SELECT INDUSTRIES CORP. 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN:

The following description of the Select Industries Corporation 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering substantially all full-time employees of the Employer who have 3 months of service and are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Benefits Committee is responsible for oversight of the Plan. The Benefits Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.
2. *Contributions.* Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, limited to the statutory maximum contribution (\$18,500 for 2018 and \$18,000 for 2017). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions (\$6,000 for 2018 and 2017). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation. The Employer has a discretionary match provision, which is determined by the Board of Directors. For 2018 and 2017, the Employer contributed 50 percent of the first 6 percent of eligible compensation contributed to the Plan. The Employer also has a discretionary profit sharing provision, which is determined annually by the Board of Directors. During 2018 and 2017, no profit sharing contributions were made. The match contributions are directed by the participants into the investment options offered by the Plan. Contributions are subject to certain IRS limitations.
3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and Employer matching contributions as well as allocations of the Plan earnings. Participant accounts are charged with an allocation of administrative expenses if applicable. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. *Vesting.* Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service.
5. *Notes Receivable From Participants.* Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.25%, which are determined by the Plan administrator. Principal and interest is paid ratably through weekly and bi-weekly payroll deductions.
6. *Payment of Benefits.* On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installment payments. The Plan allows in-service distributions, once the participant has attained age 59 1/2.

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN (Continued):

7. *Forfeited Accounts.* At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$1,409 and \$1,132, respectively. These accounts will be used to reduce future employer contributions. Also, in 2018 and 2017, employer contributions were reduced by \$2,317 and \$13,416, respectively, from forfeited nonvested accounts.

B. SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Committee determines Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Note receivable from participants are measured at their unpaid principal balance plus an accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Payment of Benefits

Benefits are recorded when paid.

SELECT INDUSTRIES CORP. 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

B. SUMMARY OF ACCOUNTING POLICIES (Continued):

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of the notes receivable from participants are charge directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Reclassifications

Certain prior year amounts have been reclassified in order to conform to current year presentation.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2019, which is the date the financial statements were available to be issued.

C. CERTIFIED INVESTMENTS:

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2018 and 2017, and net appreciation in fair value of investments for the years ended December 31, 2018 and 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by JPMorgan Chase Bank, N.A. E. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include - quoted prices for similar assets or liabilities in active; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: Valued at closing price or net asset value (NAV) of the underlying readily marketable securities depending on the classification of the underlying securities - closing price for money market funds, government securities, corporate bonds, and equity securities, and NAV for mutual funds.

The following tables present the plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2018 and 2017.

F. COMMON/COLLECTIVE TRUST:

The Plan invests in the JPMorgan Stable Asset Income Fund (the fund), a common/collective fund that invests in a high diversified fixed income strategy combined with investment contracts issued by American General (A+), ING (A-), Metlife (AA-), Prudential (AA-), and Transamerica (AA-). The fixed income strategy consists of investment in other collective trust funds and a separate account which may include U.S. treasury and agency securities, mortgage backed securities, asset-backed securities, private mortgages, corporate debt and short-term investments. The Plan's interest in the trust is calculated by applying the Plan's ownership percentage in the trust to the total fair value of the trust. The underlying assets owned by the Fund consist primarily of readily marketable fixed income securities with quoted market prices.

G. TAX STATUS:

The plan is a prototype plan designed by their third-party administrator. The IRS has determined and informed the third-party administrator by a letter dated August 30, 2001, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the prototype determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

I. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
