ADAPT OF AMERICA 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

1. Description Of The Plan

The following description of the Adapt of America 401(k) Plan, (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan, which is sponsored by Adapt of America, Inc. (the Company or Plan Sponsor) was formed on January 1, 2018 and was spun off from the Insperity 401(k) Plan that was established January 1, 1991. Effective January 1, 2018, all participant balances for employees of the Company were transferred into the Plan.

The Plan is a defined contribution 401(k) retirement savings plan. Adapt of Missouri, Inc., HarrisLogic, LLC, Adapt of Illinois, Inc. and Adapt Community Solutions, LLC, all related parties under common ownership, are participating in the Plan.

The Plan covers all full-time and part-time employees, who are not nonresident aliens, employees covered by a collective bargaining agreement, leased employees, or independent contractors. Employees are eligible to begin to make salary deferral contributions after completing 30 days of service. Employees are eligible for Safe Harbor contributions upon a year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may make salary deferral contributions from 1% to 80% of compensation, not to exceed the Internal Revenue Code (IRC) limits. Participants attaining the age of 50 during the Plan year may make additional catch-up contributions, as defined by the Plan. The Plan also allows for a Roth 401(k) contribution option. Participants may also contribute amounts representing distributions from other qualified benefit plans (rollovers).

The Company implemented a Safe Harbor matching provision. The Company contributes a matching contribution each year equal to 100% of elective deferral contributions that are not over 3% of compensation, plus 50% of elective deferral contributions that are over 3% but not over 5% of compensation.

The Plan also provides for discretionary Company matching contribution, as determined annually by the Company. There were no discretionary matching contributions in 2018.

ADAPT OF AMERICA 401(k) PLAN

Notes To Financial Statements *(Continued)*

Vesting

Participants are immediately vested in Company matching and discretionary contributions plus actual earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's salary deferral and rollover contributions, the Company's matching and discretionary contributions, and an allocation of Plan earnings (losses). The allocation of earnings (losses) is determined based on each participant's pro-rata account balance in the fund and the timing of the fund purchase, as stated in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participants

Participants may borrow from their account a minimum of \$1,000, up to a maximum equal to the lesser of (a) \$50,000, reduced by highest outstanding loan balance the day before the new loan is made, (b) \$10,000, reduced by any outstanding loan balance on the date the new loan is made, or (c) 50% of the participant's vested account balance, reduced by any outstanding loan balance on the date the new loan is made. Participants are limited to two loans outstanding at any given time and only two loans can be issued in any 12-month period. Loans are for a period not exceeding five years unless used for the purchase of a principal residence. Loans for a principal residence are for a period less than 15 years or a period consistent with commercial home loan practices. Interest rates on loans are set at the prevailing market rate at the time of the loan and are repaid through payroll withholdings, including principal and interest.

Payment Of Benefits

Upon retirement, termination, or disability, a participant may make withdrawals from his or her vested account. A participant may elect to receive a lump-sum amount equal to the value of his or her vested account. The normal retirement age is defined as 59-1/2.

Participant Hardship Withdrawals

Active participants who experience a qualifying financial hardship may withdraw all or part of their vested account resulting from elective deferral contributions. Hardship withdrawals will be approved only if they conform to the Plan provisions and established Internal Revenue Service (IRS) safe harbors.

ADAPT OF AMERICA 401(k) PLAN

Notes To Financial Statements (*Continued*)

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the variety of investment options available.

Administrative Expenses

During 2018 administrative expenses, including investment advisory, loan fees, and disbursement fees, were paid by the Plan.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

The Plan's investments, other than fully benefit-responsive contracts, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See fair value measurement discussions in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan that are fully benefit-responsive are reported at contract value, rather than fair value, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment in the Principal Fixed Income Guaranteed Option is a fully benefit-responsive investment contract and is reported at contract value in the statement of net assets available for benefits.

ADAPT OF AMERICA 401(k) PLAN

Notes To Financial Statements *(Continued)*

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan Document. No allowance for credit losses has been recorded as of December 31, 2018. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Certified Financial Information

Financial information related to the Plan's investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants at December 31, 2018, and net depreciation in the fair value of investments and interest and dividend income for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan Administrator and certified as completed and accurate by Principal Trust Company (Principal). This information has not been audited by the Plan's independent auditors.

The Plan invests in a benefit-responsive annuity contract (the Contract) with Principal, which maintains the contributions in a guaranteed investment contract.

As described in Note 2, because the Contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

ADAPT OF AMERICA 401(k) PLAN

Notes To Financial Statements (*Continued*)

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The crediting interest rate is reset every six months. The average crediting rate for 2018 ranged between 1.70% and 1.75%.

The Contract permits the Company or Principal to terminate the Contract within 12 months of receiving notification. Principal may make the termination payment immediately for consideration of a 5% surrender charge.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) the decision by the Plan Sponsor to withdraw all assets from the contract and reinvest in another investment vehicle, (3) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (4) the delivery of any communication to Plan participants designed to influence the participant not to invest in the fund, (5) any change in law, regulation, ruling, administrative or judicial position, or accounting requirement applicable to the Plan. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

4. Fair Value Measurements

The Plan follows current accounting rules that establish a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
|---------|---|

ADAPT OF AMERICA 401(k) PLAN

Notes To Financial Statements (*Continued*)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

ADAPT OF AMERICA 401(k) PLAN

Notes To Financial Statements *(Continued)*

Pooled Separate Account

Valued at the NAV of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. The NAV, as provided by Principal, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The pooled separate account is comprised primarily of shares of mutual funds that are traded on an active market. The pooled separate account may be redeemed by participants daily at NAV with no advanced redemption notice required. There are no unfunded commitments.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 8,402,671	\$ —	\$ —	\$ 8,402,671
Investment measured at net asset value (a)				<u>10,413</u>
Total investments at fair value				<u>\$ 8,413,084</u>

- (a) Investment in pooled separate account is measured at fair value using the NAV per share (or its equivalent) as a practical expedient, and therefore is not categorized in the fair value hierarchy. The fair value amounts presented on this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits

5. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

ADAPT OF AMERICA 401(k) PLAN

Notes To Financial Statements *(Continued)*

6. Transactions With Parties In Interest

The Plan pays Principal contract administration fees and invests in a pooled separate account and a guaranteed investment contract managed by Principal. Fees for these services are paid from Plan assets and investment transactions represent allowable party in interest transactions under ERISA.

7. Plan Termination

Although the Company has not expressed intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Income Tax Status

On August 8, 2014, the IRS issued an opinion letter which stated that the volume submitter document (the Document) sponsored by Principal and adopted by the Plan, as then designed, qualified under the IRC. The Document has been amended by Principal for required legislation since receiving the opinion letter. The Plan itself has not received a determination letter specific to the Plan; however, the Plan Administrator believes that the Plan is currently being operated in accordance with the applicable requirements of the IRC.

The Plan follows accounting rules for uncertain tax positions. Those rules require financial statement recognition of the impact of a tax position if a position is more likely than not of being sustained on audit, based on the technical merits of the position. The rules also provide guidance on measurement, derecognition, classification, interest and penalties, and disclosure requirements for uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. As the Plan was established in 2018, all tax years remain subject to examination by taxing authorities.
