent, at December 31, 2018, and 75 percent and 25 percent at December 31, 2017, respectively.

Investment income (loss) and expenses are allocated among the Plans based upon each plan's pro rata share in the net assets of the Master Trust.

4. Fair Value Measurements

The Master Trust assets are valued as required by ASC Topic 820. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels are described below:

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs are observable, including Level 1 prices that have been adjusted, quoted prices for similar assets or liabilities, quoted prices in markets that are less active than traded exchanges, and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Inputs are unobservable and are supported by little or no market activity and are a significant component of the fair value of the assets or liabilities.

Following is a description of the valuation techniques and inputs used for investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy:

Common stock:

Equity securities are valued based on quoted exchange prices and are classified within Level 1 of the valuation hierarchy.

Mutual funds:

Mutual funds are valued at the closing price reported on the active market on which they are traded and are classified within Level 1 of the valuation hierarchy.

Common collective trust (CCT) funds:

The fair values of the CCTs are valued using net asset value (NAV practical expedient). The investments in CCTs consist of international equity and short-term investments. The investments are valued at NAV provided by administrators of the funds. Accordingly, they are not classified within the fair value hierarchy.

U.S. Treasury instruments:

U.S. Treasury instruments are valued at the closing price reported on the active market on which they are traded and classified within Level 1 of the valuation hierarchy.

ADM Retirement Plan
ADM Pension Plan for Hourly-Wage Employees

Notes to Financial Statements
(Modified Cash Basis)

4. Fair Value Measurements (continued)

U.S. government agency, state and local government bonds:

U.S. government agency obligations and state and municipal debt securities are valued using third-party pricing services and are classified within Level 2 of the valuation hierarchy.

Corporate debt instruments:

Corporate debt instruments are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available for comparable securities of issuers with similar credit ratings. These debt instruments are classified within Level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan administrator of the Plans believes the valuation methods are appropriate and consistent with other market participants' methods, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(d) The fund invests in high quality securities with the most attractive yields. The investment fund offers a competitive rate of return through a portfolio of high-grade, short term, money market instruments. Principal preservation is the prime objective, with liquidity management also emphasized to provide for redemption of units on any business day.

5. Accumulated Plan Benefits

The Plans' consulting actuaries estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal or retirement) between the valuation date and the expected payment date.

6. Derivatives

In the normal course of operations, the Master Trust investment managers use derivative financial instruments (swaps, forwards and futures) to mitigate the risk of changes in interest rates and foreign currencies impacting the fair values of certain investments held by the Master Trust. These derivatives may involve, in varying degrees, elements of credit and market risks in excess of more traditional investment holdings, such as equity and debt instruments.

The contract or notional amounts disclosed in this note and the amounts of realized and unrealized gains and losses on derivative instruments during the period presented below provide a measure of the involvement in such instruments but are not indicative of potential loss. The Master Trust fiduciaries do not anticipate any material adverse effect on the financial position of the Master Trust resulting from its use of these instruments.

Using derivative financial instruments means assuming counterparty credit risk. Counterparty credit risk relates to the loss the Master Trust would incur if a counterparty were to default on a derivative contract. The amount of counterparty credit exposure is limited to the unrealized gains, if any, on such derivative contracts.

6. Derivatives (continued)

The fair value of forwards and futures and the realized and unrealized gain or loss on forwards and futures were not material to the Master Trust at December 31, 2018 and 2017, and for the years then ended. The Plan has recorded interest rate swaps in an asset position of \$331,386, and in a liability position of \$153,890 as of December 31, 2018. The fair value of these instruments is included in the investment in Master Trust balance on the statement of net assets available for benefits, and is reflected in the “other” balance in the fair value table in Note 4.

The notional amount represents the contract amount, not the amount at risk. The approximate notional amount of swaps within the Master Trust at December 31, 2018 and 2017, is as follows:

	December 31	
	2018	2017
Swaps	\$ 559,422,936	\$ 707,179,826

The following table presents realized gains and changes in unrealized gains with respect to swaps. The gains are located on the statements of changes in net assets available for benefits as net appreciation in the fair value of investments.

	Years Ended December 31	
	2018	2017
Swaps	\$ 534,668	\$ 250,134

8. Income Tax Status

The Plans have received determination letters from the Internal Revenue Service (IRS) dated June 29, 2017, stating the Plans are qualified under section 401(a) of the Internal Revenue Code (the Code) and, therefore, the Master Trust is exempt from taxation. Subsequent to this determination by the IRS, the Plans were amended and restated. Once qualified, the Plans are required to operate in conformity with the Code to maintain their qualified status. ADM believes the Plans are being operated in compliance with the applicable requirements of the Code and therefore believes the Plans as amended and restated are qualified and the related Master Trust is tax-exempt.

8. Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plans and recognize a tax liability if the Plans have taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plans and has concluded that there are no uncertain positions taken or expected to be taken. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the assumptions and estimation process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Subsequent Events

Management evaluated subsequent events for the Plans through October 9, 2019, the date that these financial statements were available to be issued.

On June 25, 2019 the Company amended the Retirement Plan and offered to pay certain eligible individuals' pension benefit in lump sum. Individuals eligible for the voluntary lump sum payment option were generally Traditional Formula Participants who accepted the early retirement window program offered by ADM during the election period, and who retired during the period established under the Program.

Participants who had a Termination of Employment other than for death on or after February 1, 2019 and prior to the availability of the Program, and who would have satisfied all conditions to participate in the Program had they continued in employment through June 30, 2019, were also eligible to participate in the program.

The 2019 voluntary lump sum payments can be elected by eligible participants with a Benefit Commencement Date during the election period of July 1, 2019, to June 1, 2020.

History of Plan

A separate pension plan for ADM hourly employees was first established effective September 1, 1952. Effective September 1, 1957, a separate plan for employees represented by the American Federation of Grain Millers was established and the Hourly Trust Fund assets were allocated between the continuing hourly plan and the Grain Miller Plan.

The hourly plan provided for monthly benefits upon retirement of \$2.50 for each year of service. At various dates between September 1, 1963, and December 31, 1976, the plan provisions for those employee units (locations) represented by a union have been modified by the addition of an appendix to the plan specifying those provisions for the employee unit that differ from the corresponding provisions of the basic plan.

Effective January 1, 1968, the basic plan was amended and restated. The benefit rate was increased to \$3.00 for each year of service. The concept of modification of provisions via an appendix was maintained.

Effective January 1, 1973, the basic plan was amended for those employee units not covered by a separate appendix. The amendment included the following changes: the benefit rate increased to \$6.00 for each year of service; the minimum disability benefit increased to \$100.00 and the maximum disability benefit of \$100.00 was deleted; eligibility provisions for vesting were liberalized; and reduction factors for early commencement of benefits were liberalized.

Effective January 1, 1976, the basic plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing for 100% vesting after ten or more years of service, and the introduction of a preretirement surviving spouse's benefit. In addition, the benefit rate of the basic plan was increased to \$8.00.

Effective January 1, 1983, the North Kansas City, Red Wing, Winona and Atkinson plans were merged into the General Hourly Plan.

Effective August 1984, preretirement death benefit coverage was extended to active vested employees on an employer paid basis and to terminated vested employees on an employee paid basis.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a 5-year cliff vesting schedule was adopted.

Effective December 15, 1990, the Pfizer plan was merged into the General Hourly Plan. Benefits for former Pfizer employees continued under Pfizer plan provisions. As of January 1, 1993, the future benefit rate for these employees was frozen at the rate equal to the accrued benefit divided by credited service.

Effective December 31, 1993, the Supreme Sugar, Cedar Rapids, St. Charles, and Fleischmann Hourly plans were merged into the General Hourly Plan.

Effective December 31, 1995, the Premiere and Jackson Hourly plans were merged into the General Hourly Plan.

Effective September 30, 1996, Southern Cellulose hourly employees were merged into the General Hourly Plan.

Effective February 28, 1997, Grace Cocoa employees from Plan H (Merkens) and Ambrosia were merged into the General Hourly Plan.

Effective May 31, 1997, Benson-Quinn hourly employees were merged into the General Hourly Plan.

Effective October 1, 1997, participation was extended to former ED&F Man employees. Benefits for these participants will be based on a final average pay formula.

Effective February 1, 1998, participation was extended to former Countrymark employees. Benefits for these participants will be calculated based on a cash balance formula.

Effective December 31, 1999, the Moorman Manufacturing Company hourly employees merged into this plan.

Effective January 1, 2000, ADM unpurchased annuities previously purchased from an insurance carrier for former Moorman employees and will now pay these benefits from this plan.

Effective December 31, 2001, the Consolidated Nutrition hourly employees were merged into the plan.

Effective September 30, 2002, the Minnesota Corn Processing employees were acquired.

Effective January 1, 2009, new hires on or after January 1, 2009 in certain locations (date may vary by location and union) are eligible for the cash balance formula. All other employees continue to have benefit calculated under the traditional formula.

Effective December 31, 2011, the Grain Miller Plan was merged into the General Hourly Plan. Benefits for former Grain Miller plan participants continued under Grain Miller plan provisions. Also, effective December 31, 2011, hourly employees of the Golden Peanut Pension Plan were merged into the General Hourly Plan. Benefits for former hourly Golden Peanut plan participants will be calculated under the General Hourly Plan's cash balance formula.

- The cash balance interest crediting rate was updated from 2.50% (October 2016 30-year Treasury rate) to 2.88% (October 2017 30-year Treasury rate).

ADM Pension Plan For Hourly-Wage Employees

EIN: 41-0129150 PN: 003

History of Plan

A separate pension plan for ADM hourly employees was first established effective September 1, 1952. Effective September 1, 1957, a separate plan for employees represented by the American Federation of Grain Millers was established and the Hourly Trust Fund assets were allocated between the continuing hourly plan and the Grain Miller Plan.

The hourly plan provided for monthly benefits upon retirement of \$2.50 for each year of service. At various dates between September 1, 1963, and December 31, 1976, the plan provisions for those employee units (locations) represented by a union have been modified by the addition of an appendix to the plan specifying those provisions for the employee unit that differ from the corresponding provisions of the basic plan.

Effective January 1, 1968, the basic plan was amended and restated. The benefit rate was increased to \$3.00 for each year of service. The concept of modification of provisions via an appendix was maintained.

Effective January 1, 1973, the basic plan was amended for those employee units not covered by a separate appendix. The amendment included the following changes: the benefit rate increased to \$6.00 for each year of service; the minimum disability benefit increased to \$100.00 and the maximum disability benefit of \$100.00 was deleted; eligibility provisions for vesting were liberalized; and reduction factors for early commencement of benefits were liberalized.

Effective January 1, 1976, the basic plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing for 100% vesting after ten or more years of service, and the introduction of a preretirement surviving spouse's benefit. In addition, the benefit rate of the basic plan was increased to \$8.00.

Effective January 1, 1983, the North Kansas City, Red Wing, Winona and Atkinson plans were merged into the General Hourly Plan.

Effective August 1984, preretirement death benefit coverage was extended to active vested employees on an employer paid basis and to terminated vested employees on an employee paid basis.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a 5-year cliff vesting schedule was adopted.

Effective December 15, 1990, the Pfizer plan was merged into the General Hourly Plan. Benefits for former Pfizer employees continued under Pfizer plan provisions. As of January 1, 1993, the future benefit rate for these employees was frozen at the rate equal to the accrued benefit divided by credited service.

Effective December 31, 1993, the Supreme Sugar, Cedar Rapids, St. Charles, and Fleischmann Hourly plans were merged into the General Hourly Plan.

Effective December 31, 1995, the Premiere and Jackson Hourly plans were merged into the General Hourly Plan.

Effective September 30, 1996, Southern Cellulose hourly employees were merged into the General Hourly Plan.

Effective February 28, 1997, Grace Cocoa employees from Plan H (Merkens) and Ambrosia were merged into the General Hourly Plan.

Effective May 31, 1997, Benson-Quinn hourly employees were merged into the General Hourly Plan.

Effective October 1, 1997, participation was extended to former ED&F Man employees. Benefits for these participants will be based on a final average pay formula.

Effective February 1, 1998, participation was extended to former Countrymark employees. Benefits for these participants will be calculated based on a cash balance formula.

Effective December 31, 1999, the Moorman Manufacturing Company hourly employees merged into this plan.

Effective January 1, 2000, ADM unpurchased annuities previously purchased from an insurance carrier for former Moorman employees and will now pay these benefits from this plan.

Effective December 31, 2001, the Consolidated Nutrition hourly employees were merged into the plan.

Effective September 30, 2002, the Minnesota Corn Processing employees were acquired.

Effective January 1, 2009, new hires on or after January 1, 2009 in certain locations (date may vary by location and union) are eligible for the cash balance formula. All other employees continue to have benefit calculated under the traditional formula.

Effective December 31, 2011, the Grain Miller Plan was merged into the General Hourly Plan. Benefits for former Grain Miller plan participants continued under Grain Miller plan provisions. Also, effective December 31, 2011, hourly employees of the Golden Peanut Pension Plan were merged into the General Hourly Plan. Benefits for former hourly Golden Peanut plan participants will be calculated under the General Hourly Plan's cash balance formula.

See separate binder of specific provisions by appendix of the current plan provisions.

- The cash balance interest crediting rate was updated from 2.50% (October 2016 30-year Treasury rate) to 2.88% (October 2017 30-year Treasury rate).

The non-prescribed changes were made to better reflect the anticipated plan experience. These changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
