L3 Communication Systems-East Retirement Income Plan

Report on the financial statements

We were engaged to audit the accompanying financial statements of L3 Communication Systems-East Retirement Income Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2017, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 8, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from this entity as of December 31, 2018 and 2017, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 8, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

L3 COMMUNICATION SYSTEMS-EAST RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
(Dollars in thousands)

1. Plan Description

On December 31, 2016, following the merger of L-3 Communications Holdings, Inc. (“L-3 Holdings”) with and into L-3 Communications Corporation, L-3 Communications Corporation changed its name to L3 Technologies, Inc. (the “Company”) and the L-3 Communication Systems-East Retirement Income Plan became the L3 Communication Systems-East Retirement Income Plan (the “Plan”). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective May 1, 1997 in connection with the acquisition of certain entities, including the L3 Communication Systems-East division by the Company, from Lockheed Martin Corporation (“Lockheed Martin”). On that date, certain participants in the Lockheed Martin Corporation Retirement Plan I and the Lockheed Martin Corporation Retirement Plan II (collectively referred to as the “Prior Plan”) became participants in the Plan. Lockheed Martin transferred the assets from the Prior Plan attributable to the accrued benefits of the participants to the Plan in 1997.

The Plan is a non-contributory defined benefit plan covering non-union employees at certain locations of the Company. Participation in the Plan commenced as of the participant’s hire date. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan is frozen with respect to new participants hired on or after January 1, 2007. As such, any employees hired on or after January 1, 2007 are not eligible to participate in the Plan. Effective January 1, 2017, employees who earn in excess of \$180 in the plan year prior to the year under consideration cease to accrue future benefits.

If a Plan participant is transferred to any business unit within the Company on or after January 1, 2014, any service and compensation earned by the participant of the Plan from the date of transfer until the date of the participant’s termination of employment with the Company will be treated as though earned by the participant at the business unit of the Plan. In 2017, the Plan transferred \$1,246 to the L3 Communication Systems-East Pension Plan for Bargaining Unit Employees for transferred participants. The Plan amendment does not affect the benefits of a Plan participant who continues to be employed by the Company but becomes or ceases to be a represented employee covered by a collective bargaining agreement.

The Plan was amended to allow for lump sum payments in December 2017 to certain terminated vested participants whose total lump sum benefits were less than \$100. The effect of this plan amendment is reflected in the statement of changes in accumulated plan benefits for the year ended December 31, 2017.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

L3 COMMUNICATION SYSTEMS-EAST RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

Interest in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the “Master Trust”), administered by The Bank of New York (“BNY”) Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the “L3 Participating Plans”). The fair value of the Plan’s undivided interest in the Master Trust is determined based on the beginning of year value of the Plan’s undivided interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of equity securities, fixed income securities, a mutual fund, a commingled trust fund and short term investments. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned, and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Income (Loss) from Master Trust

The net investment income or loss from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes net gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment income or loss is allocated to the L3 Participating Plans based upon the relationship of each plan’s respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan, except to the extent paid by the Company. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan’s respective portion of the expense. Investment management fees are allocated to the L3 Participating Plans based upon the relationship of each plan’s respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial

L3 COMMUNICATION SYSTEMS-EAST RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Subsequent Events

The Plan evaluated its December 31, 2018 financial statements for subsequent events for recognition or disclosure through October 10, 2019, the date the financial statements were available to be issued.

On December 20, 2017, the Benefit Plan Committee approved a change to the pension plan benefit formula as of January 1, 2019. The amendment will reduce the percentage multiplier to .75% of earnings.

On June 29, 2019, L3 Technologies, Inc. (L3) and Harris Corporation (Harris) completed an all-stock merger, which was originally announced on October 14, 2018. Upon closing of the merger, Harris was renamed L3Harris Technologies, Inc. (L3Harris).

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") that are at least equal to the minimum funding requirements under ERISA. There was no minimum funding requirement in 2018. Contributions required from the Company in 2017 to the Plan under the minimum funding requirements of ERISA was \$2,095. The Company's contributions met or exceeded the minimum funding requirements of ERISA in 2018 and 2017. Minimum contributions are calculated using the Unit Credit Actuarial Cost Method, as prescribed by law. Under this method, the liability is measured on an accrued-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. Assuming all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the minimum required contribution is generally designed to achieve the following: (1) if the plan is underfunded, funding at the minimum level would achieve 100% funding within seven years, and then contributions would equal the target normal cost, or (2) if the plan is overfunded, there will be no required contributions unless the target normal cost exceeds the overfunding.

4. Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The Plan provides an annual benefit for participants equal to the greater of (i) 1.165% of the lesser of Final Average Earnings or Social Security Covered Compensation plus 1.5% of Final Average Earnings in excess of Social Security Covered Compensation multiplied by years of credited service up to 35 years plus 1.5% of Final Average Earnings multiplied by years of credited service in excess of 35 years, (ii) the GE Trans Ops Benefit as of April 5, 1993 plus 1.45% of the employee's compensation earned in each calendar year up to Special Covered Compensation plus 1.90% of remaining compensation for the first 34 years of service (1.45% of all compensation earned in each calendar year after service as of January 1 exceeds 34 years) or (iii) two hundred and fifty-two dollars multiplied by years of credited service. Special Covered Compensation is Social Security Covered Compensation minus \$3.192 per year (i.e., the difference between \$18 and the Social Security Covered Compensation of an employee attaining age 65 in 1992). Final Average Earnings is the sum of average pensionable earnings of the highest 3 years out of the last 10 years preceding retirement plus the average of management incentive bonuses in the highest 3 years out of the last 10 years preceding retirement. Formula (ii) is only available to employees hired prior to December 31, 1994. The minimum annual benefit under the Plan is two hundred and fifty-two dollars multiplied by years of credited service. Benefits vest 100% after 5 years of service and are payable at age 65. Service in the Prior Plan is considered as service under the Plan. The retirement benefit accrued on and after January 1, 2011 for a Participant described who retires on or after his Normal Retirement Date shall be an annual amount derived by adding (i) and (ii), where: (i) is, during the first 35 years of Credited Service, 1.165% of that portion of the Participant's Pensionable Earnings which is not in excess of his Social Security Covered Compensation, plus 1.500% of the Participant's Pensionable Earnings in excess of his Social Security Covered Compensation credited with respect to each full and partial year of Credited Service commencing on or after January 1, 2011; and (ii) is, following the completion of 35 years of Credited Service, 1.500% of the Participant's Pensionable Earnings credited with respect to each full and partial year of Credited Service earned on and after January 1, 2011.

The Plan permits early retirement for participants at age 55 with at least 5 years of service. Effective January 1, 2011, there is no early retirement supplement. The benefit may begin at the date of early retirement, reduced by 7.0% per year by which commencement of benefits precedes the retirees 60th birthday for retirees with less than 5 years of service. The 7.0% benefit reduction is decreased by 0.14% for each additional year of service at retirement in excess of 5 years, but may not be decreased to less than 3.5% per year. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant receives benefits equal to the greater of 75% of the benefit accrued to the date of death, reduced by the appropriate early retirement and joint and

survivor factors or 50% of the unreduced amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree.

Effective September 1, 2017, the Plan was amended to allow a one-time lump sum distribution capped at \$100 to eligible terminated vested participants. The lump sum distributions were paid on December 1, 2017.

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2017 and 2016 were:

Mortality basis	2017: Total Collar RP-2014 Mortality Table (adjusted back to 2006), with mortality rates reduced by 10%, with this adjustment tapering linearly to 0% starting at age 85 and ending at age 95. These assumed rates are projected generationally with the 2017 SSA Intermediate - Cost Projections Scale. 2016: Total Collar RP-2014 Mortality Table (adjusted back to 2006), projected generationally with the 2014 SSA Intermediate - Cost Projections Scale.
Retirement	2017 and 2016: Retirement at ages 55 through 70, at varying rates, with 100% by age 70. In 2017, the retirement assumption at age 65 was changed from 35% to 25%.
Discount Rate	2017 and 2016: 8%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2018 and 2017. Had valuations been performed as of December 31, 2017 and 2016 there would be no material differences.

The Plan, through the Master Trust, may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a foreign currency forward contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchange rates at the dates of entry in the contracts and the forward foreign exchange rates at the reporting date is included in Plan's statement of net assets available for benefits. Realized and unrealized gains and losses are included in the Plan's statement of changes in net assets available for benefits. These instruments involve market and/or credit risks. The Plan, through the Master Trust, manages exposure to credit risk by entering into foreign currency forward exchange contracts only with major institutions that are expected to fully perform under the terms of such contracts. The average notional amounts for the years ended December 31, 2018 and 2017 were \$412 and \$134, respectively.

At December 31, 2018 and 2017, the Plan had no foreign currency forward exchange contracts.

6. Fair Value Measurements

The Plan's assets and liabilities are measured and recorded at fair value. The Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets primarily include equity securities, a mutual fund classified under Fixed Income – Investment Grade and Real Estate Investment Trusts ("REITs"), all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets primarily include money market accounts and both investment grade and high-yield fixed income securities.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2018 and 2017, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2018 and 2017. There were no transfers between Levels 1, 2 or 3 during the years ended December 31, 2018 and 2017.

⁽¹⁾ Equity securities consist of investments in common stock of U.S. and international companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various international exchanges.

⁽²⁾ Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

⁽³⁾ Approximately 66% at December 31, 2018 and 62% at December 31, 2017 of plan assets that are invested in the Fixed Income — Investment Grade asset category consist of a mutual fund offered by a registered investment company (the Fund) and fixed income securities. The Fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. These investments are classified by the Company as a Level 1 measurement within the fair value hierarchy, as mutual funds are required to publish their NAV daily and transact at that price, they are deemed to be actively traded. The remaining 34% at December 31, 2018 and 38% at December 31, 2017 of plan assets are fixed income securities, primarily investment grade corporate bonds from various industries held directly by the Master Trust. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs and are classified as Level 2. The breakout of mutual funds into types is no longer required.

⁽⁴⁾ Fixed Income — High Yield consists of investments in corporate high-yield bonds from various industries. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

⁽⁵⁾ Short term investments consist primarily of money market accounts, which invest primarily in short-term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit.

⁽⁶⁾ In accordance with ASU 2015-07, certain investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in Note 5.

⁽⁷⁾ All of the plan's other investments measured using NAV as a practical expedient at December 31, 2018 and 2017 consist of a regulated commingled equity trust fund, for which fair value is based on the NAV at the end of each month. The NAV is calculated by the fund manager based on the fair value of the fund's holdings, primarily equity securities traded in active markets, determined as of the end of each month as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. Withdrawals are permitted, with notice by the 20th day of each month, based on NAV.

⁽⁸⁾ There were no restrictions on redemption or unfunded commitments at December 31, 2018 and 2017.

7. *Tax Status*

The Internal Revenue Service has determined and informed the Company by a letter dated October 25, 2017, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan recognizes accrued interest and penalties related to unrecognized tax benefits in tax expense. There were no interest and penalties included in the Plan's financial statements.

8. *Plan Interest in Master Trust Certified By Trustee*

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2018 and 2017, and investment (loss) income for the years then ended, that is disclosed in the accompanying financial statements, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee of the Plan.

9. *Parties-in-Interest and Related Party Transactions*

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by BNY Mellon, the Plan's trustee. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various related party service providers. Additionally, certain expenses of the Plan are paid for directly by the Company. These transactions are exempt party in interest transactions under ERISA.

10. *Termination Priorities*

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

L3 COMMUNICATION SYSTEMS-EAST RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.
- d. All vested and non-vested benefits.

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation, up to specified limits.

Actuarial Assumptions and Methodologies (Funding)

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations. Sibson Consulting's report as of December 2017 shows a recent analysis upon which these assumptions are based.

Interest:

The interest rates used for the 2018 plan year are the 24-month average corporate bond segment rates for September 2017 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2018, the stabilization corridor is 10%. Under current law, it is scheduled to remain at 10% through 2020, then increase by 5% per year until it reaches 30% for 2024. The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization	3.92%	5.52%	6.29%	5.72%
Current Year, without stabilization	1.75%	3.76%	4.66%	4.06%
Prior Year, reflecting stabilization	4.16%	5.72%	6.48%	5.91%
Prior Year, without stabilization	1.52%	3.80%	4.79%	4.12%

The interest rates used to determine the PBGC variable-rate premium are:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
Current Year	2.33%	3.55%	4.11%
Prior Year	2.04%	4.03%	4.82%

These interest rates are based on the plan sponsor's election (an election that can next be changed for the 2019 plan year) and are subject to the constraints established by law.

Mortality rates:	The plan sponsor did not elect to delay the mortality regulations generally effective for the 2018 plan year. As a result, the newly prescribed mortality is used: RP-2014 separate employee and annuitant healthy mortality tables (sex-specific), reflecting both blue and white collar data, adjusted backward to the base year (2006) using scale MP-2014. Mortality is projected forward using scale MP-2016 using static projection. (Previously, the tables used were the RP2000 combined tables with static projections using scale AA and no-collar adjustment.) This assumption is one of the choices allowed by the regulations.																																
Salary increases:	3.50%. Bonuses are averaged over the last five years and added to the greater of the prior year's pay or the pay rate as of the valuation date. This assumption is based on historical and current data, adjusted to reflect estimated future experience and professional judgment.																																
Benefit election:	(1) For a married participant: Actuarially reduced 50% Qualified Joint and Survivor annuity (pop-up annuity for first 5 years). (2) For a single participant: a life annuity with 5 years certain under GE Trans Ops Benefit Formula, or a life annuity under RIP Benefit Formula. (3) For all employees with a Personal Pension Account and/or Voluntary Pension Account: a lump sum equal to the account balances. This assumption is based on historical and current data, adjusted to reflect estimated future experience and professional judgment.

Plan-related expenses of \$830,000 are expected to be paid by the plan during the year (previously, 810,000).</p> <p>This assumption is based on recent historical data, adjusted to reflect PBGC variable-rate premium changes, advice from the plan sponsor, and estimated future experience and professional judgment.</p>			
Asset method:	<p>As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50%, not to exceed the applicable third segment rate of 6.65% in 2016 and 6.48% in 2017.</p>
