TALON AIR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

Note 1 – Description of Plan

The following description of the Talon Air 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Talon Air LLC (formerly Talon Air, Inc.) (the "Company"), who have completed 250 hours of service in a 3-month period, or 1,000 hours of service in an eligibility computation period, as defined, if the service requirement is not met in the first 3 consecutive months. There is no minimum age requirement. Ineligible employees are defined as those that are covered by a collective bargaining agreement, leased employees, and non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

During 2018, the Company changed its name from Talon Air, Inc. to Talon Air LLC. Accordingly, the Plan was amended on October 29, 2018 with an effective date of February 6, 2018, to reflect the change in the Plan sponsor's name.

Contributions

Each year, participants may contribute up to 100% of their pre-tax annual compensation, as defined in the Plan. Under the Roth provision of the Plan, participants may also designate all or a portion of their elective deferrals as after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may provide a matching contribution based on a discretionary percentage of base compensation that a participant contributes to the Plan. For the year ended December 31, 2018, the Company elected to match 50% of participants' contributions to the Plan, up to 6% of base compensation. Company matching contributions are invested in a portfolio of investments as directed by participants. For the year ended December 31, 2018, the Company made matching contributions totaling $170,036. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service. Participants shall also become 100% vested upon attainment of normal retirement age, as defined, while an employee of the Company.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account. The note interest rate, determined quarterly, is set at 1% above the prime rate, as defined. Principal and interest is paid ratably through bi-weekly payroll deductions.

TALON AIR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

Note 1 – Description of Plan (continued)

Payment of Benefits

On termination of service due to death, disability, retirement or for other reasons, a participant may elect to receive a lump-sum amount equal to the value in his or her account. In-service distributions are permitted for participants who remain employed after normal retirement age or for a participant who is experiencing financial hardship.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $6,520 and $29,981, respectively. Forfeitures which are not used to pay administrative expense of the Plan, will be used to reduce future employer contributions. During 2018, Company contributions were reduced by $33,158 from forfeited nonvested accounts.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments, except for the money market fund, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The money market fund is valued at cost, which approximates fair value. The Plan administrator determines the Plan's valuation policies utilizing information provided by investment advisers and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make note repayments and the Plan administrator deems the note to be in default, the note is treated as a taxable distribution from the participant's account. During 2018, there were two loans in default that were not deemed a distribution until 2019. The Plan administrator recorded an allowance for the balance of these notes, which totaled $62,317 at December 31, 2018. The allowance is reflected on the statements of net assets available for benefits as reduction of notes receivable from participants at December 31, 2018, and included in benefits paid to participants on the statement of changes in net assets available for benefits for the year ended December 31, 2018. No allowance for credit losses has been recorded as of December 31, 2017.

Payment of Benefits

Benefits are recorded when paid.

TALON AIR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

Note 2 – Summary of Significant Accounting Policies (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Subsequent Events

Plan management has evaluated subsequent events through the date of the report, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange traded funds: Valued at the closing price reported on the active market on which the exchange traded funds are traded. Exchange traded funds held by the Plan are open-ended funds that are registered with the SEC. These funds trade throughout the day at fair value, like common stock, and must calculate net asset value daily, like mutual funds.

Money market fund: Valued at cost, which estimates fair value.

TALON AIR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

Note 3 – Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. There were no level 2 or level 3 assets held by the Plan as of December 31, 2018 and 2017:

	Assets at Fair Value (Level 1)	
	2018	2017
Mutual funds	$ 1,040,236	$ 996,800
Exchange traded funds	2,354,793	2,370,756
Money market fund	41,398	38,707
Investments at fair value	$ 3,436,427	$ 3,406,263

Note 4 – Related Party Transactions and Party-in-Interest Transactions

The Plan utilizes various third-party service providers who are considered parties-in-interest. Indirect fees paid by the Plan to these third-party service providers are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. During 2018, the Plan also made direct payments to these third-party service providers totaling $33,400, which are included in administrative expenses. These transactions qualify as exempt party-in-interest transactions. The Company pays directly any other fees related to the Plan's operations.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their Company contributions.

Note 6 – Tax Status

The Plan is structured and follows a prototype non-standardized cash or deferred profit sharing plan, pre-approved by the IRS. The IRS issued an opinion letter dated March 31, 2014, that the prototype plan is acceptable in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Custodian Certification

Certain information disclosed in the accompanying financial statements and supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), related to investments held at December 31, 2018 and 2017, and net depreciation in fair value of investments and dividends, for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by MG Trust Company, the custodian of the Plan.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Transfer of Assets

On November 24, 2017, certain employees of a division of the Company were transferred to Stratosphere Development Corp., an affiliate of the Company. As result of this transfer, the accounts of these employees were transferred out of the Plan to the Jadam Equities 401(k) Plan (an existing plan administered by Jadam Equities, LLC and covering employees of Stratosphere Development Corp.). During 2018, Plan assets totaling $181,208 were transferred to the Jadam Equities 401(k) Plan.

Note 10 – Delinquent Participant Contributions

During 2018, the Company failed to remit to the Plan's custodian certain employee contributions totaling $1,038, within the period prescribed by the Department of Labor's Rules and Regulations. Delays in remitting contributions to the custodian were due to administrative errors. The Company self-corrected this error and made contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delays during 2019.

Note 11 – Self Correction Program and Subsequent Event

During 2019, the Company self-corrected certain operational errors related to 2018 employee elective deferrals under the IRS's Employee Plans Compliance Resolution System using the Self-Correction Program and making the required qualified non-elective contributions (QNEC) and related lost earnings totaling $3,549 to the affected participants' accounts.
