NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan and significant accounting policies:

General. The following description of the Keystone - Bartonville 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan for bargaining unit employees of the Keystone Steel and Wire Division of Keystone Consolidated Industries, Inc. ("Keystone" or the "Employer"). Employees are eligible to participate in the Plan at the beginning of the month following their date of employment. Keystone was a wholly-owned subsidiary of Contran Corporation ("Contran") until December 31, 2018 when Contran sold all of the outstanding stock of Keystone to Liberty Steel Holdings, USA ("LSH"). LSH is a GFG Alliance Company and is 100% beneficially owned by Mr. Sanjeev Gupta through intermediary holdings companies. Consequently, Mr. Gupta may be deemed to control Keystone and the Plan.

Contributions. Participants may contribute up to a certain percentage of their after-tax annual compensation, as defined, to the Plan that is eligible for matching contributions by the Employer. This percentage increased from 4% to 5% as of January 1, 2007. This contribution is eligible for matching by the Employer, as follows:

<u>Participants'</u> <u>years of</u> <u>service</u>	<u>Employer's</u> <u>matching</u> <u>contribution</u>
Less than 10	50%
10 to 20	75%
20 to 30	100%
30 or more	150%

In accordance with the Plan's provisions, the amount of non-vested benefits that are forfeited by participants who withdraw from the Plan is used to reduce the Employer's matching contribution. At December 31, 2018 and 2017, unallocated forfeited non-vested accounts were \$73,327 and \$54,222, respectively. Employer contributions were reduced by \$74,055 in 2018.

Participants may also contribute a supplemental amount to the Plan equal to 1% to 10% after-tax of their annual compensation. This supplemental contribution is not eligible for a matching contribution by the Employer.

Participants may elect to contribute to the Plan a percentage of their annual pretax compensation as defined by the Plan, subject to the Internal Revenue Service limitations.

Vesting and Benefits. Participants immediately vest in their voluntary contributions to the Plan plus allocated earnings thereon and vest in the remainder of their accounts at a rate of 20% after two years of service and an additional 20% for each of the next four years of service thereafter.

Upon termination of employment, retirement, death or disability, a participant (or beneficiary, if applicable) may elect to receive either (i) a lump sum amount equal to the vested value of the participant's accounts or (ii) installments over a period as provided by the Plan.

Participants' accounts. The Plan provides participants with options to invest in publicly-traded mutual or pooled funds. Participants can direct the Plan administrator to invest, in 1% increments, their account balances in any of the Plan's investment fund options. Each participant's account is credited with the participant's contributions, an allocation of the Company's contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

In addition to the Plan's investment fund options, a "Loan Fund" is maintained to account for notes receivable from participants, as permitted by the Plan. These notes, which are secured by the balance in the participants' accounts bear interest at 4.25% to 6.5%, and mature through 2030.

Investment valuation. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan presents the net change in fair value of mutual funds and common collective trusts, which consists of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distributions from such investments, in the accompanying statement of changes in net assets available for benefits.

Plan termination. The Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, in compliance with the provisions of ERISA. In the event the Plan is terminated, the accounts of all participants would become fully vested.

Basis of accounting. The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America. Valuation of investments is more fully described in Note 2.

Expenses of administering the Plan. To the extent not paid by the Employer, administrative expenses are paid by the Plan.

Management estimates. The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may, in some instances, differ from previously estimated amounts.

Risks and uncertainties. The Plan provides for various investment options in a variety of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's statements of net assets available for benefits.

Tax status. The Plan obtained a favorable determination letter dated July 13, 2011 from the Internal Revenue Service. The Plan had no significant uncertain tax positions for the year ending December 31, 2018. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three years from the date of filing.

Income recognition. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of benefits. Benefits are recorded when paid.

Cash and cash equivalents. Cash equivalents consist principally of bank time deposits with original maturities of three months or less.

Notes receivable from participants. Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Note 2 - Investments:

The assets of the Plan were held and the related investment transactions were executed by BMO Harris Bank N.A. (the "Trustee") as trustee of the Plan in 2018 and 2017, respectively. The Plan's investments are stated at fair value based on quoted market prices. The Plan's interest in the collective trust is based on the fair value of the collective trust's underlying investments as based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end. Net depreciation for the year is reflected in the Plan's statement of changes in net assets available for benefits. The net depreciation consists of realized gains or losses and unrealized appreciation or depreciation on investments.

Note 4 – Fair Value Measurements

Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurements and Disclosures*, establishes a consistent framework for measuring fair value and beginning on January 1, 2008 this framework is generally applied to all financial statement items required to be measured at fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: valued at the Net Asset Value (“NAV”) of shares held by the Plan at year end. The NAV is a quoted price in an active market.

Collective trust: valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The Plan holds an investment in the BMO Employee Benefit Stable Principal Fund (“Fund”), which is managed by the trustee and invests in assets (typically government securities, fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements), enters into wrap contracts (“Wrap”) issued by third parties and invests in cash equivalents represented by shares in money market funds. A Wrap is a contract with an insurance company or bank, which absorbs any gains or losses caused by market fluctuations. The Wrap allows investors to hold their investments at the original par or book value plus accrued interest, resulting in stable rates of return. The fair value of the units of this investment is based on the fair value of the underlying investments, and a NAV can be calculated for this Fund. Income is calculated daily and the amount of income is dependent on the contract interest rates, contract maturities, and new investments in the Fund.

The Plan also holds other assets not measured at fair value on a recurring basis, including employer and participant contributions receivable. The fair value of these assets approximates the carrying amounts in the accompanying financial statements due to the short maturity of the instruments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2018:

	Level 1	Level 2	Level 3	Total
December 31, 2017:				
Mutual funds	\$ 58,595,409	\$ -	\$ -	\$ 58,595,409
Collective trust measured at NAV*	-	-	-	14,868,550
	<u>\$ 58,595,409</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 73,463,959</u>
December 31, 2018:				
Mutual funds	\$ 55,444,666	\$ -	\$ -	\$ 55,444,666
Collective trust measured at NAV*	-	-	-	16,094,792
	<u>\$ 55,444,666</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 71,539,458</u>

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 5 – Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and a collective trust managed by the Trustee, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Note 6 – Subsequent Events

Plan management has evaluated subsequent events through the date the financial statements were available to be issued, and concluded that no additional disclosures are required.
