Note A. Description of the Plan

The following brief description of The Woodlands Store, Inc. 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2000 as a defined contribution retirement plan covering all employees of The Woodlands Store, Inc. (the "Company"), who have attained age twenty-one and have completed six months and at least five hundred hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company is the Plan Sponsor and serves as Plan Administrator. The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Additional amounts may be contributed at the option of the Company. Contributions are subject to certain IRS limitations.

The Company may make a discretionary matching and/or employer contribution to the Plan. Since these contributions are discretionary, the contribution may not be made for any given year. Any matching contribution will be determined as a percentage of a participant’s salary deferral. The employer contribution may be a different contribution to each eligible participant and may be determined based on a percentage of compensation or as a flat dollar amount.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions when made and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined and provided for in the Plan document. The benefit to which a participant is entitled is limited to the amount that can be provided from the participant's vested account balance. The investment direction for the account is provided by the participant.

Vesting

Participants are 100% vested in their elective deferrals and rollover contributions. Participants are 100% vested in the Company discretionary contributions after six years of credited service. A participant is 100% vested after reaching normal retirement age, or upon death or disability.

Note A. Description of the Plan (continued)

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum payment in an amount equal to the value of the participant's vested portion of his or her account. In the event of termination of employment before retirement, a participant will be entitled to receive his or her vested account balance. If a terminated participant's vested account balance is greater than $5,000, such participant may leave his or her funds in the Plan. If the terminated participant's vested account balance is equal to or less than $5,000, the Employer may elect to distribute the participant's funds without consent. A participants may elect a 401(k) hardship distribution prior to his or her separation from service in accordance with the hardship distribution policy.

Note B. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed). Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the change in market value of all Plan investments (including investments bought and sold as well as those held during the year).

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included as a reduction of net appreciation in fair value of investments.

Note C. Information Certified and Provided by John Hancock

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by John Hancock Life Insurance Company (U.S.A.) (the "Trustee") furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets at December 31:

Description	2018	2017
Pooled separate accounts	$ 1,923,772	$ 2,014,529
Guaranteed interest accounts	6,157	5,781

The Trustee also certified the completeness and accuracy of $142,204 net depreciation in the fair value of investments and $67 of interest income related to the assets listed above for the year ended December 31, 2018.

Note D. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Note D. Fair Value Measurements (continued)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2018 and 2017.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: valued on the fair value of the underlying investments based on unit value established for each fund on the valuation date.

Guaranteed interest accounts: valued at fair value by the issuer by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective or future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	December 31, 2018			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$1,923,772	$ -	$ 1,923,772
Guaranteed interest account	-	-	6,157	6,157
Total assets in the fair value heirarchy	$ -	$1,923,772	$ 6,157	$ 1,929,929

Note D. Fair Value Measurements (continued)

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$2,014,529	$ -	$ 2,014,529
Guaranteed interest account	-	-	5,781	5,781
Total assets in the fair value heirarchy	$ -	$2,014,529	$ 5,781	$ 2,020,310

The following table sets forth a summary of changes in the fair value of the Plan's level 3 investment assets during the year ended December 31, 2018:

	Guaranteed Interest Accounts
Balance at January 1, 2018	$ 5,781
Purchases	376
Balance at December 31, 2018	$ 6,157

Note E. Party-In-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan Sponsor, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such employer association, or relatives of such person. John Hancock Life Insurance Company (U.S.A), the Plan's trustee, CBIZ Retirement Plan Service, the third party administrator and Pisenti & Brinker LLP, the Plan's auditor, are considered parties-in-interest according to Section 3(14) of ERISA.

Note F. Plan Termination

Although the Company has not expressed any intent, the Company has the right under the Plan to discontinue, amend or modify and terminate the Plan without any liability for such termination subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in any unvested portion of their accounts.

Note G. Income Tax Status

On March 31, 2014, the Internal Revenue Service stated that the volume submitter document adopted by the Plan, as then designed, qualifies under IRC Section 401(a). The Plan has not received a determination letter for the Plan itself, however, the Plan Administrator believes the Plan has been designed and was operated in compliance with the applicable requirements of the IRC.

Note G. Income Tax Status (continued)

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H. Risks and Uncertainties

The Plan invests in several funds which hold various investment securities. Investment securities are exposed to interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note I. Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 3, 2019, the date the financial statements were available to be issued.

Subsequent to year end but prior to issuance, the Plan was amended and restated to modify the name of the Plan from The Woodlands Store, Inc. 401(k) Plan and Trust to The Woodlands Store, Inc. 401(k) Plan with an effective date of January 1, 2019. Additionally the Plan switched trustees to Charles Schwab Bank and third party administrators to Jocelyn Pension Consulting, LLC. The funds transferred to the new trustee effective September 13, 2019. The amendment eliminated the requirement of being employed on the last day of the Plan year with respect to the Employer Discretionary Matching Contributions and eliminated the Employer Discretionary Profit Sharing Contribution provisions. Effective January 1 2019, vesting is immediate for all sources and the plan permits Roth salary deferral contributions under section IRC 402A.
