Employee Contributions

Pursuant to Section 401(k) of the Internal Revenue Code (the "IRC"), participants may contribute up to the lesser of 100% of their compensation or $18,500 for 2018. Employees who are aged 50 or older may also make catch-up contributions of up to $6,000 for 2018. Participants may also rollover amounts into the Plan representing distributions from other qualified defined benefit or contribution plans.

The plan document allows for automatic enrollment of employees at 6% of their eligible compensation, unless the employee directs otherwise. Each year, the participant will have contribution elections increase by 1%, not to exceed 8%, unless otherwise directed by the employee.

Participants direct the investment of their contributions into various investment options offered by the Plan. All participant contributions are fully vested at all times.

Employer Contributions

Each year, the Company will contribute to the Plan the following amounts:

a. A discretionary matching contribution equal to a discretionary percentage or dollar amount, to be determined by the Company, of the participant's elective deferrals.

b. A discretionary non-elective contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary matching contribution, (b) any employer discretionary non-elective contribution, and (c) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit of which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service.

Participants are 20% vested after one year of service and an additional 20% every year of service thereafter. Participants are fully vested after five years of service.

Payment of Benefits

Upon termination of service due to death, disability, or retirement on or after normal retirement age, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or installments over a period of not more than the participant's assumed life expectancy if the vested account balance exceeds $5,000. If the vested account balance is less than $5,000, participants will receive a lump sum distribution. For termination of service for other reasons or before normal retirement age, a participant may receive the value of the vested interest in his or her account as a lump sum distribution as soon as administratively feasible, however, if the vested account balance exceeds $5,000, participants may elect to postpone distribution until your required beginning date.

Forfeitures

A forfeiture is the non-vested portion of a terminated participant's account balance. The forfeited amount remains in the Plan and is first used to pay any administrative expenses and any remaining amounts are used to reduce any subsequent discretionary employer contributions. As of December 31, 2018, and 2017, there were $13,651 and $0 of forfeitures that have not yet been applied to expenses or contributions. Also, in 2018, total employer contributions and fees paid were $47,972, from forfeited non-vested accounts.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 or (b) 50% of the value of their vested interest in the Plan. Loan transactions are treated as a transfer to (from) an investment fund from (to) the Participant Notes Receivable Fund. The loans are secured by the balance in the participant's account and bear interest at 4.25% - 6.25%, which are commensurate with local prevailing rates as determined by the plan administrator.

The loans are repaid ratably through payroll deductions over a period not to exceed 5 years for general loans. Previous loan policy allowed for mortgage loans within a reasonable time frame determined by the plan administrator at the time of the loan. Some of these loans are still ongoing.

Investment Options

The assets of the Plan, both employee and employer, are allocated to the various funds at the direction of the participant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts ("FBRIC"). Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities, and changes therein, at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the Schedule H of the 5500. Under generally accepted accounting principles, the defaulted loan will remain a note receivable from participant until a distributable event occurs. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for FBRICs, which are reported at contract value as previously stated in the Basis of Accounting paragraph). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by investment advisors, custodians, and the insurance company. See Note 4 for discussion on fair value measurements.

The guaranteed investment contract is fully benefit-responsive and is reported at contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. See Note 5 for discussion on the investment contract with the insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The daily operation expenses of maintaining the Plan are paid by the Plan and are reflected in the financial statements as administrative expenses. Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Certain administrative expenses are paid directly by the Plan, such as recordkeeping, trustee, legal, and accounting fees. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

3. ASSET INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

At December 31, 2018, the Plan's investments were held by the Trustee, Great-West Trust Company, LLC. At December 31, 2017, the Plan's investments were held by the Trustee, Mass Mutual Financial Group.

The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustees as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The current value of investments at December 31, 2018 and 2017, as reported by the Trustees is summarized as follows:

	2018	2017
Mutual funds	$ 3,075,721	$ 20,300,919
Collective trust funds	18,591,398	-
General account funds	13,651	-
Guaranteed investment contract	294,950	2,431,559
Total investments	$ 21,975,720	$ 22,732,478

During 2018, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year), depreciated in value by $2,119,944.

4. FAIR VALUE MEASUREMENTS

As required by Accounting Standards Codification 820-10, *Fair Value Measurement and Disclosures,* the Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for similar assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair values using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. These funds are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments Measured at Net Asset Value

Collective trusts: valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant's transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, no notification is required.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	Fair Value Measurements at the End of the Reporting Period Using	
December 31, 2018	Quoted Prices in Active Markets for Identical Assets (Level 1)	Total
Mutual funds	$ 3,075,721	$ 3,075,721
General account funds	13,651	13,651
Total assets in the fair value hierarchy	3,089,372	3,089,372
Investments measured at net asset value (a)	-	18,591,398
	$ 3,089,372	$ 21,680,770

	Fair Value Measurements at the End of the Reporting Period Using	
December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Total
Mutual funds	$ 20,300,919	$ 20,300,919
Total assets in the fair value hierarchy	$ 20,300,919	$ 20,300,919

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

Guaranteed Investment Contract

In 2018, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company ("GWL"). Current value as of December 31, 2018 totaled to $294,950. GWL maintains the contributions in a market value separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

In 2016, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with MassMutual Retirement Services (MMRS). It's value as of December 31, 2017 totaled to $2,431,559. MMRS maintained the contributions in a market value separate account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate was based on a formula established by the contract issuer. The crediting rate was reviewed on a quarterly basis for resetting. The guaranteed investment contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by GWL and MMRS, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield earned by the Plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rates for the fund over the year. The average for the year ended December 31, 2018 is 2.15%.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of a sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

6. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are in a general fund account managed by Great-West Trust Company, LLC, the trustee of the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan as direct compensation for the investment management services amounted to $18,989 for the year ended December 31, 2018.

7. TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated September 30, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the most recent plan document date being September 2018, the plan administration and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations three years after filling.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500:

	December 31 2018
Net assets available for benefits, per the financial statements	$ 22,569,969
Lesss: current year deemed distributions	(722)
Net assets available for benefits, per the Form 5500	$ 22,569,247

The following is a reconciliation of the distributions paid to participants per the financial statements to the Form 5500:

	December 31 2018
Benefits paid and corrective distributions per the financial statements	$ 3,430,596
Plus: current year deemed distributions	722
Distributions per the Form 5500	$ 3,431,318

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

10. RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

11. SUBSEQUENT EVENTS

For the year ended December 31, 2018, the Company has evaluated subsequent events for potential recognition and disclosure through October 7, 2019, the date of financial statement issuance. No events requiring disclosure were noted.
