The following description of the Magid Glove and Safety Manufacturing Company, LLC 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, as restated effective January 1, 2015, is a defined contribution plan covering all eligible employees of Magid Glove & Safety Manufacturing Company, LLC and Magid Manufacturing Co., Inc. (collectively the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Charles Schwab Bank is the custodian of the Plan's investments. Shore Tompkins Actuarial Services, LLC is the third-party administrator, and ASPire, Inc. is the Plan's recordkeeper.

Participants are eligible for Company matching and profit-sharing contributions following completion of one year of service (at least 1,000 hours), as defined, and upon being actively employed on the last day of the Plan year. A participant's account will share in Company matching and profit-sharing contributions in the event of the participant's death during the plan year.

Participants Contributions

Salary-deferral contributions: Each year, participants may contribute a portion of annual compensation, as defined in the Plan, as either a pretax or after tax Roth deferral, up to the maximum allowed by the Internal Revenue Code (IRC).

Catch-up deferral contributions: Each year, participants over age 50 may elect to make catch-up contributions up to the maximum allowed by the IRC.

Rollover and transfer contributions: Participants may also contribute amounts representing distributions from other qualified plans.

Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

Note 1: Description of Plan (Continued)

Company Contributions

*Matching contribution*s: The Company may make discretionary matching contributions on behalf of each participant in an amount equal to a percentage of the participant's deferral contributions during the plan year, as determined annually by the Company's board of directors. For 2018 and 2017, matching contributions equaled 25% of a participant's salary-deferral contribution, not to exceed $750 per participant. Matching contributions for the year ended December 31, 2018 totaled $173,010.

Profit-sharing contribution: The Company may also make a discretionary profit-sharing contribution, at the discretion of its board of directors, to be allocated to participants in proportion to a participant's compensation. The discretionary contribution totaled $1,115,128 for the year ended December 31, 2018.

Special contribution: The Company may also make a special contribution, which is nonelective and only allocated to certain non-highly compensated participants. The amount of this contribution shall not exceed the maximum annual addition that can be allocated to a participant's account for that year, reduced by all other annual additions. The special contribution for the year ended December 31, 2018 totaled $291,491.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contributions and the Company's matching contribution and allocations of (a) the Company's discretionary profit-sharing and special contributions; (b) reallocations of forfeitures, if any; and (c) Plan earnings (losses). Additionally, each participant's account is charged with an allocation of administrative expenses. Allocations are based on a participant's compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts at the time of a distribution request.

Vesting

Participants are immediately vested 100% in their salary deferral contributions, Company matching and special contributions, and rollover contribution accounts, plus actual earnings thereon. Participant balances in the Company's discretionary profit-sharing contribution, and earnings thereon, vest based on a participant's years of service, at a rate of 20% per year beginning in year 2, with a participant being 100% vested after six years. Participants are immediately fully vested upon normal retirement (age 62), death, or permanent disability.

Note 1: Description of Plan (Continued)

Forfeitures

In the event of termination of employment prior to full vesting, the nonvested portion of a participant's account is treated as a forfeiture. The amount of the participant's accounts forfeited will be reinstated provided that the participant resumes employment prior to incurring a "break in service," as defined. Amounts forfeited during the year are first used to restore prior forfeitures, if a former participant returns to the Company's employment, and then may be used to reduce Company contributions, to reallocate to participants as Company contributions, or to pay Plan expenses.

At December 31, 2018 and 2017, forfeited nonvested accounts totaled approximately $1,200 and $1,100, respectively. Forfeitures of $124,464 were used to reduce the 2018 discretionary Company profit-sharing contribution.

Notes Receivable From Participants

Plan participants may borrow from their accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000, less their highest outstanding loan amount during the prior 12 months, or one-half of their total vested account balance in the Plan. A participant may have only two loans outstanding at any given time. Loans are repaid, with interest, through equal payroll deductions over a term of one to five years, unless the loan is used to acquire a principal residence, at which time the loan can be repaid over a reasonable period of time not to exceed thirty years. The loans are secured by the vested balance in the participant's accounts. The interest rate is determined by the plan administrator based on the prime lending rate offered by a qualifying financial institution for a similar type of loan. The interest rates on outstanding loans ranged from 3.25% to 8.25% as of December 31, 2018.

Payment of Benefits

Upon termination of service for reasons other than death, participants may elect to receive an amount equal to the value of the participant's vested interest in their account in a lump sum or, upon a participant's death, by payment options as defined in the Plan. In addition, while still employed by the Company, participants may make withdrawals from their accounts upon reaching age 59½ or by determination that a financial hardship has incurred if they meet Internal Revenue Service (IRS) qualifications.

At December 31, 2018 and 2017, there were no amounts owed to former participants whose employment had terminated who requested payout of their account balances.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustees. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Fees may be deducted from the proceeds of the loan and recorded as administrative expenses when incurred and/or charged to a participant account. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the Plan document.

Payment of Benefits

Benefit payments are recorded when paid.

Plan Administrative Expenses

Plan expenses directly attributable to a participant, such as loan fees and withdrawal fees, are paid by the applicable participant. Investment advisory and other administrative expenses are paid with forfeitures, Plan assets, or by the Company. Expenses paid by the Company are excluded from these financial statements. Investment management fees are charged to the Plan as a reduction of investment return and included in the net depreciation in fair value of investments.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2019, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy consists of three broad levels described as follows:

Level 1 - Inputs consist of unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access and have the highest priority.

Level 2 - Inputs consist of a) quoted prices for similar assets in active markets, b) quoted prices for identical or similar assets in inactive markets, c) inputs other than quoted prices that are observable for the asset, and d) inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 - Inputs are unobservable and significant to the fair value measurement and have the lowest priority.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Mutual funds: Fair values are based on net asset value (NAV) of shares held by the Plan at year-end. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 3: Fair Value Measurements (Continued)

Money market fund: Fair values are based on NAV of $1 per share at year-end.

Collective investment trusts: Fair values are based on the NAV of shares held by the Plan at year-end as reported by the fund managers based on the value of the underlying assets at year-end. The NAV is used as a practical expedient to estimate fair value. These collective investment trusts include investments that seek to provide total return for investors retiring in or near the year specified for the fund.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflect future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2018 and 2017.

	Assets at Fair Value as of December 31, 2018

Note 3: Fair Value Measurements (Continued)

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Note 4: Information Prepared and Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Bank (CSB), the Custodian of the Plan.

Note 5: Related-Party and Party-in-Interest Transactions

The Plan invests in shares of mutual funds and collective trust funds issued by CSB, and all investments are held by CSB, the Custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment advisory and other administrative expenses amounted to $94,105 for 2018. In addition, certain administrative functions are performed by trustees of the Plan or employees of the Company for which no compensation is received from the Plan for their services.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company profit-sharing contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7: Tax Status

The Plan, as adopted by the Company, is a Volume Submitter Profit Sharing Plan with CODA (Volume Submitter Plan) sponsored by CCH Incorporated, doing business as ftwilliam.com. The Volume Submitter Plan obtained its latest determination letter on March 31, 2014, in which the IRS stated that the Volume Submitter Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has not requested its own IRS determination letter. The Volume Submitter Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed, and being operated, in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
