Shoppa's Material Handling, Inc. 401(k) Profit Sharing Plan & Trust
Notes to Financial Statements
For The Years Ended December 31, 2018 and 2017

Note 1: Description of Plan

The following brief description of the Shoppa's Material Handling, Inc. 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan documents for complete description regarding the Plan's definitions, benefits, eligibility, and other matters.

General
The Plan is a defined contribution plan established to provide retirement, disability, and death benefits to qualified employees by Shoppa's Material Handling, Inc. (the "Company"). The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA")

Under the Plan document, Empower Retirement (the "Custodian") holds the Plan's investment assets, executes investment transactions and maintains the accounting of participant accounts.

Eligibility
The Plan covers all full-time employees of the Company who have attained the age of twenty-one (21) and have completed six months of service. Eligible plan participants may begin making contributions after meeting the eligibility requirements on the entry dates, January 1st or July 1st.

Contributions
Each year, participants may contribute a portion of their annual compensation as pre-tax contributions, as defined in the Plan, up to the maximum amount allowed by the IRC. In addition, participants over the age of 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans ("rollovers").

The Company may make a discretionary contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals each payroll period. Each year, the Company will determine the formula for the discretionary matching contribution. In addition, the Company may make a discretionary non-elective contribution to the Plan which is divided among Plan participants in proportion to their compensation.

Participants direct the investment of their contributions and rollover contributions, if applicable, and the Company's matching contributions, if any, into various investment options offered by the Plan.

Participant accounts
Each participant's account is credited with the participant's salary deferral contribution, the participant's allocation of the Company's contributions, and allocations of Plan earnings and administrative expenses. Allocations are based on participant account balances or earnings, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: Description of Plan (Continued)

Vesting
Participants are immediately vested in their contributions and rollovers, if applicable, plus actual earnings thereon. Vesting in Company matching and discretionary contributions portion of their accounts is based on years of continuous service with the Company. Participants become 20% vested in employer contributions after two years, and an additional 20% each year thereafter until 100% vested upon six years of credited service.

Notes receivable from participants
Participants are allowed to borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid ratably through payroll deduction over a period not to exceed five years from the date of the loan, unless used to acquire a principal residence.

Payment of benefits
Upon termination of service, death, disability, or reaching normal retirement age, a participant may receive a lump-sum payment or as installments in certain circumstances, as defined in the Plan

Forfeited accounts
In accordance with Plan provisions, amounts of forfeited non-vested account balances can be used to reduce Company contributions. During the years ended December 31, 2018 and 2017, no amounts were used to reduce the Company's contributions. As of December 31, 2018 and 2017, there were approximately $40,000 and $27,000, respectively in allocated forfeitures available to reduce Company contributions.

Administrative expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note 2: Summary of Significant Accounting Policies

Basis of presentation
The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Note 2: Summary of Significant Accounting Policies (Continued)

Use of estimates
Management uses estimates and assumptions in preparing financial statements that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in a fully benefit-responsive guaranteed insurance contract that is valued at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contract, less withdrawals and administrative expense, if any.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the cash basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balances is reduced and a benefit payment is recorded.

Payments of benefits
Benefit distributions are recorded when paid.

Note 3: Fair Value Measurement

The accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Note 3: Fair Value Measurement (Continued)

Level 1 – Quoted prices in active markets for identical investments.

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 – Unobservable inputs that are not corroborated by market data.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

Registered Investment Companies
Registered investment companies ("RICs") are valued daily based on exchange listed prices, for exchange traded RICS, or net asset value ("NAV") for open-ended continuously offered closed-end RICs and are classified in Level 1 of the fair value hierarchy. These RICs are required to publish their daily NAV and to transact at that price. The RICs held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	**$ 8,286,555**	**$ 0**	**$ 0**	**$ 8,286,555**
Investments at fair value				**$ 8,286,555**

Note 3: Fair Value Measurement (Continued)

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	**$ 7,936,873**	**$ 0**	**$ 0**	**$ 7,936,873**
Investments at fair value				**$ 7,936,873**

Note 4: Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements is complete and accurate:

	2018	2017
Investments		
Investments at fair value	**$ 8,286,555**	$ 7,936,873
Investments at contract value	**929,764**	967,144
Total	**$ 9,216,319**	$ 8,904,017
Notes receivable from participants	**$ 295,452**	$ 302,728
Investment Income:		
Net (depreciation) in fair value of investments	**$ (1,385,229)**	
Interest and dividends	**$ 840,470**	

Note 5: Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants will become 100 percent vested in the Company's contribution portion of their account.

Note 6: Tax Status

On March 31, 2014, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Company to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on technical merits, to be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2015.

Note 7: Parties-in-Interest

Plan investments include shares of pooled investment accounts and a guaranteed insurance contract managed by the Custodian and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations. Notes receivable from participants are considered parties-in-interest to the Plan and are exempt from the prohibited transaction rules.

Note 8: Fully Benefit-Responsive Investment Contract

The Plan has a fully benefit responsive group annuity contract with an insurance company, which is called the Key Guaranteed Portfolio Fund. The insurance company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses.

Since the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The group annuity contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 8: Fully Benefit-Responsive Investment Contract (Continued)

Certain events limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (1) premature termination of the contracts by the Plan, (2) plant closings, (3) layoffs, (4) Plan termination, (5) bankruptcy, (6) and early retirement incentives. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than the contract value.

The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the insurance company. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the product will be established based on the earnings of the underlying assets in the entire medium-long term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The average yield earned by the Plan for the group annuity contract is derived by averaging the quarterly gross interest rates for the fund over the year. The average yield was 1.10% for the years ending 2018 and 2017. The actual average yield earned by the Plan for the group annuity contract is derived by averaging the Plan's quarterly interest rates. The average for 2018 and 2017 was 1.10%.

Note 9: Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31:

	2018	2017
Net assets available for benefits per the finanical statements	**$ 9,528,760**	$ 9,215,639
Less: employer contributions receivable	**(13,928)**	(3,432)
Less: participant contributions receivable	**(42,309)**	(5,462)
Add: Liability for refund of excess contributions	**39,248**	0
Net assets available for benefits per schedule to the Form 5500	**$ 9,511,771**	$ 9,206,745

Note 10: Risks and uncertainties

The Plan provides investment options in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Note 11: Excess Contributions

For the year ended December 31, 2018, amounts payable to participants for contributions in excess of amounts allowed by the IRS totaled $39,248 and were recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants after March 15, 2019; therefore, Form 5330 will be filed.

Note 12: Non-exempt Transactions

The Company received a letter dated April 13, 2018 notifying the Company that the Plan has been selected for DOL audit, and in connection with that audit, certain processes related to the Plan are being reviewed. The DOL concluded its audit and on May 2, 2019, the Company received a letter finding that from at least January 3, 2014, the Company withheld employee contributions and participant loan repayments from employee paychecks but did not forward them to the Plan for investment on time. During this period, the total amount of money the Company forwarded late was approximately $1.8 million, including amounts outstanding. Of that amount, approximately $28,000 in employee contributions and participant loan repayments were not remitted to the Plan at all. The Company took the necessary steps to correct these findings and on September 9, 2019, received a letter from the DOL considering this matter closed. The accompanying Schedule of Delinquent Participant Contributions discloses these transactions in accordance with the DOL's Rules and Regulations of Reporting and Disclosure under ERISA.

Note 13: Subsequent Events

The Plan has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued. Other than the event mentioned in Note 12, no other material recognizable subsequent events were identified.
