AAA Mid-Atlantic Defined Benefit Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

1. Description of the Plan

The following brief description of the AAA Mid-Atlantic Defined Benefit Pension Plan (the "Plan") is provided for general information purposes only. Information about the Plan agreement, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation's ("PBGC") benefit guarantee is contained in the Plan Document. Copies of the Plan Document are available from the Pension Committee. Participants should refer to the Plan Document for more complete information.

The Plan is a defined benefit plan that provides pension benefits to certain employees of AAA Club Alliance Inc. and subsidiaries ("ACA") or (the "Company"). Employees hired or rehired on or after September 1, 2004 are ineligible to participate in the Plan and have the opportunity to participate in the AAA Club Alliance Inc. 401(k) Retirement Savings Plan (the "DC Plan").

Employees become vested in the Plan after completing at least five (5) years of continuous service.

In August 2017, a Plan amendment was executed that allows for certain terminated, vested Plan participants to take elective distributions through an annuity or lump sum payment for balances between \$40,000 and \$100,000. The Plan paid out \$4,832,034 in elective distributions in 2017.

In November 2017, a Plan amendment was executed which ceased accruals of additional benefits for future services and compensation for the remaining active participants in the plan, effective July 31, 2018. This amendment has no impact on the actuarial present value of accumulated benefits disclosed in Note 3.

The Plan is administered by the Company's Pension Committee ("Committee"), which is a committee of the Board of Directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment diversification, monitors investment performance and reports to the Plan's Pension Trustees.

Wells Fargo Bank, N.A. (the "Custodian") is the Plan's custodian. Additionally, the Plan has Custodian accounts with both Discover and PNC for certain short-term investments. Vanguard Fiduciary Trust Company ("Vanguard") is a paying agent for benefit payments.

Funding Policy

The Company agreed to contribute amounts that are necessary to provide sufficient assets to meet the Plan participant and beneficiary payment requirements. Contributions to the Plan are based upon the actuarial determination of normal cost subject to a "full funding limitation" as defined by the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company can elect to make contributions in excess of the minimum contributions required if approved by the Pension Trustees and Board of Directors.

The Plan has no unfunded prior service cost. The Plan has met or exceeded the ERISA minimum funding requirements for 2018 and 2017. Pension benefits upon retirement are based on the participant's final average annual earnings and years of service.

Notes to Financial Statements

December 31, 2018 and 2017

Plan Termination

The Company has the right under the Plan to discontinue contributions at any time and terminate the Plan. In the event of termination of the Plan, the net assets of the Plan will be allocated for payment to the participants in an order of priority as described by ERISA and its regulations and the Plan document. However, in the event of termination of the Plan, the PBGC guarantees the payment of nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Some benefits may be fully or partially provided for by the then existing net assets, and may depend on the financial condition of the Plan sponsor and the level of the PBGC guarantee, while other benefits may not be provided at all.

Administrative Expenses

The Plan sponsor pays administrative expenses on behalf of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are due to be paid to participants on the first day of each month. Funding of benefit payments are made from the Plan at the end of the preceding month and recorded as cash on deposit. Benefits are recorded as benefits paid when the paying agent pays the retiree or beneficiary.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note 4 for further discussion and disclosures related to fair value measurements.

The common/collective trust (CCT) fund are valued at fair value at net asset value ("NAV") as a practical expedient. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments with respect to these investments, however, they may be subject to redemption restrictions, at the custodian's discretion, and to the extent that it is determined such actions would disrupt management of the fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair

AAA Mid-Atlantic Defined Benefit Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Standard

In August 2018, the FASB issued ASU 2018-13, "Changes to the Disclosure Requirements for Fair Value Measurements", which adds, modifies and removes several disclosure requirements related to fair value measurements. The amendments in this update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019 and early adoption is permitted. Management is currently evaluating the effect that the standard will have on the Plan's financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries.

Benefits for retired or terminated participants or their beneficiaries are based on participants' compensation during their five highest compensated consecutive years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date. For funding purposes, the Unit Credit Actuarial Cost Method was used to determine the accumulated present value of benefits (both vested and nonvested) as of the valuation date.

3. Accumulated Plan Benefits

The Plan's independent actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death or withdrawal) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of December 31, 2017 is as follows:

	2017
Vested benefits	
Participants currently receiving payments	\$ 131,900,932
Other participants	<u>122,616,587</u>
	254,517,519
Nonvested benefits	<u>-</u>
	<u><u>\$ 254,517,519</u></u>

AAA Mid-Atlantic Defined Benefit Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

The change in actuarial present value of accumulated plan benefits as of December 31, 2017 is as follows:

	2017
Actuarial present value of accumulated plan benefits as of December 31, 2016	\$ 262,333,172
Increase (decrease) during the year attributable to	
Interest Increment	7,372,647
Actuarial assumption changes	(2,781,008)
Benefit accrual and actuarial experience	2,553,821
Benefits paid	<u>(14,961,113)</u>
	<u>(7,815,653)</u>
Actuarial present value of accumulated plan benefits as of December 31, 2017	\$ 254,517,519

Significant assumptions underlying the actuarial valuation as of December 31, 2017 and 2016 are as follows:

	2017	2016
Interest rate	2.95%	2.90%
Mortality basis	RP-2014 base table projected using Scale MP-2018	RP-2014 base table projected using Scale MP-2017
Retirement age	Age 65	Age 65

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The accumulated plan benefits are presented at December 31, 2017 and the changes in accumulated plan benefits are presented for the year ended December 31, 2017. However, these financial statements use actuarial data as of and for the year ended January 1, 2018. There is not a significant difference between the actuarial data as of December 31, 2017 and January 1, 2018.

4. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

AAA Mid-Atlantic Defined Benefit Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

- | | |
|---------|--|
| Level 1 | Unadjusted quoted prices in active markets that are accessible to the reporting entity. |
| Level 2 | <p>Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:</p> <ul style="list-style-type: none">• Quoted prices for similar assets and liabilities in active markets.• Quoted prices for identical or similar assets or liabilities in markets that are not active.• Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals).• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |
| Level 3 | Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). |

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in entirety.

Mutual Funds

Shares held in mutual funds are valued at quoted market prices that represent the NAV of shares held by the Plan at year-end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by each fund, less its liabilities then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Preferred Stock

Valued using unobservable inputs supported by little or no market activity.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no transfers between levels and no changes in the methodologies from 2017 to 2018.

5. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 30, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Sponsor has indicated it will take necessary steps to maintain the Plan's qualified tax status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would result in a tax asset or liability. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

6. Plan Termination

ACA has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to certain provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan would be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be

AAA Mid-Atlantic Defined Benefit Pension Plan

Notes to Financial Statements

payable under Plan provisions in effect at any time during the five years preceding Plan termination.

- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC", a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

7. Party-in-Interest and Related Party Transactions

Certain Plan investments, comprising the interest-bearing cash and certain common/collective trust funds, are managed by Wells Fargo Bank, N.A., PNC Bank, Discover Bank, and Vanguard. Wells Fargo Bank, N.A., PNC Bank and Discover Bank are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees for these services are paid by the Company.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Information Certified by Custodian

The plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Certain Plan assets at December 31, 2018 and 2017 were held by Wells Fargo Bank, N.A., the custodian of the Plan. Accordingly, investment amounts on the Statements

Shortfall Amortization Charges for 2018

This schedule shows the Shortfall Amortization Charge (SAC), which is the Funding Shortfall (FS) amortized over a period of seven years.

To determine the Plan Funding Percentage for the Shortfall Amortization Base Exemption, plan assets are reduced by the Prefunding Balance, as shown below.

$$(\text{Assets} - \text{Prefunding Balance}) / \text{Funding Target}$$

$$=$$

$$(211,339,460 - 0) / 172,818,476 = 122.29\%$$

Since the funding percentage of 122.29% (also shown in Schedule F, #6) is greater than 100% for plan year 2018, a SAC is not needed for 2018.

Amortization Schedule

None.

5. Retirement Benefits (cont'd)

Early Retirement

- **Early Retirement Date:** The first day of any month after the Participant has both attained age 55 and completed at least 5 years of Continuous Service.
- **Early Retirement Benefit:** Calculated in the same manner as the Normal Retirement Benefit giving credit for service to the Early Retirement Date and reduced by 1/3 of 1% for each month by which the Early Retirement Date precedes the Normal Retirement Date.

- **Late Retirement Benefit:** The benefit accrued on the actual retirement date, considering earnings and service to that date.

6. Vested Benefit

- **Vested Benefit:** Calculated in the same manner as the Normal Retirement Benefit giving credit for service to the date of reference. If the value of the Vested Benefit is less than \$5,000, the Participant will receive a lump sum amount in lieu of a deferred annuity.

7. Death Benefits

Pre-Retirement Spouse's Benefit

- **Eligibility:** The death of a married Participant in active employment who has completed 5 years of Continuous Service or the death of a former married Participant entitled to a deferred Vested Benefit.
- **Spouse's Benefit:** An immediate benefit payable to the spouse calculated as if the Participant had terminated immediately before death, survived to the earliest retirement age, and retired on that date electing a joint and 50% survivor annuity with the spouse as the contingent annuitant.

9. Form of Benefit Payment

Married Participant: If a Participant is married at the time of retirement, the pension will be paid in the form of an actuarially reduced joint and survivor monthly annuity with 50% of the payment continuing to the spouse for life, if surviving at the Participant's death.

Unmarried Participant: If a Participant is unmarried at the time of retirement, the pension will be paid in the form of a single life annuity, with payments to be made in equal monthly installments until the Participant's death.

10. Optional Payment Forms

At any time prior to the commencement of benefit payments, a Participant may elect to receive pension payments in some other form, which is the actuarial equivalent of the payment form prescribed subject to the approval of the pension plan committee.

Participants of the former Maryland plan may be eligible for a lump sum payment of their benefit, even if the amount is in excess of \$5,000. A Maryland participant may receive the Maryland portion of their benefit in lump sum form, as long as they meet the eligibility for that benefit under the old Maryland plan.

All CWJ participants are eligible to receive their CWJ accrued benefit in a lump sum, even if it is over \$5,000.

In 2015, the Plan was amended to allow for vested termination participants to take their benefit in a lump sum, assuming the lump sum was less than \$40,000. This became an ongoing feature of the Plan.

11. Virginia Merger

Effective October 31, 1998, the assets and liabilities from the Automobile Club of Virginia Retirement Plan were merged into the Plan.

12. Central-West Jersey Merger

Shortfall Amortization Charges for 2018

This schedule shows the Shortfall Amortization Charge (SAC), which is the Funding Shortfall (FS) amortized over a period of seven years.

To determine the Plan Funding Percentage for the Shortfall Amortization Base Exemption, plan assets are reduced by the Prefunding Balance, as shown below.

$$(\text{Assets} - \text{Prefunding Balance}) / \text{Funding Target}$$

$$=$$

$$(211,339,460 - 0) / 172,818,476 = 122.29\%$$

Since the funding percentage of 122.29% (also shown in Schedule F, #6) is greater than 100% for plan year 2018, a SAC is not needed for 2018.

Amortization Schedule
