Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

The Plan Administrator
Nestlé Pension Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Nestlé Pension Plan (the Plan), which comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in notes 5, 7, and 8, which was certified by The Northern Trust Company, the trustee of the Nestlé in the USA Pension Trust (Trust) in which the Plan participates, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Trust's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2018 and 2017

(1) Description of the Plan

The following description of the Nestlé Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined benefit pension plan covering salaried and certain hourly employees of Nestlé USA, Inc. and participating affiliated companies (Company or Plan Sponsor) as defined under the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Pension Benefits

With the exception of Nestlé Purina hourly employees subject to a career average pay formula, effective January 1, 2016, the Plan is closed to new entrants. Participating employees are eligible to receive benefits under the Plan document as follows:

(i) Traditional Benefit

Participants hired prior to May 1, 2003, who chose to remain on the Traditional formula during the pension choice period, with three or more years of vesting service are entitled to pension benefits beginning at normal retirement age of 65. The normal retirement benefit is determined based upon years of credited service, as defined, and the average of the participant's highest three consecutive years of pensionable earnings during the ten-year period prior to retirement (average annual compensation). The Plan permits retirement as early as age 55, but with a reduced benefit. The normal form of benefit payment is the Life Annuity Form for participants who are not married on the benefit commencement date and the Spouse's Annuity Form for participants who are married on the benefit commencement date. Subject to certain restrictions of the Plan, participants may elect to receive the value of their benefits as a life annuity, a lump-sum distribution, a ten-year certain annuity, or a joint-and-survivor annuity. Additionally, certain Nestlé Purina employees may be covered under an alternative final average pay formula or a career average pay formula subject to different normal and optional forms of payment. The Nestlé Purina career average pay formula remains open to new participants hired into covered employment.

Effective April 1, 2015, the Plan was amended to universally offer commencement of benefits and a lump sum option at any age once employment ends.

(ii) Account Benefit

All participants hired after May 1, 2003, and prior to January 1, 2016, and participants hired prior to May 1, 2003, who chose the Account formula during the pension choice period with three or more years of vesting service are entitled to pension benefits upon termination of employment. Participants earn an annual percentage based on the sum of the participant's age and years of vesting service (or points) for each year of credited service in the Plan. Upon termination, the annual percentages are added together to determine the final pension percentage. The final pension percentage is multiplied by the average of the participant's highest five consecutive years of pensionable earnings during the most recent ten-year period. The formula is expressed as a lump sum; however, the normal form of payment is the Life Annuity Form for participants who are

NESTLÉ PENSION PLAN

not married on the benefit commencement date and the Spouse's Annuity Form for participants who are married on the benefit commencement date. Subject to certain restrictions of the Plan, participants may elect to receive the value of their benefit as a lump-sum distribution, a life annuity, or a joint-and-survivor annuity. Additionally, certain Nestlé Purina employees may be covered under an alternative account benefit formula subject to different normal and optional forms of payment.

(iii) Other Benefits

Other plan provisions with limited applicability may also apply to former employees of acquired businesses such as Carnation, Continental Baking Company and Gerber Life.

(c) Death and Disability Benefits

(i) Traditional Benefit

If an active participant dies after completing three years of vesting service, a death benefit may be paid to the participant's qualified surviving spouse. The amount of the benefit paid to the surviving spouse is computed with reference to the early retirement and vested immediate commencement factors of the Plan. Participants who meet the Plan's disability eligibility requirements may continue accruals under the Plan.

(ii) Account Benefit

If an active participant dies, the participant's designated beneficiary will receive the value of the benefit. If the beneficiary is a spouse, the spouse may elect to receive the account benefit as either a lump sum or a life annuity. If the beneficiary is not a spouse, the account benefit is paid as a lump sum. Participants who meet the Plan's disability eligibility requirements may continue accruals under the Plan.

(2) Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Investment Valuation

Plan assets are held in the Nestlé in the USA Pension Trust (Pension Trust), which was established by the Company for the pooled investment of assets for various qualified pension plans sponsored by the Company. The Pension Trust is maintained by The Northern Trust Company, as trustee.

The Pension Trust investments are stated at fair value, in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*.

Purchases and sales of securities are recorded on a trade-date basis. Interest and other income are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2018 and 2017

includes the Pension Trust's gains and losses on investments bought and sold as well as held during the year.

(c) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The accumulated plan benefits for active employees are based on credited service and the average of either the highest three or five years of pensionable earnings, as defined, (i.e., total compensation, including bonuses and overtime) during the last ten calendar years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, Willis Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements due to death, disability, termination, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were as follows:

	2018	2017
Life expectancy of participants	RP-2014 with Modified MP-2016 projection	RP-2014 with Modified MP-2016 projection
Retirement age	Varying by age	Varying by age
ASC 960 discount rate and expected return on plan assets	4.70 %	5.40 %

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(d) Administrative Expenses

The Plan allows for administrative expenses such as trustee fees, investment management fees, actuarial valuation fees, accounting fees, and recordkeeping fees to be paid from Plan assets.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2018 and 2017

A small portion of Plan benefits is payable by Metropolitan Life Insurance Company (MetLife) as a result of the Company's purchase of annuity contracts for certain former participants in the contributory Carnation Employees Retirement Plan Number Two. The remaining portion of Plan benefits are payable by the Plan and are included in the present value of accumulated plan benefits. For some of the former Carnation employees, the Plan benefits have commenced, and continue to be paid, by the trustee, with MetLife reimbursing the Plan for any portion of said benefits that were previously purchased by the employee contributions.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

(g) Risks and Uncertainties

The Pension Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

(h) Derivative Financial Instruments

The Pension Trust accounts for derivatives and hedging activities in accordance with ASC 815, *Derivatives and Hedging*, which requires that all derivative instruments not qualifying for hedge accounting be recorded on the statements of net assets available for benefits at their respective fair values.

The Pension Trust uses derivatives for the benefit of the plans in the Pension Trust as a tool to reduce risk and as an investment strategy. The Pension Trust will enter into the following types of derivative instruments: interest rate swaps, credit default swaps (CDS), equity swaps, commodity swaps, financial futures, commodities futures, foreign exchange forward contracts and options, and swaptions and options. The derivative instruments outstanding as of period-end and the amounts of realized and unrealized gains and losses, as well as other income on derivative instruments during the period (as disclosed in the derivatives tables in note 7), serve as indicators of the volume of derivative activity for the Pension Trust. Derivative strategies involve risk and like other investments, can lose money. The impact on Pension Trust performance can be positive or negative, and will vary depending on market movements.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2018 and 2017

The Pension Trust manages interest rate risk using interest rate swaps and/or U.S. Treasury futures (interest rate hedge). The objective of the interest rate hedge is to manage the effective duration of the Pension Trust's assets to better match its defined benefit obligations, thereby protecting the funded ratio of the Pension Trust as interest rates fluctuate. Interest rate swaps and futures used in this manner adjust interest rate and yield curve exposures and substitute for physical securities.

The Pension Trust also uses derivatives as a substitute for physical securities in order to gain exposure to certain asset classes. Using derivatives instead of physical securities may be a more efficient means to gain exposure to an index or a market sector due to its characteristics of increased liquidity and reduced transaction costs. Using derivatives may also reduce the need to sell assets when there is a difficult trading environment. These derivatives are used to create credit, equity, and foreign exchange exposures.

The Pension Trust uses a mix of equity, fixed income, and foreign exchange futures to securitize a cash position. Use of these derivatives enables the cash of the Pension Trust to earn a return as if it were invested in the various asset classes as defined by the strategic asset allocation. It allows the Pension Trust to retain liquidity and flexibility, while still earning equity, fixed income, or foreign exchange returns.

The Pension Trust manages credit risk through use of CDS. These derivatives are used to manage credit exposure without buying or selling securities outright. Written CDS increase credit exposure (selling protection), obligating the Pension Trust to buy bonds from counterparties in the event of a default. Purchased CDS decrease exposure (buying protection) providing the right to "put" (sell) bonds to the counterparty in the event of a default.

The Pension Trust has managed the foreign currency risk inherent in international equity portfolios through the use of foreign exchange forwards, which are foreign exchange transactions that have settlement periods longer than three days. The Pension Trust terminated its passive FX hedging strategy during the third quarter of 2017. The Pension Trust also uses foreign exchange forwards and currency options as an investment strategy. The Pension Trust terminated its active FX strategy during the third quarter of 2018.

Counterparty risk for swaps and forwards that are not cleared through a central exchange is mitigated through the use of International Swaps and Derivatives Association (ISDA) standardized agreements that require gains and losses owed to and from the counterparty to be agreed daily, and gains or losses to be collateralized with cash. For futures, the gain (loss) is calculated and funds are transferred to and from the Pension Trust on a daily basis, based on the prior day's market valuation. The types of counterparties are large banks and brokers, and the investment managers each have netting arrangements within their accounts to reduce the exposure to any single counterparty.

Holding derivatives has a significant impact on cash flow. Daily mark to markets and accumulated gains and losses can be large, depending on the volatility of the markets. The Pension Trust has maintained the liquidity necessary to settle any losses under a variety of market conditions, including the most severe.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2018 and 2017

(i) Foreign Currency

The Pension Trust's investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

The Pension Trust does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net appreciation and depreciation from investments.

(j) Recently Issued Accounting Standards

In February 2017, the FASB issued ASU 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*, which changes the presentation and disclosures for plans that participate in a master trust. ASU 2017-06 introduces a new concept of plans having divided or undivided interest in the master trust. Plans with an undivided interest have a proportionate share in the master trust and plans with a divided interest have a specific share in each asset of the master trust. The requirement to disclose percentage interest in the master trust was removed for plans with a divided interest in the master trust. Upon adoption, plans will be required to disclose the dollar amount of the plan's interest in each of the general types of investments held by the master trust, as well as the master trust's other assets and liabilities and the dollar amount of the plan's interest in each of those other assets and liabilities. The Plan is currently evaluating this issued but not yet effective accounting standard, and has not yet determined the impact to the financial statements. The accounting standard is effective for the Plan year beginning after December 15, 2018.

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820) Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 improves the disclosure requirements for fair value measurements. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted. The Plan is assessing the impact on its disclosures of adopting the updated standard.

(3) Funding Policy

The funding policy of the Plan Sponsor is to make contributions for each plan year in an amount not less than the minimum required contribution under the law and not more than the maximum tax-deductible contribution. The Company may vary its contribution level, if appropriate to its tax and cash position and the Plan's funded status. Contributions made for the Plan year ended December 31, 2018 were \$214,929,000 and met the Company's policy.

(4) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

NESTLÉ PENSION PLAN

Notes to Financial Statements

December 31, 2018 and 2017

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. The assets allocated to each participant would be distributed through either (a) continuance of the trust fund that is attributable to the current Plan or establishment of a new trust fund, and/or (b) purchase of annuity contracts. In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees, which is adjusted periodically.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

(5) Trustee Certifications

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from The Northern Trust Company, the trustee of the Pension Trust in which the Plan participates, as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and notes thereto, as to investments and investment income (loss), is presented in reliance upon those certifications, with the exception of the Pension Trust's investments in real estate funds, hedge funds, and venture capital and partnership funds and the leveling of investments. These investments are held by the investment fund managers, who report the net asset values of the Pension Trust's interests to the Company and trustee on a periodic basis. Information included in the accompanying financial statements related to these funds is based upon these net asset values as of December 31, 2018 and 2017.

(6) Parties in Interest

During the years ended December 31, 2018 and 2017, Nestlé in the USA Pension Trust had parties in interest that included Plan Sponsor, trustee, investment advisory, legal, actuarial, and administrative service providers. The fees paid by the Pension Trust to these parties in interest were \$10,851,185 for the year ended December 31, 2018. The Plan's share of these expenses was \$9,308,626 for the Plan year ended December 31, 2018.

(7) Interest in Nestlé in the USA Pension Trust

The assets of the Plan are invested in the Pension Trust, in which the assets of the Plan are combined with the assets of other affiliated Company plans for investment purposes.

Pursuant to the trustee's method of allocating the investment holdings between the plans, contributions into the Pension Trust are treated as additions in the Pension Trust, withdrawals are treated as deductions in the Pension Trust, and investment income (loss) is allocated proportionately. Accordingly, the value of the Plan's investment in the Pension Trust is equal to the Plan's interest in each applicable investment increased or decreased by the Plan's allocated share in income, gains, and losses attributable to each applicable investment, which share is generally based upon the Plan's respective share of the Pension

Trust's combined net assets available for benefits each month before investment income (loss) and net appreciation (depreciation) in the fair value of investments. Those investment expenses of the Pension Trust, which can be specifically identified as being applicable to the Plan, are charged to the Plan. The remaining investment expenses are allocated to the Plan based on the Plan's respective share of the Pension Trust's combined net assets available for benefits on a monthly basis.

The Plan's equitable share of the Pension Trust's net assets was approximately 86.0% and 85.5% for the years ended December 31, 2018 and 2017, respectively. The following is financial information with respect to the Pension Trust:

(8) Fair Value Measurements

The Plan has adopted the guidance in ASC 820, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant judgment. The three levels are defined as follows:

- Level 1: Assets or liabilities that are valued based on unadjusted quoted prices in active markets that are accessible at measurement date.
- Level 2: Assets or liabilities that are valued based on observable inputs, other than those included in Level 1, based on quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, or financial instruments for which all significant inputs are observable; either directly or indirectly.
- Level 3: Assets or liabilities that are valued based on unobservable inputs, including the reporting entity's own analysis of the underlying economic data that market participants would factor into the pricing of the asset or liability.

Due to the Company's policy to diversify the holdings of the Pension Trust portfolio, there is no significant concentration of investments within any particular class of investments included above. The valuation methodologies utilized by the Plan and Pension Trust for the above investments as of December 31, 2018 and 2017, are as follows:

- (a) Based on quoted market prices in active markets.
- (b) Based on investment manager or industry pricing services of investments. Certain fixed income pricing is on a bid-evaluation basis. Institutional bid evaluations are estimated prices. Pricing vendors use models, which are generally proprietary, to arrive at the estimated prices. These prices represent the price a dealer would pay for a security. Model inputs vary depending on the type of security, but typically include trade data, institutional bids, comparable trades, dealer quotes, and news media. Market data is provided by multiple independent sources, including primary and secondary dealers, portfolio managers, and research analysts.
- (c) Collateralized mortgage valuations are based on trade and quote activity of bonds with similar features including issuer, vintage, prepayment speeds, and purpose of the underlying loan (first or second lien).
- (d) Cash equivalents include short term fixed income instruments whose valuations are determined based upon maturity date, issue date, and credit ratings.

Notes to Financial Statements

December 31, 2018 and 2017

- (e) Commingled funds are valued based on the daily pricing of the underlying assets to estimate the fair value of the fund as determined by the investment manager. The liquidity of these investments is determined by the redemption period and settlement period for each fund. The Pension Trust considered these and other characteristics and concluded these commingled funds have a readily determinable fair value.
- (f) Government and municipal bonds are priced by obtaining feeds from various live data sources including market makers and interdealer brokers.
- (g) Currency forwards use quoted foreign exchange rates in an active market or exchange. Over-the-counter options are valued using bid, ask/offer quotes that are binding and corroborated. Swaps are valued using the discounted cash flow method. The two legs (fixed and floating) are priced independently as the present value of their expected cash flows.
- (h) Certain fixed income securities (primarily certain collateralized obligations) are valued based upon evaluated prices using unobservable inputs (i.e., extrapolated data, proprietary models, and indicative quotes).
- (i) Fair value is based on the net asset value of the Core Collateral Fund as determined daily, by the trustee, using market prices of underlying investments and evaluations supplied by industry pricing vendors.
- (j) Investments measured at net asset value include alternative fixed income investments, real estate funds, hedge funds, and private equity funds. The net asset values are reported to the Company and trustee by the fund managers or the general partners of the fund. These net asset values are based on the fair value of the underlying portfolio investments held by the investment fund.

These fair values are determined by a variety of methods: real estate investments are valued at appraised values plus undistributed rental and interest income; hedge funds are valued by the investment manager using quoted market prices of underlying investments and evaluations supplied by industry pricing vendors; and private equity investments are valued using income and market based analysis.

For the year ended December 31, 2018, the Pension Trust entered into secondary market transactions to sell its private equity investments for an amount other than net asset value. As a result, the private equity investments have been included within the leveling disclosure in Level 1 for the year ended December 31, 2018.

The Pension Trust's investments measured at net asset value are in real estate, hedge funds, and fixed income partnerships for the year ended December 31, 2018, as well as venture capital and infrastructure for the year ended December 31, 2017. These investments are primarily limited partnership investments and the fair value is determined using an audited net asset value (NAV). The fair value of investments is estimated using techniques that may rely heavily on the investment managers' assumptions and qualitative observations. The Pension Trust uses the fair valuations from the investment managers and reviews and validates their valuation methods and processes throughout the year. The Pension Trust did not make any adjustments to any valuations. The Pension Trust establishes and follows valuation policies and procedures. The Pension Trust employs specialized investment consultants who perform due diligence on the valuation policies and procedures of the general partners before making the investments and periodically thereafter. Using their own procedures and systems, they evaluate the reasonableness of the partnerships' NAVs on a monthly and quarterly basis using industry comparisons, operating performance metrics and they conduct frequent reviews with the general partners. The Pension Trust periodically evaluates the fair valuation policies and procedures of these specialized investment consultants and requests and reviews the valuation policies of the investment managers and general partners annually. The Pension Trust retains discretion to sell any of these investments at an amount other than the net asset value, should there be an investment case to sell these investments in the secondary market.

A summary of changes in the fair value of Level 3 assets and liabilities for the years ended December 31, 2018, is as follows:

	December 31, 2017	Gross purchases, issuances, and transfers	Gross sales and settlements	Unrealized gains (losses)	Realized gains	December 31, 2018
Fixed income	\$ 12,838,983	8,212,739	(1,331,264)	(3,030,176)	20,316	16,710,598

The significance of transfers between levels is evaluated based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits. There were no significant transfers between levels for the year ended December 31, 2018.

Notes to Financial Statements

December 31, 2018 and 2017

(9) Tax Status

The Internal Revenue Service (IRS) has determined as of January 1, 2015, and informed the Plan by a letter dated September 30, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been further amended since requesting the determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator evaluates tax positions taken by the Plan. The financial statement effects are recognized when the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.

During November 2018, the Plan was notified of a review to be performed by the Department of Labor to determine compliance with the provisions of ERISA. The review is currently in progress.

(10) Reconciliation of Financial statements to Form 5500

Contributions of \$0 and \$214,929,000 were made by the Company during 2019 and 2018, respectively. Since the contributions were made prior to September 15 of each year, the contributions have been designated for the 2018 and 2017 plan years, respectively, for tax purposes on Form 5500. However, the Plan recognized \$214,929,000 in the 2018 financial statements, as this amount was not required to meet the minimum funding requirements and/or the Company's funding policy in plan year 2018.

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2018 and 2017, to Form 5500:

Lump sum

Percent Married	75% for Gerber Life participants in Nestlé Pension Plan, 80% all other plans
Spouse age	Wife three years younger than husband.
Covered pay	Average of prior three years' pensionable earnings, increased with one year's salary increase assumption.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.
Administrative expenses	Nestlé no longer pays administrative expenses from the pension trust.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year. In addition, these participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit.

Methods

Valuation date	First day of plan year
Funding target and PVAB	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during the year
Actuarial value of assets	Market value of assets, including contributions receivable
Funding policy	Nestlé USA's general funding policy is to make contributions for each plan year in an amount not less than the minimum required contribution under ERISA and to target 100% funded status on a Pension Protection Act (PPA) basis. This will not exceed the maximum tax-deductible contribution. Nestlé may vary its contribution level, if appropriate to its tax and cash position and the funded status.
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Nestlé and is not aware of any significant benefits required to be valued that were not.</p> <p>Small benefits with present values up to \$5,000 may be paid in a single lump sum payment. Such lump sums are not explicitly valued as such; rather, such participants' benefits are valued using the benefit choice assumptions described above.</p>

Assumptions Rationale – Significant Economic Assumptions

Rates of increase in compensation and statutory limits	Assumed increases were chosen by the plan sponsor and represent an estimate of future experience.
Administrative and investment expenses	Administrative and investment expenses are determined by Nestlé at year end.

Assumptions Rationale – Significant Demographic Assumptions

Termination	<p>Termination rates were based on an experience study conducted in 2015 for the period 2009-2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by age, service and plan because of observed differences in termination rates by age, service and plan.</p>
Disability	<p>Disability rates were based on an experience study conducted in 2015 for the period 2009-2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed disability rates differ by gender and plan because of observed differences in disability rates by gender and plan.</p>
Retirement	<p>Retirement rates were based on an experience study conducted in 2015 for the period 2009-2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed retirement rates differ by plan because of observed differences in retirement rates by plan.</p>
Benefit commencement date:	
<ul style="list-style-type: none">■ Pre-retirement death benefit	<p>Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.</p>
<ul style="list-style-type: none">■ Deferred vested benefit	<p>Commencement ages were based on an experience study conducted in 2015 for the period 2009-2013. Deferred vested early commencement factors are generally not subsidized so that the difference between this approach and using assumed commencement rates at different ages is not expected to be significant.</p>

Form of payment

The optional form of payment assumptions are based on an experience study performed in 2015 for the period 2009-2013.

For groups newly eligible for lump sums in 2016, the percentage of retiring participants assumed to take lump sums is based on observed experience for other Nestlé employee groups.

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target was updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by IRS in October 2017 in regulation §1.430(h)(3)-1.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Accumulated benefit

Covered employees have the pension equity formula, unless they chose to retain the final average earnings formula as of 5/1/2003. Frozen minimum FAE benefit as of 5/1/2003 applies to pension equity participants.

Pension equity: Lump sum equal to the sum of basic percentages, as shown below, for each year of credited service x FAE + 3.5% of FAE in excess of covered compensation x credited service.

Age + Points Service	Basic %
<40	4.0%
40 – 49	5.0%
50 – 59	6.0%
60 – 69	8.0%
70 – 79	10.0%
80 – 89	12.0%
> 89	15.0%

Final average earnings (FAE): .9% of FAE x credited service limited to 35 years + .5% of FAE in excess of covered compensation x credited service limited to 35 years; for employees who were participants on 1/1/89, an additional .3% of FAE x credited service on 1/1/89 limited to 35 years; for former Carnation employees, add the final average pay accrued benefit as of 12/31/91 x the ratio of FAE at termination to FAE on 12/31/91

Eligibility for Benefits

Normal retirement	Retirement on or after attaining age 65
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing ten years of vesting service
Postponed retirement	Retirement after attaining age 65
Vested termination	Termination for reasons other than death or retirement after completing three years of vesting service
Disability	Permanent and total disability after completing three years of vesting service
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse on or after completing three years of vesting service.

Benefits Paid Upon the Following Events

Normal retirement (NRD)	Accrued benefit payable immediately.
Early retirement	FAE accrued benefit reduced 3.0% for each year prior to age 62; pension equity benefit payable immediately
Postponed retirement	Accrued benefit payable immediately.
Vested termination	FAE accrued benefit payable unreduced at age 65, or reduced 6.0% for each year prior to age 65; pension equity benefit payable immediately.
Disablement	Accrued benefit payable at actual retirement, with service credited during disability, and based upon pensionable earnings at date of disability.
Preretirement death	If married, reduced 100% joint & survivor early retirement FAE benefit if attained age 55 or 100% joint and survivor early retirement FAE benefit for all others reduced to be payable at age at death. The pension equity benefit is payable immediately to any beneficiary.

Other Plan Provisions

Forms of payment	
Normal form	Life annuity for single participants; 100% joint and survivor for married participants
Optional forms	50% or 100% joint and survivor annuity; 10 year certain and life (if hired before 5/1/2003); lump sum
Pension increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Accumulated benefit:

Salaried employees have the pension equity formula, unless they chose the final average earnings formula as of 1/1/99. Hourly employees have the career average earnings formula. Some participants have the supplemental cash balance benefit.

Final average earnings (FAE): $1.545\% \text{ of FAE} \times \text{credited service limited to 40 years} - 51.5\% \text{ of Social Security benefit} \times \text{credited service} \div \text{the greater of projected credited service at NRD or 30 years}$.

Pension equity: Sum of basic percentages, the greater of the two percentages shown below, for each year of credited service $\times$ FAE + 3.5% of FAE in excess of covered compensation $\times$ credited service, converted to a five-year certain and life annuity.

Years of Credited Service	Purina Basic %	Age + Points Service	Nestlé Basic %*
0 – 5	4.0%	< 40	4.0%
6-10	5.0%	40 – 49	5.0%
11-15	6.5%	50 – 59	6.0%
16-20	8.0%	60 – 69	8.0%
>20	10.0%	70 – 79	10.0%
		80 – 89	12.0%
		> 89	15.0%

*Applies only to 2003 and later.

Career average earnings (CAE): $1.75\% \text{ of earnings for each year after 1998} + 1.25\% \text{ of earnings for each year after 1988 and before 1999} + 1.0\% \text{ of FAE as of 12/31/1988} \times \text{credited service as of 12/31/1988}$.

Cash balance benefit: Cash balance as of 12/31/2002, plus interest credits, converted to a five-year certain and life annuity. Interest credits are based on 30-year Treasury rates.
