The Company's profit sharing contribution is allocated among participants based on the proportion of their eligible compensation to the total eligible compensation of all participants. The Company did not make a profit sharing contribution for the year ended December 31, 2018.

Participant Accounts: The Plan maintains a separate account for each participant. This account consists of the participant's contributions, the participant's share of employer contribution, and their share of the Plan's net earnings and losses.

Notes Receivable from Participants: The Plan allows participants to borrow from their individual accounts. Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance reduced by the participant's highest outstanding note balances in the previous 12 months. Participants may have no more than two outstanding notes at any given time and the notes bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Repayments of principal and interest are received through payroll deductions.

Vesting: Participants are immediately vested in their deferral and rollover contributions plus actual earnings thereon.

Participants vest in their employer contributions in accordance with the following table:

Years of Vesting Service	Vested Equity
Less than 1 year	0%
1	10
2	20
3	40
4	60
5	80
6	100

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

Forfeited Accounts: Forfeitures of employer contributions and the earnings on those contributions resulting from participants who leave the Company prior to vesting are retained in an unallocated forfeiture account. The Company may first use forfeitures to pay any administrative expenses and then used to offset any employer contributions. There was no forfeiture balance at December 31, 2018 or 2017.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The accounting principles and procedures followed by the Plan conform to accounting principles generally accepted in the United States of America. The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit responsive investment contracts, are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Benefit Payments: Benefits are recorded when paid.

Accounting Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events: Plan management has evaluated all events or transactions that occurred from December 31, 2018 to October 10, 2019, the date the financial statements were available to be issued.

(Continued)

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all of the Plan's mutual funds and investment contracts and the notes receivable from participants, including the associated investment income and interest income on earned notes receivable from participants, was obtained or derived from information certified as complete and accurate by Great West Trust Company, LLC and Great West Life and Annuity Insurance Company. This information has not been audited by independent accountants.

Investments held in a separately managed fund of $3,405,201 and $3,937,931 at December 31, 2018 and 2017, respectively, which consist of cash, corporate bonds, corporate stocks, asset-backed securities and municipal bonds along with the investment loss related to these investments of $252,680 for the year ended December 31, 2018 have not been certified.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Corporate stock: The fair values of corporate stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Corporate bonds and asset backed securities: Corporate bonds and asset backed securities are valued at their most recent bid prices (sales prices if their principal market is an exchange) in the principal market in which such securities are traded, as determined by recognized dealers in such securities, or are valued on the basis of information provided by a pricing service (Level 2 inputs).

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan holds a traditional fully benefit-responsive investment contract with Great West Life & Annuity Insurance Company (the Issuer) as of December 31, 2018. The issuer maintains the contributions in its general account. The issuer's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract value of the Plan's traditional fully benefit-responsive investment contract was $709,337 and $262,815 at December 31, 2018 and 2017, respectively.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

(Continued)

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. In the event of the Plan's termination, participants will become 100% vested in their accounts.

NOTE 7 - TAX STATUS

The Plan is stated on a volume submitter profit sharing plan with CODA document that has received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. Since the Plan is using a volume submitter profit sharing plan with CODA document that has received a favorable opinion letter, the Plan is not required to file for an individual determination letter. The Plan has been amended since the adoption of the volume submitter profit sharing plan with CODA plan; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. The Plan invests in a fully benefit responsive investment contract issued by a service provider. Accordingly, this investment qualifies as a party-in-interest transaction. The Plan holds notes receivable with participants which also qualify as party-in-interest transactions. Investment and administrative fees paid to service providers. Professional fees for the audit of the Plan are paid by the Plan. These fees and expenses qualify as party-in-interest transactions.
