Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. The stable value fund is valued based on a discounted cash flow methodology.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Company. Effective July 2018, a portion of Plan administrative fees will be applied to each participant's Plan account balance and charged on a monthly basis.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Risks and Uncertainties:

The Plan's investment include investments in mutual funds and collective funds holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks.

Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

2 Summary of Significant Accounting Policies, Continued

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 9, 2019, which is the date the financial statements were available to be issued.

Effective January 1, 2019, the Plan was amended to suspend employer matching contributions. Discretionary Contributions may be made for each Plan Year in an amount determined by the Employer and allocated to each person who was an active participant at any time during the Plan year.

Effective February 1, 2019, the Plan was amended to comply with the Bipartisan Budget Act of 2018. Participants may make Financial Hardship Withdrawals in the event of hardship due to an immediate and heavy financial need.

Effective May 2, 2019, employees of Cantrell Innovative Solutions LLC were permitted into the Plan.

3 Tax Status

On August 8, 2014, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds and Self Directed Brokerage Accounts:

The fair value of the mutual funds and investments in the self-directed brokerage accounts are based on quoted market prices. These fall into the Level 1 category of the valuation hierarchy.

Stable Value Fund:

The fair value of the conventional investment contract which the fund invests in is determined by a discounted cash flow methodology. The underlying synthetic investment contracts are valued based on the unit value of the various underlying collective trust funds. Purchase and sales occur daily. Withdrawals from the fund for benefit payments and participant transfers to noncompeting options to be paid to plan participants shall be made within 30 days after written notification has been received. Other withdrawals may require a twelve month advance written notice. These fall into the Level 2 category of the valuation hierarchy.

6 Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds, self-directed brokerage accounts and stable value funds, managed by Principal Trust Company, the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid by the mutual fund for the investment management services. In addition, the Plan has arrangements with various service providers and these arrangements qualify as party in interest transactions.

7 Transfer From Other Plan

During 2017, the Plan Sponsor sold its shares of Bettcher Industries, Inc. Employee Stock Ownership Plan and Trust (ESOP). The proceeds of the sale were automatically transferred to the Bettcher Industries, Inc. 401k Retirement Savings Plan (401k) and allocated in the appropriate participant accounts. A portion of the transferred amount was not 100% vested, and therefore returned to the 401k in 2018 and was recorded as a liability and distribution as of December 31, 2017.

In 2018, there were additional proceeds received by the ESOP related to the above 2017 sale transaction. These additional proceeds were automatically transferred to the 401k and allocated in the appropriate participant accounts during the year.

8 5500 Reconciliation

The following table reconciles net assets available for benefits per the financial statements at December 31, 2018 to the Form 5500 filed with the Internal Revenue Service. Form 5500 reports net assets at fair value and the financial statements report at contract value.
