PERMA-SEAL BASEMENT SYSTEMS, INC
EMPLOYEE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A – DESCRIPTION OF PLAN

The following description of the Perma-Seal Basement Systems, Inc. ("Company") Employee Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of the Company who have two months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute pretax annual compensation up to the maximum allowable under the Internal Revenue Code, as defined in the Plan. Eligibility to make pretax elective deferrals and elective Roth deferrals of annual compensation requires two months of service with at least 160 hours of service in each month and attainment of age twenty-one. Participants may also make after-tax contributions to the plan. The Company may make discretionary match contributions each year. Eligibility to share in discretionary match contributions require one year of service, attainment of age twenty-one, 1,000 hours of service annually and be employed by Perma-Seal Basement Systems, Inc. at the plan year end. The Company may make discretionary profit sharing contributions to the plan in an amount the Company in its sole discretion may determine. Eligibility to share in discretionary profit sharing contributions require one year of service, attainment of age twenty-one, 1,000 hours of service annually, and be employed by Perma-Seal Basement Systems, Inc. at the plan year end. Participants may also contribute amounts representing distributions for other qualified defined benefit or defined contribution plans. In-plan Roth transfers are also permitted. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options.

Participant Accounts: Each participant's account is credited with the participant's contributions, allocation of company contribution(s), and allocation of Plan earnings, and reduced by an allocation of administrative expenses. Company discretionary nonelective contributions are allocated to each participant in the same ratio as his compensation bears to the total compensation of all participants. Company discretionary match contributions are allocated to each participant proportionate to the elective contributions made on behalf of each participant. Plan earnings are allocated based on the investment options chosen by each employee and their proportionate share of that investment option. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their pre-tax and after-tax contributions plus actual earnings thereon. Company discretionary nonelective and company discretionary match contributions, if any, plus actual earnings thereon, vest at 20% per year after two years of service. Service is defined as 1,000 hours during the plan year.

NOTE A – DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid on the basis of level amortization and are paid ratably through payroll deductions.

Payment of Benefits: On termination of service due to death, disability or retirement, or for other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In-service distributions are permitted from all accounts upon the participant's attainment of age 59 ½ and from elective deferrals upon hardship. In-service distribution amounts are limited to the participant's vested amount in the distributing account.

Forfeited Accounts: For the plan years ended December 31, 2018 and 2017, amounts forfeited in participant accounts due to non-vesting totaled $1,449 and $415 respectively. Forfeited non-vested accounts are used first to reduce discretionary match contributions, if any, then to reduce plan expenses. Forfeitures in the amount of $628 were used to reduce discretionary match contributions or reduce plan expenses in 2018.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review: Subsequent events were evaluated through October 14, 2019 which is the date the financial statements were available to be issued.

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of any fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The Plan invests in a Guaranteed Interest Account that is subject to this reporting requirement.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefit: Benefits are recorded when paid.

Operating Expenses: Expenses paid by the Plan during the years ended December 31, 2018 and 2017 were $22,557 and $21,573, respectively. The balance of plan expenses, if any, was paid by the employer.

NOTE D – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements: Mutual funds are valued at the net asset value of shares held by the Plan at year end.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

In the event of Plan termination, participants will become 100 percent vested in all of their accounts.

NOTE I – TAX STATUS

The Plan is a Trust Company of Illinois Volume Submitter Profit Sharing Plan With CODA Prototype Plan. The Internal Revenue Service (IRS) has determined and informed the plan sponsor by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax position taken by the plan, and has concluded that, as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken , that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE K – SUBSEQUENT EVENTS

No events have occurred subsequent to December 31, 2018, that are required to be disclosed in these financial statements. This evaluation was made as of October 14, 2019, the date these financial statements were available to be issued.

NOTE L – UNALLOCATED FUNDS

The investment balance as of December 31, 2018 includes $820 in forfeited funds that have not been allocated to participant accounts. These funds, if any, will be used first to reduce discretionary match contributions, then to reduce Plan expenses.

NOTE M - NON EXEMPT PARTY-IN-INTEREST TRANSACTIONS

For the Plan year 2018, the Company did not remit certain participant contributions and loan repayments to the trustee in a timely manner based on when the participant contributions and loan repayments were withheld from participant paychecks as required under Department of Labor Regulation 2510.3-102.

The Company has expressed that it will file IRS Form 5330 to report and pay an excise tax with respect to the 2018 late remittances, and participant accounts have been credited with the amount of investment income that would have been earned had the participant contributions been remitted on a timely basis. Such amounts are not material to the Plan's financial statements.

NOTE N – PLAN RESTATEMENT AND AMENDMENTS

The Plan was restated effective January 1, 2016 to bring the plan into compliance with the Pension Protection Act of 2006 (PPA) and other regulatory and legislative changes. Further, effective January 1, 2016, the plan was amended to allow Roth deferral contributions and Roth in-Plan transfers.
