## ( 1 ) Description of plan

The following description of the Island Hospitality Management, LLC 401(k) Safe Harbor Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

**General** - The Plan is a defined contribution plan sponsored by Island Hospitality Management, LLC (the "Company") and affiliated adopting employers for the benefit of their full-time non-union employees who have six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

**Contributions** - Participants may contribute from 1% to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of all contributions into various investment options offered by the Plan.

The Company makes safe harbor matching contributions equal to 100% of the first 3%, plus 50% of the next 2% of each participant's eligible compensation that a participant contributes to the Plan, as defined in the Plan document. During the years ended December 31, 2018 and 2017, the Company made safe harbor matching contributions, net of forfeitures, totaling $1,865,809 and $1,672,604, respectively. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

**Participant investment account options** - The Plan currently offers various mutual funds, various pooled separate accounts, a stable value common collective trust, and various guaranteed interest accounts as investment options for participants.

Effective January 2, 2018, the Principal guaranteed interest accounts option is no longer available to participants and upon maturity, participants will need to direct their investments into then available investment options of the Plan or such investment will be directed into the default investment option applicable to the participant.

**Participant accounts** - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting** - The participant's contributions plus actual earnings are 100% vested immediately. Effective January 1, 2016, active participants become immediately vested in the Company's safe harbor contribution made in 2016 and later years. Employer contributions made before 2016 are fully vested after 5 years of credited service.

## ( 1 ) Description of plan (continued)

**Notes receivable from participants** - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Notes generally must be repaid within five years unless used for the purchase of a principal residence. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

**Payment of benefits** - On termination of service due to death, disability, early retirement upon achievement of age 55, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments as defined in the Plan. For termination of service due to distributions qualifying under certain "hardship" rules as prescribed by the Internal Revenue Service ("IRS"), a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Participants may also receive benefits upon reaching age 59 ½.

**Forfeited accounts** - There are no material forfeited non-vested accounts at December 31, 2018 and 2017. Forfeited non-vested accounts are used to offset employer matching contributions, reallocated to participants, or reduce plan administrative expenses. During the years ended December 31, 2018 and 2017, employer contributions were reduced by approximately $475 and $1,400, respectively, from forfeited non-vested accounts. During the years ended December 31, 2018 and 2017, forfeited non-vested accounts were used to pay approximately $3,800 and $13,100, respectively, of plan administrative expenses.

## ( 2 ) Summary of significant accounting policies

**Basis of accounting** - The financial statements of the Plan are prepared under the accrual method of accounting.

**Use of estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of net assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

**Investment valuation and income recognition** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 4 for discussions of fair value measurements.

## ( 2 ) Summary of significant accounting policies (continued)

**Investment valuation and income recognition (continued)**

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions from mutual fund investments are reported as a component of net appreciation (depreciation) in fair value of investments.

**Notes receivable from participants** - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

**Payment of benefits** - Benefits are recorded when paid.

**Administrative expenses** - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in the administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

## ( 3 ) Information prepared and certified by the custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, and Principal Life Insurance Company on behalf of Principal Global Investors Company, trustee of the Morley Stable Valve Fund, the custodians of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

## ( 4 ) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued at the NAV of units of the separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

**( 4 ) Fair value measurements (continued)**

*Guaranteed interest accounts:* Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement) (a traditional investment contract); however, there is a possible market value adjustment when funds are withdrawn prior to maturity. Therefore, the guaranteed interest accounts are not considered benefit-responsive and are valued at estimated fair value as determined by Principal. The crediting interest rates ranged from .69% to 1.20% and 0.39% to 1.09% for the years ended December 31, 2018 and 2017, respectively. For the years ended December 31, 2018 and 2017, the average net return for the guaranteed interest accounts were 1.01% and 0.87%, respectively. At December 31, 2018, maturities ranged from December 31, 2018 through December 31, 2022. At December 31, 2017, maturities ranged from December 31, 2017 through December 31, 2021.

*Stable value common collective trust funds:* A stable value fund that is composed primarily of fully benefit-responsive investment contracts is valued at the NAV of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

| Total investments at fair value | | | | $ 19,925,139 |

**( 4 ) Fair value measurements (continued)**

(a) In accordance with Subtopic 820-10, certain investments that were measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

**Investments measured using the net asset value per share practical expedient**

The following tables summarize investments for which fair value is based on NAV per share as of December 31, 2018 and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable to the Plan.

| Investments | Fair Value 12/31/2018 | Fair Value 12/31/2017 | Unfunded Commitments | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|---|
| Stable value common collective trust | $ 1,127,003 | $ 805,813 | ** | ** | ** |
| Pooled separate accounts | 16,339,341 | 15,452,142 | * | * | * |
| Total | $ 17,466,344 | $ 16,257,955 | | | |

* The pooled separate accounts are redeemed on a daily basis and do not have any redemption restrictions. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner. Additionally, there are no unfunded commitments.

** Unitholders may redeem units, but the units may not otherwise be transferred without the consent of the Stable Value Fund's trustee, Union Bond and Trust Co. Withdrawals from the Fund for benefit payments and participant transfers to noncompeting options to be paid to plan participants shall be made within 30 days after written notification has been received and are considered as made immediately after the next valuation date subsequent to the trustee's approval. Withdrawals, other than for benefit payments and participant transfers to noncompeting options, require a 12 months advance written notice. Included in this advance written notice requirement are full or partial withdrawals of assets invested in the Fund resulting from plan sponsor directed actions. Additionally, there are no unfunded commitments.

## ( 5 ) Related party transactions and party-in-interest transactions

Certain plan investments in pooled separate accounts and the guaranteed investment account are managed by Principal Life Insurance Company ("Principal"). Principal is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. In addition, Principal Trust Company acts as the custodian for investments not held under a group annuity contract. Fees incurred by the plan for the investment management services are included in net appreciation (depreciation) in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan paid certain expenses related to the Plan's operations and investment activity to certain service provides. As described in Note 2, the Plan made direct payments to Principal of $35,186 and $42,377 for the years ended December 31, 2018 and 2017, respectively, which was not covered by revenue sharing. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other fees related to the plan's operations, which was not covered by revenue sharing.

## ( 6 ) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

## ( 7 ) Tax status

The IRS has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the IRC and informed Principal Life Insurance Company of such in a letter dated March 31, 2014. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## ( 8 ) Risks, uncertainties, and concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

At December 31, 2018 and 2017, approximately 12% of the Plan's investments were invested in Principal Life Insurance Co. Lifetime 2030 Separate Account, respectively.

## ( 9 ) Delinquent participant contributions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company remitted all employee contributions to the Plan in 2017, contributions totaling $260 were not remitted within the required time period during the year ended December 31, 2017. In September 2018, the Company remitted lost earnings to the Plan applicable to these late contributions. In addition, $12 of employee contributions were not remitted to the Plan in 2018. The Company is in the process of correcting the $12 employee deferral, including lost earnings.

## ( 10 ) Reconciliation of financial statements to Schedule H of Form 5500

Certain investment income line items reported on Schedule H of Form 5500 for the year ended December 31, 2018 have been reclassified on the accompanying statements of changes in net assets available for benefits. These reclassifications have no impact on net assets available for benefits at December 31, 2018 or changes in net assets available for benefits for the year then ended.

## ( 11 ) Subsequent events

The Plan has evaluated subsequent events through October 11, 2019 which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
