Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2018 financial statements.

Note 1 - Plan Description

The following description of McWhinney 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of McWhinney Real Estate Services, Inc. (the "Company") who have completed one month of service, excluding union employees, nonresident aliens, leased employees, project employees who have completed less than one year or 1,000 hours of service, and residents of Puerto Rico. The Plan was established on August 1, 1995 and was most recently amended effective January 1, 2018. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

Management of the Company administers the Plan. Standard Insurance Company (The Standard) serves as trustee, manages plan assets, and maintains the Plan's records. The Standard offers plan participants a variety of investment options through various pooled separate accounts and an unallocated insurance contract. Investment management fees are paid by the Plan in accordance with the plan agreement.

Contributions

The Plan provides for employee salary deferral contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan allows participants to contribute up to 100 percent of their compensation on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company may make a matching contribution to participants, as defined by the plan agreement. No matching contributions were made for the year ended December 31, 2018. The Company may also make an annual discretionary profit-sharing contribution to participants with at least 500 hours of service during the year and who are employed on the last day of the year. The annual discretionary profit-sharing contribution is based on the pro rata amount of a participant's annual compensation divided by total compensation of all participants eligible to share. Profit-sharing contributions of $390,374 were made for the year ended December 31, 2018.

Participant Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participants are 100 percent vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions. Vesting in the Company's employer matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service beginning at 20 percent after one year of service and increasing 20 percent for each year of continuous service thereafter. A participant is 100 percent vested after five years of service with the Company.

A participant's account becomes 100 percent vested upon death, attaining normal retirement age (the age of 65) while an employee, retirement due to disability, or termination of the Plan.

Note 1 - Plan Description (Continued)

Participant Notes Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 4.25 percent, which are commensurate with local prevailing rates determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions. Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

On termination of service due to death, disability, retirement, or termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, partial payments, or various installment annuities. Benefits are recorded when paid.

The plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the plan sponsor. The plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. Furthermore, the plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the plan into an individual retirement account. The IRS has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Company.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. At December 31, 2018 and 2017, forfeited account balances totaled $0.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by The Standard or its affiliates. The Standard is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation

The Plan's investment committee determines the Plan's valuation policy utilizing information provided by the investment advisors, including the appointment of investment managers and monitoring of the performance of the Plan's investment funds. The Plan's investments are valued at fair value, except as noted below.

Note 2 - Summary of Significant Accounting Policies (Continued)

The fully benefit-responsive unallocated insurance contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The pooled separate accounts are valued at net asset value per share (NAV) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Additionally, some investments held by The Standard are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Concentration of Investments

At December 31, 2018 and 2017, one and two investments accounted for 13 percent and 24 percent, respectively, of total investments at fair value. During the year ended December 31, 2018, one investment accounted for 17 percent of investment income. A significant change in the market value of these investments would significantly affect the net assets available for benefits and related investment income of the Plan.

Reclassification

Certain prior year amounts have been reclassified to conform to the current year presentation.

In 2018, it was determined that the unallocated insurance contract is a benefit-responsive investment contract valued at contract value. Previously, in 2017, the unallocated insurance contract was deemed to be a non-benefit-responsive contract valued at fair value. As a result, the fair value hierarchy disclosure is no longer applicable for the unallocated insurance contract. In addition, disclosures are made above for the benefit-responsive investment contract held by the Plan.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2019, which is the date the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.

Note 3 - Unallocated Insurance Contract

The Plan has a benefit-responsive investment contract with The Standard. The Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest rate is applied to all contributions made to the product, regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting, but may not be less than 1.5 percent. When establishing interest crediting rates for this product, The Standard considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer’s general account.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Note 4 - Unaudited Information

The Standard holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by The Standard.

Note 5 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 6 - Reconciliation of the Financial Statements to Form 5500

As of December 31, 2018 and 2017, the accompanying financial statements have included contributions receivable from the Company in the amount of $390,374 and $353,112, respectively, and receivables from employees in the amount of $0 and $29,508, respectively. For 2018 and 2017, Form 5500 has recorded its assets on the cash method of accounting and did not record employee and employer contributions receivable at December 31, 2018 and 2017. Accordingly, the total employer and employee contributions on Form 5500 for the year ended December 31, 2018 are 1 percent lower than amounts reported on the accompanying financial statements.
