Note A – Description of the Plan (Continued)

Contributions

Participants may make pre-tax, Roth, and after-tax deferral contributions up to the lesser of 40% of eligible compensation or the Internal Revenue Code (“IRC”) limitation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans.

The Company is required to make matching contributions based upon the benefit schedules associated with the respective participating employer and divisional units. Participants are eligible to receive the matching contribution immediately upon participation in the Plan. Company matching contributions amounted to \$6,406,167 and \$6,314,628 for the years ended December 31, 2018 and 2017, respectively.

The Company, at its sole discretion, may make additional contributions based upon the benefit schedules associated with the respective participating employer and divisional units. Company discretionary contributions amounted to \$2,455,781 and \$2,168,782 for the years ended December 31, 2018 and 2017, respectively.

Participant Accounts

Each participant's account is credited with the participant's elective deferral contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are at all times 100% vested in their elective deferral contributions and earnings thereon. Vesting in the Company's matching, discretionary and pension equalization benefit contributions are based on years of service. Participant vesting is based upon the respective benefit schedules associated with the respective participating employer and divisional unit. Participants also become fully vested upon reaching normal retirement age (55), death or upon becoming disabled.

Note A – Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow an amount not less than \$500 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance, excluding certain Company contributions, as defined in the Plan Document. Loans must be repaid over a period not to exceed four years, extended to nine years if the loans are used to purchase a primary residence. The loans are repaid through payroll withholdings, including principal and interest at the prime rate plus 1%.

Payment of Benefits

Upon retirement, death, disability, or termination of employment, a participant may take a distribution of their vested account balance in a lump-sum payment.

In-Service Withdrawals

Active participants who reach age 59½ or experience a qualifying financial hardship may withdraw all or part of their vested accounts. Hardship withdrawals will be approved only if they conform to the Plan provisions and established IRC safe harbors.

Forfeited Accounts

Forfeitures of nonvested participant balances are used to reduce future Company contributions and Plan expenses. Forfeitures allocated to reduce Company contributions totaled \$680,977 and \$0 during the years ended December 31, 2018 and 2017, respectively.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Note B – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) in fair value of registered investment companies and collective trust funds include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Excess Contributions Payable

Amounts payable to participants totaling \$422,115 for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized and unrealized appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued (See Note M).

Note C – Certification of Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from the Trustee that all of the investment and participant notes receivable information provided by the Trustee and included in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) is complete and accurate. Information as to the investments in the accounts of the Trustee, investment income, interest and all information appearing in the accompanying statements and the supplemental schedule of Assets (Held at End of Year) are presented in reliance solely upon these certifications.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Note D – Fair Value Measurements (Continued)

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end and are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trust – Valued at the NAV of units of a bank collective trust. The NAV, as provide by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

Investments at Fair Value As of December 31, 2018

Description	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 269,984,797	\$ 269,984,797	\$ -	\$ -
Collective investment trust (a)	39,155,155	-	-	-
Total investments	\$ 309,139,952	\$ 269,984,797	\$ -	\$ -

Investments at Fair Value As of December 31, 2017

Description	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 279,683,362	\$ 279,683,362	\$ -	\$ -
Collective investment trust (a)	30,196,046	-	-	-
Total investments	\$ 309,879,408	\$ 279,683,362	\$ -	\$ -

- (a) In accordance with subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note E – Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017, respectively.

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund	\$ 39,155,155	\$ -	Daily	Daily

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund	\$ 30,196,046	\$ -	Daily	Daily

Note F – Related Party Transactions

Certain mutual fund investments and collective investment trusts are managed by the Trustee. These transactions, therefore, qualify as party-in-interest transactions.

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note H – Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 27, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended and restated since its adoption, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note J – Plan Transfers

The Canton Elevator, Inc. Profit Sharing 401(k) Plan merged into the Plan effective January 1, 2018. At that time, \$4,906,134 was received into the Plan.

Effective January 1, 2019, the Nidec Minster 401(k) Retirement Savings Plan merged into the Plan. Total plan assets received including notes receivables from participants from the Nidec Minster 401(k) Retirement Savings Plan merger in 2019 were \$46,681,222. Of the transferred amount, \$7,055,169 was received on December 31, 2018 and recorded as "Investments received in advance of transfer." The remaining \$39,626,053 was transferred on January 2, 2019.

Note L – Other Employer Receivables

Management has determined certain contribution corrections needed to be made due to late true-up matching contributions and one-to-one contributions needed for nondiscrimination testing failures for the Plan years 2016 through 2018. The Plan Sponsor is in the process of correcting the noted errors through the self-correction process. During 2019, and through the date of issuance, the company has completed and funded the true-up match calculations for the Plan years 2016 through 2018 and the one-to-one contribution related to the nondiscrimination failure for 2016 Plan year. The correction for Plan Year 2017 is in process and \$236,889 plus earnings is due to the Plan. The amounts due the participants for nondiscrimination testing failures for the 2018 Plan year is not determinable at this time. As of the financial statement date, the amount due to the Plan for these items has been estimated at \$1,006,279, including lost earnings. The Company has plans to use funds available within the forfeiture account to partially-offset the amounts due. At December 31, 2018, \$325,302 has been recorded in "Other Employer Receivables" for contributions due the participants related to these corrections. As of issuance of these financial statements the amount paid into participant accounts for these corrections is \$784,198.

Employees are eligible to make elective deferral contributions and participate in Company matching contributions immediately upon hire. Certain participants, as defined in the Plan Document, are eligible to participate in the discretionary Company contribution upon completion of 60 days of service.

The Plan includes an auto-enrollment provision. Employees who meet the eligibility requirements will be automatically enrolled in the Plan with a default contribution rate of 3% and their contributions will be invested in a designated balanced fund unless changed by the participant. It is the responsibility of the participant to opt out of the Plan if not interested in participating.

Note A – Description of the Plan (Continued)

Contributions

Participants may make pre-tax, Roth, and after-tax deferral contributions up to the lesser of 40% of eligible compensation or the Internal Revenue Code (“IRC”) limitation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans.

The Company is required to make matching contributions based upon the benefit schedules associated with the respective participating employer and divisional units. Participants are eligible to receive the matching contribution immediately upon participation in the Plan. Company matching contributions amounted to \$6,406,167 and \$6,314,628 for the years ended December 31, 2018 and 2017, respectively.

The Company, at its sole discretion, may make additional contributions based upon the benefit schedules associated with the respective participating employer and divisional units. Company discretionary contributions amounted to \$2,455,781 and \$2,168,782 for the years ended December 31, 2018 and 2017, respectively.

Participant Accounts

Each participant's account is credited with the participant's elective deferral contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are at all times 100% vested in their elective deferral contributions and earnings thereon. Vesting in the Company's matching, discretionary and pension equalization benefit contributions are based on years of service. Participant vesting is based upon the respective benefit schedules associated with the respective participating employer and divisional unit. Participants also become fully vested upon reaching normal retirement age (55), death or upon becoming disabled.

Notes Receivable from Participants

Participants may borrow an amount not less than \$500 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance, excluding certain Company contributions, as defined in the Plan Document. Loans must be repaid over a period not to exceed four years, extended to nine years if the loans are used to purchase a primary residence. The loans are repaid through payroll withholdings, including principal and interest at the prime rate plus 1%.

Payment of Benefits

Upon retirement, death, disability, or termination of employment, a participant may take a distribution of their vested account balance in a lump-sum payment.

In-Service Withdrawals

Active participants who reach age 59½ or experience a qualifying financial hardship may withdraw all or part of their vested accounts. Hardship withdrawals will be approved only if they conform to the Plan provisions and established IRC safe harbors.

Forfeited Accounts

Forfeitures of nonvested participant balances are used to reduce future Company contributions and Plan expenses. Forfeitures allocated to reduce Company contributions totaled \$680,977 and \$0 during the years ended December 31, 2018 and 2017, respectively.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Note B – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) in fair value of registered investment companies and collective trust funds include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Excess Contributions Payable

Amounts payable to participants totaling \$422,115 for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized and unrealized appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued (See Note M).

Note C – Certification of Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from the Trustee that all of the investment and participant notes receivable information provided by the Trustee and included in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) is complete and accurate. Information as to the investments in the accounts of the Trustee, investment income, interest and all information appearing in the accompanying statements and the supplemental schedule of Assets (Held at End of Year) are presented in reliance solely upon these certifications.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Note D – Fair Value Measurements (Continued)

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end and are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trust – Valued at the NAV of units of a bank collective trust. The NAV, as provide by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

Investments at Fair Value As of December 31, 2018

Description	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 269,984,797	\$ 269,984,797	\$ -	\$ -
Collective investment trust (a)	39,155,155	-	-	-
Total investments	\$ 309,139,952	\$ 269,984,797	\$ -	\$ -

Investments at Fair Value As of December 31, 2017

Description	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 279,683,362	\$ 279,683,362	\$ -	\$ -
Collective investment trust (a)	30,196,046	-	-	-
Total investments	\$ 309,879,408	\$ 279,683,362	\$ -	\$ -

- (a) In accordance with subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note E – Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017, respectively.

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund	\$ 39,155,155	\$ -	Daily	Daily

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund	\$ 30,196,046	\$ -	Daily	Daily

Note F – Related Party Transactions

Certain mutual fund investments and collective investment trusts are managed by the Trustee. These transactions, therefore, qualify as party-in-interest transactions.

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note H – Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 27, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended and restated since its adoption, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note J – Plan Transfers

The Canton Elevator, Inc. Profit Sharing 401(k) Plan merged into the Plan effective January 1, 2018. At that time, \$4,906,134 was received into the Plan.

Effective January 1, 2019, the Nidec Minster 401(k) Retirement Savings Plan merged into the Plan. Total plan assets received including notes receivables from participants from the Nidec Minster 401(k) Retirement Savings Plan merger in 2019 were \$46,681,222. Of the transferred amount, \$7,055,169 was received on December 31, 2018 and recorded as "Investments received in advance of transfer." The remaining \$39,626,053 was transferred on January 2, 2019.

Note L – Other Employer Receivables

Management has determined certain contribution corrections needed to be made due to late true-up matching contributions and one-to-one contributions needed for nondiscrimination testing failures for the Plan years 2016 through 2018. The Plan Sponsor is in the process of correcting the noted errors through the self-correction process. During 2019, and through the date of issuance, the company has completed and funded the true-up match calculations for the Plan years 2016 through 2018 and the one-to-one contribution related to the nondiscrimination failure for 2016 Plan year. The correction for Plan Year 2017 is in process and \$236,889 plus earnings is due to the Plan. The amounts due the participants for nondiscrimination testing failures for the 2018 Plan year is not determinable at this time. As of the financial statement date, the amount due to the Plan for these items has been estimated at \$1,006,279, including lost earnings. The Company has plans to use funds available within the forfeiture account to partially-offset the amounts due. At December 31, 2018, \$325,302 has been recorded in "Other Employer Receivables" for contributions due the participants related to these corrections. As of issuance of these financial statements the amount paid into participant accounts for these corrections is \$784,198.

Contributions

Participants may make pre-tax, Roth, and after-tax deferral contributions up to the lesser of 40% of eligible compensation or the Internal Revenue Code (“IRC”) limitation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans.

The Company is required to make matching contributions based upon the benefit schedules associated with the respective participating employer and divisional units. Participants are eligible to receive the matching contribution immediately upon participation in the Plan. Company matching contributions amounted to \$6,406,167 and \$6,314,628 for the years ended December 31, 2018 and 2017, respectively.

The Company, at its sole discretion, may make additional contributions based upon the benefit schedules associated with the respective participating employer and divisional units. Company discretionary contributions amounted to \$2,455,781 and \$2,168,782 for the years ended December 31, 2018 and 2017, respectively.

Participant Accounts

Each participant's account is credited with the participant's elective deferral contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are at all times 100% vested in their elective deferral contributions and earnings thereon. Vesting in the Company's matching, discretionary and pension equalization benefit contributions are based on years of service. Participant vesting is based upon the respective benefit schedules associated with the respective participating employer and divisional unit. Participants also become fully vested upon reaching normal retirement age (55), death or upon becoming disabled.

Notes Receivable from Participants

Participants may borrow an amount not less than \$500 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance, excluding certain Company contributions, as defined in the Plan Document. Loans must be repaid over a period not to exceed four years, extended to nine years if the loans are used to purchase a primary residence. The loans are repaid through payroll withholdings, including principal and interest at the prime rate plus 1%.

Forfeited Accounts

Forfeitures of nonvested participant balances are used to reduce future Company contributions and Plan expenses. Forfeitures allocated to reduce Company contributions totaled \$680,977 and \$0 during the years ended December 31, 2018 and 2017, respectively.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Note B – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) in fair value of registered investment companies and collective trust funds include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Excess Contributions Payable

Amounts payable to participants totaling \$422,115 for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized and unrealized appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued (See Note M).

Note C – Certification of Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from the Trustee that all of the investment and participant notes receivable information provided by the Trustee and included in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) is complete and accurate. Information as to the investments in the accounts of the Trustee, investment income, interest and all information appearing in the accompanying statements and the supplemental schedule of Assets (Held at End of Year) are presented in reliance solely upon these certifications.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Note D – Fair Value Measurements (Continued)

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end and are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trust – Valued at the NAV of units of a bank collective trust. The NAV, as provide by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

Investments at Fair Value As of December 31, 2018

Description	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 269,984,797	\$ 269,984,797	\$ -	\$ -
Collective investment trust (a)	39,155,155	-	-	-
Total investments	\$ 309,139,952	\$ 269,984,797	\$ -	\$ -

Investments at Fair Value As of December 31, 2017

Description	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 279,683,362	\$ 279,683,362	\$ -	\$ -
Collective investment trust (a)	30,196,046	-	-	-
Total investments	\$ 309,879,408	\$ 279,683,362	\$ -	\$ -

(a) In accordance with subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note E – Investments Measured Using the Net Asset Value per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017, respectively.

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund	\$ 39,155,155	\$ -	Daily	Daily

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective Trust Fund	\$ 30,196,046	\$ -	Daily	Daily

Note F – Related Party Transactions

Certain mutual fund investments and collective investment trusts are managed by the Trustee. These transactions, therefore, qualify as party-in-interest transactions.

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note H – Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 27, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended and restated since its adoption, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note J – Plan Transfers

The Canton Elevator, Inc. Profit Sharing 401(k) Plan merged into the Plan effective January 1, 2018. At that time, \$4,906,134 was received into the Plan.

Effective January 1, 2019, the Nidec Minster 401(k) Retirement Savings Plan merged into the Plan. Total plan assets received including notes receivables from participants from the Nidec Minster 401(k) Retirement Savings Plan merger in 2019 were \$46,681,222. Note L – Other Employer Receivables

Management has determined certain contribution corrections needed to be made due to late true-up matching contributions and one-to-one contributions needed for nondiscrimination testing failures for the Plan years 2016 through 2018. The Plan Sponsor is in the process of correcting the noted errors through the self-correction process. During 2019, and through the date of issuance, the company has completed and funded the true-up match calculations for the Plan years 2016 through 2018 and the one-to-one contribution related to the nondiscrimination failure for 2016 Plan year. The correction for Plan Year 2017 is in process and \$236,889 plus earnings is due to the Plan. The amounts due the participants for nondiscrimination testing failures for the 2018 Plan year is not determinable at this time. As of the financial statement date, the amount due to the Plan for these items has been estimated at \$1,006,279, including lost earnings. The Company has plans to use funds available within the forfeiture account to partially-offset the amounts due. At December 31, 2018, \$325,302 has been recorded in "Other Employer Receivables" for contributions due the participants related to these corrections. As of issuance of these financial statements the amount paid into participant accounts for these corrections is \$784,198.
