Independent Auditor's Report

Plan Administrator and Plan Management
Wittenberg University Defined Contribution Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Wittenberg University Defined Contribution Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA and CREF), as issuer of certain investments and the recordkeeper of the Plan, and as agent for TIAA, FSB, the trustee of certain Plan investments, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the issuer/agent holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the issuer/agent as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that the information provided to the Plan Administrator by the issuer/agent is complete and accurate.

In addition, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Further, as described in Note 9, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income (loss), and distributions related to such accounts, have also been excluded from the accompanying statement of changes in net assets available for benefits. Under accounting principles generally accepted in the United States of America, these accounts and the related income (loss) and distributions should have been included in the accompanying financial statements. The effects of these excluded annuity and custodial accounts and the related income (loss) and distributions are not determinable.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedule

The supplemental schedule, Schedule H, Part IV, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2018, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA) and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraphs, we do not express an opinion on the supplemental schedule.

Wittenberg University Defined Contribution Retirement Plan

Notes to Financial Statements

Note 1. Plan Description

The following brief description of Wittenberg University Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General: The Plan is a defined-contribution plan sponsored by Wittenberg University (the University). The Plan allows for two different sections within the Plan which are the defined-contribution portion (DC portion) and tax deferred annuity portion (TDA portion). The DC portion of the Plan is for the benefit of employees who have at least one year of service with 1,000 hours, excluding employees who are considered students, independent contractors, or adjunct faculty. An employee is immediately eligible if their prior employment was with another employer that sponsored a 403(b) plan. The TDA portion of the Plan is for the benefit of employees immediately upon hire. Roth contributions are also allowed and any contribution percentages above the required amount for a match, after one year of service, will be deposited into the TDA portion of the participants' account. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Each year, participants may contribute up to the maximum amount of pre-tax annual compensation, as defined by the Plan and as allowable under the Internal Revenue Code (IRC). Participants who attained age 50 before the end of the Plan year are eligible to contribute additional contributions, as allowable under the IRC. Any participant who has 15 years of service with the University may also make Special Code Section 403(b) Catch-Up Contributions. The Plan also permits employees to contribute amounts representing distributions from other qualified plans.

The University matching contribution is at the discretion of the University. In 2018, the University provided a matching contribution equal to 5% of the participant's eligible compensation for all participants, provided they were deferring at least 2%. The University may also contribute an additional, non-elective contribution to participants in certain job classifications as determined at the discretion of the University. There were no non-elective contributions during 2018.

The Plan document also includes an automatic deferral feature whereby a participant is treated as electing to defer 5% of eligible compensation unless the participant has made an affirmative election otherwise.

Participant accounts: Each participant's account is credited with the participant's contributions, University's contributions and Plan investment results. The allocation of the participant and University contributions follows the participant's directed investment options. Allocations of Plan investment results are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting: Participants are immediately vested in their contributions as well as the University's contributions, plus actual earnings thereon.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Plan loans: Participants may obtain loans directly from TIAA-CREF, using a portion of their account balance in the Plan as security for the loan (see Note 7).

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of service, or if the participant becomes disabled, a participant may elect to receive either a lump-sum amount equal to the value of his account, an annuity contract (if assets are held in a custodial account) or converted to an income option (if assets are invested in an annuity contract). A participant may elect to receive a distribution of their rollover contribution at any time. Withdrawals other than for termination are permitted under certain circumstances provided by the Plan.

Administrative expenses: The Plan provides that administrative expenses of the Plan are to be paid by the Plan or by the University, at the University's discretion.

The Plan receives servicing credits in the revenue credit account. This account is credited with revenue sharing from the investment contract agreement. Funds are typically credited at the beginning of the year, but may be allocated at any time and are considered Plan assets. The credits may be used to pay Plan expenses or any excess funds available may be allocated to Plan participants. Credits received by the Plan were \$16,309 in 2018. These credits are included as interest and dividends in the statement of changes in net assets available for benefits. Credits will be allocated to participants' accounts. At December 31, 2018 and 2017, total unallocated credits were \$16,954 and \$11,146, respectively.

Plan termination: Although it has not expressed any intent to do so, the University has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for certain fully benefit-responsive guaranteed annuity contracts held by TIAA-CREF, which are reported at contract value as described in Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The University determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 4 for discussion of fair value measurements.

Because the guaranteed annuity investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed annuity investment contract. Contract value, as reported to the Plan by TIAA-CREF, is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Participants' and University contributions are recognized each pay date when the related compensation is paid to employees.

Payment of benefits: Benefits are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2018 statement of net assets available for benefits.

Approximately 55% of the Plan's investments are held in two funds at December 31, 2018 and 2017 (the CREF Stock R2 Fund and the TIAA Traditional Non Fully Benefit Responsive Fund). As such, this is considered a concentration of credit risk.

The guaranteed annuity contract has been certified at contract value, which approximates fair value, as reported to the Plan by TIAA-CREF. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant causing the financial statements to become materially misstated.

Subsequent events: Subsequent events have been evaluated through October 10, 2019, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by TIAA and CREF, as Issuer and as Agent for TIAA, FSB, the Trustee

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements, that was prepared by or derived from information provided by TIAA and CREF and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from TIAA and CREF that information provided to the Plan Administrator by TIAA and CREF related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets at December 31:

	2018	2017
Investments, at fair value:		
Money market fund	\$ 116,570	\$ 276,678
Variable annuity contracts	52,574,730	61,379,792
Guaranteed annuity contract - non-fully benefit-responsive	42,350,504	42,782,281
Mutual funds	24,345,647	26,020,577
Pooled separate account	5,138,203	4,937,530
	<u>124,525,654</u>	<u>135,396,858</u>

	<u>\$ 131,722,027</u>	<u>\$ 141,796,916</u>

TIAA-CREF also certified to the completeness and accuracy of the net depreciation in fair value of investments of \$6,671,491 and of interest and dividends of \$2,305,812 for the year ended December 31, 2018.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

Money market fund: Valued at amortized cost, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuity contracts: Valued at the daily unit value published on NASDAQ. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund.

Guaranteed annuity contract: The non-fully benefit-responsive portion of the fixed annuity contract is reported at contract value, which approximates fair value. This determination is based on TIAA-CREF's credit rating and yield during 2018 and 2017 being comparable to similar alternative investments and the interest rate which resets annually being comparable to a ten-year U.S. treasury bond.

Pooled separate account: The TIAA Real Estate account is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in this account.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value at December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Money market	\$ -	\$ 116,570	\$ -	\$ 116,570
Variable annuity contracts	52,574,730	-	-	52,574,730
Guaranteed annuity contracts - non-fully benefit-responsive	-	-	42,350,504	42,350,504
Mutual funds	24,345,647	-	-	24,345,647
Pooled separate account	5,138,203	-	-	5,138,203
	<u>\$ 82,058,580</u>	<u>\$ 116,570</u>	<u>\$ 42,350,504</u>	<u>\$ 124,525,654</u>

	2017			
	Level 1	Level 2	Level 3	Total
Money market	\$ -	\$ 276,678	\$ -	\$ 276,678
Variable annuity contracts	61,379,792	-	-	61,379,792
Guaranteed annuity contracts - non-fully benefit-responsive	-	-	42,782,281	42,782,281
Mutual funds	26,020,577	-	-	26,020,577
Pooled separate account	4,937,530	-	-	4,937,530
	<u>\$ 92,337,899</u>	<u>\$ 276,678</u>	<u>\$ 42,782,281</u>	<u>\$ 135,396,858</u>

Changes in fair value levels: The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no transfers in or out of Level 3.

Note 4. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2018:

	Guaranteed Annuity Contract*
Balance, January 1, 2018	\$ 42,782,281
Realized gains	680,346
Unrealized gains relating to assets still held at the reporting date	672,622
Acquisitions	2,920,315
Dispositions	(4,705,060)
Balance, December 31, 2018	<u>\$ 42,350,504</u>

*Non-fully benefit-responsive

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those investments and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional	2018	2017	Discounted cash flow	Risk-adjusted discount rate applied	3.00% - 4.75%
	\$ 42,350,504	\$ 42,782,281	Theoretical transfer (exit value)		

In estimating fair value of the investments in Level 3, the University may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Plan evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments and overall credit ratings.

Note 5. Investment Contracts with TIAA

The Plan has a guaranteed annuity contract with TIAA. Under this contract are sub-contracts, some of which are fully benefit-responsive while others are not. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the guaranteed fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Wittenberg University Defined Contribution Retirement Plan

Notes to Financial Statements

Note 5. Investment Contracts with TIAA (Continued)

Investment contracts that are not fully benefit-responsive are included in the financial statements at fair value as reported by TIAA. TIAA has reported to the Plan that contract value approximates fair value for these investments at December 31, 2018 and 2017.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. TIAA-CREF indicates that contract value approximates fair value for these investments at December 31, 2018 and 2017. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are viewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by TIAA-CREF, the custodian of certain investments; therefore, these transactions qualify as party-in-interest.

Certain employees of the University provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Note 7. Plan Loans

Participants may borrow from TIAA-CREF using a portion of their plan account as security for the loan. The maximum loan amount may be the lesser of \$50,000 or 45% of their account balance. The loans bear interest at rates that range from 4.00% to 4.39% as of December 31, 2018 and 2017, which is commensurate with local prevailing rates as determined periodically by TIAA-CREF. Principal and interest is paid ratably through monthly or quarterly payments by the participants to TIAA-CREF. The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions.

The loan balances are \$19,016 and \$23,920 as of December 31, 2018 and 2017, respectively. Under the borrowing terms, 110% of the outstanding loan balance is collateralized by Plan assets.

In the event of default, such loans are reportable to plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan.

Note 8. Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with sample language provided by the Internal Revenue Service in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b). The University believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and that, therefore, the Plan continues to qualify under Section 403(b).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any uncertain position that more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9. Excluded Contracts

There may have been certain annuity and custodial accounts issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009. As permitted by the United States Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*, these annuity and custodial accounts, if any, have been excluded from the Plan's investments. In addition, investment income (loss) and distributions, if any, related to such potential accounts have also been excluded from the statement of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income (loss) and distributions be included in the accompanying financial statements. The Plan Administrator has not determined the amount of these excluded annuity and custodial accounts and the related income (loss) and distributions because records relating to these are not available or do not exist, but believes such amounts to not be material to the Plan's financial statements.

Note 10. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2018 and 2017:

	2018	2017
Net assets available for benefits per the financial statements	\$ 131,722,027	\$ 141,796,916
Money market fund	(116,570)	(276,678)
Variable annuity contracts	(52,574,730)	(61,379,792)
Mutual funds	52,691,300	61,656,470
Net assets available for benefits per Form 5500	<u>\$ 131,722,027</u>	<u>\$ 141,796,916</u>

Note 11. Recent Accounting Pronouncement

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements. The adoption of ASU 2018-13 is not expected to have a material impact on the Plan's financial statements.
