INDEPENDENT AUDITORS' REPORT

To the Plan Administrative Committee
Koch Industries Employees' Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Koch Industries Employees' Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Bank of New York Mellon/BNY Mellon N.A. and The Northern Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that The Bank of New York/BNY Mellon N.A. held the Plan's investment assets and executed investment transactions from January 1, 2017 to December 31, 2017, and that The Northern Trust Company held the Plan's investment assets and executed investment transactions from January 1, 2018 through December 31, 2018. The plan administrator has obtained certifications from the trustees as of December 31, 2018 and 2017 and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets (held at end of year) and of delinquent participant contributions as of and for the year ended December 31, 2018, are required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the

matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following description of Koch Industries Employees' Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General

The Plan is a defined contribution plan sponsored by Koch Industries, Inc. (the Company) for the benefit of its employees and employees of any other company affiliated with Koch Industries, Inc., which, with the consent of Koch Industries, Inc., expressly adopts the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Alight Solutions is the recordkeeper for the Plan. Effective January 1, 2018, the Plan changed trustees from the Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon) to The Northern Trust Company (Northern Trust). Northern Trust holds all investment assets of the Plan in the Koch Companies Defined Contribution Master Trust (Master Trust) with the exception of the CISC Self-Directed Brokerage Account and the Northern Trust Common Collective Trust Fund.

Participation in the Plan is voluntary and eligible employees may begin participating immediately in the saving features of the Plan. After an employee has completed one year of service, the Company begins matching employee contributions to the Plan. The entry date for eligible participants for matching contributions is the first day of the month following completion of the eligibility requirements.

As described in the Plan document, employment status changes permit the affected participants to transfer their balances between plans sponsored by the Company or by one of its affiliates. Such transfers are reflected as a net transfer to or from related plans in the accompanying statements of changes in net assets available for benefits.

Eligibility

All employees of the Company and adopting affiliated companies are eligible except employees whose services are leased from another company, employees who are neither United States citizens nor residents, or employees who are employed in one of the groups designated below:

- Engineering Field Boilermakers
- OPD Field Service Employees
- Temporary Field Service Employees
- FHR Union employees; or
- Employees of any company that has not adopted the Plan, including Molex and Georgia-Pacific

1 Description of the Plan (continued)

Contributions

Participants may contribute up to 75% of gross compensation per year, on a before-tax or after-tax basis, in increments of 1% as defined in the Plan. Participants may also rollover eligible distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Internal Revenue Code.

The Company contributes 100% of the first 6% of eligible compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

Newly eligible employees, as defined in the Plan document, are eligible for a fixed company contribution that is equal to a percentage of eligible compensation based on years of service.

For employees who elect to participate in the Plan at a deferral percentage less than 6%, the initial pre-tax contribution will automatically increase 1% each plan year continuing until the total deferral is 6% of eligible compensation. Participants may opt out of contributing or escalating at any time. Effective January 1, 2019, the Plan was amended to add an auto enrollment feature at 6% for eligible employees who have not made an enrollment election 15 days after meeting eligibility requirements.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Withdrawals Upon Termination of Employment

Withdrawals from participant accounts upon termination may be made only for the following reasons: termination of employment, retirement, death, or long-term disability. On termination of service due to any reason, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or a portion paid in a lump sum, and the remainder paid later, or periodic installments over a period not to exceed 30 years.

Withdrawals While Employed

Hardship withdrawals are permitted if certain criteria are met, as defined by the Plan, and are subject to taxes in the year received. Hardship withdrawals (either full or partial) are paid in cash and result in a suspension of the right for a participant to make elective contributions to the Plan for a period of six months. Other withdrawals while still employed include (if applicable) age 59 ½, after-tax, senior participant, and active military withdrawals.

1 Description of the Plan (continued)

Vesting

Participant's contributions plus actual earnings are 100% vested immediately. If the participant becomes deceased while employed, is employed on or after age 65 or leaves the company due to disability, the participant's account becomes fully vested. Employer contributions are subject to the following vesting schedule:

Years of service	Vested %
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants may have two loans outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$248,148 and \$1,659,723, respectively. These accounts will be used to reduce future employer contributions. During 2018 and 2017, forfeited non-vested accounts of \$4,173,808 and \$2,242,735 were used to reduce employer contributions, respectively.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been presented on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

2 Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-06, "Employee Benefit Plan Master Trust Reporting". The ASU will require an employee benefit plan to report an interest in a master trust and the change in the value of that interest as separate line items on the statements of net assets available for benefits and the statements of changes in net assets available for benefits, respectively. Additionally, the ASU requires the Plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the new guidance and the impact on the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

2 Summary of Significant Accounting Policies (continued)

Subsequent Events

The Plan administrator has evaluated subsequent events through October 11, 2019, the date the financial statements were available to be issued. No significant matters were identified during this evaluation, except for the amendment noted in Note 1.

3 Investment in Master Trust

The Plan's interest in the net assets of the Master Trust was 32.77% and 34.83% at December 31, 2018 and 2017, respectively. Investment income (loss) of the Master Trust is allocated to individual plans based on average daily balances invested by each plan.

As described in Note 4, the Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The following table presents the net assets of the Master Trust including the contract value of the Stable Value Fund as of December 31, 2018 and 2017:

December 31	2018	2017
Investments at fair value:		
Common collective trusts	\$ 7,180,121,631	\$ 7,271,267,643
Stable value fund, at contract value	822,890,493	724,904,303
Interest receivable	1,224	-
Accounts payable	(390,018)	(448,080)
Net assets of the Master Trust	\$ 8,002,623,330	\$ 7,995,723,866

The following is the change in net assets for the Master Trust for the years ended December 31, 2018 and 2017:

For the years ended December 31	2018	2017
Appreciation (depreciation) in fair value of investments	\$ (499,177,290)	\$ 1,151,730,009
Interest	15,685,357	13,579,547
Net investment gain (loss)	(483,491,933)	1,165,309,556
Investment manager expense	(2,265,247)	(2,391,518)
Net transfers	492,656,644	(171,340,856)
Increase in net assets	\$ 6,899,464	\$ 991,577,182

4 Fully Benefit-Responsive Investment Contracts

The Master Trust holds investments in synthetic guaranteed investment contracts (GICs) and other assets as part of the Stable Value Fund.

A synthetic GIC, also known as a wrapper contract, is an investment contract issued by an insurance company or other financial institutions designed to provide a contract value wrapper around a portfolio of bonds or other fixed income securities that are owned by the fund.

4 Fully Benefit-Responsive Investment Contracts (continued)

The fair value of each synthetic GIC contract is calculated based on the fair value of the investments underlying the contract, which are valued using the market approach. The fair value of each synthetic GIC wrapper is calculated using the replacement cost approach by discounting the difference between indicative replacement cost and the current annual fee multiplied by the contract value times the duration of the contract.

The contract value of synthetic GICs represents contributions made under the contract and reinvested income, less any withdrawals plus accrued income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The synthetic GICs provide a fixed return on principal over a specified period of time through fully benefit-responsive contracts or wrapper contracts issued by a third party which are backed by underlying assets owned by the Stable Value Fund. The portfolio of assets underlying the synthetic GICs includes collective trust funds, U.S. government and agency securities, municipal bonds, and corporate notes and bonds.

The relationship of future crediting rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investment of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair market value of the investment and the contract value by the duration of the bond portfolio covered by the investment contract.

Key factors that could influence future average interest crediting rates include but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer.

There are certain events not initiated by the Plan participants that could limit the ability of the Plan to transact with the issuer of a synthetic GIC at its contract value. Specific coverage provided by each synthetic GIC may be different from each issuer and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include but are not limited to: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentives or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the Stable Value Fund; and events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

4 Fully Benefit-Responsive Investment Contracts (continued)

The Plan administrator does not believe that the occurrence of any of the aforementioned events, which will limit the Plan's ability to transact with the issuer of a GIC at its contract value with participants, is probable.

5 Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

5 Fair Value Measurements (continued)

CISC Self-Directed Brokerage Account Investments: Brokerage accounts through which participants may invest in a variety of securities, including stocks, bonds, exchange traded funds, mutual funds, and money market funds. These investments are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

As of December 31, 2018 and 2017, all Master Trust investments and the Northern Trust common collective trust fund were measured at NAV practical expedient. In accordance with Subtopic 820-10, investments that were measured at net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The collective trust funds are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments as of December 31, 2018 and 2017.

The following tables set forth by level, the fair value hierarchy, a summary of investments held outside the Master Trust at fair value as of December 31, 2018 and 2017:

December 31, 2018	Level 1	Level 2	Level 3	Total
CISC self-directed brokerage accounts	\$ 48,969,691	\$ -	\$ -	\$ 48,969,691

December 31, 2017	Level 1	Level 2	Level 3	Total
CISC self-directed brokerage accounts	\$ 55,001,230	\$ -	\$ -	\$ 55,001,230

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

6 Information Certified by the Plan's Trustees

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BNY Mellon and Northern Trust, the trustees of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate:

- Investments, fully benefit-responsive investment contracts, and notes receivable from participants, as shown in the statements of net assets available for benefits.
- Net investment gain (loss) and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits.
- Schedule H, line 4i – schedule of assets (held at end of year).

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017 to Form 5500:

December 31	2018	2017
Net assets available for benefits per the financial statements	\$ 2,722,753,636	\$ 2,888,425,082
Less deemed loans for active participants	(251,467)	(202,012)
Net assets available for benefits per Form 5500	\$ 2,722,502,169	\$ 2,888,223,070

The following is a reconciliation of net increase (decrease) before transfers per the financial statements for the years ended December 31, 2018 and 2017 to Form 5500:

For the years ended December 31	2018	2017
Net increase (decrease) before transfers per the financial statements	\$ (165,428,377)	\$ 414,415,167
Certain deemed distributions of participant loans	(49,455)	(20,444)
Net income (loss) per Form 5500	\$ (165,477,832)	\$ 414,394,723

9 Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated December 16, 2013, that the Plan and the related trust are designed in accordance with the applicable sections of the Code. The Plan has been amended since receiving the determination letter, however, the Plan administrative committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

10 Risks and Uncertainties

The Plan, through the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statements of net assets available for benefits.

11 Delinquent Participant Contributions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company remitted all employee contributions to the Plan, contributions of \$3,124 were not remitted within the required time period for the year ended December 31, 2018. The Company has remitted these delinquent employee contributions, including any lost earnings as a result to the Plan in September 2019.

12 Related Party Transactions and Party-In-Interest Transactions

Certain fees incurred by the Plan are included in net investment gain (loss) from Plan's interest in the Koch Companies Defined Contribution Master Trust, as they are paid through revenue sharing, rather than direct payment. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other fees related to Plan's operations.

13 Plan Transfers

Certain participants transferred their balances between the plans sponsored by the Company or by one of its affiliates. During 2018, Plan transfers in totaled \$3,033,083, while transfers out of the Plan were \$3,276,152. During 2017, Plan transfers in totaled \$812,201, while transfers out of the Plan were \$1,676,080.
