NATIONAL AUTOMOTIVE EXPERTS 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2018 and 2017 (Compiled) and Year Ended December 31, 2018

NOTE A - DESCRIPTION OF PLAN

The following description of the National Automotive Experts 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of National Automotive Experts (the Company, Plan Administrator, and Plan Sponsor) who have completed three months of service and have attained the age of 18. Prior to January 1, 2018, employees were required to have completed one year of service and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to defer from 1% up to 100% of their compensation as defined by the Plan on a pre-tax or after-tax basis. The Plan also provides for catch-up contributions for participants who reach the age of 50 by the end of the Plan year. Effective January 1, 2018, employees who have not declined participation in the Plan or completed a salary deferral agreement as of the date of their eligibility to participate in the Plan will be automatically enrolled in the Plan with a pre-tax deferral rate of 6% and their contributions are invested in a fund designated by the Plan Administrator until changed by the participant. The Plan provides a safe harbor nonelective employer contribution of 3% to participants who have completed one year of service. The Plan also provides for discretionary employer matching contributions and discretionary profit sharing contributions for participants who have completed one year of service and are employed on the last day of the Plan year. There were no discretionary employer matching or profit sharing contributions during the year ended December 31, 2018. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (the Code). Participants direct the investment of their contributions into various options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as an allocation of the Company's safe harbor nonelective employer contribution, Company profit sharing contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based upon participant account earnings, compensation, specific participant transactions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NATIONAL AUTOMOTIVE EXPERTS 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2018 and 2017 (Compiled) and Year Ended December 31, 2018

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their deferral and rollover contributions and the Company's safe harbor nonelective employer contributions plus actual earnings thereon. Vesting in discretionary employer matching and profit sharing contributions plus actual earnings thereon is based on years of continuous service at a rate of 20% each year starting in the year two. Participants are fully vested in their discretionary employer matching and discretionary profit sharing contributions after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance subject to certain Department of Labor and IRS requirements. Notes receivable terms range from 1 - 5 years, or longer for the purchase of a primary residence. Notes receivable are secured by the balances in the participants' accounts and bear interest at prime plus 1%. Interest rates ranged from 4.50% to 5.00% at December 31, 2018. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

Upon attaining age 59½ or termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account based upon the terms of the Plan document. If the value of the vested benefits credited to a participant's account is \$1,000 or less at the time of termination, the entire amount will be distributed to the participant without the participant's consent. In the event of a mandatory distribution of amounts greater than \$1,000 but not exceeding \$5,000, the amount will be paid in the form of a rollover to an individual retirement account as designated by the Plan Administrator.

Active participants may make hardship withdrawals of their vested pre-tax elective deferral portion of their account balances, subject to Plan provisions. A participant who receives a distribution on account of hardship is prohibited from making deferrals for six months after receipt of the distribution.

Forfeited Accounts

Forfeitures are used to reduce administrative expenses or to offset discretionary employer contributions. Unallocated forfeiture balances as of December 31, 2018 and 2017 were \$66 and \$40, respectively. No forfeitures were used in 2018.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment Valuation

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note D for discussion of fair value measurements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make repayments on a note receivable and the Plan Administrator deems the note receivable to be uncollectible, the balance on the note receivable from the participant is reclassified to benefits paid to participants.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Participant and employer contributions are recorded and credited to each participant's account when received by the custodian from the Company. Any contributions attributable to the Plan year but not received by the custodian by the last day of the Plan year are recorded as a receivable.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes

The Company adopted a volume submitter profit sharing plan with a cash or deferred arrangement which received an opinion letter from the IRS dated March 31, 2014 stating that the Plan was designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the opinion letter, the Plan Sponsor believes that the Plan is currently being operated in compliance with the applicable requirements of the Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2019, the date which the financial statements were available to be issued.

NOTE C - CERTIFICATION

Notes receivable from participants and pooled separate account information disclosed in the accompanying financial statements and supplemental schedule, including notes receivable from participants as well as pooled separate accounts and cash held at December 31, 2018 and 2017, and net depreciation in the fair value of investments, and interest income for the year ended December 31, 2018 were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the custodian.

NOTE D - FAIR VALUE MEASUREMENTS

The three levels of the fair value hierarchy, which are based upon the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Plan's investments accounted for at fair value as of December 31, 2018 are summarized below:

	<u>Level 1</u>	<u>Total</u>
Self-directed brokerage account	<u>\$ 423,156</u>	<u>\$ 423,156</u>
Total investments in the fair value hierarchy	<u>\$ 423,156</u>	423,156
Investments measured at net asset value		<u>3,262,447</u>
Total investments at fair value		<u>\$ 3,685,603</u>

Notes to Financial Statements

December 31, 2018 and 2017 (Compiled) and Year Ended December 31, 2018

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The Plan's investments accounted for at fair value as of December 31, 2017 are summarized below:

	<u>Level 1</u>	<u>Total</u>
Self-directed brokerage account	<u>\$ 459,612</u>	<u>\$ 459,612</u>
Total investments in the fair value hierarchy	<u>\$ 459,612</u>	459,612
Investments measured at net asset value		<u>3,075,438</u>
Total investments at fair value		<u>\$ 3,535,050</u>

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2018.

Self-directed brokerage accounts primarily consist of mutual funds and exchange traded funds that are valued on the basis of readily determinable market prices.

Pooled separate accounts (see Note E) are valued at the net asset values of shares held by the Plan at year end. The net asset values, as provided by the custodian, are used as a practical expedient to estimate fair values. Net asset values are based on the quoted market prices of the underlying investments, net of insurance company fees and expenses less their liabilities. This practical expedient is not used when it is determined to be probable that the accounts will sell the investments for amounts different than the reported net asset values.

The methods described above may produce fair value calculations that may not be indicative of net realizable values or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.
