Management's responsibility for the financial statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2018 and 2017, and for the year ended December 31, 2018, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Grant Thornton LLP is the U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Supplementary information
The supplemental schedules of assets held (at end of year) as of December 31, 2018, and reportable transactions for the year ended December 31, 2018, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note I, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - PLAN DESCRIPTION

The following brief description of the Clune Construction Company Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

Clune Construction Company, a wholly owned subsidiary of Killiney Holdings, Inc. (collectively, the Company), established the Plan in 2012 for the benefit of its eligible employees and those of any participating affiliates. The Plan is a defined contribution plan, and is a stock bonus plan meeting the requirements of Section 401(a) and a leveraged employee stock ownership plan (ESOP). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and subsequent legislation. The Company has employed an independent trustee as trustee of the Plan as of January 1, 2017 with Benefit Trust Company remaining as custodian of the Plan. Principal Financial Group is the record keeper of the Plan.

The Plan purchased approximately 15% of the Company's outstanding common stock from outside parties upon establishment. During 2014, the ESOP purchased an additional 9.5% of the Company's outstanding common stock, bringing the total stock owned by the ESOP to 24.5%. On July 18, 2017, the Plan purchased 6,000 shares of the common stock of the Company from certain shareholders in cash for a purchase price of $2,682,300. On August 14, 2018, the Plan purchased 4,500 shares of the common stock of the Company from certain shareholders in cash for a purchase price of $2,823,751. The 2012 and 2014 purchases of the common stock are supported by borrowings from the Company. The borrowings are collateralized by the unallocated shares of common stock and are guaranteed by the Company. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2018 and 2017, and for the year ended December 31, 2018, present separately the assets and liabilities, and changes therein, pertaining to the accounts of employees with rights in allocated common stock (allocated) and the common stock not yet allocated to employees (unallocated). Shares are released from collateral and become allocated generally in the period in which debt service is paid.

Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Eligibility

Employees of the Company are eligible to participate in the Plan after completing 1,000 hours of service during a 12-month consecutive period of employment and reaching age 21. After eligibility requirements are met, the employee becomes a participant on the entry date: January 1 or July 1 of each Plan year. Employees not meeting this requirement, collective bargaining employees and leased employees are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly

scheduled payments of principal and interest due on its term loans. Additional discretionary contributions may be made in the form of cash, Company stock or other property. Discretionary contributions in the form of S corporation distributed income from the Company were made to the Plan in the amount of $5,548,068 for the 2018 Plan year. A portion of the S corporation distribution income on allocated shares totaling $593,569 was applied to debt service. This is reported as a transfer from the unallocated accounts to the allocated accounts on the statement of changes in net assets available for benefits.

The Company contributions for any Plan year may not exceed the maximum amount deductible from the Company's income for such Plan year under IRC Section 404. Participant contributions are neither required nor allowed under the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual Company stock account is established for each participant. Each participant's account is credited with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Allocations are based on a participant's eligible compensation relative to total eligible compensation. If the Plan sponsor chooses to make discretionary Company contributions beyond what is needed to cover principal and interest due on the loans, this excess amount is allocated to participants based on the beginning balance of shares in a participant's account relative to the total amount of allocated shares at the beginning of the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the total of all participant account balances. An investment account is also maintained for each participant for any discretionary Company contributions other than those applied to payment of an acquisition loan and any earnings, gains and losses attributable thereto.

Vesting

Upon retirement, death or disability, the entire amount credited to a participant's account is fully vested and non-forfeitable. Otherwise, each participant account vests at the rate of 20% per year of accumulated service commencing with the second year of service. A participant is 100% vested after six years of credited service.

Put Option

Under federal income tax regulations, employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market.

Upon the retirement or termination of a participant, the Company's ESOP provides a put option, which allows the participant to sell his or her allocated and vested stock to the Company at the fair market value of such shares, as determined by the most recent valuation of the Company's stock. If the participant does not exercise the put option, the Company's stock distributed to the participant is subject to the right of first refusal, providing that, prior to any subsequent transfer, the Company may purchase the stock from the participant at the same price as specified under the put option or at the same price and terms of a bona fide offer made to the participant by a third party.

Payment of Benefits

The vested portion of a participant's account shall be distributed in a lump sum or in installments over a period not to exceed five years. These payments shall commence 60 days after the later of the close of the Plan year or when the participant reaches age 65 and will be distributed in the form of cash or Company common stock that is subject to a put option as discussed in note A.

Participants with vested account balances of $5,000 or less will have their accounts distributed as soon as administratively possible following the participant's termination of employment due to employment termination, normal retirement, early retirement, disability or death. Participants with vested account balances in excess of $5,000 will commence distribution of their account in the Plan year following their termination of employment. Distribution of participants' vested account balances in excess of $1,000 prior to the participant attaining age 65 may not be made without the participant's consent.

Effective January 1, 2018, the Plan was amended to provide a one-time in-service distribution of a participant's vested account balance upon reaching the age of 62.

Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. A participant's election to direct the diversification of his or her account shall be satisfied by distributing the election within 90 days after the period during which the election may be made.

Forfeitures

Forfeitures are allocated to each participant's account who has completed 1,000 hours of service or whose death, disability or retirement date occurred during the Plan year. Forfeitures are allocated based on the relation of the participant's eligible compensation to total eligible compensation for the Plan year. There were $0 forfeited non-vested accounts at December 31, 2018 and 2017. Forfeitures of $218,844 were allocated to participant accounts for the year ended December 31, 2018.

Administrative Expenses

Administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is required; however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities, and changes therein, pertaining to (1) the accounts of employees with rights in allocated stock and (2) stock not yet allocated to employees, including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Basis of Accounting

The financial statements of the Plan are prepared on an accrual basis.

Valuation of Investments and Income Recognition

The shares of Company common stock are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurement. S corporation distribution income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the gain on investment in Killiney Holdings, Inc. common stock held during the year.

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which is part of the FASB disclosure framework project to improve the effectiveness of disclosures in the notes to the financial statements. The amendments in the new guidance remove, modify and add certain disclosure requirements related to fair value measurements covered in Topic 820, *Fair Value Measurement*. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted for either the entire standard or only the requirements that modify or eliminate the disclosure requirements, with certain requirements applied prospectively, and all other requirements applied retrospectively to all periods presented. The Company is currently evaluating the impact of adopting this guidance.

NOTE C - INVESTMENTS

The Plan's investments are presented as of December 31:

	2018		2017	
	Allocated	Unallocated	Allocated	Unallocated
Killiney Holdings, Inc. common stock				
Number of shares	31,466	15,784	23,829	18,921
Cost	$11,557,008	$3,397,213	$6,216,277	$4,031,310
Estimated fair value ($961.95 and $629.60 per share as of December 31, 2018 and 2017, respectively)	30,268,449	15,183,689	15,002,636	11,912,763
State Street Global Advisors money market fund	1,170,746	-	2,429,960	-

NOTE D - FAIR VALUE MEASUREMENTS

There is a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

Killiney Holdings, Inc. common stock - Valued at estimated fair value as of the valuation date, as determined by an independent appraisal.

State Street Global Advisors money market fund - Valued at the closing price of the fund at year-end, which approximates cost.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Killiney Holdings, Inc. common stock	$ -	$ -	$45,452,138	$45,452,138
State Street Global Advisors money market fund	1,170,746	-	-	1,170,746
Total	$1,170,746	$ -	$45,452,138	$46,622,884

	2017			
	Level 1	Level 2	Level 3	Total
Killiney Holdings, Inc. common stock	$ -	$ -	$26,915,399	$26,915,399
State Street Global Advisors money market fund	2,429,960	-	-	2,429,960
Total	$2,429,960	$ -	$26,915,399	$29,345,359

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets as of December 31, 2018:

Killiney Holdings, Inc. common stock	
Balance, beginning of year	$26,915,399
Purchase of 4,500 shares of stock	2,823,751
Net appreciation in the fair value of investments	15,712,988
Balance, end of year	$45,452,138

Killiney Holdings, Inc. common stock held by the Plan is valued at fair value based on an independent appraisal. This appraisal was based on a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

Investment	Fair value 2018	Fair value 2017	Principal valuation technique	Unobservable inputs
Killiney Holdings, Inc. common stock	$45,452,138	$26,915,399	Income	EBITDA
				Net income
				Weighted average cost of capital
				Discount rate
				Discount for lack of marketability
			Market	Public comparables
				Revenue multiple
				EBITDA multiple

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution, which is reviewed by Plan management for appropriateness and reasonableness.

NOTE E - LOAN PAYABLE

The Plan enters into term loan agreements with the Company, the proceeds of which are used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released is based on the principal and interest method. The calculation is the number of shares held as collateral, times the ratio of the current-year payments divided by the total of this year's payments, plus all future years' principal and interest payments (for the principal and interest release method). This resulted in 3,137 shares being released and allocated for the Plan year ended December 31, 2018. Interest rates currently available for issuances of debt with similar terms, maturity dates and non-performance risks are similar to the rates per the agreements; thus, the fair value of the loan payable approximates the outstanding carrying value. Loans payable outstanding as of December 31, 2018 and 2017, are as follows:

	2018	2017
Promissory note to the Company on July 1, 2012, in the amount of $4,250,000, including interest at the annual rate of 2.30%, final payment due on July 1, 2022	$ 1,700,000	$ 2,125,000
Promissory note to the Company on July 2, 2014, in the amount of $3,315,262, including interest at the annual rate of 3.06%, final payment due on July 2, 2029	2,572,139	2,766,401
	$ 4,272,139	$ 4,891,401

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2019	$ 625,207
2020	631,334
2021	637,648
2022	644,155
2023	225,861
Thereafter	1,507,934
	$ 4,272,139

NOTE F - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company reserves the right to terminate the Plan at any time subject to Plan provisions. Upon termination of the Plan, the Plan sponsor should direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan's terms and the IRC.

NOTE G - INCOME TAX STATUS

The Plan is a Killiney Holding Inc. Employee Stock Ownership Plan. The Plan obtained its latest determination letter on April 1, 2016, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no conclusions for audit currently in progress.

NOTE H - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. As described in note A, the Company paid all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

NOTE I - INFORMATION CERTIFIED BY CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2018.
- Schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE J - SUBSEQUENT EVENTS

The Company evaluated the Plan's December 31, 2018, financial statements for subsequent events through October 11, 2019, the date the financial statements were available to be issued. Other than disclosed as follows, the Company is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

On August 20, 2019, the Plan, through its trust, entered into a loan and pledge agreement to purchase 9,100 shares of common stock of the Company for an aggregate purchase price of $8,753,745, of which 7,796 shares were funded by a borrowing of $7,500,000 and the remaining 1,304 shares were funded by cash in the amount of $1,253,745.

Report on the financial statements

We were engaged to audit the accompanying financial statements of Clune Construction Company Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's responsibility for the financial statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2018 and 2017, and for the year ended December 31, 2018, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Grant Thornton LLP is the U.S. member firm of Grant Thornton International Ltd (GTIL). GTIL and each of its member firms are separate legal entities and are not a worldwide partnership.

Supplementary information
The supplemental schedules of assets held (at end of year) as of December 31, 2018, and reportable transactions for the year ended December 31, 2018, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note I, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - PLAN DESCRIPTION

The following brief description of the Clune Construction Company Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

Clune Construction Company, a wholly owned subsidiary of Killiney Holdings, Inc. (collectively, the Company), established the Plan in 2012 for the benefit of its eligible employees and those of any participating affiliates. The Plan is a defined contribution plan, and is a stock bonus plan meeting the requirements of Section 401(a) and a leveraged employee stock ownership plan (ESOP). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and subsequent legislation. The Company has employed an independent trustee as trustee of the Plan as of January 1, 2017 with Benefit Trust Company remaining as custodian of the Plan. Principal Financial Group is the record keeper of the Plan.

The Plan purchased approximately 15% of the Company's outstanding common stock from outside parties upon establishment. During 2014, the ESOP purchased an additional 9.5% of the Company's outstanding common stock, bringing the total stock owned by the ESOP to 24.5%. On July 18, 2017, the Plan purchased 6,000 shares of the common stock of the Company from certain shareholders in cash for a purchase price of $2,682,300. On August 14, 2018, the Plan purchased 4,500 shares of the common stock of the Company from certain shareholders in cash for a purchase price of $2,823,751. The 2012 and 2014 purchases of the common stock are supported by borrowings from the Company. The borrowings are collateralized by the unallocated shares of common stock and are guaranteed by the Company. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2018 and 2017, and for the year ended December 31, 2018, present separately the assets and liabilities, and changes therein, pertaining to the accounts of employees with rights in allocated common stock (allocated) and the common stock not yet allocated to employees (unallocated). Shares are released from collateral and become allocated generally in the period in which debt service is paid.

Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Eligibility

Employees of the Company are eligible to participate in the Plan after completing 1,000 hours of service during a 12-month consecutive period of employment and reaching age 21. After eligibility requirements are met, the employee becomes a participant on the entry date: January 1 or July 1 of each Plan year. Employees not meeting this requirement, collective bargaining employees and leased employees are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly

scheduled payments of principal and interest due on its term loans. Additional discretionary contributions may be made in the form of cash, Company stock or other property. Discretionary contributions in the form of S corporation distributed income from the Company were made to the Plan in the amount of $5,548,068 for the 2018 Plan year. A portion of the S corporation distribution income on allocated shares totaling $593,569 was applied to debt service. This is reported as a transfer from the unallocated accounts to the allocated accounts on the statement of changes in net assets available for benefits.

The Company contributions for any Plan year may not exceed the maximum amount deductible from the Company's income for such Plan year under IRC Section 404. Participant contributions are neither required nor allowed under the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual Company stock account is established for each participant. Each participant's account is credited with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Allocations are based on a participant's eligible compensation relative to total eligible compensation. If the Plan sponsor chooses to make discretionary Company contributions beyond what is needed to cover principal and interest due on the loans, this excess amount is allocated to participants based on the beginning balance of shares in a participant's account relative to the total amount of allocated shares at the beginning of the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the total of all participant account balances. An investment account is also maintained for each participant for any discretionary Company contributions other than those applied to payment of an acquisition loan and any earnings, gains and losses attributable thereto.

Vesting

Upon retirement, death or disability, the entire amount credited to a participant's account is fully vested and non-forfeitable. Otherwise, each participant account vests at the rate of 20% per year of accumulated service commencing with the second year of service. A participant is 100% vested after six years of credited service.

Put Option

Under federal income tax regulations, employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market.

Upon the retirement or termination of a participant, the Company's ESOP provides a put option, which allows the participant to sell his or her allocated and vested stock to the Company at the fair market value of such shares, as determined by the most recent valuation of the Company's stock. If the participant does not exercise the put option, the Company's stock distributed to the participant is subject to the right of first refusal, providing that, prior to any subsequent transfer, the Company may purchase the stock from the participant at the same price as specified under the put option or at the same price and terms of a bona fide offer made to the participant by a third party.

Payment of Benefits

The vested portion of a participant's account shall be distributed in a lump sum or in installments over a period not to exceed five years. These payments shall commence 60 days after the later of the close of the Plan year or when the participant reaches age 65 and will be distributed in the form of cash or Company common stock that is subject to a put option as discussed in note A.

Participants with vested account balances of $5,000 or less will have their accounts distributed as soon as administratively possible following the participant's termination of employment due to employment termination, normal retirement, early retirement, disability or death. Participants with vested account balances in excess of $5,000 will commence distribution of their account in the Plan year following their termination of employment. Distribution of participants' vested account balances in excess of $1,000 prior to the participant attaining age 65 may not be made without the participant's consent.

Effective January 1, 2018, the Plan was amended to provide a one-time in-service distribution of a participant's vested account balance upon reaching the age of 62.

Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. A participant's election to direct the diversification of his or her account shall be satisfied by distributing the election within 90 days after the period during which the election may be made.

Forfeitures

Forfeitures are allocated to each participant's account who has completed 1,000 hours of service or whose death, disability or retirement date occurred during the Plan year. Forfeitures are allocated based on the relation of the participant's eligible compensation to total eligible compensation for the Plan year. There were $0 forfeited non-vested accounts at December 31, 2018 and 2017. Forfeitures of $218,844 were allocated to participant accounts for the year ended December 31, 2018.

Administrative Expenses

Administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is required; however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities, and changes therein, pertaining to (1) the accounts of employees with rights in allocated stock and (2) stock not yet allocated to employees, including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Basis of Accounting

The financial statements of the Plan are prepared on an accrual basis.

Valuation of Investments and Income Recognition

The shares of Company common stock are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurement. S corporation distribution income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the gain on investment in Killiney Holdings, Inc. common stock held during the year.

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which is part of the FASB disclosure framework project to improve the effectiveness of disclosures in the notes to the financial statements. The amendments in the new guidance remove, modify and add certain disclosure requirements related to fair value measurements covered in Topic 820, *Fair Value Measurement*. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted for either the entire standard or only the requirements that modify or eliminate the disclosure requirements, with certain requirements applied prospectively, and all other requirements applied retrospectively to all periods presented. The Company is currently evaluating the impact of adopting this guidance.

NOTE C - INVESTMENTS

The Plan's investments are presented as of December 31:

	2018		2017	
	Allocated	Unallocated	Allocated	Unallocated
Killiney Holdings, Inc. common stock				
Number of shares	31,466	15,784	23,829	18,921
Cost	$11,557,008	$3,397,213	$6,216,277	$4,031,310
Estimated fair value ($961.95 and $629.60 per share as of December 31, 2018 and 2017, respectively)	30,268,449	15,183,689	15,002,636	11,912,763
State Street Global Advisors money market fund	1,170,746	-	2,429,960	-

NOTE D - FAIR VALUE MEASUREMENTS

There is a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

Killiney Holdings, Inc. common stock - Valued at estimated fair value as of the valuation date, as determined by an independent appraisal.

State Street Global Advisors money market fund - Valued at the closing price of the fund at year-end, which approximates cost.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Killiney Holdings, Inc. common stock	$ -	$ -	$45,452,138	$45,452,138
State Street Global Advisors money market fund	1,170,746	-	-	1,170,746
Total	$1,170,746	$ -	$45,452,138	$46,622,884

	2017			
	Level 1	Level 2	Level 3	Total
Killiney Holdings, Inc. common stock	$ -	$ -	$26,915,399	$26,915,399
State Street Global Advisors money market fund	2,429,960	-	-	2,429,960
Total	$2,429,960	$ -	$26,915,399	$29,345,359

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets as of December 31, 2018:

Killiney Holdings, Inc. common stock	
Balance, beginning of year	$26,915,399
Purchase of 4,500 shares of stock	2,823,751
Net appreciation in the fair value of investments	15,712,988
Balance, end of year	$45,452,138

Killiney Holdings, Inc. common stock held by the Plan is valued at fair value based on an independent appraisal. This appraisal was based on a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table:

Investment	Fair value 2018	Fair value 2017	Principal valuation technique	Unobservable inputs
Killiney Holdings, Inc. common stock	$45,452,138	$26,915,399	Income	EBITDA
				Net income
				Weighted average cost of capital
				Discount rate
				Discount for lack of marketability
			Market	Public comparables
				Revenue multiple
				EBITDA multiple

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution, which is reviewed by Plan management for appropriateness and reasonableness.

NOTE E - LOAN PAYABLE

The Plan enters into term loan agreements with the Company, the proceeds of which are used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released is based on the principal and interest method. The calculation is the number of shares held as collateral, times the ratio of the current-year payments divided by the total of this year's payments, plus all future years' principal and interest payments (for the principal and interest release method). This resulted in 3,137 shares being released and allocated for the Plan year ended December 31, 2018. Interest rates currently available for issuances of debt with similar terms, maturity dates and non-performance risks are similar to the rates per the agreements; thus, the fair value of the loan payable approximates the outstanding carrying value. Loans payable outstanding as of December 31, 2018 and 2017, are as follows:

	2018	2017
Promissory note to the Company on July 1, 2012, in the amount of $4,250,000, including interest at the annual rate of 2.30%, final payment due on July 1, 2022	$ 1,700,000	$ 2,125,000
Promissory note to the Company on July 2, 2014, in the amount of $3,315,262, including interest at the annual rate of 3.06%, final payment due on July 2, 2029	2,572,139	2,766,401
	$ 4,272,139	$ 4,891,401

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2019	$ 625,207
2020	631,334
2021	637,648
2022	644,155
2023	225,861
Thereafter	1,507,934
	$ 4,272,139

NOTE F - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company reserves the right to terminate the Plan at any time subject to Plan provisions. Upon termination of the Plan, the Plan sponsor should direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan's terms and the IRC.

NOTE G - INCOME TAX STATUS

The Plan is a Killiney Holding Inc. Employee Stock Ownership Plan. The Plan obtained its latest determination letter on April 1, 2016, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no conclusions for audit currently in progress.

NOTE H - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related-party and party-in-interest transactions. As described in note A, the Company paid all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

NOTE I - INFORMATION CERTIFIED BY CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2018.
- Schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE J - SUBSEQUENT EVENTS

The Company evaluated the Plan's December 31, 2018, financial statements for subsequent events through October 11, 2019, the date the financial statements were available to be issued. Other than disclosed as follows, the Company is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

On August 20, 2019, the Plan, through its trust, entered into a loan and pledge agreement to purchase 9,100 shares of common stock of the Company for an aggregate purchase price of $8,753,745, of which 7,796 shares were funded by a borrowing of $7,500,000 and the remaining 1,304 shares were funded by cash in the amount of $1,253,745.
