SHOP N SAVE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

Shop N Save (the Employer) sponsors the Shop N Save 401(k) Plan (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and eligibility

The Plan was established on January 1, 2015 as a defined contribution plan covering all full-time employees of Kildeer Advisors, Inc. d/b/a Shop N Save Supermarket (the Company or Employer) who have met eligibility requirements of the Plan (as defined). Nonexcluded employees who have reached 21 years of age and completed 12 months of service are eligible to participate in the Plan. Participants may enroll in the Plan on the first day of the month after satisfying eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of gross wages, up to limits as defined by the Plan and other limits according to the Internal Revenue Service (IRS). For the years ended December 31, 2018 and 2017, individual participants' contributions were limited to $18,500 and $18,000, respectively. Participants who are age 50 and older may also contribute an additional $6,000 on an annual basis. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Employer may make a discretionary matching contribution to the Plan equal to a percentage of each participants' elective deferral contribution. All Employer discretionary contributions are invested as directed by each participant within allowable investments options. There were no Employer discretionary contributions for the years ended December 31, 2018 and 2017.

Participant accounts

Each participant account is credited with the participant's contribution and an allocation of (a) the Employer's contributions and (b) Plan earnings or losses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. All participant contributions are participant-directed and may be invested in one fund or allocated among different funds. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

Forfeitures are used to reduce the Employer's discretionary contributions and/or used to pay Plan administration expenses. Forfeitures are allocated to participants' accounts in the same manner as the Employer's matching contributions. There were no forfeitures applied or available as of December 31, 2018 and 2017.

Allocation and vesting of benefits

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's matching contributions and non-elective contributions (if any), plus earnings or losses thereon, is based on years of continuous service. Participants who become eligible and are enrolled in the Plan will receive vesting credit for years of service based only on the elapsed time method as defined by the Plan. A participant is 100% vested in the Employer's contribution portion of their account after five years of credited service. Regardless of years of service, participants are 100% vested upon reaching normal retirement age (65), becoming disabled, or upon death.

Note 1 – Description of Plan, Continued

Participant notes receivable

Participants may borrow from their accounts between $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years unless the loan is used to acquire the principal residence of the participant. The notes are secured by the balance in a participant's account and bear interest at a rates ranging from 5.25% to 6.00%. Participant loan repayments are deducted from the participant's pay and remitted to the Custodian.

Payment of benefits

On termination of service for any reason, the participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum payment, subject to 20% withholding for income taxes, or as a direct rollover to an individual retirement account or another employer's tax qualified plan. On termination of service due to death, the participant's account will be paid to the participant's beneficiary in a single lump-sum payment. In the event that the participant's vested accrued benefit is less than $1,000, the Plan Administrator may make a single lump-sum payment without the election or request of the participant. Participants may elect to take an in-service distribution of vested funds if they meet any of the following requirements, if they incur proven financial hardship, upon becoming disabled under the terms of the Plan, or upon attainment of the Plan's normal retirement age.

Plan administration

The Employer is the plan sponsor and administrator of the Plan, and as such, controls and manages the operation and administration of the Plan. The Plan's assets are maintained by Transamerica Financial Life Insurance Company (the Custodian). Employer contributions are held and managed by the Custodian, who invests cash received, interest, and dividend income, and makes distributions to participants (subject to the direction of the participants).

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and those differences may be material.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation polices utilizing information provided by the Custodian. See Note 4 for a discussion of fair value measurements.

Note 2 – Summary of Significant Accounting Policies, Continued

Investment valuation and income recognition, continued

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

In accordance with the policy of stating investments at fair value, the Plan presents in the statements of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation or (depreciation) on those investments.

Participant notes receivable

Participant notes receivable are valued at their unpaid principal balance plus accrued interest which approximates fair value. Delinquent notes receivable from participants are recorded as distributions in accordance with the terms of the Plan document.

Risks and uncertainties

The Plan provides for various investment options. Investment securities are exposed to interest rate, market and credit risks. Due to the risks associated with investment securities, including the uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in such risks in the near-term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Concentration of credit risk

The Trustee maintains the Plan's investments with high credit-quality institutions and attempts to limit the credit exposure of any particular investment.

Payment of benefits

The Plan records benefits when paid.

Uncertain tax positions

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) FASB ASC Topic 740, *Income Taxes*, requires the Plan to assess its uncertain tax positions for the likelihood they would be overturned upon examination by the IRS. In accordance with this guidance, the Plan has determined it does not have any positions at December 31, 2018 that it would be unable to substantiate.

New accounting pronouncement

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement* (Topic 820), *Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement* (ASU 2018-13). The amendments in ASU 2018-13 modify the disclosure requirements in Topic 820 of the disclosure framework. The modifications include the removal of the requirement to disclose the amount of and reason for transfers between Level 1 and Level 2 of the fair value hierarchy, the policy of timing between levels, the valuation processes for Level 3 fair value measurements, and the changes in unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period.

Note 2 – Summary of Significant Accounting Policies, Continued

New accounting pronouncement, continued

Also, in lieu of a roll forward for Level 3 fair value measurements, a nonpublic entity is required to disclose transfers into and out of Level 3 of the fair value hierarchy and purchases and issues of Level 3 assets and liabilities. Additionally, for certain entities that calculate net asset value, an entity is required to disclose the timing of an investee's assets and the date when restrictions from redemptions lapse only if the investee has communicated the timing to the entity or announced the timing publicly. ASU 2018-13 is effective for fiscal years beginning December 15, 2019 with early adoption permitted to any removed or modified disclosures of this update. Plan management is evaluating the effect of ASU 2018-13 on its financial statements and related disclosures.

Reclassification

Certain amounts appearing in the 2017 financial statements have been reclassified to conform to the 2018 financial statements.

Note 3 – Information Certified by the Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate:

- Investments and participant notes receivable as shown on the statements of net assets available for benefits as of December 31, 2018 and 2017;
- Net investment activity and interest income on participant notes receivable as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017;
- Investment information included in the footnotes and supplemental information, schedule of delinquent participant contributions and schedule of assets (held at end of year) as of December 31, 2018.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental information.

Note 4 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Note 4 – Fair Value Measurements, Continued

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2018.

The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts – valued at the unit value, based upon the units of such pooled separate accounts held by the Plan at the close of business each day, based on the market value of the total assets held in the pooled separate account. The market value of the assets held in the pooled separate accounts are based upon unadjusted quoted prices in active markets of the underlying investments, and are therefore considered Level 1 investments within the fair value hierarchy.

Common collective trusts (CCT) – Measured at the NAV of units of the collective trusts. NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it were determined to be probable that the trust would sell its underlying investments for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily at NAV. The CCT is measured at NAV and has not been classified in the fair value hierarchy in accordance with FASB ASC 820-10.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Fair Value Measurements as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 270,136	$ -	$ -	$ 270,136
Common collective trust*	-	-	-	1
Investments, at fair value	$ 270,136	$ -	$ -	$ 270,137

Note 4 – Fair Value Measurements, Continued

	Fair Value Measurements as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 290,192	$ -	$ -	$ 290,192
Investments, at fair value	$ 290,192	$ -	$ -	$ 290,192

* In accordance with subtopic 820-10, certain investments that were measured at NAV per share have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to present the reconciliation of the fair value hierarchy to line items presented on the statements of net assets available for benefits.

The following table summarizes the investment measured at fair value based on NAV per share as of December 31:

Investment	2018	2017	Unfunded commitments	Redemption frequency	Redemption notice period
Morley Stable Value	$ 1	$ -	n/a	Daily	12 months

The Common Collective Trust (CCT) is composed primarily of fully benefit-responsive investment contracts and their NAV is presented at fair value which approximates contract value. While Plan investments are presented at fair value in the statements of net assets available for benefits, contract value is the relevant measurement attribute for the portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals, and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The CCT is presented at fair value in the accompanying financial statements.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 – Party-In-Interest Transactions

Parties-in-interest are defined under the DOL Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. The common collective trust account administered by the Custodian is considered to be qualified as party-in-interest transactions.

Note 7 – Fidelity Bond

The Plan has complied with the fidelity bonding requirements of ERISA.

Note 8 – Tax Status

Effective October 31, 2011, the Internal Revenue Service stated that the volume submitter profit sharing plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code. The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9 – Subsequent Events

The Plan evaluated events occurring subsequent to December 31, 2018 through August 16, 2019, the date the financial statements were available to be issued, for matters that should be recorded in the financial statements or disclosed in the notes thereto.
