The Plan currently offers various mutual funds under pooled separate accounts as investment options for Participants.

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Plan earnings/losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Participants may choose to have their account balance deposited in various investment programs.

Note 1 - Summary of Significant Plan Provisions (continued)

Participant accounts (continued) – Allocations are based on the participant earnings/losses, account balance, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are, at all times, fully vested with respect to their own contributions, plus earnings/losses thereon. The benefits attributable to a participant shall be fully vested and nonforfeitable upon retirement, death or disability. If a participant terminates employment for reasons other than retirement, death or disability, he/she is entitled to a nonforefeitable right to his/her Employer Contribution Account based on the following schedule:

Years of Service	Vested %
Less than 2 years	0%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 years or more	100%

Investment options – Upon enrollment in the Plan, participants may direct their contributions to any of the investment options offered under the Plan. Participants may change their investment selections at any time.

Forfeitures – The portion of a participant's account to which he/she is not entitled upon termination of participation is deemed a forfeiture. At December 31, 2018 and 2017, forfeited non-vested accounts totaled $11,017 and $2,785 respectively.

Participant loans – The Plan does not allow loans.

Payment of benefits – On termination of service due to death, disability or retirement, a participant will receive his/her account balance in a lump sum payment. In-service withdrawals are not available to participants. Payments are permitted only in the event of termination of employment, attainment of Plan's normal retirement age of 65 with 5 years of Plan participation certain financial hardship, permanent disability, or death.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the accrual basis. Change in fair value of mutual funds includes the Plan's gains and losses on mutual funds bought and sold, as well as held during the year.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are not reflected within the financial statements. For the year ended December 31, 2018, total such expenses are totaled $28,514.

Risks and Uncertainties – The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Subsequent events evaluation date – The Plan has evaluated subsequent events from December 31, 2018 through October 10, 2019, the date the financial statements were available to be issued.

Note 3 - Investments

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rule and Regulations for Reporting and Disclosure under the Employment Retirement Income Security Act of 1974 (the "Act"). Under this provision of the Act, certain information prepared and certified by the custodian need not be subjected to independent Audit. At December 31, 2018 and 2017, the Plan contained investments at fair value of $1,695,894 and $856,334, respectively.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the Plan's valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds: Valued at the daily closing net asset value (NAV) price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts ("PSA"): Valued daily based on the market value of the underlying net assets in each separate account. The majority of the underlying net assets have observable Level 1 and/or 2 quoted pricing inputs which are used to determine the unit value of the PSA which is not publicly quoted. These PSAs are classified as Level 2. The redemption frequency of each of these PSA is daily, and there are no redemption restrictions. There are no unfunded commitments related to the Plan's investment in PSAs.

Note 4 - Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table below sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017.

	Level 1	Level 2	Level 3	Total

Note 5 - Tax Status

The Plan qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Note 5 - Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. Plan management believes that the Plan has not taken any uncertain tax positions. The Plan is subject to routine audits by the IRS and/or the United States Department of Labor; however, there are currently no audits of the Plan in progress.

The Company files its annual tax return in the United States. The Company 2018 tax return is subject to the US federal tax examinations by the taxing authority until 2021.

Note 6 - Parties-in-Interest

John Hancock Life Insurance Company (USA) serves as the trustee of the Plan to maintain the individual accounts of each Plan participant as. Certain Plan investments of mutual funds offered by John Hancock (the Plan's custodian). These investments qualify as party-in-interest transactions as defined by ERISA. The Plan had $652,057 invested in funds managed by the custodian of the Plan at December 31, 2018.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8 – Rollover Contribution

In 2017, My Wireless acquired Ridemakerz, LLC. On 07/27/2018, Ridemakerz, LLC's 401(k) Plan assets were rollovered to My Wireless 401(k) Plan with all participants vesting applied based on the original hiring date. An aggregate of $649,255 was rolled into the Plan and included in rollovers on the statement of changes in net assets available for benefits.
