Note 1. Plan Description

The following description of the Dexter 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all full-time employees of Dexter Axle Company, Dexter Marine Products, Industrial Axle Company, Quality Trailer Parts, Century Wheel & Rim, and Tie Down Engineering (collectively the "Employers" or the "Company"), who are immediately eligible to participate as defined by the Plan document and are not a member of a unit of employees covered by a collective bargaining agreement or a non-resident alien. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, individual participants may elect to contribute a percentage of their annual compensation as defined in the Plan Agreement limited to the maximum amount allowed by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute a matching contribution determined at the discretion of the Company's Board of Directors. During the year ended December 31, 2018, the Company elected to match 100% of the first 4% of compensation that an employee contributed. In addition, for the year ended December 31, 2018, the Company made a Safe Harbor contribution equal to 3% of compensation for all eligible employees. Additional amounts may be contributed at the option of the Company's Board of Directors. Company contributions are invested in a manner similar to participant contributions. Contributions are subject to certain limitations. Total Company contributions for the year ended December 31, 2018, were approximately $4,288,000.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contribution, (b) Plan earnings, and charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting: Participants are immediately vested in their voluntary contributions and the Company's Safe Harbor contributions, plus actual earnings thereon. Vesting in the Company's discretionary match, plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Investment options: Upon enrollment in the Plan, participants direct the investment of their contributions into a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Active participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. One outstanding loan is permitted per participant at any time. The maximum loan term allowed is 54 months. The loans are collateralized by the balance in the participant's account and bear interest at rates commensurate with prevailing rates. At December 31, 2018, interest rates ranged from 4.25% to 6.25%. Principal and interest are payable each pay period, primarily through payroll deduction.

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures of non-vested employer's matching contributions are used to reduce future Company contributions to the Plan. During the year ended December 31, 2018, approximately $60,000 of forfeited participant accounts were used to reduce Company contributions. At December 31, 2018, forfeited non-vested accounts available to reduce future contributions were not material.

Payment of benefits: Upon resignation, termination, or retirement from the Company, a participant may elect to receive either a lump-sum amount equal to the vested value of his or her account or equal monthly/annual installments. In the event of a participant's death, the decedent's beneficiary will receive a lump-sum amount as soon as administratively feasible. Benefits are recorded when paid.

Administration of Plan assets: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid by the Plan sponsor and, therefore, are not reflected in the Plan's financial statements.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by investment advisors, the trustee and other third parties. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. The Plan is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Note 2. Significant Accounting Policies (Continued)

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 10, 2019, the date the financial statements were available to be issued.

Note 3. Investments Certified by Charles Schwab Bank (Charles Schwab)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Charles Schwab, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The following table presents the values of the Plan's investments as certified by Charles Schwab at December 31, 2018 and 2017.

	2018	2017
Common collective trusts, at net asset value	$ 2,440,278	$ 1,204,198
Mutual funds, at fair value	62,923,124	66,382,088
	$ 65,363,402	$ 67,586,286

The value of notes receivable from participants certified by Charles Schwab at December 31, 2018 and 2017, was $998,352 and $767,173, respectively.

Charles Schwab has also certified to the completeness and accuracy of ($8,624,990) of net deprecation in the fair value of investments all related to mutual funds, $3,865,133 in interest and dividends related to the aforementioned investments and $37,792 of interest related to the notes receivable from participants for the year ended December 31, 2018.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4. Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Shares of common collective investment trusts: Valued based on the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 62,923,124	$ -	$ -	$ 62,923,124
Investments in fair value hierarchy	$ 62,923,124	$ -	$ -	62,923,124
Investments at NAV				2,440,278
Investments at fair value				$ 65,363,402

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 66,382,088	$ -	$ -	$ 66,382,088
Investments in fair value hierarchy	$ 66,382,088	$ -	$ -	66,382,088
Investments at NAV				1,204,198
Investments at fair value				$ 67,586,286

Note 4. Fair Value Measurements (continued)

For investments in certain entities that calculate the NAV per share as the investment's fair value measurement, the following table provides an overview of the nature and risks associated with such investments as well as whether it's probable those investments are being sold at amounts different from their reported NAV per share based on redemption restrictions, if any.

Investment Category	Fair Value 2018	Fair Value 2017	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Period Notice
Common Collective Trust Fund	$ 2,440,278	$ 1,204,198	$ -	Daily	1 Day

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no transfers between levels.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Related Party Transactions

Certain Plan investments are managed by Charles Schwab. Charles Schwab performs services for the Plan, and therefore, these transactions qualify as party-in-interest. Fees paid to Charles Schwab by the Plan for the year ended December 31, 2018, were approximately $170,000.

Note 7. Tax Status and Uncertain Tax Positions

The Plan is an adopter of a non-standardized prototype plan by Charles Schwab. As such, no individual determination letter is available. The Internal Revenue Service has determined that the prototype plan was designed in accordance with applicable sections of the Internal Revenue Code (Code). The Plan Administrator believes that the Plan is designed and is being operated in compliance with applicable requirements of the Code.

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2015.
