STORAGE PRO 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Storage Pro's Storage Pro 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement and amendments for a more complete description of the Plan's provisions.

A. General

The Company has established a retirement Plan to supplement their employees' retirement income. The Plan is a defined contribution Plan covering all employees employed by the company and are at least twenty-one (21) years of age. Contributions are made into a Trust Fund which pays benefits to the employees at retirement. The Plan was originally effective on January 1, 2008. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA) of 1974, as amended. The Plan administrative committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offering, monitors investment performance.

B. Contributions

Under the provisions of the Plan, an Employee can elect to contribute any percentage of their salary provided they do not contribute more than the lesser of 100% of the Compensation you receive during that calendar year, or the annual dollar limit on 403(b) Deferrals ($18,500 for calendar year 2018). Additionally, if the Employee has attained age 50, then the Employee is eligible to make an additional catch-up contribution. This contribution cannot exceed $6,000 in 2018.

The Employer and/or participants can make the following contributions to the Plan:

- Employee Pre-Tax Salary Deferrals
- Employee ROTH Deferrals
- Employer Contribution
- Employer Safe Harbor / Additional Matching

Participants direct the investment into various investment options offered by the Plan. All contributions are invested through a Group Deferred Variable Annuity Contract ("annuity contract") issued by AXA Equitable Life Insurance.

C. Participant Accounts

Each participant's account is credited with an allocation of the participant's contribution, allocation of the employer's contribution, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting Schedule

The 401(k) employee elective deferral contributions, rollover contributions, and qualified non-elective contributions and certain other contributions are 100% vested and non-forfeitable at all times. Employee-derived contributions include elective deferrals, including catch-up contributions and rollover contributions. A participant becomes 100% vested at normal retirement, disability or death.

NOTE 1 - DESCRIPTION OF PLAN - CONT'D

D. Vesting Schedule - Cont'd

Employee's interest in their matching contribution account and Employer Contributions account will vest based on their years of vesting service in accordance with the following schedule:

Years of Vesting Service	Vested Percentage
One Year	25%
Two Years	50%
Three Years	100%
Four Years	100%
Five Years	100%
Six or More Years	100%

E. Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. If a terminated participant's vested interest is $5,000 or less, it will be distributed in a lump sum as soon as administratively feasible after the termination. For distributions caused by a participant's death, the vested interest will be distributed as soon as administratively feasible after the participant's death. Employees can also make hardship withdrawals from the Plan under eligible circumstances, such as expenses for medical care that would be tax deductible, costs related to the purchase of principal residence, payments necessary to prevent eviction from principal residence or to prevent foreclosure on mortgaged property, and tuition and related educational fees. Participants can take a lump sum distribution of up to 100% of his/her fully vested deferral account interest while still employed and provided he/she is at least 65 years of age.

F. Participant loans

Subject to certain conditions, Participants may borrow from their account balances a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance at the time of the loan. Loan terms generally do not exceed five years. The loans are secured by the balance in the Participant's account and bear interest at the prime interest rate plus one percent on the date of the loan application. Principal and interest are paid by payroll deduction.

According to Article 10 of the summary Plan description, as amended on September 28, 2018, the Plan does not permit Participants to take a loan from the Plan.

G. Forfeited Accounts

Any non-vested portions of the participant's account will be forfeited to the Plan and may be used to pay any Plan related expenses, reduce employer contributions, or they may be reallocated to provide an additional contribution to Plan participants.

There were no unallocated forfeitures at December 31, 2018.

NOTE 1 - DESCRIPTION OF PLAN - CONT'D

H. Use of Estimates

The preparation of Plan statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

I. Subsequent Events

The management has evaluated subsequent events through October 04, 2019, the date the financial statements were available to be issued.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See note 7 for discussion of fair value measurements. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investment contracts are valued at fair value, which is determined by trustee.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

Management fees and operating expenses charged to the Plan for investment are reflected as a reduction of net assets in the Statement of Changes in Net Assets Available for Benefits.

Loans to participants

Loans to participants are measured at their unpaid principal balance. As of December 31, 2018, the outstanding balance is $20,104, with no defaulted loan.

Contributions

Contributions from employees and the employer are recorded in the period in which the employer transfers the funds to the Plan.

Distributions

Distributions are recorded when paid.

Expenses

Certain Plan administrative expenses of the Plan are paid by the employer.

NOTE 3 - TAX STATUS

The Plan is subject to Section 401(k) of the Internal Revenue Code. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Organization has taken an uncertain position that is more likely than not to be sustained upon examination by the federal and state taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4 - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520. 103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, AXA Equitable Life Insurance Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments from participants:

- Total Investments
- Net Appreciation (Depreciation) in Fair Value of Investments
- Interest and Dividend Income
- Schedule of Assets held at end of year

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 - PARTY-IN-INTEREST TRANSACTION

Certain Plan investments are managed by AXA Equitable Life Insurance Company. AXA Equitable Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions are recognized as exempt party-in-interest transactions.

NOTE 6 - INVESTMENT (UNAUDITED)

The Plan's investments were held and administered by AXA Equitable Life Insurance Company. All investment information presented in the accompanying financial statements and supplemental schedules, including investments held and net appreciation/depreciation in fair value of investments and interest and dividends, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by AXA Equitable Life Insurance Company.

NOTE 6 - INVESTMENT (UNAUDITED) - CONT'D

During the year, the Plan's investments held in registered investment companies (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $58,157. The following table sets forth a summary of changes in the fair value of the Plan's investments for the year ended December 31, 2018:

	Beginning Balance	Contributions and Earnings	Distributions and Fees	Transfers	Ending Balance
Insurance company general Account	$ 218,047	$ 83,856	$ (26,302)	$ (5,662)	$ 269,939
Pooled separate account	731,399	436,073	(140,570)	(53,969)	972,933
	$ 949,446	$ 519,929	$ (166,872)	$ (59,631)	$ 1,242,872

NOTE 7 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 7 - FAIR VALUE MEASUREMENTS - CONT'D

Following is a description of the valuation methodologies used for assets measured at fair value: Insurance company general account: The Plan's group annuity contract held in the general account of AXA Equitable Life Insurance Company is valued at contract value which is equal to fair value and is considered to be a cash equivalent. Contract value represents contributions made under the contract, plus interest at the credited rate, less funds used to purchase annuities and pay for withdrawals and administrative expenses charged.

Pooled separate accounts: Management determined that the underlying investments of the funds that pooled separate accounts invest in are based on quoted market prices within an active market and as such are classified as Level 1. Investments held in pooled separate accounts are stated at market value, which represents fair value

The following table sets forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2018 and 2017:

	Fair value of investments at December 31, 2018

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the account balance of each Participant would become fully vested, as prescribed by ERISA and its related regulations, and would be distributed to each Participant according to the provisions of the Plan.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
