The Company may match 100% of all employee 401(k) contributions, up to 3 % of their compensation, plus a 50% match of the next 2% of their compensation. The company made matching contributions of approximately $13,702 for the year ended December 31, 2018.

Limitations:

Congress limits the annual dollar amount of Elective Deferrals that a participant may contribute. For 2018, the limit was $18,500. The amount of catch-up contributions allowed in 2018 was $6,000. Congress also limits the annual eligible earnings to be considered for the purpose of qualified plan contributions and testing. For 2018, this limit was $275,000.

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of the participant's accounts is based on years of continuous service as follows: 20% vested after 2 years of service, plus 20% for each of the following 4 years. A participant is fully vested after completing six years of credited service.

Payment of Benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in their account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump sum distribution.

Participant Loans:

Participants may borrow from their funds accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's vested balance and are payable through payroll withholdings. Such loans bear interest at the available market financing rates and must be repaid to the Plan within a one to five-year period, unless the loans are to be used for the purchase of a residence, in which case the maximum repayment period may be longer than five years. The specific term and conditions of such loans are established by the Plan administrator. A participant will be permitted to have two loan outstanding at any time.

Forfeited accounts:

Forfeited non-vested accounts are re-allocated to active participants. At December 31, 2018, forfeited non-vested accounts totaled $0 respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting:

The accompanying financial statements of the plan are prepared in compliance with the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA and the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates:

The preparation of financial statements in conformity with GAAP and the DOL's Rules and Regulations for Reporting and Disclosure under ERISA requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

An adjustment is made for fully benefit-responsive investment contracts to bring their fair value to the contract value that participants would receive if they were to initiate permitted transactions under the terms of the plan.

Net appreciation or depreciation of investments is reported in the statement of changes in Net assets available for benefits and consists of the realized gains or losses and the unrealized appreciation or depreciation of these investments.

Notes Receivable from Participants:

Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018.

Excess participant Contributions Payable:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March15th, 2019.

Payment of Benefits:

Benefits payments to participants are recorded when paid.

Administrative Expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events:

The Plan evaluated all events and transactions that occurred after December 31, 2018 through October 10, 2019 the date these financial statements were available to be issued.

Note 3- Fair Value Measurements

Financial Accounting Standards board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1:

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2:

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term the asset or liability.

Level 3:

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018.

Mutual funds: Valued at the quoted market prices that represent the net asset value of shares held by the Plan at year end.

Common/ collective funds: Valued at the quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

`

	Assets at Fair Value as of December 31, 2018		
	Level 1	Level 2	Level 3
Common Collective Trust	-	-	-
Mutual funds	-	53,526	-
Total assets at fair value	**$ -**	**$ 53,526**	**$ -**

Note 4 – Investments

The plan's investments are held in trust by the trustee. The plan's trust agreement requires the trustee to invest the plan's asset into various investment fund options as directed by each participant through web portal.

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2018.

	2018
American Funds 2020 TD	$ 9,010.83
American Funds 2025 TD	1,141.88

Note 5. Information Prepared and provided by Trustee and/or Plan Administrator

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL'S Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Trustee as of December 31, 2018 and for the year then ended December 31, 2018.

		2018
Investments, at fair Value:		
	Mutual Funds	$ 53,526
		$ 53,526

The following information represents investment earnings (losses) for the year ended December 31, 2018.

Investment appreciated(depreciated) in value		
	Interest & Dividend	$ -
	Net increase(decrease) in fair value of investments	(3,000)
		$ (3,000)

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7- Related Party Transactions

Certain Plan investments are managed by John Hancock, the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative expenses amounted to $1,119 for the years ended December 31, 2018.

Participants who are active employees may borrow from their accounts. These loans will be recorded as notes receivable from participants in the statement of Net Assets Available for Benefits.

This party-in-interest transaction is exempt from the prohibited transaction rules of ERISA.

Note 8 - Tax Status

The underlying nonstandard prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated April 02, 2012, stating that the form of the plan is qualified under section 401(a) of the code and, therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2006-6, the plan sponsor has determined that it is eligible to and has chosen

to rely on the current IRS prototype plan opinion letter. Once qualified, the plan is required to operate in conformity with the code to maintain its qualification. The plan administrator believes the plan is being operated in compliance with the applicable requirements of the code and, therefore, believes that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 9 – Concentration of Credit Risk

In the normal course of business, all of the Plan's assets are transacted with and held by the Trustee. The plan is subject to credit risk to extend the Trustee is unable to fulfill contractual obligations on its behalf. The company has not experienced and does not expect any loss from this arrangement.

The Plan invests in various investment securities. These investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10- Prohibited transactions

During 2018, the company failed to remit to the Plan's trustee certain employee contributions totaling approximately $234 within the period prescribed by DOL regulations. Delays in remitting contributions to the Trustee were due to administrative errors, and the Company remitted the deficiency in contributions amount to the affected participants' accounts under the DOL's Voluntary Fiduciary Correction Program, an aggregate of approximately $245.60 for potential lost earnings due to the delays.
