NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Central Anesthesia Service Exchange Medical Group, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time eligible employees of Central Anesthesia Service Exchange (the Company), as defined in the respective Plan document and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Physician employees may opt out of the Plan when they enter the Company.

Funding Policy: Company contributions to the Plan are voluntary and at the discretion of the Company's Board of Directors, with the exception of the 3% safe harbor contribution. Company contributions for any plan year may not exceed 20% of an eligible participant's compensation, subject to certain limitations. Employee contributions are permitted. The Company's contributions for 2018 comply with the minimum funding requirements of ERISA.

Participant Accounts: Each participant's account is credited with the employee's contributions, the Company's contributions and an allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Eligible participants are 100% vested in their salary deferrals and all employer contributions. If a participant leaves during the year any current year employer contributions in excess of the 3% safe harbor contribution will be forfeited.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum or installment amounts equal to the participant's vested interest in his or her account.

Investment Options: Upon enrollment in the Plan, a participant may direct his or her contributions in any increments to separately managed individual investment accounts or to the Plan's pooled investment accounts.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their actual account balance. The loans are secured by the balance in the participant's account. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

NOTES TO FINANCIAL STATEMENTS

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of the Plan's financial statements requires the Plan administrator to make estimates and judgments that affect the reported statements of net assets and changes available for benefits. Such estimates relate primarily to the valuation of investments not traded on an established market. Actual results could differ from those estimates.

Cash Equivalents: All highly liquid investments purchased with a maturity of six months or less are considered to be cash equivalents.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note D for discussion of fair value measurements. Investments in partnership interests and real estate are recorded at estimated fair value as determined by third party appraisals.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses are deemed necessary as of December 31, 2018 and 2017.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from their financial statements. Investment-related expenses are included in net appreciation (depreciation) of fair value of investments.

Reclassifications: Certain prior year amounts have been reclassified for comparative purposes.

NOTE B - SUMMARY OF ACCOUNTING POLICIES – Continued

In July 2017, the FASB issued ASU 2017-12 Plan Accounting: Defined Contribution Pension Plans (Topic 962) Part I. Fully Benefit-Responsive Investment Contracts; Part II. Plan Investment Disclosures; and Part III. Measurement Date Practical Expedient, a three-part standard that provides guidance on certain aspects of accounting by employee benefit plans. Part I amended the guidance for fully benefit-responsive investment contracts (FBRICs) to report them only at contract value and to no longer present a reconciliation of a FBRIC's fair value to its contract value on the face of the plan financial statements. In addition, FBRICs, including the underlying investments of a synthetic guaranteed investment contract, are not included in the fair value hierarchy table. Part II amended certain plan investment disclosures, including the elimination of investments greater than 5 percent of net assets; reporting the net appreciation/depreciation only in the aggregate and investments in the fair value hierarchy table are segregated only by general type of investment. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient, and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, a disclosure of that investment's strategy is not required. The guidance is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The Plan adopted the guidance for 2017, on a retrospective basis.

NOTE D – FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal market for the asset or liability in an orderly transaction between market participants on the measurement date. U.S. GAAP establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. U.S. GAAP prescribes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities, which are considered to be most reliable.
Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data.
Level 3 - Unobservable inputs reflecting the reporting entity's own assumptions, which require the most judgment.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no significant changes in the methodologies used during the year ended December 31, 2018.

Cash and cash equivalents: Stated at cost which approximates fair value

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stock and exchange traded funds: Valued at the closing price reported on the active market on which the individual securities are traded.

NOTE D – FAIR VALUE MEASUREMENTS-Continued

Corporate bonds and certificates of deposit: Valued based on matrices or models from reputable pricing vendors and may be determined by factors which include, but are not limited to market quotations, yields, maturities, call features, ratings, institutional size trading in similar groups of securities and developments related to specific securities.

US government securities: Valued based on matrices or models from reputable pricing vendors.

Partnership interest, loans, real estate and other: Valued at the fair market value based on third party appraisal.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the investments at December 31, 2018 based on the inputs used to value them:

NOTE G – RELATED PARTY TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Plan maintains operating cash accounts at one financial institution in the name of the plan and participant directed cash accounts are maintained at various institutions in the names of the participants.

Accounts are generally insured by the Federal Deposit Insurance Corporation (FDIC insured) up to $250,000. The Plan has not experienced any loss in such accounts. As of December 31, 2018, the uninsured balances were $452,997. The Plan believes it is not exposed to any significant credit risk on its cash balances.

NOTE I - SUBSEQUENT EVENTS

In preparing the financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 11, 2019, the date that the financial statements were available to be issued.
