Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Maumee Valley Country Day School Defined Contribution Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Teachers Insurance and Annuity Association of America, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

MAUMEE VALLEY COUNTRY DAY SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

Note 1—Description of plan

The following description of Maumee Valley Country Day School Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that covers all employees of Maumee Valley Country Day School (collectively the Organization or Plan Sponsor) except for part-time employees or if the employee is a student enrolled and attending classes as outlined in the plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may elect to contribute up to 100% of compensation, subject to Internal Revenue Code (the Code) limitations, in the form of pre-tax elective deferrals. The Plan allows for a discretionary employer matching contribution at the discretion of the Organization. The Organization matched 100% of the first 2% to 4% of base compensation contributed by each eligible Plan participant and 6% of base compensation if a participant contributed 5% for 2018. A participant must work 1,000 hours during the plan year to qualify for a matching contribution.

Vesting

Participants are immediately vested in all contributions and actual earnings thereon.

Participant accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and the Organization's contributions. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of 50% of their account balance, not to exceed \$50,000. There is no limit on the number of loans to be held outstanding at one time as long as the above criteria have not been exceeded. The note receivable repayment schedule can be no longer than five years unless the note receivable is used to acquire a personal residence, in which case the note receivable must be paid within ten years. Principal and interest is paid ratably through payroll deductions. The interest rate is generally the Federal Reserve Board Bank prime rate plus one percent. The balance in the participant's account secures the notes receivable.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity contract, or annual installments over a period of time specified in the plan agreement.

Note 1–Description of plan–continued

Plan termination

Although it has not expressed any intention to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 2–Significant accounting policies

Basis of accounting

The Plan maintains its records on the accrual basis of accounting. Benefit payments are recorded when distributed by the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions

Employee salary deferrals and employer contributions are included in income during the period the related salary is earned.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Administrative expenses

The Organization pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant. Administrative expenses that are paid by the Organization are excluded from these financial statements.

Investment valuation and income recognition

The Plan's investments are stated at fair value (except for the fully benefit-responsive investment, which is stated at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Subsequent events

The Plan has evaluated subsequent events through October 3, 2019, the date the financial statements were available to be issued.

Reclassification

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation of the current year financial statements. These reclassifications have no effect on the previously reported net assets available for benefits.

New accounting pronouncement

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement (ASU 2018-13). The focus of ASU 2018-13 is to improve the effectiveness of the disclosure requirements for fair value measurements by modifying, removing, and adding certain fair value measurement disclosure requirements. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019 with early adoption permitted. The Plan is currently evaluating the impact of ASU 2018-13 will have on the related financial statement disclosures.

Note 3—Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2018 and 2017, net appreciation (depreciation) in the value of investments, interest and dividends for the year ended December 31, 2018, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Teachers Insurance and Annuity Association of America (TIAA). Such information has not been examined by the independent auditors.

Note 4—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

MAUMEE VALLEY COUNTRY DAY SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED
December 31, 2018 and 2017

Note 4—Fair value measurements—continued

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds – valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Insurance contract – traditional non-benefit responsive insurance contract is valued as a confirmation by a third party pricing vendor, annual statements, company assessments, and discounted cash flow.

Pooled Separate Account – The fair values of participation units held in pooled accounts are based on net asset values, as a practical expedient, reported by the fund managers as of the financial statement dates and recent transaction prices. The funds invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term instruments in accordance with each fund's investment objectives.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4—Fair value measurements—continued

The following tables present the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis:

Fair Value Measurements at December 31, 2018				
Description	Total	Using		
		Level (1)	Level (2)	Level (3)
Mutual funds	\$ 10,892,264	\$ 10,892,264	\$ 0	\$ 0
Insurance contract	4,518,155			4,518,155
Total investments in the fair value hierarchy	15,410,419	\$ 10,892,264	\$ 0	\$ 4,518,155
Investments measured at net asset value (a)	567,108			
Total investment assets at fair value	<u>\$ 15,977,527</u>			

Fair Value Measurements at December 31, 2017				
Description	Total	Using		
		Level (1)	Level (2)	Level (3)
Mutual funds	\$ 12,335,328	\$ 12,335,328	\$ 0	\$ 0
Insurance contract	5,081,575			5,081,575
Total investments in the fair value hierarchy	17,416,903	\$ 12,335,328	\$ 0	\$ 5,081,575
Investments measured at net asset value (a)	557,631			
Total investment assets at fair value	<u>\$ 17,974,534</u>			

(a) In accordance with Subtopic 820-10, certain investments that were measured at the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The pooled separate account, that is measured at NAV, have no unfunded commitments, have a daily redemption frequency and require a 1 day redemption period. The fair value of the pooled separate accounts is \$567,108 and \$557,631 at December 31, 2018 and 2017, respectively.

For investments in certain entities that calculate the NAV per share as the investment's fair value measurement, the following table provides an overview, by major classification, of the nature and risks associated with such investments as well as whether it is probable those investments could be sold at amounts different from their reported net asset value per share based on redemption restrictions, if any.

Note 5—Fully benefit-responsive investment contract with insurance company

The Plan includes an account called the TIAA-CREF Traditional Benefit Responsive as an investment option available to participants, which is a fully benefit-responsive investment contract. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. Because the TIAA-CREF Traditional Benefit Responsive is fully benefit responsive, contract value is the relevant measure attribute for that portion of the net assets available for benefits as described in Note 2.

Investments of the TIAA-CREF Traditional Benefit Responsive may periodically include a Guaranteed Investment Contract (GIC), typically issued by insurance companies that provide for guarantees of interest and repayment of principal. An issuer of a GIC is contractually obligated to repay the principal and a specified interest rate or interest rate index that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 2%. Such interest rates are reviewed and may be reset monthly.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

GICs do not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default:

- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the Plan agreement
- An acquisition or reorganization in which the successor issuer does not satisfy the investment or credit guidelines applicable to issuers

MAUMEE VALLEY COUNTRY DAY SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS – CONTINUED
December 31, 2018 and 2017

Note 5—Fully benefit-responsive investment contract with insurance company—continued

The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, makes a material amendment to the Plan agreement, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan was unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value.

The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default, the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. Contract termination also may occur by the trust upon election and notice. In certain limited circumstances, contract termination by the issuer may also occur but with the trust retaining the right to require that the contract will remain in force under original terms over a period of time as underlying assets mature and are repaid.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The average yield for the investment contract was approximately 3.2% in 2018.

The crediting interest rate for the investment contract was approximately 4.27% and 4.16% at December 31, 2018 and 2017.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Note 6—Tax status

The Plan has been designed to qualify under Section 403(b) of the Code and therefore, it is not currently eligible to receive a determination letter from the Internal Revenue Service. The Plan is required to operate in conformity with the Code to maintain its qualification under Section 403(b). The Plan Administrator believes that the Plan is operating in accordance with the applicable requirements of Section 403(b) of the Code and therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

Note 7—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8—Party-in-interest transactions

Certain Plan investments are managed by the trustee; therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. There have been no known prohibited transactions with a party-in interest.
