Note 1. Plan Description

The following description of the Pacific Harbor Line, Inc. Union 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees of Pacific Harbor Line, Inc. (the Company). Employees who have attained age 18, completed 1,000 hours of service within seven consecutive months, and are part of a collectively bargained agreement, provided they are not excluded as defined in the plan document, become eligible for the Plan. If the employee has not met the 1,000 hours of service requirement by their first anniversary date, they must meet the hours requirement within the plan year. Upon meeting eligibility requirements an employee will be automatically enrolled in the Plan and are eligible to receive Company profit sharing contributions. Participants must enter into a salary deferral agreement to either make or change their contribution percentage. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute pretax annual compensation to the Plan, as defined by the Plan, up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants may also contribute amounts representing rollovers from other qualified plans. In addition, participants age 50 or older may make catch-up contributions to the Plan.

The Company makes profit sharing contributions to the Plan equal to 1 percent of each participant's eligible compensation. Profit sharing contributions are made each pay period. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and Company's profit sharing contributions, and allocations of plan earnings, as applicable, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct investment contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance in the previous 12-month period or 50 percent of their vested account balance. Participants may only have one note outstanding at a time. Note terms range from one to five years, or up to 15 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan Administrator. As of December 31, 2018, interest rates range from 4.25 percent to 6.25 percent. Principal and interest are paid ratably through payroll deductions.

Vesting: Participants are immediately vested in their contributions, as well as Company contributions plus actual earnings thereon.

Payment of benefits: Upon termination of service, disability, retirement, or death, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account or in the form of installments over a selected period not to exceed assumed life expectancy. Distributions may also be made from the Plan in cases of financial hardship.

Note 1. Plan Description (Continued)

Transfers: Along with the Plan, Anacostia Rail Holdings Co. (the Parent) also sponsors various other 401(k) plans. If employees change their status during the year, their account balances are transferred into or from the corresponding plans.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of plan assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies using information provided by the investment custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, net of an allowance for credit losses. The allowance for credit losses was $2,609 as of December 31, 2018. There was no allowance for credit losses at December 31, 2017. Loans in default are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Note 3. Information Certified or Provided by Great-West Trust Company, LLC, the Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets and income (loss):

	2018	2017
Shares of registered investment companies	$ 2,742,486	$ 2,976,226
Shares of common/collective trust	747,319	748,302
Notes receivable from participants	476,826	366,647
Net depreciation in fair value of investments	(401,526)	
Interest and dividends	255,015	
Interest income on notes receivable from participants	22,259	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1 input).

Shares of common/collective trust: Valued based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 2,742,486	$ -	$ -	$ 2,742,486
Total assets in the fair value hierarchy	2,742,486	-	-	2,742,486
Investments measured at NAV (a)				747,319
Investments at fair value	$ 2,742,486	$ -	$ -	$ 3,489,805

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 2,976,226	$ -	$ -	$ 2,976,226
Total assets in the fair value hierarchy	2,976,226	-	-	2,976,226
Investments measured at NAV (a)				748,302
Investments at fair value	$ 2,976,226	$ -	$ -	$ 3,724,528

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2018 and 2017:

Investment	2018 Fair Value	2017 Fair Value	2018 Unfunded Commitment	2017 Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Shares of common/ collective trust	$ 747,319	$ 748,302	$ -	$ -	Immediate	None

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan Administrator evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no transfers in or out of Level 3.

Note 5. Related-Party and Parties-In-Interest Transactions

Certain plan investments are shares of registered investment companies managed by the trustee. Great-West Trust Company, LLC is the trustee as defined by the Plan. There were $8,257 of fees paid by the Plan for recordkeeping services during 2018.

Certain employees of the Company provide trustee and administrative services to the Plan. These employees do not receive any compensation from the Plan for their services. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Tax Status

Effective November 26, 2015, the Plan adopted a non-standardized form of a prototype plan sponsored by EMJAY Corporation, an affiliate of Great-West Trust Company, LLC. The prototype plan has received an opinion letter from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the prototype plan received the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2018 and 2017:

Investments - participant loans	451,156	366,647
Net assets available for benefits per Form 5500	$ 3,940,961	$ 4,091,175

The following is a reconciliation of changes in net assets available for benefits prior to transfers per the financial statements to Form 5500 for the year ended December 31, 2018:

During 2018, amounts of $31,937 and $49,135 were transferred into and out of the Plan from and to the Anacostia Rail Holdings Company 401(k) Plan, respectively. These amounts represent the account balances and outstanding notes receivable balances for participants who transferred between union and non-union positions.

Note 11. Subsequent Events

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 11, 2019, the date the financial statements were available to be issued.
