Notes to Financial Statements

NOTE 1 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the TP Mechanical Contractors, Inc. Retirement Savings Plan (the "Plan") are prepared under the accrual basis of accounting using accounting principles generally accepted in the United States of America ("GAAP").

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the plan document.

Benefit Payments to Participants

Benefit payments to participants are recorded when paid.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets during the reporting period. Actual results may differ from those estimates.

NOTE 1 SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Related Party Transactions/Plan Expenses

Certain Plan investments are investments in mutual funds managed by Prudential Bank & Trust, F.S.B., the custodian of the Plan assets as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Certain administrative functions are performed by the officers or employees of TP Mechanical Contractors, Inc. ("Plan Sponsor"). The Plan is not charged by the Plan Sponsor for the services of such officers or employees. Plan expenses for the custodian and certain other fees are paid in part by the Plan Sponsor. Expenses charged to the Plan totaled $210,034 for 2018.

Certain Plan expenses are paid by the Plan Sponsor and accordingly, are not reflected in the Plan's financial statements. Investment related expenses are included in net depreciation of fair value investments.

Subsequent Event Evaluation

In preparing its financial statements, the Plan has evaluated events subsequent to the balance sheet date through August 27, 2019, which is the date the financial statements were available to be issued.

NOTE 2 DESCRIPTION OF PLAN

The following description of the Plan is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Plan Sponsor. Employees become eligible on the first day of the month which coincides with the employee reaching age eighteen and completing 60 days of service. Prevailing wage employees become eligible to participate in the Plan immediately, without any applicable age and service requirements, with respect to prevailing wage contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Prevailing wage contributions will be made by the employer at the hourly rate designated for each prevailing wage employee's employment classification for the construction project at which the work was performed.

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

With respect to employee contributions, each year participants may contribute up to 100% of pretax or post tax annual compensation, as defined in the Plan. However, contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended ($18,500 in 2018). If participants do not elect otherwise, their compensation will automatically be reduced by 3% and this amount will be contributed to the Plan as elective contributions due to the Plan's auto enrollment feature. On an annual basis, the deferral percentage for each participant will be increased by 1% up to a maximum of 10%. The Plan permits catch-up elective deferrals for participants over 50 years of age subject to Internal Revenue Code limitations.

The Plan Sponsor may, at its discretion, make matching contributions. The Plan Sponsor has elected to make matching contributions equal to 100% of the employee elective deferrals (excluding prevailing wage) up to $500, or 25% of all employee contributions not to exceed 25% of the first 4% of the participants' eligible compensation, whichever is greater. For 2018, the employer matching contribution was $246,162.

Rollover Contributions

Participants may rollover their taxable portion of funds previously held for their account in another employee benefit plan to the Plan on a tax-free basis.

Participant's Account

Each participant's account is credited with the participant's and Plan Sponsor's contributions and a pro-rata allocation of the Plan's earnings. The pro-rata allocation is based upon the proportion of individual account balances to total participants' account balances in the respective investment funds. Each participant's account is reduced by participant withdrawals, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may designate investment of the amount held in their account and earnings thereon in various funds. Participants may change their investment options daily and allocation in investments must be made in increments of 1%.

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately 100% vested in their prevailing wage contributions.

Vesting in the Plan Sponsor's discretionary employer matching contributions as well as the actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service as illustrated below:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts the lesser of $50,000 or 50 percent of their vested account balance. The minimum note receivable is $1,000 and participants may only have one note at a time. The notes are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 6.25 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement after age 59½, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments.

In-service distributions are permissible for participants that have attained the age of 59½. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment or annual installments.

In conditions of "financial hardship", a participant may apply to the Plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code. Furthermore, participants receiving a financial hardship distribution will forfeit their right to contribute to the Plan for a period of six months following the hardship distribution.

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

For the years ended December 31, 2018 and 2017, forfeited non-vested accounts totaled $146,157 and $97,064, respectively. Forfeitures are to be used to pay for Plan fees or to reduce employer contributions. For 2018, $10,497 was used to offset fees and $74,195 was used to offset the employer matching contribution.

NOTE 3 FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan has entered into a group annuity product issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"). Amounts contributed to the contract are deposited in PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC.

Generally, there are not any events that could limit the ability of the plan to transact at contract value paid within 90 days or in rare circumstances, contract value paid overtime. There are not any events that allow the issuer to terminate the contract and which require the Plan Sponsor to settle at an amount different than contract value paid either within 90 days or over time.

NOTE 4 FAIR VALUE MEASUREMENTS

GAAP provisions for accounting for Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP provisions for accounting for Fair Value Measurements are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation approaches used for assets measured at fair value.

Mutual funds: Value at the net asset value ("NAV") of shares held by the Plan at year end.

Pooled separate account: Valued at fair value by taking the fair value of the investments in the subaccount as of the applicable business day, less the investment fees and less the administrative fees.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Description	12/31/2018	Level 1	Level 2	Level 3

(c) The Schedule H, Line 4i – Schedule of Assets (Held at End of Year) at December 31, 2018.

Net assets available for benefits per Form 5500	$ 31,363,458

NOTE 8 TAX STATUS

The Plan Sponsor has adopted a prototype plan which has received an opinion from the Internal Revenue Service ("IRS") for Prudential Bank & Trust, F.S.B. dated April 29, 2014, which states that the specimen document, as then designed, satisfies the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Accordingly, the accompanying financial statements do not include a provision for federal income taxes. Both the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related Plan was tax exempt as of the financial statement date.

TP MECHANICAL CONTRACTORS, INC. RETIREMENT SAVINGS PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the TP Mechanical Contractors, Inc. Retirement Savings Plan (the "Plan") are prepared under the accrual basis of accounting using accounting principles generally accepted in the United States of America ("GAAP").

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the plan document.

Benefit Payments to Participants

Benefit payments to participants are recorded when paid.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets during the reporting period. Actual results may differ from those estimates.

NOTE 1 SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Related Party Transactions/Plan Expenses

Certain Plan investments are investments in mutual funds managed by Prudential Bank & Trust, F.S.B., the custodian of the Plan assets as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Certain administrative functions are performed by the officers or employees of TP Mechanical Contractors, Inc. ("Plan Sponsor"). The Plan is not charged by the Plan Sponsor for the services of such officers or employees. Plan expenses for the custodian and certain other fees are paid in part by the Plan Sponsor. Expenses charged to the Plan totaled $210,034 for 2018.

Certain Plan expenses are paid by the Plan Sponsor and accordingly, are not reflected in the Plan's financial statements. Investment related expenses are included in net depreciation of fair value investments.

Subsequent Event Evaluation

In preparing its financial statements, the Plan has evaluated events subsequent to the balance sheet date through August 27, 2019, which is the date the financial statements were available to be issued.

NOTE 2 DESCRIPTION OF PLAN

The following description of the Plan is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Plan Sponsor. Employees become eligible on the first day of the month which coincides with the employee reaching age eighteen and completing 60 days of service. Prevailing wage employees become eligible to participate in the Plan immediately, without any applicable age and service requirements, with respect to prevailing wage contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Prevailing wage contributions will be made by the employer at the hourly rate designated for each prevailing wage employee's employment classification for the construction project at which the work was performed.

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Contributions (Continued)

With respect to employee contributions, each year participants may contribute up to 100% of pretax or post tax annual compensation, as defined in the Plan. However, contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended ($18,500 in 2018). If participants do not elect otherwise, their compensation will automatically be reduced by 3% and this amount will be contributed to the Plan as elective contributions due to the Plan's auto enrollment feature. On an annual basis, the deferral percentage for each participant will be increased by 1% up to a maximum of 10%. The Plan permits catch-up elective deferrals for participants over 50 years of age subject to Internal Revenue Code limitations.

The Plan Sponsor may, at its discretion, make matching contributions. The Plan Sponsor has elected to make matching contributions equal to 100% of the employee elective deferrals (excluding prevailing wage) up to $500, or 25% of all employee contributions not to exceed 25% of the first 4% of the participants' eligible compensation, whichever is greater. For 2018, the employer matching contribution was $246,162.

Rollover Contributions

Participants may rollover their taxable portion of funds previously held for their account in another employee benefit plan to the Plan on a tax-free basis.

Participant's Account

Each participant's account is credited with the participant's and Plan Sponsor's contributions and a pro-rata allocation of the Plan's earnings. The pro-rata allocation is based upon the proportion of individual account balances to total participants' account balances in the respective investment funds. Each participant's account is reduced by participant withdrawals, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants may designate investment of the amount held in their account and earnings thereon in various funds. Participants may change their investment options daily and allocation in investments must be made in increments of 1%.

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately 100% vested in their prevailing wage contributions.

Vesting in the Plan Sponsor's discretionary employer matching contributions as well as the actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service as illustrated below:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts the lesser of $50,000 or 50 percent of their vested account balance. The minimum note receivable is $1,000 and participants may only have one note at a time. The notes are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 6.25 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement after age 59½, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments.

In-service distributions are permissible for participants that have attained the age of 59½. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment or annual installments.

In conditions of "financial hardship", a participant may apply to the Plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code. Furthermore, participants receiving a financial hardship distribution will forfeit their right to contribute to the Plan for a period of six months following the hardship distribution.

NOTE 2 DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

For the years ended December 31, 2018 and 2017, forfeited non-vested accounts totaled $146,157 and $97,064, respectively. Forfeitures are to be used to pay for Plan fees or to reduce employer contributions. For 2018, $10,497 was used to offset fees and $74,195 was used to offset the employer matching contribution.

NOTE 3 FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan has entered into a group annuity product issued by Prudential Retirement Insurance and Annuity Company ("PRIAC"). Amounts contributed to the contract are deposited in PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC.

Generally, there are not any events that could limit the ability of the plan to transact at contract value paid within 90 days or in rare circumstances, contract value paid overtime. There are not any events that allow the issuer to terminate the contract and which require the Plan Sponsor to settle at an amount different than contract value paid either within 90 days or over time.

NOTE 4 FAIR VALUE MEASUREMENTS

GAAP provisions for accounting for Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP provisions for accounting for Fair Value Measurements are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation approaches used for assets measured at fair value.

Mutual funds: Value at the net asset value ("NAV") of shares held by the Plan at year end.

Pooled separate account: Valued at fair value by taking the fair value of the investments in the subaccount as of the applicable business day, less the investment fees and less the administrative fees.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

NOTE 8 TAX STATUS

The Plan Sponsor has adopted a prototype plan which has received an opinion from the Internal Revenue Service ("IRS") for Prudential Bank & Trust, F.S.B. dated April 29, 2014, which states that the specimen document, as then designed, satisfies the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Accordingly, the accompanying financial statements do not include a provision for federal income taxes. Both the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related Plan was tax exempt as of the financial statement date.
