Note 1 - Description of Plan

The following brief description of Applied Defense Solutions Inc. 401(k) Profit Sharing Plan & Trust (Plan) is provided for general information purposes only. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan, effective January 1, 2006, is a defined contribution retirement plan covering Applied Defense Solutions Inc. (Company) employees, excluding interns, who have completed three months of service and are age 21 or older. Participants will receive credit for one month of service for each month in which one hour of service is completed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. In July 2018, the Company was acquired by L3 Technologies and renamed L3 Applied Defense Solutions. The Company remains responsible for the oversight of the Plan.

Contributions

Participant elective contributions represent amounts paid by an employer, at the election of the employee, in lieu of cash compensation and include contributions that are made pursuant to a salary reduction agreement. Participants may contribute 1% to 86% of their annual compensation, as defined in the Plan. The Plan also accepts catch-up contributions, safe harbor matching contributions, discretionary non-elective contributions, and qualified participant rollover contributions. The Company contributes a safe harbor match equal to 50% of 5% of the participant's elective deferrals. Effective April 1, 2018, the Company contributes a safe harbor match equal to 100% of the participant's elective deferrals that do not exceed 7.5% of eligible compensation.

Participant Accounts

Each participant's account was credited with the participant's voluntary contribution and allocation of (a) the Company's contribution, if any, and (b) Plan earnings reduced by investment expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan. For fund investment objectives, risks, charges and expenses, participants should contact the fund manager for a prospectus.

Note 1 - Description of Plan (Continued)

Vesting

Participants have a fully vested interest in their contributions and the investments earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Employer matching contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1 year	0%
At least 1 year, but less than 2 years	25%
At least 2 years, but less than 3 years	50%
At least 3 years, but less than 4 years	75%
4 or more years	100%

Forfeited Accounts

The non-vested portions of participants' matching accounts can be used to reduce employer contributions. For the year ended December 31, 2018, forfeitures totaled \$10,342.

Payments of Benefits

All distributions from the Plan are subject to the Internal Revenue Code sections governing distributions. A participant is eligible to withdraw funds from the Plan for the following reasons:

1. Termination of employment
2. Hardship as defined by the Internal Revenue Code
3. Death
4. Disability
5. Normal Retirement
6. Attainment of age 59 ½

Notes Receivable from Participants

Under the terms of the Plan, participants may borrow from their accounts a minimum of \$500 and up to a maximum equal to the lesser of \$50,000 or 50% of the fair market value of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. Loan repayments must be made through payroll deductions within 5 years unless for the purchase of a principal residence. The loans are collateralized by the balance in the participant's account. The loan must bear a reasonable rate of interest. The loan interest rate is set at 2 percent above the prime rate, as defined.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Investment income derived from common collective trusts, including realized and unrealized gains and losses and dividend income, is included in "net investment (loss) from common collective trusts" in the accompanying financial statements. Investment income derived from registered investment companies, including realized and unrealized gains and losses, is included in "net investment (loss) from registered investment companies" in the accompanying financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Benefit Payments

Benefits to participants are recorded when paid.

Administrative Expenses

The Company pays certain administrative expenses on behalf of the Plan.

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 10, 2019, the date the financial statements were available to be issued.

PROFIT SHARING PLAN & TRUST
Notes to Financial Statements (Continued)

Note 3 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4 - Termination of the Plan

Although it has not expressed any intent to do so, the Company reserves the right, by written notice to all parties concerned, to discontinue its contributions at any time and to terminate the Plan subject to the terms of ERISA. In the event that the Plan is terminated, all participants will be deemed fully vested and eligible for benefits under the Plan. See note 9 for further discussion on plan merger subsequent to year end.

Note 5 - Information Certified by the Plan's Trustee (Unaudited)

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net investment (loss) from investments at fair value, and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company, the trustee of the Plan.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated July 8, 2014, stating that the volume submitter plan adopted by the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. The Plan was amended since receiving the determination letter. However, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statements date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Note 7 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

Note 7 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies:

Registered investment companies, which include mutual funds, are valued at the daily closing price as reported by the fund. The registered investment companies held by the Plan are deemed to be actively traded.

Common collective trusts:

Common collective trusts ("trusts") are valued at the net asset value (NAV) as determined by the custodian of the funds. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the investments, less any liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. As of December 31, 2017, the Plan had no unfunded capital commitments with respect to its investments in the trusts, nor did they have any withdrawal restrictions from the trusts. The Plan has invested in these trusts, all of which are proprietary to State Street. The investment objectives of the trusts are to provide investment results that, before expenses, correspond generally to the total return of an index that tracks the performance of the S&P MidCap 400 Index, the U.S. Aggregate Bond Index, the S&P 500 Index, the Dow Jones U.S. Select REIT Index, the Russell 2000 Index, respectively. The State Street Cash Series US Government Fund's objective is to seek to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable \$1.00 per share net asset value

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7 - Fair Value Measurements (Continued)

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2017.

	<u>Total</u>	<u>Level 1</u>
Investments, at fair value:		
Registered investment companies	\$3,561,049	\$ 3,561,049
Common collective trusts at NAV*	<u>1,216,725</u>	<u>-</u>
Total investments at fair value	<u>\$4,777,774</u>	<u>\$ 3,561,049</u>

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in the tables above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The Plan had no Level 2 and 3 assets as of December 31, 2017.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 8 - Transfers Out of the Plan

At December 31, 2018, the Plan transferred out \$5,857,321 of assets to the L3 Technologies Master Savings Plan.

Note 9 - Subsequent Events

As of January 1, 2019, the Applied Defense Systems Inc. 401(k) Profit Sharing Plan & Trust was merged into the L3 Technologies Master Savings Plan.
