Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We have audited the accompanying financial statements of Commercial Vehicle Group, Inc. Mayflower Legacy Pension Plan (the "Plan") (f/k/a Commercial Vehicle Group, Inc. Pension Plan for Shadyside Plant Union Employees), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2018, and changes therein for the year then ended, and its financial status as of December 31, 2017, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 1 to the financial statements, effective December 31, 2018, the Commercial Vehicle Group, Inc. Pension Plan for Mayflower Vehicle Systems Salaried Employees and the Commercial Vehicle Group, Inc. Union Plan for Norwalk Assembly Plant Union Employees were merged into the Plan. Subsequent to the merger, the Plan's name changed to the Commercial Vehicle Group, Inc. Mayflower Legacy Pension Plan. Our opinion is not modified with respect to this matter.

COMMERCIAL VEHICLE GROUP, INC.
MAYFLOWER LEGACY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Commercial Vehicle Group, Inc. Mayflower Legacy Pension Plan (f/k/a Commercial Vehicle Group, Inc. Pension Plan for Shadyside Plant Union Employees) (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined benefit pension plan established to provide for the payment of pension benefits and disability benefits for all eligible employees of the Shadyside Plant of Commercial Vehicle Group, Inc. (the “Company”) who are members of the United Steelworkers of America AFL-CIO-CLC Local 9419 and have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective March 1, 2008, no newly hired or rehired employee shall be eligible to participate in the Plan. The amendment provided further, that any participant who was employed as of March 1, 2008 and made an irrevocable election prior to April 30, 2008 to opt out of the Plan as of May 31, 2008 shall cease to be eligible to participate in the Plan and shall not earn further accruals after May 31, 2008.

Effective December 31, 2018, the Commercial Vehicle Group, Inc. Pension Plan for Mayflower Vehicle Systems Salaried Employees (“Mayflower Pension Plan”) and the Commercial Vehicle Group, Inc. Union Plan for Norwalk Assembly Plant Union Employees (“Norwalk Pension Plan”) were merged into the Plan. Subsequent to the merger, the Plan’s name changed to the Commercial Vehicle Group, Inc. Mayflower Legacy Pension Plan.

Plan Benefits: The Plan provides for retirement and disability benefits. Employees with five or more years of credited service are entitled to monthly pension benefits beginning at normal retirement age (65), equal to the number of years of credited service multiplied by the monthly unit of benefit (\$14.00, up to a maximum of 30 years of credited service). The monthly unit of benefit was increased to \$20 as of January 1, 2008. Effective January 1, 2012, the monthly unit of benefit was amended to \$22 for all years of service earned after 2011. Effective January 1, 2015, the monthly unit of benefit was amended to \$25 for all years of service earned after 2014. Employees’ benefits under the Plan vest after the completion of five years of service. The Plan permits early retirement at age 60 with minimum service of 10 years. Participants whose employment continues after reaching normal retirement age are eligible to receive benefits at the late retirement date. Employees may elect to receive the value of their accumulated Plan benefits as a single life annuity or as a joint and survivor annuity payable monthly from the date of retirement.

If an active employee becomes totally and permanently disabled after accumulating 10 years of credited service, the disability benefit is equal to the amount calculated under normal retirement. If an employee dies prior to the distribution of any accumulated Plan benefits, a portion of the employee’s accumulated benefits are payable to the designated beneficiary over the life of such beneficiary.

The Mayflower Pension Plan and Norwalk Pension Plan which merged effective December 31, 2018 have different plan benefits which are described more fully in the Plan document.

Funding: The Company contributes amounts that it considers necessary to provide assets sufficient to meet the benefits to be paid. The Company’s contributions for 2018 and 2017 met the minimum funding requirements of ERISA.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Administration: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid through the Commercial Vehicle Group Master Trust (“Master Trust”). Investment management fees and operating expenses charged to the Master Trust for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are estimated future periodic payments attributable under the Plan’s provisions to services rendered by participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees with vested rights or their beneficiaries, and (b) present active employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on the benefit rate in effect on the date of the employee’s retirement. The accumulated plan benefits for active employees are based on the current benefit rate in effect. Benefits payable under all circumstances (i.e. retirement, disability and termination of employment) are included to the extent they are deemed attributable to employee services rendered as of the valuation date.

Trust Fund Administered by the Trustee: Under the terms of the trust agreement, Comerica Bank, the trustee, administers the Master Trust on behalf of the Plan and other Company sponsored retirement plans. Each participating retirement plan holds units of participation in the Master Trust. At December 31, 2018 and 2017, the Plan’s interest in the net assets of the Master Trust was approximately 100% and 6.6%, respectively. Investment managers have been granted discretionary authority concerning purchases and sales of investments in the Master Trust in accordance with general guidelines established by the Company. Investment income and losses and administrative expenses related to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

Transfers from Other Plans: The transfer of \$25,337,691 in net assets and accumulated plan benefits of \$20,409,420 (unaudited) from the Mayflower Pension Plan into the Plan’s trust was completed on December 31, 2018. The transfer of \$15,901,005 in net assets and accumulated plan benefits of \$10,248,635 (unaudited) from the Norwalk Pension Plan into the Plan’s trust was completed on December 31, 2018.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's interest in the Master Trust is reported at estimated fair value based upon the fair values of the underlying investments held in the Master Trust. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust.

Mutual funds and common stocks: The fair values of mutual funds and common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Pooled separate account: The fair values of participation units held in the pooled separate account are based on the net asset values as reported by the managers of the pooled separate account as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The Principal U.S. Property Separate Account ("Account") invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. As of December 31, 2018 and 2017, the Account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Real estate investment trusts: The fair values of participation units held in real estate investment trusts are based on the net asset value reported by the fund managers as of the financial statement dates and recent transaction prices.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. The investment objective of the Comerica Short Term Fund is to invest substantially all of its assets in short-term obligations having a stated maturity date of 397 days or less. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Risks and Uncertainties: The Plan invests in a Master Trust which invests in various investments. Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 – MASTER TRUST

All of the Plan's investments are in the Commercial Vehicle Group, Inc. Master Trust ("Master Trust") which was established for the investment of assets of the Plan and two other Company sponsored defined benefit retirement plans. Each participating plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Comerica Bank ("Trustee"). At December 31, 2018 and 2017, the Plan's interest in the net assets of the Master Trust was approximately 100% and 6.6%, respectively. Net assets, investment income, and administrative expenses of the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were (a) life expectancy of participants (RP-2014 mortality table, projected generationally using the MP-2018 improvement scale), (b) retirement age assumptions (rates vary by age with 100% retirement at age 65), (c) a withdrawal rate for employees who will leave before retirement and (d) long term rate of return of 7.0% per annum. The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2017 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Retired participants and beneficiaries currently receiving payments	\$ 530,532
Other benefits	1,547,310
	<u>2,077,842</u>
Nonvested benefits	<u>1,240</u>

Total actuarial present value of accumulated plan benefits	<u>\$ 2,079,082</u>
--	---------------------

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2017 consists of the following:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 1,958,658
Increase (decrease) during the year attributable to:	
Benefits paid	(33,306)
Interest due to decrease in discount period	137,032
Benefits accumulated net of actuarial experience	23,761
Change in actuarial assumptions	<u>(7,063)</u>
Actuarial present value of accumulated plan benefits at end of the year	<u>\$ 2,079,082</u>

The change in actuarial assumptions is due to a change in the mortality projection scale from the MP-2017 improvement scale to the MP-2018 improvement scale.

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pension. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 20, 2014, that the Plan is qualified and exempt from income tax under the provisions of Section 401(a) of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to federal income tax examinations for years prior to 2015.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor (“DOL”) regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others.

The Master Trust invests a portion of its investments in a proprietary fund of the trustee of the Plan and Master Trust. This investment constitutes a party in interest investment. The Company pays certain administrative expenses on behalf of the Plan. Also, the Company provides certain administrative services at no cost to the Plan.

NOTE 8 – DECEMBER 31, 2018 ACTUARIAL VALUATION - UNAUDITED

The December 31, 2018 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the Plan's actuary which has not been audited by independent accountants, is provided below for informational purposes.

The actuarial present value of accumulated plan benefits as of December 31, 2018 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Retired participants and beneficiaries currently receiving payments	\$ 22,393,489
Other benefits	<u>10,391,368</u>
	32,784,857
Nonvested benefits	<u>33,108</u>

Total actuarial present value of accumulated plan benefits	<u>\$ 32,817,965</u>
--	----------------------

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2018 consists of the following:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 2,079,082
Increase (decrease) during the year attributable to:	
Benefits paid	(59,595)
Interest due to decrease in discount period	145,370
Benefits accumulated net of actuarial experience	(4,947)
Merger of Mayflower and Norwalk Pension Plans	<u>30,658,055</u>
Actuarial present value of accumulated plan benefits at end of the year	<u>\$ 32,817,965</u>

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 8, 2019, which is the date the financial statements were available to be issued.

In February 2019, the Plan Sponsor offered a temporary lump sum window to certain term vested participants, beneficiaries, and alternate payees who were not otherwise eligible for a lump sum distribution. The lump sum window was offered from March 1, 2019 until April 30, 2019 with payments in June 2019. Total distributions from the offering totaled approximately \$7,900,000 (unaudited).

c. Change in Actuarial Assumptions

The assumed discount rate for ASC 715 purposes was changed from 3.87% to 3.42%. The mortality projection scale assumption for ASC 715 and ASC 960 purposes was changed from scale MP-2016 to scale MP-2017. All other actuarial assumptions used in this valuation are the same as those used in the prior valuation, except for the required changes in the PPA funding interest rates (including the HATFA 2014 average segment rates) and mortality table.

Actuarial Assumptions and Methods

Actuarial Methods

a. Funding Method

The actuarial cost method is the Unit Credit cost method.

On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant.

The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Asset Valuation Method

The actuarial value of assets is defined as the smoothed market value of assets. The smoothed market value will be the market value of assets adjusted by the applicable percentage of the gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted for interest to the valuation date. The applicable percentage is 66-2/3% for the year preceding the valuation date and 33-1/3% for the second year preceding of the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets. For funding purposes, accrued contributions and expenses are included in the market value.

c. Valuation Procedures

No actuarial liability is accrued for non-vested terminated employees, even if a break in service had not occurred as of the actuarial valuation date. An actuarial liability is accrued for all other terminated employees, even if a claim for benefits has not been made.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Plan Provisions

1. Effective Date of Plan

The Plan was effective January 1, 2001. The last amendment included in this valuation was the fifth amendment, generally effective as of January 1, 2015.

2. Eligibility

Employees in USW Local 9419 and at the Shadyside, Ohio assembly plant. Employees hired on or after March 2, 2008 are not eligible. Participants employed on March 1, 2008 made an irrevocable election prior to April 30, 2008 to stay in or opt out of the plan as of May 31, 2008. Participants employed on March 1, 2008 made an irrevocable election between December 19, 2011 and January 16, 2012 to stay in or opt out of the plan as of February 29, 2012.

3. Retirement Date

The plan's normal retirement date is age 65. Early retirement may be elected after attaining age 60 and completing 10 years of vesting service.

4. Service

a. Credited Service: Full credit for 1,800 or more hours, one-tenth credit for each 180 hours or major fraction thereof. No credit before 12/1/2000.

b. Vesting Service: One year credit for every full employment year.

5. Normal Retirement Benefit

The Normal Retirement Benefit shall be equal to the number of years and fractional years of Credited Service (maximum of 30 years) multiplied by the benefit rate in effect at the date the employee retires or terminates covered employment. The benefit rate is \$14.00. The benefit rate increased to \$20.00 for years of Credited Service earned after January 1, 2008 and before January 1, 2012 for those participants who did not make an irrevocable election to opt out of the plan as of May 31, 2008. The benefit rate increased to \$22.00 for years of Credited Service earned after January 1, 2012 for those participants who did not make an irrevocable election to opt out of the plan as of February 29, 2012. The benefit rate increased to \$25.00 for years of Credited Service earned after January 1, 2015 for those who have not previously opted out of the plan.

6. Accrued Benefit

For participants who made an irrevocable election to opt out of the plan as of May 31, 2008, the Accrued Benefit shall be determined using the Normal Retirement Benefit formula, based on the number of years of Credited Service multiplied by a benefit rate of \$14.00. The Accrued Benefit for other participants shall be determined at any time using the Normal Retirement Benefit formula, based on the number of years of Credited Service earned prior to 2008, using the \$14.00 benefit rate, the number of years of Credited Service earned after 2007 and before 2012, using the \$20.00 benefit rate, the number of years of Credited Service earned after 2011 and before 2015, using the \$22.00 benefit rate and the number of years of Credited Service earned after 2014 using the \$25.00 benefit rate.

Summary of Plan Provisions

7. Early Retirement Benefit

The Early Retirement benefit shall be equal to the Accrued Benefit. Such benefit shall not be reduced if payments begin after age 65, but will be reduced 0.6% for each month by which payments begin prior to age 65.

8. Normal Form of Benefits

If a participant is married on the date his retirement benefits are to commence, the retirement benefits will be paid in the form of a Qualified 55% Joint-and-Survivor Pension. Such benefits are 95% (adjusted for more than a five-year age difference) of the benefits which would have been payable on the single-life basis. If a participant is not married at the date his retirement benefits are to commence, the benefits will be paid on the basis of a single-life benefit.

9. Death Benefits

If a participant dies after eligibility for Early Retirement, the surviving spouse will receive a monthly benefit equal to 55% of the amount that would have been payable if the participant had elected Early Retirement on the day preceding his death and began receiving benefits under a Qualified Joint-and-Survivor Annuity.

If a participant dies before eligibility for Early Retirement, but after becoming vested, the surviving spouse shall be entitled to a benefit beginning at the time the participant would have first been eligible for Retirement benefits. The benefit shall be equal to 55% of the benefit determined as if the participant had terminated employment just prior to death, and instead survived to the date first eligible for Retirement benefits, and retired with a Qualified Joint-and-Survivor Annuity.

10. Termination of Employment

Accrued benefits vest according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 5	0%
5 or more	100%

11. Disability Benefits

If a participant becomes totally and permanently disabled after completing ten years of Credited Service, his accrued benefit (unreduced for commencement prior to normal retirement) shall be paid after four weeks of incapacity.

12. Cost of Plan

The entire cost of the Plan is paid by the employer.

c. Change in Actuarial Assumptions

The assumed discount rate for ASC 715 purposes was changed from 3.87% to 3.42%. The mortality projection scale assumption for ASC 715 and ASC 960 purposes was changed from scale MP-2016 to scale MP-2017. All other actuarial assumptions used in this valuation are the same as those used in the prior valuation, except for the required changes in the PPA funding interest rates (including the HATFA 2014 average segment rates) and mortality table.

Actuarial Assumptions and Methods

Actuarial Methods

a. Funding Method

The actuarial cost method is the Unit Credit cost method.

On the initial valuation date, the benefit accrued to date and the anticipated benefit accrual during the plan year immediately following the initial valuation date are determined for each participant.

The present values of these benefit are then calculated. The sum of the present values of all benefits accruing during the plan year immediately following the valuation date is the normal cost for the initial plan year. The sum of the present values of all benefits accrued prior to the valuation date, less the plan assets, is the initial unfunded actuarial accrued liability.

In subsequent years, the normal cost and unfunded actuarial accrued liability are recalculated on the basis described above. Experience gains and losses (changes in the unfunded actuarial accrued liability which result from causes other than contributions by the plan sponsor and the accrual of interest and additional normal costs) are directly calculated under this cost method. Adjustments to the unfunded actuarial accrued liability can occur, for example, as a result of plan amendments or assumption changes; such adjustments are determined by computing the change in the initial unfunded actuarial accrued liability.

b. Asset Valuation Method

The actuarial value of assets is defined as the smoothed market value of assets. The smoothed market value will be the market value of assets adjusted by the applicable percentage of the gain or loss calculated in each year during the smoothing period. The gain or loss is the difference between the current year's market value and prior year's market value brought forward with contributions, benefit payments, and administrative expenses, all adjusted for interest to the valuation date. The applicable percentage is 66-2/3% for the year preceding the valuation date and 33-1/3% for the second year preceding of the valuation date. The actuarial value of assets will be adjusted to be no greater than 110% and no less than 90% of the current (market) value of assets. For funding purposes, accrued contributions and expenses are included in the market value.

c. Valuation Procedures

No actuarial liability is accrued for non-vested terminated employees, even if a break in service had not occurred as of the actuarial valuation date. An actuarial liability is accrued for all other terminated employees, even if a claim for benefits has not been made.

Summary of Plan Provisions

1. Effective Date of Plan

The Plan was effective January 1, 2001. The last amendment included in this valuation was the fifth amendment, generally effective as of January 1, 2015.

2. Eligibility

Employees in USW Local 9419 and at the Shadyside, Ohio assembly plant. Employees hired on or after March 2, 2008 are not eligible. Participants employed on March 1, 2008 made an irrevocable election prior to April 30, 2008 to stay in or opt out of the plan as of May 31, 2008. Participants employed on March 1, 2008 made an irrevocable election between December 19, 2011 and January 16, 2012 to stay in or opt out of the plan as of February 29, 2012.

3. Retirement Date

The plan's normal retirement date is age 65. Early retirement may be elected after attaining age 60 and completing 10 years of vesting service.

4. Service

a. Credited Service: Full credit for 1,800 or more hours, one-tenth credit for each 180 hours or major fraction thereof. No credit before 12/1/2000.

b. Vesting Service: One year credit for every full employment year.

5. Normal Retirement Benefit

The Normal Retirement Benefit shall be equal to the number of years and fractional years of Credited Service (maximum of 30 years) multiplied by the benefit rate in effect at the date the employee retires or terminates covered employment. The benefit rate is \$14.00. The benefit rate increased to \$20.00 for years of Credited Service earned after January 1, 2008 and before January 1, 2012 for those participants who did not make an irrevocable election to opt out of the plan as of May 31, 2008. The benefit rate increased to \$22.00 for years of Credited Service earned after January 1, 2012 for those participants who did not make an irrevocable election to opt out of the plan as of February 29, 2012. The benefit rate increased to \$25.00 for years of Credited Service earned after January 1, 2015 for those who have not previously opted out of the plan.

6. Accrued Benefit

For participants who made an irrevocable election to opt out of the plan as of May 31, 2008, the Accrued Benefit shall be determined using the Normal Retirement Benefit formula, based on the number of years of Credited Service multiplied by a benefit rate of \$14.00. The Accrued Benefit for other participants shall be determined at any time using the Normal Retirement Benefit formula, based on the number of years of Credited Service earned prior to 2008, using the \$14.00 benefit rate, the number of years of Credited Service earned after 2007 and before 2012, using the \$20.00 benefit rate, the number of years of Credited Service earned after 2011 and before 2015, using the \$22.00 benefit rate and the number of years of Credited Service earned after 2014 using the \$25.00 benefit rate.

Summary of Plan Provisions

7. Early Retirement Benefit

The Early Retirement benefit shall be equal to the Accrued Benefit. Such benefit shall not be reduced if payments begin after age 65, but will be reduced 0.6% for each month by which payments begin prior to age 65.

8. Normal Form of Benefits

If a participant is married on the date his retirement benefits are to commence, the retirement benefits will be paid in the form of a Qualified 55% Joint-and-Survivor Pension. Such benefits are 95% (adjusted for more than a five-year age difference) of the benefits which would have been payable on the single-life basis. If a participant is not married at the date his retirement benefits are to commence, the benefits will be paid on the basis of a single-life benefit.

9. Death Benefits

If a participant dies after eligibility for Early Retirement, the surviving spouse will receive a monthly benefit equal to 55% of the amount that would have been payable if the participant had elected Early Retirement on the day preceding his death and began receiving benefits under a Qualified Joint-and-Survivor Annuity.

If a participant dies before eligibility for Early Retirement, but after becoming vested, the surviving spouse shall be entitled to a benefit beginning at the time the participant would have first been eligible for Retirement benefits. The benefit shall be equal to 55% of the benefit determined as if the participant had terminated employment just prior to death, and instead survived to the date first eligible for Retirement benefits, and retired with a Qualified Joint-and-Survivor Annuity.

10. Termination of Employment

Accrued benefits vest according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
Less than 5	0%
5 or more	100%

11. Disability Benefits

If a participant becomes totally and permanently disabled after completing ten years of Credited Service, his accrued benefit (unreduced for commencement prior to normal retirement) shall be paid after four weeks of incapacity.

12. Cost of Plan

The entire cost of the Plan is paid by the employer.
