(1) Plan Description

Description of the Plan – Effective August 3, 2017, the name of the Raleigh Division of ATC/VANCOM Management Services Limited Partnership ATU Local Union 1328 Retirement Plan was changed to GoRaleigh Pension Plan ("the Plan). The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a tax-qualified plan established pursuant to Section 401(a) of the Internal Revenue Code of 1986 and is sponsored by GoRaleigh (the "Partnership"). The Plan began December 1, 1972 and is a defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees of the Partnership, classified as bus operators and maintenance employees, must complete a 120 working day probationary period before joining the Plan.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator and plan actuary to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(b) Fair Value Measurements

For determining fair value measurements, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Management follows an established framework for measuring fair value. That framework provides a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are described below:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: one or more significant inputs or significant value drivers are unobservable or based on market assumptions.

(2) Summary of Significant Accounting Policies, Continued

(c) Investments

Investments are stated at fair value as provided by the Plan's trustee (see note 5). Investments in mutual funds under the group annuity separate account with Standard Insurance Company ("Standard") are composed of assets that are either priced by a pricing service or directly by the relevant mutual fund company trading partner, with the group annuity separate account then subject to unit value determination by Standard.

Securities transactions are recognized on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(d) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2019 and 2018 were (a) market value method, (b) life expectancy of participants (RP-2014 (Total Data Set), with Generational Projection Using Scale MP-2018 for 2018, and RP-2014 (Total Data Set), with Generational Projection Using Scale MP-2017 for 2017), (c) retirement age assumptions (at age 62 with 10 years of vesting service or age 65 or age on actuarial valuation date, if greater), (d) discount rate (6.0% for 2018 and 2017), (e) funding target interest rates based on a 24-month average of the current yields on high quality corporate bonds, ranging from 3.74% to 6.11% for 2018 and 3.92% to 6.29% for 2017, and (f) employee contributions of 6.0% of pay. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(e) Benefits

Benefit payments to participants are recorded as an expense when paid.

(f) Administrative and Investment Costs

Administrative expenses, such as insurance premiums and audit costs, are paid by the Plan. Investment expenses are included in net investment return.

(3) Contributions

The cost of the Plan is shared by the Partnership and the participants. The contribution rates for the Partnership and the participants are defined in the Labor Agreement by and between the Partnership and the Plan and satisfy the minimum funding requirements of ERISA. Effective January 1, 2017 through December 31, 2018, the Partnership contributed 6.0% of each participant's gross wages to the Plan, and each participant contributed 6.0% of his/her gross wages to the Plan.

(4) Vesting and Benefits

Participants are immediately vested in 100% of employee contributions and earnings thereon. Participants' benefits with regard to Partnership contributions and earnings thereon are not vested at all until the participant has completed five years of service, at which time the participant becomes 100% vested.

Upon separation from service with the Partnership because of termination after five years of service, the participant is eligible to receive 100% of the monthly retirement benefit, with payments beginning on the participant's normal retirement date. A participant's monthly benefit is defined in the Plan agreement.

A participant who terminates employment due to total and permanent disability will be paid his accrued benefit beginning on the month after termination due to total and permanent disability. If a participant dies prior to retiring, the participant's spouse will receive a survivor benefit equal to one-half the benefit that the participant otherwise would have received upon leaving employment on his earliest retirement date.

(5) Investments

The Plan's investments and cash and cash equivalents are nonparticipant directed, are held in a trust, and are managed by the trustee, Standard Insurance Company ("Standard"). All information in the financial statements, related notes, and supplemental schedules relating to investments and investment transactions was obtained from data that has been prepared and certified as complete and accurate by the trustee.

The following table presents the fair values of investments:

	2018	2017
Group annuity separate account:		
Standard Insurance Company Stable Asset Fund II	$ 4,372,774	4,179,997
Standard Insurance Company Separate Account A	7,730,109	7,985,451
	$ 12,102,883	12,165,448

During 2018 and 2017, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in fair value by ($452,161) and appreciated in fair value by $1,005,253, respectively. The Plan also recognized interest income of $69,799 and $52,425 during 2018 and 2017, respectively.

(5) Investments, Continued

Standard's Stable Asset Fund II is an interest-bearing account with the goal of conservation of principal. Standard invests these deposits as part of its general assets, investing in high-quality bonds and insurance contracts, and return is determined by the declared interest rate, not by the investment performance of Standard's general assets. Standard determines contract value, and has represented that contract value (or net asset value) approximates fair value. Certain events that may limit the ability of the Plan to transact at contract value with Standard. Standard may terminate the contract with 30 days advance written notice for reasonable cause. Upon these events or upon such termination, a market value adjustment may apply. The effective rate of return for 2018 and 2017 was 1.62% and 1.32%, respectively. Redemptions from the fund may be made each business day, subject to certain restrictions by the Fund. There are no unfunded commitments as of December 31, 2018.

Standard's Separate Account A is composed of assets invested in various mutual funds with various investment strategies. Redemptions may be made each business day and there are no unfunded commitments as of December 31, 2018. The investment strategies of the underlying mutual funds, along with the relative percentage of Separate Account A as of December 31, 2018, are as follows:

Dodge & Cox Income (33%) seeks a high and stable rate of current income, consistent with long-term preservation of capital, and normally invests in a diversified portfolio of high-quality bonds and other debt securities.

Vanguard Wellington Admiral (19%) seeks to provide long-term capital appreciation and moderate current income, and invests 60-70% of its assets in common stocks of established large companies, and 30-40% of its assets mainly in fixed income securities.

Dodge & Cox International Stock (8%) seeks long-term growth of principal and income, and invests at least 80% of its assets in equity securities of non-U.S. companies.

MFS Mid Cap Value (6%) seeks capital appreciation, investing at least 80% of the fund's net assets in issuers with medium market capitalizations.

Carillon Eagle Mid Cap Growth R6 (6%) seeks long-term capital appreciation, investing at least 80% of its net assets in the equity securities of mid-capitalization companies.

Vanguard Morgan Growth Admiral (6%) seeks long-term capital appreciation, investing mainly in the stocks of mid-and large-capitalization U.S. companies whose revenues and/or earnings are expected to grow faster than those of the average company in the market.

(5) Investments Continued

Fidelity 500 Index (6%) seeks to provide investment results that correspond to the total return performance of common stock publicly traded in the United States, investing in at least 80% of assets in common stocks included in the S&P 500 Index.

T. Rowe Price New Horizons (6%) seeks long-term capital growth, investing primarily in a diversified group of small, emerging growth companies, preferably early in their corporate life cycle before the companies become widely recognized by the investment community.

DFA US Targeted Value I (5%) seeks long-term capital appreciation, and the fund purchases a broad and diverse group of the readily marketable securities of U.S. small and midcap companies that it determines to be "value stocks".

American Beacon Large Cap Value I (5%) seeks long-term capital appreciation and current income, investing at least 80% of the fund's net assets in equity securities of large market capitalization U.S. Companies.

(6) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits as follows:

December 31, 2018	Fair Value	Fair Value Measurements at Reporting Date Using: Level 2
Assets in fair value hierarchy -		
Separate Account A	$ 7,730,109	7,730,109
Investments measured at net asset value -		
Stable Asset Fund II	4,372,774	
	$ 12,102,883	

(6) Fair Value Measurements, Continued

December 31, 2017:	Fair Value	Fair Value Measurements at Reporting Date Using: Level 2
Assets in fair value hierarchy -		
Separate Account A	$ 7,985,451	7,985,451
Investments measured at net asset value -		
Stable Asset Fund II	4,179,997	
	$ 12,165,448	

Stable Asset Fund II account balances are considered to be fully benefit-responsive investment contracts because they are fully liquid and immediately cashable once a participant terminates employment with the employer. As of December 31, 2018 and 2017, fully benefit-responsive investment contracts totaled $4,372,774 and $4,179,997, respectively. The Plan custodian has represented that contract value approximates fair value for Stable Asset Fund II.

(7) Federal Income Taxes

The Plan obtained its latest determination letter dated December 13, 2012, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code ("IRC").

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. No provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

(8) Related Party Transactions

The Plan has investments in the group annuity separate account of its trustee. These funds paid fees to the trustee for investment advisory and trustee services totaling $20,525 in 2018 and $21,894 in 2017.

As of December 31, 2018 and 2017, the Plan had a contribution receivable from the Partnership of $42,390 and $130,076, respectively. Both amounts were paid to the Plan in January of the following year.

(9) Plan Termination and Insurance

Although the Partnership expects the Plan to be continued indefinitely, it reserves the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of termination, all employer contributions will cease, no additional employees will enter the Plan, and each participant will be fully vested and nonforfeitable in his accrued benefit to the extent funded after reduction for expenses of administration and liquidation of the Plan. Additionally, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"), an agency of the United States government. Generally, the PBGC guarantees vested benefits at the level in effect on the date of termination of the Plan. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

(10) Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2018	2017
Net assets available for benefits per Form 5500	$ 12,145,273	12,295,524
Operating payables	(11,294)	(14,420)
Net assets available for plan benefits per the financial statements	$ 12,133,979	12,281,104

(10) Reconciliation to Form 5500, Continued

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500:

		2018	2017
Net (decrease) increase in net assets available for benefits per Form 5500	$	(150,251)	1,167,917
Operating expenses accrued in the prior year		14,420	8,805
Operating expenses accrued in the current year		(11,294)	(14,420)
Net (decrease) increase in net assets available for benefits per the financial statements	$	(147,125)	1,162,302

Individual differences within captions on Form 5500 and the accompanying financial statements exist, however, the classifications have no impact on total net assets available for benefits or the change in net assets available for benefits except as shown above.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

(12) Liquidity

As of December 31, 2018, the actuarial present value of accumulated plan benefits exceeds the Plan's net assets available for benefits by approximately $400,000, due primarily to negative investment returns during 2018. Participant and Partnership contributions will remain at 6.0% of compensation through at least June 30, 2020. Management believes the Plan has sufficient liquidity to currently meet its obligations.

(13) Non-Exempt Party-in-Interest Transactions

For 2018, the Company did not remit certain participant contributions to the custodian in a timely manner based on when the participant contributions were withheld from wages as required under DOL Regulation §2510.3-102. Amounts withheld from wages totaling $43,763 were remitted to the Plan during 2018. Other amounts that should have been withheld in 2018 but were not, totaling $2,052, will be corrected in 2019.

(14) Subsequent Events

The date to which events occurring after December 31, 2018, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustment to the financial statements or disclosure is October 11, 2019, the date the financial statements were available to be issued.
