Report on the financial statements

We were engaged to audit the accompanying financial statements of L3 Electron Devices Retirement Plan For Bargained Employees (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2017, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 8, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from this entity as of December 31, 2018 and 2017, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 8, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

On December 31, 2016, following the merger of L-3 Communications Holdings, Inc. (“L-3 Holdings”) with and into L-3 Communications Corporation, L-3 Communications Corporation changed its name to L3 Technologies, Inc. (the “Company”) and the L-3 Communications Electron Technologies Retirement Plan for Bargained Employees became the L3 Electron Devices Retirement Plan for Bargained Employees (the “Plan”). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective February 28, 2005 in connection with the acquisition of Boeing Satellite Systems, Inc. by the Company, from the Boeing Company. On that date, the Plan accepted a transfer of assets and liabilities attributable to certain employees of Boeing Satellite Systems, Inc. who participated in The Boeing Satellite Systems Retirement Plan for Bargained Employees (the “Prior Plan”).

The Plan is a defined benefit plan covering bargaining unit employees, who are eligible to participate in the non-contributory and/or contributory benefit. Participation in the Plan commenced as of the effective date when an employee was represented by a collective bargaining agreement that specifically provided for coverage under the Plan.

Under the contributory benefit participation, the Plan requires employee contributions for eligible employees under the Prior Plan with active or rehired status as of February 27, 2005. Participation in the contributory benefit requires employees’ contribution of 3% of pay, as defined under the Plan. Active employees’ accumulated contributions with interest for the years ended December 31, 2018 and 2017 were \$4,238 and \$5,318, respectively. Employee contributions were credited interest at a rate of 3.47% and 2.62% for the years ended December 31, 2018 and 2017, respectively.

The contributory portion of the Plan is frozen to any employee hired after the effective date of the Plan. The Plan is frozen for employees hired on or after June 1, 2007. The Plan is also frozen for all portions as of January 1, 2007 with respect to new hires who are represented by the Electronic and Space Technicians Local 1533 (“EAST”). As such, employees hired on or after January 1, 2007, who are represented by EAST are not eligible to participate in the Plan. The Plan is also frozen for all portions as of May 31, 2007 with respect to new hires who are hired on or after June 1, 2007 and are represented by the International Brotherhood of Electrical Workers Local 2995 (“IBEW 2995”).

The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

**L3 ELECTRON DEVICES RETIREMENT PLAN
FOR BARGAINED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)**

Interest in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the “Master Trust”), administered by The Bank of New York (“BNY”) Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the “L3 Participating Plans”). The Plan is sponsored by L3 Electron Devices, Inc., but is maintained with plans sponsored by the Company. The fair value of the Plan’s undivided interest in the Master Trust is determined based on the beginning of year value of the Plan’s undivided interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of equity securities, fixed income securities, a mutual fund, a commingled trust fund and short term investments. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned, and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Income (Loss) from Master Trust

The net investment income or loss from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes net gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment income or loss is allocated to the L3 Participating Plans based upon the relationship of each plan’s respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan, except to the extent paid by the Company. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan’s respective portion of the expense. Investment management fees are allocated to the L3 Participating Plans based upon the relationship of each plan’s respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and

**L3 ELECTRON DEVICES RETIREMENT PLAN
FOR BARGAINED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)**

changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Subsequent Events

The Plan evaluated its December 31, 2018 financial statements for subsequent events for recognition or disclosure through October 10, 2019, the date the financial statements were available to be issued.

On June 29, 2019, L3 Technologies, Inc. (L3) and Harris Corporation (Harris) completed an all-stock merger, which was originally announced on October 14, 2018. Upon closing of the merger, Harris was renamed L3Harris Technologies, Inc. (L3Harris).

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") that are at least equal to the minimum funding requirements under ERISA. There was no minimum funding requirement in 2018 and 2017. The Company's contributions met or exceeded the minimum funding requirements of ERISA in 2018 and 2017. Minimum contributions are calculated using the Unit Credit Actuarial Cost Method, as prescribed by law. Under this method, the liability is measured on an accrued-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. Assuming all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the minimum required contribution is generally designed to achieve the following: (1) if the plan is underfunded, funding at the minimum level would achieve 100% funding within seven years, and then contributions would equal the target normal cost, or (2) if the plan is overfunded, there will be no required contributions unless the target normal cost exceeds the overfunding.

Each active participant may elect to contribute to their participant contribution account for each payroll period prior to their retirement date 3% of compensation earned during the plan year.

**L3 ELECTRON DEVICES RETIREMENT PLAN
FOR BARGAINED EMPLOYEES

(Dollars in thousands)**

4. Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Participants are entitled to receive pension benefits beginning at the normal retirement age of 65 equal to the greatest of the following:

(i) Final Average Monthly Compensation Benefit:

1 $\frac{3}{4}$ % of final average earnings per year of benefit accrual service, less social security primary insurance amount times 1 $\frac{1}{2}$ % of total accrued service (up to 33 $\frac{1}{3}$ years) times benefit accrued service over total accrued service.

Final Average Monthly Compensation means $\frac{1}{12}^{\text{th}}$ of the amount derived by dividing the participant's aggregate compensation paid within 30 days following his or her separation from service attributed to the lesser of the 5 highest of his or her last 10 qualifying 12 accounting month periods.

(ii) Career Average Benefit:

$\frac{1}{24}^{\text{th}}$ of total participant contributions through December 1, 1985, plus accrued benefit as of December 31, 1975 less $\frac{1}{24}^{\text{th}}$ of participant contributions as of December 31, 1975, plus $\frac{1}{12}^{\text{th}}$ of the sum of 1% of annual pay up to \$3.6 and 2% of annual pay over \$3.6.

(iii) Minimum Benefit:

Twenty dollars plus 1/2 % of Final Average Monthly Compensation, per year of benefit accrual service.

The Plan permits early retirement at age 55 for participants with five years of service. The benefit may begin at the date of early retirement and is the greater of the Actuarial Equivalent using an interest rate of 4.0% and the applicable mortality table of the accrued benefit as of April 30, 2003 or the total vested accrued benefit reduced by 6% for each year by which commencement of benefits precedes the retiree's 65th birthday. Actuarial Equivalent is the equivalent of a given benefit or its optional form as described in the Plan document. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant generally receives benefits equal to 50% of the amount which would have been payable to the retiree under the applicable joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing 5 years of service, they forfeit the right to receive their accumulated benefits.

**L3 ELECTRON DEVICES RETIREMENT PLAN
FOR BARGAINED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS - continued

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2017 and 2016 were:

Mortality basis	<p>2017: Total Collar RP-2014 Mortality Table (adjusted back to 2006), with mortality rates increased by 10%, with this adjustment tapering linearly to 0% starting at age 85 and ending at age 95. These assumed rates are projected generationally with the 2017 SSA Intermediate - Cost Projections Scale.</p> <p>2016: Total Collar RP-2014 Mortality Table (adjusted back to 2006), projected generationally with the 2014 SSA Intermediate – Cost Projections Scale.</p>
Retirement	<p>2017 and 2016: Retirement starting at 55 through 70, at varying rates, with 100% by age 70.</p> <p>In 2017, the retirement assumption at age 65 was changed from 35% to 25%.</p>
Discount Rate	2017 and 2016: 8%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2018 and 2017. Had valuations been performed as of December 31, 2017 and 2016 there would be no material differences.

The Plan, through the Master Trust, may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a foreign currency forward contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchange rates at the dates of entry in the contracts and the forward foreign exchange rates at the reporting date is included in Plan's statement of net assets available for benefits. Realized and unrealized gains and losses are included in the Plan's statement of changes in net assets available for benefits. These instruments involve market and/or credit risks. The Plan, through the Master Trust, manages exposure to credit risk by entering into foreign currency forward exchange contracts only with major institutions that are expected to fully perform under the terms of such contracts. The average notional amounts for the years ended December 31, 2018 and 2017 were \$412 and \$134, respectively.

At December 31, 2018 and 2017, the Plan had no foreign currency forward exchange contracts.

6. *Fair Value Measurements*

The Plan's assets and liabilities are measured and recorded at fair value. The Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets primarily include equity securities, a mutual fund classified under Fixed Income – Investment Grade and Real Estate Investment Trusts ("REITs"), all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets primarily include money market accounts and both investment grade and high-yield fixed income securities.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2018 and 2017, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2018 and 2017. There were no transfers between Levels 1, 2 or 3 during the years ended December 31, 2018 and 2017.

⁽¹⁾ Equity securities consist of investments in common stock of U.S. and international companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various international exchanges.

⁽²⁾ Real Estate Investment Trusts (REITs) consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

⁽³⁾ Approximately 66% at December 31, 2018 and 62% at December 31, 2017 of plan assets that are invested in the Fixed Income — Investment Grade asset category consist of a mutual fund offered by a registered investment company (the Fund) and fixed income securities. The Fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. These investments are classified by the Company as a Level 1 measurement within the fair value hierarchy, as mutual funds are required to publish their NAV daily and transact at that price, they are deemed to be actively traded. The remaining 34% at December 31, 2018 and 38% at December 31, 2017 of plan assets are fixed income securities, primarily investment grade corporate bonds from various industries held directly by the Master Trust. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs and are classified as Level 2. The breakout of mutual funds into types is no longer required.

⁽⁴⁾ Fixed Income — High Yield consists of investments in corporate high-yield bonds from various industries. The fair values of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

⁽⁵⁾ Short term investments consist primarily of money market accounts, which invest primarily in short-term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit.

⁽⁶⁾ In accordance with ASU 2015-07, certain investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in Note 5.

⁽⁷⁾ All of the plan's other investments measured using NAV as a practical expedient at December 31, 2018 and 2017 consist of a regulated commingled equity trust fund, for which fair value is based on the NAV at the end of each month. The NAV is calculated by the fund manager based on the fair value of the fund's holdings, primarily equity securities traded in active markets, determined as of the end of each month as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. Withdrawals are permitted, with notice by the 20th day of each month, based on NAV.

⁽⁸⁾ There were no restrictions on redemption or unfunded commitments at December 31, 2018 and 2017.

7. *Tax Status*

The Internal Revenue Service has determined and informed the Company by a letter dated October 18, 2017, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan recognizes accrued interest and penalties related to unrecognized tax benefits in tax expense. There were no interest and penalties included in the Plan's financial statements.

8. *Plan Interest in Master Trust Certified By Trustee*

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2018 and 2017, and investment (loss) income for the years then ended, that is disclosed in the accompanying financial statements, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee of the Plan.

9. *Parties-in-Interest and Related Party Transactions*

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by BNY Mellon, the Plan's trustee. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various related party service providers. Additionally, certain expenses of the Plan are paid for directly by the Company. These transactions are exempt party in interest transactions under ERISA.

10. *Termination Priorities*

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to collective bargaining and the provisions set forth in ERISA.

**L3 ELECTRON DEVICES RETIREMENT PLAN
FOR BARGAINED EMPLOYEES
NOTES TO FINANCIAL STATEMENTS - continued
(Dollars in thousands)**

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.
- d. All vested and non-vested benefits.

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation, up to specified limits.

Actuarial Assumptions and Methodologies (Funding)

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations. Sibson Consulting's report as of December 22, 2017 shows a recent analysis upon which these assumptions are based.

Interest:	The interest rates used for the 2018 plan year are the 24-month average corporate bond segment rates for September 2017 (a four-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2018, the stabilization corridor is 10%. Under current law, it is scheduled to remain at 10% through 2020, then increase by 5% per year until it reaches 30% for 2024. The rates are as follows:			
		Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
	Current Year, reflecting stabilization	3.92%	5.52%	6.29%
	Current Year, without stabilization	1.75%	3.76%	4.66%
	Prior Year, reflecting stabilization	4.16%	5.72%	6.48%
	Prior Year, without stabilization	1.52%	3.80%	4.79%
	The interest rates used to determine the PBGC variable-rate premium are:			
		Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
	Current Year	2.33%	3.55%	4.11%
	Prior Year	2.04%	4.03%	4.82%
	These interest rates are based on the plan sponsor's election for the 2014 plan year (an election that can next be changed for the 2019 plan year) and are subject to the constraints established by law.

Mortality rates:	<p>The plan sponsor did not elect to delay the mortality regulations generally effective for the 2018 plan year. As a result, the newly prescribed mortality is used: RP-2014 combined employee and annuitant healthy mortality tables (sex-specific), reflecting both blue and white collar data, adjusted backward to the base year (2006) using scale MP-2014. Mortality is projected forward using scale MP-2016 using static projection. (Previously, the tables used were the RP2000 combined tables with static projections using scale AA and no-collar adjustment.)</p> <p>This assumption is one of the choices allowed by the regulations.</p>
Salary increases:	<p>3.50%.</p> <p>This assumption is based on historical and current data, adjusted to reflect estimated future experience and professional judgment.</p>
Benefit election:	<p><u>Contributory:</u> 100% of active participants are assumed to elect a five-year certain annuity at retirement</p> <p><u>Non-Contributory:</u> 100% of active participants are assumed to elect a ten-year certain annuity at retirement</p> <p>This assumption is based on historical and current data, adjusted to reflect estimated future experience and professional judgment.</p> <p>Actuarial equivalence for the five-year and ten-year certain payment options is based on the PPA Lump Sum mandated mortality table for the valuation year and the same interest rates as used for funding. A post-retirement cost-of-living adjustment of 4.00% is applied when converting to alternative benefit payment options under the contributory structure.</p>
Interest on Employee Contributions:	<p>3.00%</p> <p>This assumption is based on historical and current data, adjusted to reflect estimated future experience and professional judgment.</p>
Cost of living increases:	<p>2.50% for Social Security COLA and postretirement benefit adjustments</p> <p>3.00% for Social Security Wage Base</p> <p>These assumptions are based on historical and current data, adjusted to reflect estimated future experience and professional judgment.</p>
Termination rates:	<p>None</p> <p>Based on the advanced age of the participants and the vastly greater pension benefits that apply for retirement vs termination, based on our professional judgment, we expect minimal turnover prior to retirement eligibility.</p>

Description of Weighted Average Retirement Age:	Age 61, determined as follows: The individual weighted average retirement age is calculated as the sum of the product of each potential past or future retirement age times the probability of surviving to that age and then retiring at that age, assuming no other decrements. The overall weighted average retirement age is the average of the individual weighted average retirement ages based on all the active participants included in the January 1, 2018 actuarial valuation.				
Retirement from inactive status:	<u>Contributory:</u> Participants who met the “Rule of 75” eligibility at termination are assumed to retire immediately <u>Non-Contributory and Non-“Rule of 75” Contributory:</u> Age 65

Percent married:	70% male, 55% female. Spouse is assumed to be the opposite gender.			
Age difference:	Male spouses are assumed to be three years older than female spouses.			
Administrative expenses:	<p>An expense assumption is required under the funding rules. Plan-related expenses of \$320,000 are expected to be paid by the plan during the year (previously, \$330,000).</p> <p>This assumption is based on recent historical data, adjusted to reflect PBGC premium changes, advice from the plan sponsor, and estimated future experience and professional judgment.</p>			
Asset method:	<p>As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50%, not to exceed the applicable third segment rate of 6.65% for 2016 and 6.48% for 2017.</p>			
Funding method:	<p>Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.</p> <p>If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within seven years. Once that is achieved, or for overfunded plans, the required contribution will generally equal the target normal cost reduced by any overfunding.</p>

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
