Kittrich Corporation 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
Year Ended December 31, 2018 and 2017

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Kittrich Corporation ("Company") 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended, effective November 30, 2009, is a defined contribution plan covering all employees of the Company who have one year of service, are credited with at least 1,000 hours of service per year and are eighteen years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For 2018, participant's contributions can't exceed the lessor of 100% of their salary or $18,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in excess of the maximum contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. A 401(k) contribution can either be a Pre-Tax 401(k) contribution or Post-Tax Roth 401(k) contribution. Participants select the investment of their contributions into various investment options offered by the Plan. The Plan currently offers over twenty five fund options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution, if any. Profit sharing allocations, if any, are allocated in the ratio of a participant's compensation to the total compensation of all participants eligible to receive an allocation for the allocation period. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. The following schedule describes the participant's level of vesting after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
2	33%
3	66%
4	100%

NOTE 1 - DESCRIPTION OF PLAN - Continued

However, the vesting schedule in the Plan was amended. If an employee had completed three years of service as of the expiration of the election period, the employee could elect to have their vested percentage determined under the pre-amendment vesting schedule. The election period would commence on the adoption date of the amendment and would end 60 days after the later of (a) the adoption date of the amendment, (b) the effective date of the amendment, or (c) the date the employee received written notice of the amendment from the Employer or Administrator. The pre-amendment vesting schedule is as follows:

Number of Years of Completed Service	Percentage of Vested Interest
2	20%
3	40%
4	60%
5	80%
6	100%

Distribution of Benefits

Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested account balance in installments, partial withdrawals, or lump-sum distribution. Participants may also take a financial hardship withdrawal under certain circumstances.

Forfeited Accounts

Upon termination of employment, participants forfeit their non-vested balances and these are used to reduce future employer contributions. Forfeitures are used to pay plan expenses or reduce Company contributions. During 2018, there were $804 in forfeited amounts added to the unapplied forfeiture account. Unallocated forfeitures approximated $8,085 and $9,023 as of December 31, 2018 and 2017, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.25% to 6.00% which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through regular bi-weekly payroll deductions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted by the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan documents.

Net Appreciation in Fair Value of Investments

Realized gains and losses on investments are based on the market value of the asset at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day the investments are sold during the year. Unrealized gains and losses on investments are based on the market value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the realized fair value at the end of the year. Net realized and unrealized appreciation in fair value of investments is reflected in the accompanying Statement of Changes in Net Assets Available for Plan Benefits.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent and independent public accountants, may be paid by the Plan. The Company, at its discretion, decided to pay for certain of these administrative expenses on behalf of the Plan. Most investment options have management fees, which reduce the overall return on assets. The net realized and unrealized appreciation in fair value of investments is reflected net of these fees.

Subsequent Events

For the year-ended December 31, 2018, the Plan has evaluated subsequent events for potential recognition and disclosure October 2, 2019, the date of financial statement issue.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 4 – PLAN TERMINATION

The Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 5 – FAIR VALUE MEASUREMENTS - continued

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the evaluation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- Mutual Funds: Values at the net asset value (NAV) of shares held by the plan at year-end.

- Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

At December 31, 2018	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 2,500,160	$ -	$ -	$ 2,500,160
Total Assets at Fair Value	$ 2,500,160	$ -	$ -	$ 2,500,160

NOTE 5 – FAIR VALUE MEASUREMENTS - continued

At December 31, 2017	Level 1	Level 2	Level 3	Total
Mutual Funds				
Money Market	$ 465,361	$ -	$ -	$ 465,361
Mutual Funds	1,978,769	-	-	1,978,769
Total Assets at Fair Value	$ 2,444,130	$ -	$ -	$ 2,444,130

NOTE 6 – TAX EXEMPT STATUS

The Internal Revenue Service has determined and informed the Company by a letter November 26, 2001, that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since then, the Plan Administrator believes that the Plan has been operated in accordance with the applicable provisions of the Internal Revenue Code (IRC). The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plan Compliance Resolution System.

Accordingly, the Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the IRC and, accordingly, are exempt from income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions.

NOTE 7 – INFORMATION PREPARED AND CERTIFIED BY PLAN TRUSTEE

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, and net losses in fair value of investments, interest and dividends for the year ending December 31, 2018, was obtained or derived from information supplied to the Plan Administrator and certified complete and accurate by Mid Atlantic Trust Company.

During the year ended December 31, 2018, the Company adequately segregated all participant contributions and there were no delinquent remittals of participant contributions to the Custodian.

Kittrich Corporation 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
Year Ended December 31, 2018 and 2017

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Kittrich Corporation ("Company") 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended, effective November 30, 2009, is a defined contribution plan covering all employees of the Company who have one year of service, are credited with at least 1,000 hours of service per year and are eighteen years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For 2018, participant's contributions can't exceed the lessor of 100% of their salary or $18,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in excess of the maximum contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. A 401(k) contribution can either be a Pre-Tax 401(k) contribution or Post-Tax Roth 401(k) contribution. Participants select the investment of their contributions into various investment options offered by the Plan. The Plan currently offers over twenty five fund options for participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution, if any. Profit sharing allocations, if any, are allocated in the ratio of a participant's compensation to the total compensation of all participants eligible to receive an allocation for the allocation period. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. The following schedule describes the participant's level of vesting after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
2	33%
3	66%
4	100%

NOTE 1 - DESCRIPTION OF PLAN - Continued

However, the vesting schedule in the Plan was amended. If an employee had completed three years of service as of the expiration of the election period, the employee could elect to have their vested percentage determined under the pre-amendment vesting schedule. The election period would commence on the adoption date of the amendment and would end 60 days after the later of (a) the adoption date of the amendment, (b) the effective date of the amendment, or (c) the date the employee received written notice of the amendment from the Employer or Administrator. The pre-amendment vesting schedule is as follows:

Number of Years of Completed Service	Percentage of Vested Interest
2	20%
3	40%
4	60%
5	80%
6	100%

Distribution of Benefits

Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested account balance in installments, partial withdrawals, or lump-sum distribution. Participants may also take a financial hardship withdrawal under certain circumstances.

Forfeited Accounts

Upon termination of employment, participants forfeit their non-vested balances and these are used to reduce future employer contributions. Forfeitures are used to pay plan expenses or reduce Company contributions. During 2018, there were $804 in forfeited amounts added to the unapplied forfeiture account. Unallocated forfeitures approximated $8,085 and $9,023 as of December 31, 2018 and 2017, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.25% to 6.00% which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through regular bi-weekly payroll deductions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted by the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan documents.

Net Appreciation in Fair Value of Investments

Realized gains and losses on investments are based on the market value of the asset at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day the investments are sold during the year. Unrealized gains and losses on investments are based on the market value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the realized fair value at the end of the year. Net realized and unrealized appreciation in fair value of investments is reflected in the accompanying Statement of Changes in Net Assets Available for Plan Benefits.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent and independent public accountants, may be paid by the Plan. The Company, at its discretion, decided to pay for certain of these administrative expenses on behalf of the Plan. Most investment options have management fees, which reduce the overall return on assets. The net realized and unrealized appreciation in fair value of investments is reflected net of these fees.

Subsequent Events

For the year-ended December 31, 2018, the Plan has evaluated subsequent events for potential recognition and disclosure October 2, 2019, the date of financial statement issue.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 4 – PLAN TERMINATION

The Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 5 – FAIR VALUE MEASUREMENTS - continued

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the evaluation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- Mutual Funds: Values at the net asset value (NAV) of shares held by the plan at year-end.

- Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

At December 31, 2018	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 2,500,160	$ -	$ -	$ 2,500,160
Total Assets at Fair Value	$ 2,500,160	$ -	$ -	$ 2,500,160

NOTE 5 – FAIR VALUE MEASUREMENTS - continued

At December 31, 2017	Level 1	Level 2	Level 3	Total
Mutual Funds				
Money Market	$ 465,361	$ -	$ -	$ 465,361
Mutual Funds	1,978,769	-	-	1,978,769
Total Assets at Fair Value	$ 2,444,130	$ -	$ -	$ 2,444,130

NOTE 6 – TAX EXEMPT STATUS

The Internal Revenue Service has determined and informed the Company by a letter November 26, 2001, that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since then, the Plan Administrator believes that the Plan has been operated in accordance with the applicable provisions of the Internal Revenue Code (IRC). The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plan Compliance Resolution System.

Accordingly, the Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the IRC and, accordingly, are exempt from income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions.

NOTE 7 – INFORMATION PREPARED AND CERTIFIED BY PLAN TRUSTEE

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, and net losses in fair value of investments, interest and dividends for the year ending December 31, 2018, was obtained or derived from information supplied to the Plan Administrator and certified complete and accurate by Mid Atlantic Trust Company.

During the year ended December 31, 2018, the Company adequately segregated all participant contributions and there were no delinquent remittals of participant contributions to the Custodian.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.25% to 6.00% which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through regular bi-weekly payroll deductions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted by the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan documents.

Net Appreciation in Fair Value of Investments

Realized gains and losses on investments are based on the market value of the asset at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day the investments are sold during the year. Unrealized gains and losses on investments are based on the market value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the realized fair value at the end of the year. Net realized and unrealized appreciation in fair value of investments is reflected in the accompanying Statement of Changes in Net Assets Available for Plan Benefits.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent and independent public accountants, may be paid by the Plan. The Company, at its discretion, decided to pay for certain of these administrative expenses on behalf of the Plan. Most investment options have management fees, which reduce the overall return on assets. The net realized and unrealized appreciation in fair value of investments is reflected net of these fees.

Subsequent Events

For the year-ended December 31, 2018, the Plan has evaluated subsequent events for potential recognition and disclosure October 2, 2019, the date of financial statement issue.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 4 – PLAN TERMINATION

The Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 5 – FAIR VALUE MEASUREMENTS - continued

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the evaluation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- Mutual Funds: Values at the net asset value (NAV) of shares held by the plan at year-end.

- Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

At December 31, 2018	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 2,500,160	$ -	$ -	$ 2,500,160
Total Assets at Fair Value	$ 2,500,160	$ -	$ -	$ 2,500,160

NOTE 6 – TAX EXEMPT STATUS

The Internal Revenue Service has determined and informed the Company by a letter November 26, 2001, that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since then, the Plan Administrator believes that the Plan has been operated in accordance with the applicable provisions of the Internal Revenue Code (IRC). The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plan Compliance Resolution System.

Accordingly, the Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the IRC and, accordingly, are exempt from income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions.
