NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The SSL 401(k) Plan (the Plan) is a defined contribution plan that was established in 2012 by Space Systems/ Loral, Inc. (the Company), designed to provide eligible employees with tax-advantaged long-term savings for retirement. It was established as a qualified plan under Internal Revenue Code (the Code) Section 401(a). It is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Regular full-time and regular part-time employees are eligible to participate in the Plan as of their date of hire. A complete description of the Plan's provisions is contained in the Plan document.

Administration – The Company had appointed the 401(k) Plan Committee of Space Systems/ Loral, LLC (the 401(k) Plan Committee) to manage the operation and administration of the Plan. During March 2018, Maxar Technologies Ltd. (Maxar or Parent Company) formed the Maxar 401(k) Committee (the Committee) which assumed the responsibility to manage the operation and administration of the Plan from the 401(k) Plan Committee. The Company has contracted with Fidelity Management Trust Company (Fidelity) to act as the trustee and custodian, and an affiliate of Fidelity to process and maintain the records of participant data.

Substantially all expenses incurred for administering the Plan are paid by the Plan. During 2018 and 2017, revenue credits of approximately $524,000 and $429,000, respectively, were recorded against administrative expenses.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with GAAP.

Forfeited accounts – Forfeited nonvested accounts may be used to pay Plan administrative expenses or reduce future employer contributions, and totaled approximately $89,000 and $107,000 at December 31, 2018 and 2017, respectively. Approximately $603,000 and $542,000 was used to reduce the employer's contribution for the years ended December 31, 2018 and 2017, respectively.

Investment valuation and income recognition – The Plan's investments are reported at fair value. The Plan's trustee, Fidelity, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Notes receivable from participants – Notes receivable from participants (notes receivable) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions upon the occurrence of a distributable event based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Payment of benefits – Benefits are recorded when paid.

Income taxes – The Plan has been amended since receiving its latest favorable determination letter dated October 30, 2014. The plan administrator believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal and state income and franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent events – The Plan has evaluated subsequent events through October 11, 2019, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds and money market fund: Valued at the daily closing price as reported by the fund. Mutual and money market funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual and money market funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Units held in common/collective trusts (CCT) are valued using the NAV practical expedient of the CCT as reported by the CCT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CCT, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a CCT is calculated based on a compilation of primarily observable market information. The CCTs have a daily redemption frequency and daily redemption notice period.

Brokeragelink accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

Pooled separate account: Units held in the pooled separate account (PSA) are valued using the NAV per share practical expedient of the PSA as reported by the account managers. The NAV per share practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The NAV per share practical expedient of a PSA is calculated based on a compilation of primarily observable market information. Investments are always redeemable by the participants; however, were the Plan to initiate a full redemption, there is a 90-day waiting period.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	2018			
	Level 1	**Level 2**	**Level 3**	**Total**

NOTE 3 – RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by an affiliate of Fidelity, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 – PARTICIPATION AND BENEFITS

Participant contributions – The Plan has two pre-tax features: tax-efficient savings (TES) and, for those participants meeting a certain age requirement, a Catch-Up Contribution. The Plan has three after-tax features: Regular Savings contributions, qualified Roth contributions, and, for those participants meeting a certain age requirement, a Roth Catch-Up Contribution. Under the Plan, and subject to dollar limits imposed by the Code, participants may generally elect a reduction in eligible compensation up to 40% with a corresponding TES and/or Catch-Up Contribution in the same amount made to the Plan by the employer on their behalf. Such contributions are excluded from the participant's taxable income. Subject to limits imposed by the Code, participants may also contribute up to 40% in a Roth 401(k) feature and/or up to 10% of their base salaries to the Regular Savings feature of the Plan on an after-tax basis. The Plan also permits the automatic enrollment of eligible employees in the Plan with a contribution of 6% of eligible compensation, unless the employee affirmatively elects otherwise.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions – The Company is allowed to make contributions to the Plan in the form of matching contributions, as defined in the Plan. In 2018 and 2017, the Company matched at a rate of $0.6667 for each dollar of TES, Roth 401(k), Regular Savings contributions, and catch-up contributions, up to 6% of a participant's eligible compensation. The matching contributions are deposited in the appropriate investment funds in accordance with the participant's direction but if no election is made, the contributions are allocated to the age-appropriate Fidelity Freedom Income Funds.

Vesting – Participants are immediately vested in their contributions. Participants are fully vested in the employer's matching contributions after three years of credited service.

Participant accounts – Each participant's account is credited with the participant's contribution, Plan earnings or losses, and an allocation of the Company's contribution. Allocation of the Company's matching contribution is based on participant contributions and eligible compensation, as defined in the Plan.

Payment of benefits – Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. Vested former participants who have an account balance in excess of $1,000 may leave their account balance in the Plan generally until age 70½. Vested former participants with an account balance of $1,000 or less will receive a mandatory immediate payout of their entire Plan benefit.

Notes receivable from participants – The Plan allows active participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the participant's vested balance. Such notes receivable bear interest at the prime rate plus 1% as defined in the Plan document, and must be repaid to the Plan within a five-year period, unless the proceeds are used for the purchase of a principal residence in which case the maximum repayment period may have a term up to ten years. The specific terms and conditions of such notes receivable are established by the Plan document. Outstanding notes receivable at December 31, 2018, carry interest rates ranging from 3.25% to 9.25%.

NOTE 5 – CERTIFIED INFORMATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017.

- Net appreciation (depreciation) in fair value of investments, dividends and interest, and interest income from notes receivable reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017.

- Investments reflected on the schedule of assets (held at end of year).

NOTE 6 – MERGED PLAN ASSETS

As a result of the Company being acquired by Maxar in March 2018, effective January 1, 2019, the Plan was renamed Maxar 401(k) Profit Sharing Plan.

In conjunction with this renaming of the Plan, two related employers, MDA Systems LLC and DigitalGlobe, Inc. merged in the assets of their respective Plans; the MDA 401(k) Plan (MDA Plan) and the DigitalGlobal, Inc. 401(k) Profit Sharing Plan (DigitalGlobal Plan).

As a result of this merger, as of December 31, 2018 approximately $56,084,000 and $206,075,000 of MDA Plan assets and DigitalGlobal Plan assets, respectively, were accrued as merger assets in transit.

NOTE 7 – PLAN TERMINATION OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.
