SB Financial Group
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2018 and 2017

Note 1: Description of the Plan

The following description of the SB Financial Group Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

Effective January 1, 1985, the Plan was established by SB Financial Group (Company) to provide funds to participants to enable them to acquire stock ownership interest in the Company. Related employers who also participate in the Plan are The State Bank and Trust Company (dba The State Bank) and Rurbanc Data Services, Inc. (RDSI), collectively, the Company. RDSI was sold in January 2018 and no longer a participating employer of the Plan. The Plan operates, in relevant part, as an employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974*, as amended (ERISA).

The Plan is administered by an Employee Benefits Administration Committee. The State Bank and Trust Company - Wealth Management serves as the Plan's trustee and The State Bank serves as Plan custodian.

The Plan had purchased the Company's common stock using the proceeds of a bank borrowing. All debt is paid in full.

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after attaining age twenty-one (21). Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company may make contributions to the Plan each year. This contribution is a discretionary amount determined annually by the Company's Board of Directors. Employee and rollover contributions are not permitted.

SB Financial Group Employee Stock Ownership Plan

**Notes to Financial Statements
December 31, 2018 and 2017**

Participant Accounts

The Plan is a defined-contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's contributions and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 100% after three years of credited service.

Payment of Benefits

No distribution from the Plan will be made until a participant retires, dies or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in cash, or, if a participant elects, in the form of Company common shares plus cash for any fractional share.

The Plan contains a number of provisions relating to when distribution of benefits may be made and the manner in which they may be distributed. In general, the Plan provides that if service is terminated on any account, the distribution of the vested account balance will be made as soon as administratively feasible. If the value of the participant's vested benefit does not exceed \$5,000, then a distribution will be made as soon as administratively feasible following the termination of employment. In addition, if the value of the participant's vested benefit does not exceed \$1,000, the distribution will be made in a single lump-sum payment regardless of whether the participant elects to receive it.

Distributions will normally be made in the form of a single distribution, but may be made in installments not to exceed over a period of not more than the participant's assumed life expectancy.

Notes to Financial Statements
December 31, 2018 and 2017

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which a participant has not given instructions or instructions not timely received.

Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move a portion of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. At December 31, 2018 and 2017, there was approximately \$405,000 and \$312,000 of account balances available for diversification. Prior to January 1, 2018, diversifications were less the previous diversified balance.

Forfeitures

Forfeitures result from termination of employment under circumstances which do not entitle the participant to be fully vested in the participant's accounts and occur on the earlier of the date benefits are paid or the occurrence of five consecutive breaks in service. The nonvested portion of participant account balances are forfeited upon termination of employment. Participants who are 0% vested at termination will be deemed to have been paid and will forfeit immediately. Any forfeitures not used by the Plan can be added to the discretionary contribution and allocated to participants. Forfeitures are allocated in the same manner as Employer contributions. Forfeitures in the amount of \$1,331 and \$4,787 were reallocated during 2018 and 2017, respectively.

SB Financial Group Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2018 and 2017

Reinstatement

If a participant becomes a former participant due to severance from employment with the Employer and is reemployed before a one year break in service occurs, the participant may immediately re-enter the Plan. A former participant not fully vested who is re-employed prior to a five-year break in service shall have any forfeited account balance reinstated if the participant repays the full amount previously distributed before the earlier of the date the participant incurs five consecutive breaks in service or the fifth anniversary of the date of re-employment.

Dividends

Cash dividends received by the Plan on Employer stock are allocated to participants based on the number of shares allocated to their respective participant accounts at the date of declaration. The Plan Administrator will allocate Company stock having a fair market value equal to the cash dividends, which would have been allocated to the participant accounts. During 2018 and 2017, the Company contributed \$142,245 and \$130,440, respectively, of dividends on allocated shares.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. In the event of termination of the Plan, the entire accrued benefit of a participant is fully vested and nonforfeitable.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2018 and 2017

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair value. Other investments are recorded at cost, which approximates market value.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Dividend income is accrued on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company.

Plan Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 14, 2016, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 3: Certification of Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The State Bank, the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedules is complete and accurate.

- Investments as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017
- Investment (loss) income and other income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017
- Investment information included in the accompanying schedule of assets (held at year-end) as of December 31, 2018 and the schedule of reportable transactions for the year ended December 31, 2018

SB Financial Group
Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2018 and 2017

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 4: Administration of Plan Assets

The Plan assets, which consist primarily of sponsor Company common stock and a money market fund, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions and dividends as determined by the Company. Certain administrative functions are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan.

Note 5: Disclosures About Fair Value of Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

December 31, 2018 and 2017

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2018. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include the money market fund and employer stock. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. There are no Level 2 securities held by the Plan. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include the SB Financial Group common stock. The fair value of the common stock is determined by obtaining quoted prices on nationally recognized securities exchanges. There are no Level 3 securities held by the Plan.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are shares of mutual funds managed by The State Bank and Trust Company - Wealth Management, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan paid administrative fees to the trustee of \$37,297 and \$37,230 during 2018 and 2017, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 7: Risk and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as market and credit risk. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Financial instruments that subject the Plan to concentrations of credit risk consist principally of investments in common stock. The Plan's investments are primarily in stock of the Employer, a commercial and industrial construction company.

Effective March 15, 2019, SBFG Title, LLC has been added as a participating employer of the Plan.
