Independent Auditor's Report

Investment Committee and Plan Administrator
ArcBest Corporation Pension Plan
Fort Smith, Arkansas

We have audited the accompanying financial statements of ArcBest Corporation Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of ArcBest Corporation Pension Plan as of December 31, 2018 and 2017, and the changes in its financial status for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in *Note 2* to the financial statements, the Board of Directors of ArcBest Corporation, the Plan's sponsor, voted on October 30, 2017, to terminate the Plan, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the going concern basis to the liquidation basis used in presenting the 2018 and 2017 financial statements. Our opinion is not modified with respect to this matter.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

ArcBest Corporation Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

The following description of the ArcBest Corporation Pension Plan (the “Plan”) provides only general information. Additional information about the vesting and benefit provisions and the benefit guarantee of the Pension Benefit Guarantee Corporation (the “PBGC”) is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator, ArcBest Corporation.

General

The Plan is a noncontributory defined benefit plan sponsored by ArcBest Corporation (the “Company” or the “Plan Sponsor”) that covers certain noncontractual employees of the Company and certain of its wholly owned subsidiaries: ABF Freight System, Inc., ABF Cartage, Inc., ArcBest II, Inc., ArcBest Technologies, Inc., FleetNet America, Inc., and Land-Marine Cargo, Inc. The Plan provides for retirement, death and disability benefits and is subject to provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

As the Plan Administrator and Plan Sponsor, the Company has overall responsibility for the operation and administration of the Plan. The Plan has an Investment Committee which is comprised of employees of the Company or its subsidiaries. The Investment Committee establishes and reviews the investment policy of the Plan, determines the number and type of investments in the Plan, and monitors the Plan’s investment performance.

For 2018 and 2017, Transamerica Retirement Solutions Corporation was the Plan’s actuary and State Street Bank and Trust company was the Plan trustee. At December 31, 2018 and 2017, the Plan’s assets were held by State Street Bank and Trust Company in the ArcBest Pension Trust.

The Plan was amended in June 2013 to freeze the participants’ final average compensation and years of credited service as of July 1, 2013. The vested benefits of retirees or former employees whose benefits had not yet been paid from the Plan were not impacted by the July 1, 2013 Plan freeze.

In November 2017, an amendment was executed to terminate the Plan with a termination date of December 31, 2017. In September 2018, the Plan received a favorable determination letter from the U.S. Internal Revenue Service (the “IRS”) regarding qualification of the Plan termination (see *Note 3*). Benefit election forms were provided to plan participants and, after an election window in which participants could elect any form of payment allowed by the Plan for immediate commencement of payment or defer payment until a later date, the Plan began distributing immediate lump sum benefit payments related to the Plan termination in fourth quarter 2018. Subsequent to December 31, 2018, the Plan settled Plan liabilities for benefits with the purchase of a nonparticipating annuity contract from an insurance company and the transfer of the remaining benefits to the PBGC (see *Note 11*).

Notes to Financial Statements (Continued)

December 31, 2018 and 2017

Eligibility

Prior to January 1, 2006, an employee was eligible to participate in the Plan on the later of the date the employee attained age 21 or completed one year of service. Participation in the Plan was closed to new participants effective January 1, 2006. Employees of the Company and its wholly owned subsidiaries hired after December 31, 2005 are not eligible to participate in the Plan. Effective July 1, 2013, participation in the Plan was frozen for all remaining participants of the nonunion defined benefit pension plan who were active employees of the Company and these employees became eligible to participate in the Company's nonunion defined contribution plan in which substantially all noncontractual employees hired subsequent to December 31, 2005 also participate.

Contributions

Prior to funding the Plan termination, employer contributions are based upon the minimum funding levels required under the provisions of ERISA as amended by the Pension Protection Act of 2006 (the "PPA"). The Company intends to make contributions necessary to maintain a Plan adjusted funding target attainment percentage ("AFTAP") of at least 80% as determined by measurements mandated by the U.S. Internal Revenue Code (the "IRC"). The Plan had an AFTAP of 108.8% as of the January 1, 2018 actuarial valuation date. An AFTAP certification was not required as of January 1, 2019 due to the December 31, 2017 Plan termination date. Additional voluntary employer contributions may be made based on the consideration of various factors, including deductible limits allowable by the IRC and contributions anticipated to be required to fund the Plan termination.

The IRC allows contributions made within 8½ months after the close of the plan year to be allocated to such plan year at the election of the Plan Sponsor. The Plan met the minimum funding requirements established by ERISA without a required minimum cash contribution for the 2018 and 2017 plan years; however, the Company made a voluntary cash contribution of \$5,500,000 during 2018 which was allocated to the 2017 plan year. During 2019, the Company made a cash contribution of \$6,200,000 which was allocated to the 2018 plan year and a cash contribution of \$1,510,000 which was allocated to the 2019 plan year (see *Note 11*).

Vesting

Plan participants who were active as of January 1, 2007 were fully vested after 3 years of continuous service. Plan participants who terminated employment prior to January 1, 2007 were vested after 5 years of continuous service. Upon death, disability or normal retirement, as defined by the Plan, participants became fully vested in their benefit amounts. Upon Plan termination, all benefits should be reported as vested. The accumulated plan benefit information presented in *Note 5* was determined using the liquidation basis of accounting and, accordingly, all benefits are reported as vested at December 31, 2018 and 2017.

ArcBest Corporation Pension Plan

Notes to Financial Statements (Continued)

December 31, 2018 and 2017

Pension Benefits

The retirement benefits for both normal retirement and early retirement are based upon a participant's years of credited service, the highest average monthly earnings for sixty consecutive months expressed in terms of annual compensation, and participant contributions, if any, plus related earnings thereon. The final average compensation and years of credited service used to calculate a participant's retirement benefit were frozen as of July 1, 2013.

The Plan provides for normal retirement upon reaching age 65. A participant is eligible for early retirement upon reaching age 55 and completing at least 10 years of vesting service.

Upon termination of service, a participant may elect to receive the vested balance of the participant's account as a lump sum, which will be paid either as a direct rollover or directly to the participant, or as monthly payments. The Plan allows eligible Plan participants to make in-service withdrawals upon attainment of age 62.

Death Benefits

Upon the death of the participant, the beneficiary of a participant will receive the participant's vested accrued benefit, as defined in the Plan, which benefit is immediately payable to the beneficiary in the form of a lump-sum amount or monthly payments.

Note 2: Plan Termination

In November 2017, an amendment was executed to terminate the Plan with a termination date of December 31, 2017. In September 2018, the Plan received a favorable determination letter from the IRS regarding qualification of the Plan termination (see *Note 3*). Benefit election forms were provided to plan participants and, after an election window in which participants could elect any form of payment allowed by the Plan for immediate commencement of payment or defer payment until a later date, the Plan began distributing immediate lump sum benefit payments related to the Plan termination in fourth quarter 2018. Subsequent to December 31, 2018, the Plan settled Plan liabilities for benefits with the purchase of a nonparticipating annuity contract from an insurance company and the transfer of the remaining benefits to the PBGC (see *Note 11*). The Plan Sponsor made cash contributions to the Plan to fund benefit distributions and the annuity contract purchase in excess of plan assets (see *Note 11*).

The termination of the Plan is subject to the provisions set forth in ERISA. The net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The

priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

- c. Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- d. Vested benefits not insured by the PBGC.
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits in Plan termination will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 3: Summary of Significant Accounting Policies

Basis of Accounting

In November 2017, an amendment was executed to terminate the Plan with a termination date of December 31, 2017. As a result, the accompanying financial statements as of and for the years ended December 31, 2018 and 2017 have been prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States. This basis of accounting is considered appropriate when liquidation of a plan is probable and the net realizable value of assets is reasonably determinable. Under the liquidation basis of accounting, assets are stated at their estimated net realized cash value and liabilities are stated at their anticipated settlement amounts. The estimated net realizable cash value for investments as of December 31, 2018 and 2017 is fair value. Estimates of income expected to be earned and expenses expected to be incurred in liquidation are accrued as of December 31, 2018 and 2017. There are no other material changes to the accompanying financial statements as of and for the years ended December 31, 2018 and 2017 as a result of the change to the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets in liquidation, disclosure of contingent liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are stated at fair value. Quoted market prices, if available, are used to value investments. Quoted prices for mutual funds are the net asset value (“NAV”) of shares held by the Plan at the financial statement date. For certain investments consisting of corporate debt instruments, U.S. Government securities, and other fixed income instruments for which quoted prices in active markets may not be available, fair value is primarily established by a pricing service using inputs derived from observable market data. See *Note 4* for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

As previously discussed within this Note, the accompanying financial statements as of and for the years ended December 31, 2018 and 2017 have been prepared on the liquidation basis of accounting. Accordingly, estimates of income expected to be earned and expenses expected to be incurred in liquidation are accrued as of December 31, 2018 and 2017.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. In liquidation, remaining benefits expected to be paid to participants have been accrued in the financial statements.

Administrative Expenses

During 2017, the Plan began paying certain expenses associated with maintaining the Plan which in prior years had been paid by the Company. For the years ended December 31, 2018 and 2017, administrative expenses paid by the Plan include PBGC insurance premiums and certain investment management, actuarial, Plan administration, investment and fiduciary consulting, and audit fees. Fees paid by the Plan for securities brokerage and certain investment management services are included in net appreciation (depreciation) in fair value of investments during 2018 and 2017. The Company paid all other expenses of maintaining the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see *Note 5*) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

The Plan's actuary determines, as of January 1 of each plan year, the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. See *Note 5* for disclosures of the actuarial present value of accumulated plan benefits and the significant underlying actuarial assumptions.

Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Plan Tax Status

The Plan's most recent determination letter is dated September 19, 2018. In the letter, the IRS made a favorable determination that termination of the Plan did not affect the Plan's qualification for federal tax purposes. The determination applies to the proposed termination date of December 31, 2017 and to Plan amendments dated November 16, 2017 and October 30, 2017.

The Plan also received a determination letter, dated September 21, 2017, in which the IRS stated that it made a favorable determination on the Plan, which indicates the Plan, as then designed, was in compliance with the applicable requirements of the IRC and, therefore, not subject to income tax.

Note 4: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

ArcBest Corporation Pension Plan
Notes to Financial Statements (Continued)
December 31, 2018 and 2017

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets in liquidation, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2018. The Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices for identical assets are available in an active market, securities are classified within Level 1 of the valuation hierarchy. The Plan's investments classified as Level 1 include mutual funds that are measured at fair value as determined by quoted market prices in an active market. The Plan's investments classified as Level 2 include corporate debt instruments and, at December 31, 2017, U.S. Government securities and other fixed income instruments. The fair value measurements of Level 2 investments are primarily provided by a pricing service which uses the market approach with inputs derived from observable market data. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan has no investments classified as Level 3.

Nonvested benefits	<u>—</u>	<u>—</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 33,372,000</u>	<u>\$ 145,769,000</u>

Vested benefits of other participants include employees' contributions and interest earned for active participants of \$345,511 and \$3,678,525, at December 31, 2018 and 2017, respectively. Prior to July 1, 1988, the Plan allowed employee contributions. These contributions earn interest at an annual rate of 7.5%.

Changes in the actuarial present value of accumulated plan benefits during the years ended December 31, 2018 and 2017 are as follows:

	2018 <u>(In Liquidation)</u>	2017 <u>(In Liquidation)</u>
Actuarial present value of accumulated plan benefits, beginning of year	<u>\$ 145,769,000</u>	<u>\$ 128,041,592</u>

Notes to Financial Statements (Continued)

December 31, 2018 and 2017

Significant assumptions underlying the actuarial computations are:

- Discount rate: Based on assumed rate of return on investments of 2.50% for December 31, 2018 and 2017 compounded annually
- Mortality basis: IRS applicable mortality table
- Retirement: Various retirement decrement rates for ages 55 to 70

The actuarial present value of accumulated plan benefits is calculated on the liquidation basis as of December 31, 2018 and 2017, and the following assumptions were also used in the underlying actuarial computations:

- Benefit election assumption for non-retirees: 50% lump sum and 50% annuity contract
- Lump-sum obligation for non-retirees: Plan benefits determined as of December 1, 2018 based on current Plan provisions, including IRS 417(e) mortality for 2018 distributions and 2017 IRS 417(e) interest rates of 2.20%, 3.57% and 4.24%
- Annuity contract obligation for non-retirees: For December 31, 2018, Plan benefits determined as of February 28, 2019 based on current Plan provisions, including 417(e) mortality for 2019 distributions and five-year average of IRS 417(e) interest rates of 2.12%, 3.97% and 4.78%. For December 31, 2017, Plan benefits determined as of February 1, 2019 based on current plan provisions, including IRS 417(e) mortality for 2019 distributions and five-year average of IRS 417(e) interest rates of 1.67%, 3.99% and 4.92%.
- Benefit election assumption for annuity contract participants: 50% lump sum and 50% single life annuity, with form of payment commencing at age 60 (or attained age if later)

Note 6: Annuity Contract Purchase

In 2017, the Plan used Plan assets of \$7,531,114 to purchase a nonparticipating annuity contract from an insurance company to irrevocably settle the pension obligation related to the vested benefits of 50 plan participants and beneficiaries who were receiving monthly benefit payments as of the contract purchase date. The Plan does not own participation rights to receive future dividends or retrospective rate credits from the insurance company; therefore, the cost of the annuity contract is excluded from Plan assets. Benefits provided by the contract are not recorded as benefits provided by the Plan. Subsequent to December 31, 2018, the Plan used Plan assets of \$13,981,841 to purchase a nonparticipating annuity contract from an insurance company to irrevocably settle the pension obligation related to the vested benefits of 120 plan participants and beneficiaries (See *Note 11*).

Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons. The Company provides certain administrative services at no cost to the Plan.

In addition to the Company and its subsidiaries, the following have been identified as having party-in-interest transactions with the Plan:

- The Plan holds investments in the State Street Institutional U.S. Government Money Market Fund. This fund is distributed by State Street Global Advisors Funds Distributors, LLC, a wholly owned subsidiary of State Street Corporation. The Plan's trustee and custodian, State Street Bank and Trust Company, is also an affiliate of State Street Corporation.
- National Financial Services provides securities brokerage services to the Plan.

Note 8: Differences Between Financial Statements and Form 5500 Information

The following is a reconciliation of the net assets in liquidation as reported in the financial statements to the Form 5500 for the year ended December 31, 2018 and 2017:

Note 9: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following:

Actuarial Assumptions

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee demographics, and Plan termination assumptions, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Economic Conditions

Volatility in economic conditions may cause the values of assets recorded in the financial statements to change rapidly, resulting in material future changes in investment values that could impact the Plan.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets in liquidation.

Note 11: Subsequent Events

Subsequent events have been evaluated through the date which the financial statements were available to be issued.

The Plan continued distributing immediate lump sum benefit payments related to the Plan termination during 2019. The Plan received an extension from the PBGC to allow additional time for the plan to administer the settlement of the remaining obligation for deferred benefits through the purchase of a nonparticipating annuity contract. In August 2019, the Plan purchased a nonparticipating annuity contract from an insurance company to irrevocably settle the benefit obligation related to: (1) the vested benefits of 59 plan participants who elected to defer their benefit distribution to a later date, and (2) the vested benefits of 61 plan participants and beneficiaries who were receiving monthly benefit payments as of the contract purchase date. The Plan does not own participation rights to receive future dividends or retrospective rate credits from

the insurance company; therefore, the cost of the annuity contract will be excluded from Plan assets. Benefits provided by the contract will not be recorded as benefits provided by the Plan. Prior to the annuity contract purchase, the Company made a \$6,200,000 cash contribution to the Plan in August 2019 to fund the amount of the annuity contract purchase in excess of Plan assets (See *Note 4*). In September 2019, the Plan transferred to the PBGC the remaining obligation for the vested benefits of 30 Plan participants who could not be located for payment. Prior to the transfer to the PBGC, the Company made a \$1,510,000 cash contribution to the Plan in September 2019 to fund the remaining benefit payments paid from the Plan and the obligation transferred to the PBGC in excess of Plan assets. Liquidation of the Plan is expected to be complete in 2019.
