Retirement Plan for Hourly Rated Employees of Randall Bearings, Inc.

1 Description of Plan

The following description of the Retirement Plan for Hourly Rated Employees of Randall Bearings, Inc. represented by I.U.E. (A.F.L. – C.I.O. – C.L.C) Local 742 (“Plan”) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan is a non-contributory defined benefit pension plan covering substantially all hourly employees of Randall Bearings, Inc. ("Company").

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan is administered by the Company's Benefits Committee (“Committee”), which is a committee of the officers of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors. Effective January 1, 2013, Randall Bearings, Inc. amended the Plan to cease benefit accruals, close the Plan to new entrants, and to eliminate the reduction of benefits for participants retiring between January 1, 2013 and June 30, 2013.

Pension Benefits:

The Plan provides for benefit payments at a monthly rate equal to \$36 effective January 1, 2012 multiplied by the number of years of credited service. The minimum years of credited service for the Plan is five, at which a participant will become 100% vested. Less than five years of service results in a 0% vested interest. The normal retirement age under the Plan is 65. Specific terms of the Plan provide other retirement options with combination factors of age and years of credited service.

Death and Disability Benefits:

Normal payments are for life with no death benefits. Pre-retirement survivor annuity coverage is provided in the event of the death of an employee while eligible for early retirement. The Plan offers disability retirement benefits after ten years of credited service. The participant shall be entitled to receive the participant's accrued benefit plus \$25, less any other disability benefit the participant receives, except for disability compensation received under the Federal Social Security law and on account of silicosis.

Funding Policy:

The Plan is funded by employer contributions from the Company. The Plan does not provide for employee contributions. The Plan has met the minimum funding standards of ERISA as set forth in the actuary's report.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of Investments:

Investments held in the trust are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimates of investment valuation and actuarial present value of accumulated plan benefits.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits represent future periodic payments for services employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

- a) Retired or terminated employees or their beneficiaries;
- b) Beneficiaries of employees who have died;
- c) Present employees or their beneficiaries

Administrative Fees:

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Administrative expenses, other than Pension Benefit Guaranty Corporation ("PBGC") premiums, are paid by the Trust.

Plan Termination:

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, to vested participants based upon an actuarial calculation.

NOTES TO FINANCIAL STATEMENTS

Retirement Plan for Hourly Rated Employees of Randall Bearings, Inc.

2 Summary of Significant Accounting Policies, Continued

Plan Termination, Continued:

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that PBGC guarantees.

Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 18, 2019, which is the date the financial statements were available to be issued.

3 Tax Status

On May 8, 2012, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTES TO FINANCIAL STATEMENTS

Retirement Plan for Hourly Rated Employees of Randall Bearings, Inc.

3 Tax Status, Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets;
- * Quoted prices for identical assets or similar assets or liabilities in inactive markets;
- * Inputs other than quoted prices that are observable for the asset or liability;
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

NOTES TO FINANCIAL STATEMENTS

Retirement Plan for Hourly Rated Employees of Randall Bearings, Inc.

4 Fair Value Measurements, Continued

Common Stocks, Mutual Funds, Bonds and Certificates of Deposit:

Valued at closing price reported on the active market on which the individual securities are traded. Certificates of deposit are recorded at their cash value plus accrued interest. All funds fall under Level 1 of the hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2018

Except where otherwise indicated, the following assumptions were selected by the plan sponsor with the concurrence of the actuary. Prescribed assumptions are based on the requirements of the relevant law, the Internal Revenue Code, and applicable regulation. The actuary was not able to evaluate the prescribed assumptions for reasonableness for the purpose of the measurement.

Valuation Date January 1, 2018

Participant and Asset Information Collected as of January 1, 2018

Retirement Rates (FE)

<u>Age</u>	<u>Rate</u>
65	100%

Due to the size of the plan and lack of subsidies, in our professional judgment use of an assumption more sophisticated than a single point estimate is not merited.

Mortality Rates (FE)

Healthy - Prescribed

IRS 2018 Small Plan Combined Static Mortality - sex distinct RP2000 with combined rates for annuitants and non-annuitants as provided in IRC 430(h)(3). Mortality is projected 7 years past the valuation date for annuitants and 15 years past the valuation date for non-annuitants using scale AA. The plan sponsor has elected to defer the use of the updated mortality tables until 2019 in accordance with IRC 430(h)(3)-1(f)(2) on the grounds of adoption resulting in a non-de minimis adverse business impact.

Disabled

Revenue Ruling 96-7 Post 12/31/1994 Disability Mortality

The funding mortality tables are prescribed by federal regulation.

ASC 960

RP-2014 Blue Collar mortality table with fully generational improvements from 2006 based on assumptions from the 2017 Social Security Administration Trustee's Report.

As the plan is not large enough to have credible experience, mortality assumptions are set to reflect general population trends, adjusted as necessary for the specific population of the plan.

Disability Rates (FE)

<u>Age</u>	<u>Male</u>	<u>Female</u>
20	0.03%	0.03%
30	0.05%	0.08%
40	0.12%	0.21%
50	0.36%	0.53%

As the plan is not large enough to have credible experience, disability rates are determined based on the results of broad population studies.

Withdrawal Rates (FE)

<u>Age</u>	<u>Male</u>	<u>Female</u>
20	15.0%	25.0%
30	6.9%	9.9%
40	2.8%	4.9%
50	0.4%	1.7%

As the plan is not large enough to have credible experience, withdrawal assumptions reflect the withdrawal assumption that, in our professional judgment, best reflects the anticipated experience of the plan.

Annual Pay Increases (CO)

Not Applicable

Interest Rates

	1st Segment (0-5 years)	2nd Segment (5-20 years)	3rd Segment (20+ years)
Minimum Funding and Benefit Restrictions - Prescribed (CO)	3.92%	5.52%	6.29%
Maximum Funding and PBGC - Prescribed (CO)	1.75%	3.76%	4.66%
ASC 960 (CO)	6.50%	6.50%	6.50%

All segment rates are based on the sponsor's election to use a 4 month lookback. The PBGC interest rates are based on the sponsor's election to use the Alternative calculation method. The Alternative calculation method was elected in 2010.

Minimum and Maximum funding Interest rates are prescribed by IRS regulation.

The ASC 960 interest rate is the expected long term rate of return on assets. This assumption has been set by the plan sponsor in conjunction with their asset advisors. Detailed evaluation of this assumption was outside the scope of our engagement.

Payment Form Election (FE)

Lump Sum	0%
Annuity	100%

Expense and/or Contingency Loading (FE)

The Target Normal Cost is increased by \$22,000 to cover anticipated administrative expenses paid from the trust for 2018

Marital Status and Ages (FE)

85% of male participants assumed to be married with wives assumed to be 0 years younger than husbands and 50% of female participants assumed to be married with husbands assumed to be 0 years younger than wives

Market Value of Assets

Equal to the fair value of assets as of the valuation date, plus the discounted value of contributions made following the valuation date and before the date of this report for the purpose of satisfying the prior year's funding requirements

Plan Asset Valuation Method

PPA Smoothed Value of Assets. Gains or losses on the Market Value of Assets are recognized over three years, subject to a 10% corridor around the Market Value of Assets

Expected Rate of Return on Assets (CO)

For determination of the Plan Asset value, the expected return on assets is equal to the Effective Interest Rate

Cost Method

PPA requires the use of the Unit Credit cost method for determining the minimum required contribution and PBGC premiums. The maximum tax deductible contribution calculation includes limited Projected Unit Credit calculations as required under IRC 404(o).

ASC 960 requires the use of the Unit Credit cost method.

FE indicates an assumption representing an estimate of future experience

MD indicates an assumption representing observations of estimates inherent in market data

CO indicates an assumption representing a combination of an estimate of future experience and observations of market data

Changes since Prior Valuation and Key Notes

There have been no changes to the plan provisions since the last valuation.

The interest rates and mortality assumptions have been updated as required under the Pension Protection Act, all subsequent legislation, and associated IRS Regulations, including the changes presented by the Bipartisan Budget Act of 2015. The plan sponsor has elected to defer the use of the updated mortality tables until 2019 in accordance with IRC 430(h)(3)-1(f)(2). These changes resulted in an increase in the Funding Target.

To better reflect anticipated plan experience, the assumption for administrative expenses assumed to be paid from the trust was increased from \$21,000 for 2017 to \$22,000 for 2018.

To better reflect anticipated plan experience, for ASC 960 purposes the mortality assumption for healthy lives was updated from the RP-2014 Blue Collar mortality table with fully generational improvements from 2006 based on assumptions from the 2016 Social Security Administration Trustee's report to the RP-2014 Blue Collar mortality table with fully generational improvements from 2006 based on assumptions from the 2017 Social Security Administration Trustee's report. This change resulted in a small decrease in the Present Value of Accrued Benefits.
