INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of
Chevron Master Pension Trust and Chevron Corporation Employees' Retirement Plans

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the Chevron Master Pension Trust (the Trust) and of the Chevron Retirement Plan, the Pension Plan of Chevron Mining Inc. for Employees Represented by the United Mine Workers of America Under Western Coal Wage Agreements, the Chevron - SUP Marine Pension Plan, and the Chevron-MEBA Marine Pension Plan (the Chevron Corporation Employees' Retirement Plans, referred to collectively as the Plans), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017; the related statements of changes in net assets available for benefits for the years then ended; the statement of accumulated Plan benefits as of December 31, 2017, and the related statement of changes in accumulated Plan benefits for the year then ended (the Plans only); and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, which includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Trust's and the Plans' preparation and fair presentation of the financial statements in order to design audit procedures that are

appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's and the Plans' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Chevron Master Pension Trust's and Chevron Corporation Employees' Retirement Plans' net assets available for benefits as of December 31, 2018, and changes therein for the year then ended and its financial status as of December 31, 2017, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

REPORT ON OTHER REGULATORY REQUIREMENTS

Our audit of the financial statements of the Chevron Master Pension Trust and Chevron Corporation Employees' Retirement Plans for the year ended December 31, 2018, was conducted for the purpose of forming an opinion on the financial statements taken as a whole. The additional information included in Schedule H - Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The Schedule H - Financial Schedules (IRS Form 5500) is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017**

Note 1 - Description:

On January 1, 2004, ChevronTexaco Corporation entered into a Master Trust Agreement with State Street Bank and Trust Company, as trustee of the ChevronTexaco Corporation Master Pension Trust and as custodian of its assets. On May 9, 2005, ChevronTexaco Corporation, Plan Administrator of the Plans, changed its corporate name to Chevron Corporation. On July 1, 2006, the ChevronTexaco Corporation Master Pension Trust was renamed the Chevron Master Pension Trust. Effective May 1, 2012, the McKinley Mine was closed and the workers were laid off, as a result the Chevron Mining Plan has no active participants. On April 1, 2016, Chevron Corporation entered into a Master Trust Agreement with Northern Trust Company, as trustee of the Chevron Master Pension Trust and as custodian of its assets.

Master Trust

The assets of the following plans (the Plans) were held in the Master Trust during the years 2018 and 2017:

Chevron Retirement Plan (CRP);

Pension Plan of Chevron Mining Inc. for Employees Represented by the United Mine Workers of America Under Western Coal Wage Agreements (Chevron Mining Plan);

Chevron-SUP Marine Pension Plan (SUP Plan);

Chevron-MEBA Marine Pension Plan (MEBA Plan)

Trust assets and liabilities, net appreciation (depreciation), interest and dividend income, other income, and trust expenses are allocated proportionally each month among the Plans based on each Plans' share of the Master Trust. However, certain income and expense that are plan-specific, such as employer contributions, benefits, and certain recordkeeping fees remain with the specific plan and are not allocated.

The individual Plans are reporting entities subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. United States Department of Labor (DOL) regulations require that a separate Master Trust filing be submitted to the DOL. Such filings are integral parts of the annual report filed with the DOL by each participating Plan.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

Benefits

The Plans are noncontributory defined benefit pension plans that are maintained primarily to provide retirement and death benefits for eligible employees and their spouses, joint pensioners and beneficiaries. Certain former participants of the Retirement Plan of Texaco, Inc. who are now participants of the Chevron Retirement Plan, had the option of making non-forfeitable contributions and receiving an additional amount of pension benefits. This option of making non-forfeitable contributions was terminated on July 1, 2005. A more detailed description of the eligibility & vesting requirements, normal & early retirement rules, benefit formula, and death benefits provided by the Plans, are included in the "Summary Plan Description" of each Plan.

Plan Administrator

Chevron Corporation (the Corporation) has been designated as the Plan Administrator of the Plans.

Allocation Upon Termination/Reversion

It is the intent of the Corporation to continue the Trust and the Plans in full force and effect; however, the right to discontinue the Trust or Plans is reserved to the Corporation. To the extent required to provide all of the accrued benefits under any of the Plans that are terminated, the Corporation will allocate the terminated Plan's share of the assets of the Master Trust, on an actuarial basis, among the Plan's participants and their spouses, joint pensioners and beneficiaries in the manner prescribed by Section 4044 of ERISA. If the terminated Plan or Plans have assets in excess of the amount required to fully provide for the accrued benefits thereunder the excess assets will be returned to the Corporation, subject to any restriction imposed by applicable law. With respect to the Chevron Master Pension Trust, if the assets of the terminated Plan or Plans are insufficient to fully provide for the vested accrued benefits thereunder (other than benefits that are vested solely by reason of the plan termination and benefits that are guaranteed by the Pension Benefit Guaranty Corporation (PBGC)), the Corporation has guaranteed to contribute sufficient funds to provide such benefits. In addition, certain benefits under the Plans are insured by the PBGC if the Plan or Plans terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of plan amendments in effect for less than five years. Some benefits may be fully or partially provided for while other benefits may not be provided at all.

Frozen Plan

The MEBA Plan was frozen as of December 31, 1997. For each participant, the Plan Administrator calculated the accrued benefit under the Plan as of the frozen date. This accrued benefit was used to determine the Plan's obligations.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements of the Trust and the Plans have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are carried at fair value which is determined, presented and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, Fair Value Measurements and Disclosures. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”), in an orderly transaction between market participants at the measurement date.

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plans’ assumptions about inputs market participants would use in pricing the investments developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.

Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities own judgments and estimations or some other pricing method using unobservable inputs.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

In determining fair value, FASB ASC 820 allows various valuation approaches. The specific method for each of the Plans' investment classes are presented below.

Valuation Methods

U.S. Government and Government Agency Obligations and Foreign Government Securities. The fair value is determined using a market-based model in which valuation consideration is given to yield or price of comparable securities, coupon rate, maturity, credit quality and dealer provided prices. (level 2)

Corporate Obligations, including Bank Loans. The fair value of corporate obligations is generally determined based on a model that uses inputs that may include interest-rate yield curves that are similar to valued obligations in terms of issuer, maturity and seniority (level 2). The fair value of bank loans is generally determined based on a model that uses inputs that may include, but is not limited to, discounted cash flows, option adjusted spread prices, and recent trade prices and unobservable credit spreads for a similar debt market (level 3).

Equity Securities and Exchange Traded Funds. The fair value of common stocks is generally based on quoted market prices in active markets (level 1). When quoted prices are not available, valuation is determined from dealer prices based on a model where consideration is given to recent transactions and comparable securities (level 2 and 3).

Common/Collective Trusts and 103-12 Investment Entities. The fair value of the units in common/collective trusts and 103-12 investment entities is estimated based on the net asset value per unit of the investments. The net asset value is used as a practical expedient to estimate fair value. The underlying asset values of the common/collective trusts may be calculated based on quoted market prices or other observable inputs.

Real Estate Fund. The fair value of the Real Estate limited partnerships are estimated based on the ownership interest in the partners' capital. The ownership interest in the partners' capital is used as a practical expedient to estimate the fair value. The underlying investments of the limited partnerships are estimated based on quarterly appraisals or other observable inputs. An independent appraisal is also performed at least annually.

Insurance Co. Account (PRISA II). The fair value of the units in PRISAII is estimated based on the net asset value per unit of the investments. The net asset value is used as a practical expedient to estimate fair value. The underlying investments in PRISA II real estate accounts are valued at estimated fair value, based upon appraisal reports or other observable inputs prepared by independent real estate appraisers no less frequently than annually.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

Limited Partnership/Joint Ventures and Infrastructure Partnerships. The fair value of certain Limited Partnerships/Joint Ventures and Infrastructure Partnership investments is generally estimated based on the ownership interest in the partners' capital. The ownership interest in the partners' capital is used as a practical expedient to estimate the fair value. The fair value of certain investments in other limited partnerships is generally based on quoted market prices in active markets (level 1).

Insurance Co. General Account. The Insurance Co. General account is carried at contract value in accordance with FASB ASC 960 (*Reporting by Defined Benefit Pension Plans of Investment Contracts*). Contract value estimates fair value (level 3).

Cash Equivalents. Cash Equivalents are generally determined using quoted prices in active markets (Level 1). Certain other cash equivalents are valued by the investment manager using observable inputs (Level 2).

Other Investments. Other Investments generally consists of municipal obligations, valuation is determined using a market-based model in which valuation consideration is given to yield or price of comparable securities, coupon rate, maturity, credit quality and dealer provided prices. (level 2)

Derivative Use

Derivatives are used by some of the investment managers. The use of derivatives within the Master Trust is related to these activities: (1) achieving a targeted market (and/or specific segment/sector) exposure at lowest possible cost, (2) achieving timely market exposure until actual securities may be purchased or sold, and (3) reducing the price volatility of securities denominated in foreign currencies.

Valuation Methods, Consistency

The valuation techniques used in the accompanying financial statements have been consistently applied.

Contributions from the Corporation

The Plans record employer's contributions when the amounts are approved by the employer.

Transaction and Investment Recognition

Purchases and sales of securities are reflected on a trade date basis. Interest and other income are recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date.

In accordance with the policy of stating investments at fair value, the change in net realized and unrealized appreciation or depreciation is included in the statement of changes in net assets available for benefits.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

Administrative Expenses

The administrative expenses include trustee, consultant, actuarial, accountant, external administrators and certain administrative services performed by the Plan Administrator, which are applicable to the Master Trust as a whole. In addition, the Plan Administrator provides certain other administrative services for which no charges are made.

New Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) 2017-06, *Plan Accounting, Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. The update improves the usefulness of the information reported to users of employee benefit plan financial statements and provides clarity to preparers. The update clarifies presentation requirements for a plan's interest in a master trust and requires more detailed disclosures of the plan's interest in the master trust. The ASU is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. ASU 2017-06 requires retrospective application to all years represented in comparative financial statements. The Trust's and Plan's management adopted the ASU for the year ended December 31, 2018.

Note 3 - Funding Policy:

The Plans' Administrator annually determines the normal cost of the Plans and the amount of unfunded past service cost. This determination is based on an actuarial estimate of the amount required to provide benefits ultimately due each Plans' participants. The Plans are subject to the funding provisions of ERISA. The funding policy of the Plan Administrator is to make the Corporation's contributions to the Plan at least equal to the minimum funding requirements of ERISA.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits payable under all circumstances: retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

The actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. Pension benefits in excess of the present assets of the Plans are dependent upon contributions received from the employer and income from investments.

Since information on the accumulated Plan benefits at December 31, 2018 and the changes therein for the year then ended are not included in the financial statements or the notes thereto, these financial statements do not purport to present a complete presentation of the financial status of the Plans as of December 31, 2018 and the changes in its financial status for the year then ended, but only a presentation of the net assets available for benefits and the changes therein as of and for the year ended December 31, 2018.

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2018. Had the evaluations been made as of December 31, 2017 there would be no material differences. No amendments were adopted on January 1, 2018.

Note 5- Securities Lending Program:

On April 1, 2016, the Corporation entered into an agreement with The Northern Trust Company (the Bank), the custodian for the Master Trust's investments effective April 1, 2016. This agreement authorizes the Bank (while it is the custodian of the Master Trust's investments) to lend securities held in the Master Trust's accounts to third parties. The Bank must obtain collateral from the borrower in the form of cash, letters of credit issued by an entity other than the borrower, or acceptable securities. Both the collateral and the securities loaned are marked to market on a daily basis so that all loaned securities are fully collateralized at all times. In the event that the loaned securities are not returned by the borrower, the Bank will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the Plans' accounts with cash equal to the fair value of the loaned securities.

Investment income includes \$1,367,159 and \$1,160,266 earned by the Master Trust during 2018 and 2017, respectively, in connection with securities lending activities.

Although the securities lending activities are collateralized as described above, and although the terms of the securities lending agreement with the custodial bank require the Bank to comply with government rules and regulations related to the lending of securities held by ERISA plans, the securities lending program involves both market and credit risk. In this context, market risk refers to the possibility that the borrower of securities will be unable to collateralize their loan upon a sudden material change in the fair value of the loaned securities or the collateral, or that the Bank's investment of the cash collateral received from the borrowers of the Plans' securities may be subject to unfavorable market fluctuations.

Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

**CHEVRON MASTER PENSION TRUST
AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

The market value of loaned securities was \$147,778,339 and \$207,475,786 as of December 31, 2018 and 2017, respectively, while the collateral held was \$151,158,865 and \$214,858,664, respectively. In accordance with FASB ASC 860, the Plan has segregated securities on loan to third parties from other investments and the value of the collateral held and a corresponding liability to return the collateral are reported on the accompanying statements of net assets available for benefits.

Note 6 - Investments:

The investments are held by Northern Trust Company. The table on the following pages 18 and 19 presents the fair value and the Plan's interest of those investments as of December 31, 2018 and 2017.

During 2018 and 2017, the Master Trust's investments including gains and losses on investments bought and sold, as well as held during the year, appreciated / (depreciated) in value by \$(722,879,509) and \$1,234,666,032, respectively.

{a} The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Note 8 – Investments in Certain Entities That Calculate Net Asset Value:

FASB ASC 820 permits entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value.

The following is a summary of the Trust's investments measured at fair value based on NAV, per share (or its equivalent).

{b} This category includes investments in real estate funds that invest primarily in U.S. commercial real estate. The fair values of the investments in this category have been estimated using the net asset value of the Company's ownership interest in partners' capital. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund.

{c} This category includes investments in private equity partnerships that in turn invest their assets in U.S. and non-U.S. companies. The fair values of the investments in this category have been estimated using the net asset value per share/unit of the investments. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund.

{d} These investments are direct filing entities with the Department of Labor; therefore, information regarding the investments' strategies is not disclosed. The investments in this category cannot be redeemed.

{e} The Infrastructure Partnerships category consists of an investment in the IFM Global Infrastructure (U.S.), L.P. (IFM) and Global Infrastructure GP III, L.P. (GIP). The objective of IFM is to acquire and maintain a diversified portfolio of global infrastructure investments within targeted sub-sectors with varied maturities that realize a 10% annual return over a three-year rolling period. A partner may withdraw all or a portion of such Limited Partner's Capital Account balance as of the end of each quarter upon at least 90 days prior written notice to the fund, subject to a minimum withdrawal amount of \$1 million (unless such amount represents the entirety of its account). The objective of GIP is to invest in infrastructure assets in the energy, transport and water/waste industries, globally, with a primary focus on Organization for Economic Co-operation and Development ("OECD") markets in North America, Europe and Australia. The capital balance of GIP cannot be redeemed.

Note 9 - Financial Instruments:

The Master Trust investment policy defines its primary objectives as paying trust benefits due or expected to become due, preserving fund assets, and achieving results that allow asset levels to increase beyond the requirements of the previous objectives, but within acceptable risk parameters.

As part of their total investment strategy, and to meet the primary objectives established, several of the Master Trust's investment managers utilize derivatives for risk reduction. Risk reduction provides for achievement of desired portfolio characteristics that allow the Trust to meet its investment objectives. Risks associated with derivatives vary widely, but generally may be categorized as market risk and credit risk. Market risk is defined as that risk associated with fluctuations in market price. Credit risk is defined as that risk associated with an entity not paying.

NOTES TO FINANCIAL STATEMENTS (Continued)**

To monitor the Trust's investment portfolio, reports are reviewed, and investments monitored by the Corporation's personnel and its investment managers on a monthly basis. Specific reports related to accounts with derivative transactions are prepared by the investment custodian in which market values, realized and unrealized gains and losses, and duration gaps are presented for Trust investment advisors' review.

Some of the Trust's investment managers enter into futures and foreign currency exchange contracts. These contracts are standardized agreements between two parties to buy and sell domestic and foreign currency, treasuries and indexes at a set price on a future date. The Trust invests in these contracts in order to gain exposure to certain classes and securities at a lower cost than buying the specific assets. Should market conditions move unexpectedly, the Trust may not achieve the anticipated benefits of these contracts and may realize a loss. These derivatives are not designated as hedging instruments under ASC 815, *Derivatives and Hedging*. The following sections provide detail on the specific derivatives that were held by the Trust at December 31, 2018 and 2017 and the gain (loss) information on such derivatives for the year ended December 31, 2018 and 2017.

At December 31, 2018 and 2017, approximately \$13,700,000 and \$14,100,000, respectively, has been pledged against the futures contracts to cover the initial margin and collateral requirements. Total open future contracts, unrealized gain and (loss) by category and type at December 31, 2018 and 2017 consisted of the following:

The Trust recorded a realized loss of \$(1,419,995) and an unrealized gain of \$1,919,223 on derivatives contracts entered into during the year ended December 31, 2018. The Trust recorded a realized gain of \$2,153,805 and an unrealized loss of \$(250,873) on derivatives contracts entered into during the year ended December 31, 2017. The gain and loss activity were reported in net appreciation (depreciation) in fair value of investments on the statement of changes in net assets available for benefits.

Note 10 - Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

AND EMPLOYEES' RETIREMENT PLANS
NOTES TO FINANCIAL STATEMENTS (Continued)**

Note 11 - Tax Status:

The Plans' Administrator believes the Plans continue to fulfill the requirements for qualified plans under Section 401 (a) of the Internal Revenue Code and were, therefore, exempt from federal income taxes under the provisions of Section 501(a). The Plans have been amended since receiving its determination letters. The Plans' administrator and the Plans' tax counsel believe that the Plans are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Master Trust that forms a part of each Plan is not subject to income tax. Accordingly, no provision for federal or state income taxes has been made.

The Plans' administrator has analyzed the tax positions taken by the Plans, and concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 12 - Plan Amendments, Assumptions, Mergers and Other:

Effective December 31, 2017, the changes in Plan assumptions for the Chevron Retirement Plan are as follows:

- 1) An update to the mortality and interest rates for determining minimum lump sum payments under IRC section 417(e)(3) to the applicable rates for the current plan year.
- 2) A change in the mortality assumption from the RP-2014 fully generational table projected using Scale MP-2016 with white-collar adjustment to the RP-2014 fully generational table projected using Scale MP-2017 with white-collar adjustment.

Effective December 31, 2017, the changes in Plan assumptions for the Chevron Mining Plan are as follows:

- 1) A change in the mortality assumption from the RP-2014 fully generational table with blue collar adjustments projected using Scale MP-2016 to the RP-2014 fully generational table with blue collar adjustments projected using Scale MP-2017.

Effective December 31, 2017, the changes in Plan assumptions for the Chevron SUP Marine Pension Plan are as follows:

- 1) An update to the mortality and interest rates for determining minimum lump sum payments under IRC section 417(e)(3) to the applicable rates for the current plan year.
- 2) A change in the mortality assumption from the RP-2014 fully generational table projected using Scale MP-2016 to RP-2014 fully generational table projected using Scale MP-2017.

NOTES TO FINANCIAL STATEMENTS (Continued)**

Effective December 31, 2017, the changes in Plan assumptions for the Chevron MEBA Marine Pension Plan are as follows:

- 1) A change in the mortality assumption from to RP-2014 fully generational table projected using Scale MP-2016 to RP-2014 fully generational table projected using Scale MP-2017.
- 2) A change in the optional payment election form percentage from 100% elect the single life annuity to 10% elect the single life annuity and 90% elect lump sum.

Note 13 – Related Party and Party in Interest Transactions

During 2018, the Plan paid for certain administrative services performed by the Plan Administrator totaling \$865,652 and reimbursed the Plan Administrator for certain expenses totaling \$4,941,702. During 2017, the Plan paid for certain administrative services performed by the Plan Administrator totaling \$1,142,927 and reimbursed the Plan Administrator for certain expenses totaling \$4,224,214. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

Note 14 – Regulatory Audit

The Plans are subject to routine audits by the governmental jurisdictions. The Department of Labor (DOL) concluded its examination of the Chevron Master Pension Trust (the Trust) for the years ended December 31, 2014, 2015, 2016 and 2017 as of September 2018, and issued a no-action, closing letter with respect to the examination. During the Plan year 2018, the administrative practices of the Chevron Retirement Plan (CRP) were under DOL examination for the years ended December 31, 2012, 2013, 2014, 2015, 2016 and 2017. The DOL concluded its investigation of the CRP as of June 2019, with the DOL taking no further action and also issuing a closing letter.

Note 15 - Subsequent Events:

Subsequent events were evaluated through the date on which the financial statements were available to be issued. The date is approximately the same as the auditors' report date. Effective June 1, 2019 the Plan record keeper was changed from Conduent to Willis Towers Watson. Effective June 2019 the DOL concluded its investigation of the CRP.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
