LAUTERBACH & AMEN, LLP 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Lauterbach & Amen, LLP 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 2012 by Lauterbach & Amen, LLP (the "Company") to provide retirement benefits for its employees.

The Plan is a voluntary defined contribution plan covering all eligible employees who have reached 21 years of age, except members of a collective bargaining agreement and non-resident aliens. Employees become eligible to participate in the Plan on the first day of employment after meeting the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and certain provisions of the Internal Revenue Code ("IRC").

During August 2018 the Plan changed service providers from Paychex to Voya Retirement Insurance and Annuity Company ("VOYA"). In connection with the change in service providers a new volume submitter plan was adopted with substantially the same plan provisions as the previous volume submitter plan. Additionally, participant investments were transferred from Matrix Trust Company ("Matrix"), the previous trustee, to VOYA.

The Plan provides for a plan administrator who is responsible for keeping accurate and complete records of the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions – Participants may voluntarily contribute any combination of pre-tax elective deferrals and post-tax ("Roth") elective deferrals from 1% to 100% of their eligible earnings, as defined in the Plan document, with maximum contributions of $18,500 for the year ended December 31, 2018. Participants who are 50 years of age or older by the end of the calendar year and who are making contributions to the Plan may make a catch-up contribution of up to $6,000 for 2018. Participants may also contribute amounts representing rollovers from other eligible retirement plans.

Employer Contributions – The Company makes a matching contribution based on a percentage of each participant's contribution, subject to limitations imposed by applicable provisions of the IRC. For the year ended December 31, 2018 the Company made a matching contribution equal to 100% of the employee contributions that are not in excess of 3% of eligible compensation. The Company may also make discretionary profit sharing contributions. There were no discretionary profit sharing contributions during the year ended December 31, 2018.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts – The Plan maintains an account for each participant which is credited or charged for the participant's contributions and Company matching contributions, and allocations of the Company's discretionary profit sharing contributions, Plan investment earnings or losses, and administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account balance.

Vesting – Participants are immediately vested in their voluntary contributions and all employer contributions.

Investment Options – Upon enrollment in the Plan, participants may direct the investment of their account balance among the funds available under the Plan.

Notes Receivables from Participants – Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The maximum number of loans outstanding at any one time is one. The loan is secured by the vested balance in the participant's account and bears a fixed interest rate based on the prime rate plus 1 percent at the date of the loan. Loan terms range from one to five years, except for loans used to finance the purchase of a primary residence, which could be for a longer period. Principal and interest are paid through payroll deductions. Any outstanding loans will become due and payable upon the earlier of maturity date, termination of employment, or death.

Payment of Benefits – Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump-sum distribution, installment distributions, a direct rollover distribution, or a combination of cash and a direct rollover distribution equal to the value of the participant's interest in his or her account. If the value of the participant's account is less than $1,000, the payment will be made in a lump-sum distribution as soon as administratively feasible. Participants may withdraw up to 100% of their contributions and up to 100% of their employer contributions for certain financial hardships. In service distributions may be made to a participant who has not separated from service, provided that the participant has attained age 59 ½. The payment of benefits to retired participants is required to begin no later than April 1st following the end of the year in which the participant reaches 70 ½ years of age.

LAUTERBACH & AMEN, LLP 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan prepares its financial statements under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisor, trustee, and insurance company. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivables from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative fees and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses – Any fees related to the administration of the Plan or associated with the investment of Plan assets may be paid by the Plan or by the Company. Expenses paid by the Company are excluded from these financial statements. If the Company does not elect to pay the Plan-related expenses, such expenses will generally be allocated to the participant's accounts either proportionally based on the value of account balances or as an equal dollar amount based on the number of participants in the Plan. Other administrative fees related to participant-directed transactions, such as loan and distribution processing fees, may be charged directly to the account of the participant initiating the transaction. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Concentrations – From the list of investment options, participants determine the investment funds to which their accounts are invested. As of December 31, 2018 and 2017, the target date family of funds utilized by the Plan, in the aggregate, accounted for approximately 36% and 62% of total investments, respectively. Additionally, investments in one and three individual funds accounted for approximately 10% and 47% of total investments as of December 31, 2018 and 2017.

Subsequent Events – The Company has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level l) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under this topic are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: Valued at the net asset value of accumulation units held at year-end. The NAV, as provided by VOYA, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account, dividends and contract account charges. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. Participant transactions may occur daily. The pooled separate accounts do not have unfunded commitments and are currently not subject to withdrawal limitations.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable values or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Total Assets in the Fair Value Hierarchy:				
Mutual Funds	$ 1,315	$ -	$ -	$ 1,315
Investments Measured at Net Asset Value:				
Pooled Separate Accounts				3,855,898
Investments at Fair Value				$ 3,857,213

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

	2017 (Compiled)			
	Level 1	Level 2	Level 3	Total
Total Assets in the Fair Value Hierarchy:				
Mutual Funds	$ 3,562,897	$ -	$ -	$ 3,562,897

NOTE 4 – CERTIFIED INVESTMENT INFORMATION

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information related to all investments and notes receivable from participants disclosed in these financial statements and supplemental schedules, including investments and notes receivable from participants held as of January 1, 2018 and net depreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the period from January 1, 2018 to August 24, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Matrix. Matrix held all of the Plan's investment assets as of January 1, 2018 and executed investment transactions for the period from January 1, 2018 to August 24, 2018.

The information related to investments and notes receivable from participants disclosed in these financial statements and supplemental schedules, including investments and notes receivable from participants held as of December 31, 2018 and net depreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the period from August 25, 2018 to December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Retirement Insurance and Annuity Company. VOYA held the Plan's investment assets as of December 31, 2018 and executed investment transactions for the period from August 25, 2018 to December 31, 2018.

NOTE 5 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

In 2018 the Plan entered into a funding agreement with VOYA which includes the terms and conditions related to VOYA's fully benefit-responsive Fixed Account investment option. VOYA maintains the contributions in a general account. VOYA guarantees a minimum rate of interest to the Fixed Account and may credit a current interest rate, expressed as an annual effective yield, exceeding the minimum guaranteed rate. VOYA determines the current credited interest rate based on a number of factors, including mortality and expense risks, interest rate guarantees, investment income earned on invested assets, and capital gains and/or losses on the sale of invested assets.

VOYA is contractually obligated to repay the principal and the specified interest yield that is guaranteed to the Plan. The Plan's guaranteed minimum effective crediting interest rate was 1.00% for the year ended December 31, 2018.

VOYA's Fixed Account meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value in the statement of net assets available for benefits.

Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value as reported to the Plan by VOYA represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value. No surrender charge is assessed against contract withdrawals taken for reasons of participant retirement, severance from employment, death, disability, hardship, loan or in-service withdrawals after age 59½. However, there are certain contractual restrictions on transfers to and from the Fixed Account and a positive or negative market value adjustment may apply upon contract surrender. The Plan administrator does not believe that the occurrence of any such value adjustment event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

The Plan may transact according to the terms defined in the contract at contract value or terminate the contract with the issuer at any time. Upon termination or surrender, contract value adjustments and fees may apply. The issuer reserves the right to treat accumulated withdrawals that exceed 20% of the current value of all plan accounts at the beginning of the contract year as a surrender.

NOTE 6 – TAX STATUS

During August 2018 the Plan changed service providers from Paychex to Voya Retirement Insurance and Annuity Company. In connection with the change in service providers a new volume submitter plan was adopted with substantially the same plan provisions as the previous volume submitter plan. For both volume submitter plans, the Internal Revenue Service has determined and informed the service providers by letters dated March 31, 2014, that the volume submitter plans and related trusts are designed in accordance with applicable sections of the IRC. Although the Plan has not filed for a separate determination letter the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal or state income taxes has been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan’s investments are managed by VOYA. VOYA maintains the Plan’s assets in pooled separate accounts and under a fully benefit-responsive investment contract, and, therefore, these transactions qualify as party-in-interest transactions. VOYA provides certain administrative services to the Plan pursuant to a service agreement between the Company and VOYA. VOYA receives revenue from certain investment service providers for services VOYA provides to the funds. This revenue is used to offset certain amounts owed to VOYA for its administrative services to the Plan. Because these fees are paid through this revenue sharing arrangement, rather than a direct payment, they are netted against the net appreciation or depreciation in fair value of investments.

The Plan previously maintained an agreement with Paychex and Matrix, the previous recordkeeper and trustee of the Plan, respectively. During the year ended December 31, 2018, the Plan paid Paychex and Matrix a total of $31,651 in transaction and administrative fees.

NOTE 8 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, foreign currency rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in investment value in the near term would materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and in the Statement of Changes in Net Assets Available for Benefits.

NOTE 10 – DELINQUENT PARTICIPANT CONTRIBUTIONS

During the year ended December 31, 2018, there were unintentional delays by the Company in remitting employee contributions to the Plan within the period prescribed by Department of Labor regulations. Management is determining the amount of additional employer corrective contributions and lost earnings to be contributed to the Plan to correct this error. Plan management expects to complete this evaluation and make the correction during 2019. Management believes the resolution of this matter will not have a material effect on the Plan's financial statements.
